On October 18, 1960, the San Francisco Office directed a letter to the San Francisco Branch Headquarters of the Socialist Workers Party (SWP) inviting attendance at an address to be given by Daniel Rubin, National Youth Secretary of the Communist Party, USA (CPUSA), on October 19, 1960, at the Peter Wright School of Dance in San Francisco.

Trotskyist SWP members attended meeting, as did a reporter. Trotskyists caused considerable disruption and exposed Rubin as being a communist, which he was attempting to conceal by claiming to be merely the editor of "New Horizons." The SWP Trotskyists identified "New Horizons" as a communist paper being published by the Communist Party attempting to influence youth.

On October 20, 1969, the Jackson Office prepared a fictitious signature letter exposing the Nation of Islam (NOI) as an organization bleeding its members of money and preaching segregation of races. This letter was sent to the "Jackson Daily News" for use in the "Jack Sunn" column. Immediately after mailing the letter, Jackson Office Agents contacted Editor Jimmy Ward to advise him that Agents had learned a relative of a Muslim had sent some type of letter to the newspaper critical of the NOI, and Ward was requested to contact the Jackson Office when the letter was received so Agents could prepare an appropriate response to be published with the letter in Ward's regular column which aired complaints and gave advice. There is no indication Ward was aware that the fictitious letter originated with the Jackson Office.

On receipt of the letter, Ward notified the Jackson Office and the response was printed in the "Jack Sunn" column, following preparation of same by the Jackson Office. The article was then mailed by the Jackson Office to Elijah Muhammad, "Muhammad Speaks" newspaper, and Muhammad's Mosque Number Two, all in Chicago. Shortly after the article appeared in the "Jackson Daily News," the Jackson NOI group was told by persons responsible for allowing NOI use of a particular building for meetings that the building could no longer be used for weekly NOI meetings. The persons responsible for allowing building use are not identified.

Three informants of the Cleveland Office associated with the W. E. B. Although Ray, according to one informant, was a heavy drug user, we are unable to verify whether he or Lugo actually misappropriated SDS funds.

At subsequent SDS meetings, there were fist fights between the groups, thus disrupting the meetings. Additionally, members of one faction made threatening early morning phone calls to members of the other faction if they showed up at the meetings. When asked what prompted his visit at this time, he stated that Oliver Brooks, Vice President of the University Circle Development Foundation, had requested his resignation effective October 1, 1964. Cooperman added the reason given by Brooks was that it had come to their attention that Cooperman, in the past, had used an assumed name. Cooperman admitted to Brooks that this was so and Brooks then went on to explain that the Foundation, which was attempting to raise a large sum of money, could not risk unfavorable publicity as the result of the activities of employees.

In April, 1962, the Seattle FBI Office contacted Lawrence Timbers, former Chairman of the Anti-Subversive Committee of the Washington State American Legion, to make arrangements for a group of anticommunist citizens to attend a public meeting at Washington Hall, Seattle, on April 27, 1962. Herbert Eugene Aptheker, member of the National Committee, Communist Party, USA (CPUSA), was a scheduled speaker at this meeting.

Mr. Timbers, a commercial printer by trade, obtained a $1.50 ticket in advance of the meeting and printed and distributed several hundred tickets. These were distributed to persons known for their anticommunist sentiments.

As a result the Communist Party did not receive revenue for over 100 persons who attended the meeting. Aptheker completed his speech, but was intermittently heckled and booed by the anticommunist attendees. This group later marched through the aisles singing patriotic songs.

CPUSA leadership was displeased at the way the Seattle CP group organized and handled the affair.

The "East Village Other," a bimonthly newspaper, planned to hire a pilot to "bomb" the Pentagon with flowers on October 20, 1967, the day before the National Mobilization Committee to End the War in Vietnam was to hold its march in Washington, D. C. The New York Office made a number of pretext calls to the "East Village Other" wherein the caller, posing as a pilot for this venture, made inquiries regarding this venture and eventually agreed to fly the plane. It was decided to "bomb" the Pentagon on October 21, 1967. The caller arranged with Allan Katzman of the newspaper to have the Publishing-Editor-In-Chief of the "East Village Other," Walter Bowart, accompany him on this mission. The caller was to meet Bowart at the Eastern Airlines terminal at Dulles Airport at 1:45 p.m. on October 21, 1967, with 100 to 200 pounds of flowers.

Bowart and other individuals apparently connected with the "East Village Other" arrived at Eastern Airlines ticket counter at 1:00 p.m. on October 21, 1967, in a Volkswagen bus loaded with four cartons of flowers. The group waited until approximately 3:30 p.m. and finally left in disgust.

In January, 1967, a confidential source in the Tax Assessor's Office, Brevard County, Florida, was contacted by the FBI to cause an early tax assessment to be scheduled for properties owned by Richland Agency, a Communist Party (CP) investment group. The assessment rate on the local parcel owned by Richland Agency rose a total of $191,560 between 1966 and 1967, which should have resulted in an increased tax of $4,997 from 1966 to 1967. It is unknown whether these taxes exactly amounted to $4,997 or whether they were, in fact, paid.

The San Francisco Federal Bureau of Investigation (FBI) Office learned through an informant that Dolores Berg, common-law wife of Delmar Berg, nominal head of the Stanislaus County, California, Communist Party (CP), had made a complaint to the County Sheriff's Office that Howard Keylor, head of the CP in San Joaquin County, had committed two acts of sexual intercourse with her 16-year-old daughter, Antoinette Marie Romo, in April, 1962. Although the matter had been referred to the Stockton, California, Police Department, no action had been taken as Dolores Berg had not signed a complaint at the Police Department. The daughter did admit to the Sheriff's Office that the intercourse occurred. In May, 1962, the San Francisco FBI Office contacted Sheriff Dan Kelsay, Stanislaus County Sheriff's Office, to have his office attempt to convince Dolores Berg to sign a formal complaint with the Stockton Police Department.

Dolores Berg signed a complaint, as a result of which on May 28, 1962, Howard Keylor was arrested on a charge of Statutory Rape and was incarcerated. The arrest notice was published on May 29, 1962, in the "Stockton Daily Record," a local newspaper.

The victim failed to appear in court on May 29, 1962, and the charge was dismissed for reason of lack of direct evidence. Keylor was released.

As a result of the above action and/or attendant publicity, Howard Keylor was suspended from the Communist Party.

The letter accused the members of the BPP in Philadelphia of stealing clothing, food and drugs collected for poor children. All of the accusations in the letter were true.

Subsequent to the letter being sent to the headquarters of the organization, several chapter members were given disciplinary transfers. Headquarters had to send other members to the chapter in Philadelphia to straighten out the local situation.

The minister of a church in the area gave a sermon denouncing communism and announced that the DCA was opening an office in the neighborhood. Businesses in the area refused to publicize the opening of the DCA. Only nine persons attended the DCA open house.

The Boston Office in October, 1966, furnished to a confidential source public source information relating to the communist plans to open a new bookstore in Boston known as the "Frederick Douglass Books" and the fact that Edward Teixiera, Communist Party (CP) District Organizer, will be directing the activities of the store.

As a result, the October 23, 1966, issue of the "Boston Sunday Herald" contained a photograph showing the store being picketed by members of the American Veterans Committee protesting the use of the name of the 19th Century Negro abolitionist, Frederick Douglass, for the store where Marxist books are being sold.

The "Boston Herald" issue of October 22, 1966, contained an article captioned "Red Bookstore Opens." The article featured a photograph of Edward Teixiera. The article describes Teixiera as a member of the CP by his own admission. Teixiera denied any connection between the store itself and the Party.

As a result of the notoriety achieved regarding the opening of the bookstore, Teixiera was furious and expressed great displeasure. Teixiera subsequently advised a source that the failure of the store to be the success envisioned by the CP of New England can be blamed on the adverse publicity given to the store at its opening.

INFORMATION CONCERNING

MDR-16
CLASSIFIED BY SP2ALM/kP
DECLASSIFY ON: 25X 1,6

On August 13, 1975, a former Special Agent of the FBI advised that he was interviewed by a representative of the Senate Select Committee on Intelligence Operations (SSCIO) concerning allegations by Samuel Adason Jaffe that vindictive actions taken by the FBI have prevented him from obtaining or keeping a job in the news media field. According to the SSCIO representative, Jaffe reported that he had a pleasant relationship with Special Agents of the FBI during the time he had furnished information regarding Soviet intelligence matters; however, he detected a coolness of these FBI Agents towards him after his return from Hong Kong in 1968. He attributed this coolness to his being "fingered" by Soviet defector Oleg V. Penkovskiy, who allegedly reported that he saw Jaffe's name on a piece of paper on the desk of a Soviet intelligence officer. Upon learning this, the FBI felt that Jaffe was a double agent. Since his return from Hong Kong he cannot hold a job and believes the FBI is the cause of his predicament. The former Special Agent of the FBI advised that the SSCIO representative told him he is looking into this matter to determine if Jaffe's statements are true and to determine if some controls could be created so that the FBI could not be vindictive in similar situations. (C)

Oleg V. Penkovskiy is a former Colonel in the Soviet intelligence services (SIS) who had cooperated with the West. He was arrested and tried in the Soviet Union in 1963 and reportedly was executed. (C)

Jaffe, a former correspondent for ABC and CBS television networks, was an informant of our New York Office from 1958 to 1961. During this period he furnished extensive information on his numerous contacts with Soviet nationals whom he met through his assignment as a CBS correspondent at the United Nations, New York, New York. In 1961 he was assigned to Moscow, USSR, as a correspondent for ABC and served there until he was expelled in 1965 following his reporting of information unfavorable to the Soviet Union. He thereafter was transferred to Hong Kong where he served until 1968. According to information from a former SIS officer currently residing in the West, Jaffe in about 1961, while in Moscow, was recruited by the Committee for State Security (KGB). Our investigation regarding this allegation has failed to either substantiate or refute this allegation. Jaffe, however, in 1963 reported to our New York Office that while in Moscow, he was approached in what he considered an attempt at recruitment by the SIS. During interviews with Jaffe he denied any overt acts helpful to the KGB, although he admitted a continuing relationship with several KGB officers.

[No information is contained in the files of the FBI indicating Jaffe was ever reported on by Colonel Penkovskiy.] With regard to his employment difficulties, this matter was the subject of discussion with Jaffe on several occasions after his return from Hong Kong in 1968, when he explained to Special Agents in contact with him that he was experiencing difficulty in finding a job and his concern that his association with the FBI was the reason for this difficulty. On every occasion he was assured that the FBI had not disclosed his confidential relationship with the FBI. Jaffe in 1969 advised that he had learned from a British intelligence service contact in Hong Kong that his recall from that city by ABC was caused by his refusal to cooperate with the Central Intelligence Agency (CIA). He related that he later mentioned this to a CIA contact in Washington who indicated that the British intelligence service representative had no right to relate to Jaffe this information.

The files of the FBI were reviewed to determine if Jaffe's allegations had any foundation in fact and no information was contained therein supporting this allegation. His observations concerning the change of attitude of FBI personnel in dealing with him to one of coolness can be accounted for on the basis of information received from the Soviet intelligence officer alleging his recruitment by the KGB. Our relationship with him thereafter was circumspect and undoubtedly he detected a change in the Agents' attitude.

Whatever employment difficulties may have been encountered by Jaffe did not arise out of any action taken by the FBI.

INTERVIEW OF SPECIAL AGENT EARL M. PETERSEN
BY SSC STAFF MEMBER

Special Agent (SA) Earl M. Petersen was interviewed at the San Diego office of the Federal Bureau of Investigation (FBI) on July 31, 1975, by U. S. Senate Select Committee (SSC) Staff Member Lester Seidel. The interview began at 10:05 A.M. and ended at 11:35 A.M. Assistant Special Agent in Charge (ASAC) Arthur G. Barger was available nearby for consultation. He was not consulted during the interview.

Prior to the interview, SA Petersen had been advised by San Diego FBI officials that FBI Headquarters had waived the employee agreement not to furnish information for the purpose of this interview. He was advised that he had a right to counsel but that the FBI was unable to provide private counsel for him.

SA Petersen was advised that he would not be required to answer questions that might divulge the identity of any FBI source; that would reveal information relative to sensitive methods and techniques; or information which originated with other agencies, including foreign intelligence agencies.

SA Petersen was advised that the interview was to involve only the COINTELPRO as it applied to the Black Panther Party (BPP) (see appendix).

INTERVIEW OF SA EARL M. PETERSEN BY SSC STAFF MEMBER

Staff Member Lester Seidel identified himself to SA Petersen and stated that he was not warning SA Petersen of his rights as the interview was such that such a warning was not required. He advised SA Petersen that he did not have to talk to him and that any information furnished was on a voluntary basis. He stated that information furnished to him would be handled with discretion.

Mr. Seidel: Were you in charge of the COINTELPRO in San Diego from March, 1968 through October, 1968?

SA Petersen: This was possible but the dates the program was assigned to me are not recalled.

Mr. Seidel: What was the name of the squad to which you were assigned at that time?

SA Petersen: The Security Squad.

Mr. Seidel: Who did the squad investigate? Was it groups such as US, Inc. (see appendix) and the BPP?

SA Petersen: Yes, such groups as US, Inc., the BPP, and the Nation of Islam (NOI) (see appendix).

Mr. Seidel: And possibly splinter groups?

SA Petersen: Yes, groups that would form and disband and which could possibly be called splinter groups.

INTERVIEW OF SA EARL M. PETERSEN BY SSC STAFF MEMBER

Mr. Seidel:	How long have you been in the Bureau?
SA Petersen:	Twenty-four years as of June 25, 1975.
Mr. Seidel:	Where have you been assigned?
SA Petersen:	In Boston, Baltimore, New York, Tampa, and San Diego.
Mr. Seidel:	The Bureau has indicated that you were a coordinator of the COINTELPRO in San Diego. As such, what were your duties?
SA Petersen:	The duties for the most part consisted of preparing letters to the Bureau asking for authority to take some specific action in the program; awaiting the reply from the Bureau; and then, if any action was taken, to advise the Bureau of the results of such action. It is noted that many of the requests to take specific action were turned down by the Bureau.
Mr. Seidel:	Were you the focal point of the program?
SA Petersen:	Yes, in the sense that any idea for action to be taken in the program was transmitted to the Bureau for approval by me and if approval was received, it would be related to whomever had suggested the activity. I would then report any results to the Bureau.

U. S. SENATE SELECT COMMITTEE
ON INTELLIGENCE ACTIVITIES (SSC)

INTERVIEW OF SA EARL M. PETERSEN
BY SSC STAFF MEMBER

Mr. Seidel:	Did you get heavy pressure from Bureau officials to take action in this program?
SA Petersen:	Not any more than any other case, and I had a number of other cases assigned to me at the time the COINTELPRO was assigned to me.
Mr. Seidel:	What type of things did you do?
SA Petersen:	I do not recall at this time any specific action taken in the program. I do recall that a Black Panther leader, Walter Wallace, was removed as leader of the party in San Diego. I believe it was suspected that he might have cooperated with the FBI. This could have been accomplished by interviewing him where the interview could be seen by other party members. If the Agents shook his hand, smiled, and acted like he was a friend, it might plant the seed of suspicion in the minds of other BPP members. I do not recall specifically whether this happened but at any rate, Wallace was not trusted and was removed as leader of the party.
Mr. Seidel:	Could such a thing get Wallace killed or injured?

SA Petersen: I do not see how it would because there would be no way anyone could determine whether or not Wallace was, in fact, cooperating with the FBI. He was probably removed by the BPP as a precautionary measure. I cannot recall whether or not Wallace was removed while I was coordinator of the program.

Mr. Seidel: Was COINTELPRO successful?

SA Petersen: I was not too impressed with its success in San Diego while I had it assigned to me because it was a new program and it took some time to get it established and working. Most of the success was probably due to information obtained regarding criminal violations, mostly local in nature, which was furnished to local law enforcement officers, causing the arrest of BPP members. This would have been done whether or not we had a COINTELPRO. It was necessary to prepare a letter to the Bureau asking authority to take action and then wait for a reply authorizing the activity. Many times suggested COINTELPRO activity suggestions would be turned down.

U. S. SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

INTERVIEW OF SA EARL M. PETERSEN BY SSC STAFF MEMBER

Mr. Seidel made available Xerox copies of Bureau letters captioned, "Counter-Intelligence Program; Black Nationalist - Hate Groups," dated August 25, 1967 and March 4, 1968. These were read by SA Petersen, who said he could not specifically recall reading the letters.

Mr. Seidel:	Was contact with the police formal or informal?
SA Petersen:	Contact was personal or telephonic contact and at one time, information furnished to individual officers was confirmed by letter to the Chief of Police. It is not recalled if this was the policy during the time COINTELPRO was assigned to me.
Mr. Seidel:	What happened to SA Roy Burns?
SA Petersen:	He was transferred to the Butte, Montana Field Office.
Mr. Seidel:	Did he do anything wrong? I understand Agents were sometimes transferred to Butte as a disciplinary measure.
SA Petersen:	SA Burns wanted to be transferred to Butte and requested the transfer. The Special Agent in Charge (SAC), Mr. Evans, was transferred there and may have helped SA Burns get moved there.
Mr. Seidel:	How old is Bob Baker:
SA Petersen:	Probably 51 or 52 years old.

Mr. Seidel: Did he retire early?

SA Petersen: No. He was in a position to retire and retired because he wanted to take advantage of a cost of living increase by retiring prior to a certain date, such as June 30.

Mr. Seidel: Were the BPP and US, Inc. both violence oriented groups?

SA Petersen: Very definitely. There was extreme friction between the BPP and US, Inc. at all times.

Mr. Seidel: Do you recall some caricatures used in connection with COINTELPRO?

SA Petersen: Yes.

Mr. Seidel: Who had the program at that time?

SA Petersen: I believe SA Burns had it then.

Mr. Seidel: What were the cartoons?

SA Petersen: I recall seeing them but do not recall any specific cartoon.

Mr. Seidel: Do you think anything done in COINTELPRO could have had a reaction causing someone to kill an individual in the other group?

SA Petersen: Because of the extreme antagonism between the two groups, anything we did would have had about the same effect as a gnat biting an elephant. I do not think COINTELPRO had that kind of impact.

U. S. SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

INTERVIEW OF SA EARL M. PETERSEN BY SSC STAFF MEMBER

Mr. Seidel: Did you ever supervise any technical installation or electronic surveillance of the BPP in San Diego?

SA Petersen: No. I don't recall anything like that being done here.

Mr. Seidel: How would you feel about writing a letter to a wife saying her husband was sleeping with various other women if the husband was a BPP leader?

SA Petersen: I would hesitate to do this because it might break up a family. If the facts were true and this might cause the BPP leader to be less effective, it would probably be a good counterintelligence move.

Mr. Seidel: I am referring to Page 91 of a BPP COINTELPRO summary which indicates that a BPP leader was living with a white girl and an anonymous letter was written to others in the BPP saying that this individual was living with a white girl. Do you recall anything about that?

SA Petersen: I believe that leader could have been Kenneth Denmon in San Diego. I recall that he was living with a white woman and that others in the BPP were made aware of this in some manner. The BPP in San

SA Petersen (continued): Diego was teaching children to hate and kill police officers. If a leader of such a group could be discredited and removed, it would help to keep the group from becoming stronger, as they would have to select a new leader, and he would have to get the group reorganized. Denmon had many additional weaknesses which could be used in a counter-intelligence program.

Mr. Seidel: Do you recall a letter being sent to BPP Headquarters saying a leader of the BPP was cooperating with the police in Los Angeles?

SA Petersen: I do not recall such a letter.

Mr. Seidel: Do you recall some cards being sent to San Diego from Los Angeles saying, "Ron Karenga is impotent"?

SA Petersen: No, I do not recall such cards. Ron Karenga was a leader of US, Inc., not the BPP.

Mr. Seidel: Do you recall that cartoons were to be sent to BPP members to discredit the leaders?

SA Petersen: I recall the cartoons but do not recall whether they were sent to BPP members.

Mr. Seidel: Do you recall an anonymous letter being sent to the Catholic Church to have the priest of the church where the BPP breakfast program was operated removed from his office?

SA Petersen: I do not recall such an anonymous letter; however, I do recall that the priest was transferred by the church.

Mr. Seidel: Knowing that the BPP paper was a paper that taught and advocated violence and had cartoons in it that encouraged the killing of police officers by blacks and was a violence oriented paper, how would you feel about putting a corrosive liquid on the paper to keep it from being distributed?

SA Petersen: I would not do it as I would feel that it was a violation of the law and too drastic. I would not do it personally or personally approve of it.

Mr. Seidel: You have been very helpful and the information you have provided will be used in considering new legislation at some time in the future.

SA Petersen: In these tranquil times, it disturbs me greatly to read in the papers and to hear news broadcasts containing all kinds of allegations against the FBI and the CIA and

I would, however, hate to see such restrictive legislation passed that at some time in the future when we might be faced with violence-prone organizations trying to take control of the government, we would be unable to properly handle our responsibility for the internal security of the United States.
Mr. Seidel:	Thank you for your cooperation.

BLACK PANTHER PARTY
Formerly Known As
Black Panther Party for Self-Defense

The Black Panther Party (BPP), organized in December, 1966, at Oakland, California, by Huey P. Newton and Bobby George Seale, has the publicly-stated purpose of organizing black people to take control of the life, politics and destiny of the black community. The Party, operating the Black Panther Intercommunal News Service, publishes a newspaper called "The Black Panther," which at one time openly advocated the use of guns and guerrilla tactics in a revolutionary program to end the oppression of the black people but since early 1971 has spoken for a survival program pending revolution. BPP national headquarters, aka Black Panther Intercommunal Headquarters, is located in Oakland, California.

While openly advocating direct overthrow of the U. S. Government by force and violence until 1971, leaders have since avoided extreme statements in favor of calling for action within the established order. Newton, in an interview appearing in the May, 1973, issue of "Playboy" magazine, stated the Panthers' chief ambition is to change the American Government by any means necessary but that ultimately such change will be through armed violence.

Despite its claimed dedication to community service, indicators of the BPP's continued attraction to violence persist. Since July, 1974, Newton and other BPP members have been arrested in Oakland, California, for threatening police officers, murder of a 17-year-old female and the pistol whipping of Newton's tailor. Newton failed to appear on these charges and is now a local fugitive. Additionally, one died and three were wounded as a result of a shooting at a BPP-sponsored dance in Oakland, California, in October, 1974.

Also Known As
"US", Incorporated

"US" was chartered by the State of California as a non-profit corporation in September, 1966, with offices at 8211 South Broadway, Los Angeles, California. The corporation alleges that "US" is primarily an Afro-American cultural organization.

During the spring of 1968, however, a source advised that MAULANA RON KARENGA, true name RONIE MC KINLEY EVERETT, Founder-Chairman of "US", published a booklet entitled "The Quotable Karenga", in which he talked of revolution, black power, and condemned Christianity for the plight of the black man.

In this booklet, KARENGA stated "...You must have a cultural revolution before the violent revolution. The cultural revolution gives identity, purpose, and direction. ...The revolution being fought now is a revolution to win the minds of our people. If we fail to win this, we cannot wage the violent one. ...When the word is given, we'll see how tough you are. When it's 'burn', let's see how much you blow up. And when it's 'take that white girl's head too', we'll see how tough you are..."

The above source advised that "US" members are required to study and memorize this booklet. "US" members are also assigned Swahili names which they use in lieu of their given names.

A second source advised that KARENGA had spoken at various meetings in Los Angeles at which time he talked of creating an "US" army of 1,000 men, obtaining weapons and ammunition, guerrilla warfare tactics, and revolution. KARENGA also stated "The only way to get life is to take a life and as we get stronger, we will take what we want from the white man's United States." He also stated that if the police killed any "US" members, the "US" organization would kill some of them.

APPENDIX CONTINUED

The first source above advised that KARENGA also stated that race riots throughout the country were not riots but were actually revolts or revolutions and that the black people were going to win their freedom by violence, if necessary.

A third source advised that KARENGA stated that a revolution would take place in the future and that no one can believe in black revolution without believing in armed conflict because the two go hand in hand.

A fourth source advised in August, 1974, that the US Organization has been evicted from its headquarters at 4302 South Crenshaw Boulevard, Los Angeles, and because of lack of funds, has been unable to locate a new meeting place. The organization has terminated all public meetings.

APPENDIX

Revised 5/22/75

NATION OF ISLAM (NOI)
CHARACTERIZATION OF SUBVERSIVE ORGANIZATION
EXTREMIST MATTER

The Nation of Islam (NOI) is a black nationwife organization headquartered at Muhammad's Temple #2, 7351 South Stony Island Avenue, Chicago, Illinois. Elijah Muhammad, self-styled "Messenger of Allah" and divinely appointed leader of the black race in America, was leader of the NOI until his death on February 25, 1975, at which time his son, Wallace D. Muhammad, became Supreme Minister of the NOI. The NOI seeks a separate black nation, espouses its own version of the Islamic Religion, and has considered all "whites" to be devils; however, Wallace D. Muhammad in an interview published in "Muhammad Speaks", March 21, 1975, same being a weekly and the official NOI newspaper, stated there would no longer be stress put on the white people's status as "devils"; that whites have "begun to reform" and "The past is the past until it is dug up. We will not dig it up." NOI official policy instructs members to obey laws of the United States that do not conflict with NOI laws; to defend NOI officials, property, women, and themselves at all costs, if attacked; and to disarm any attacker and use the attacker's weapon against him.

The NOI body is broken down into: 1) the Fruit of Islam (FOI), an all male military-type group, to which instruction in judo and karate is given, and which has as its mmission security of officials, membership, and property of the NOI, and enforcing discipline in the NOI; and 2) the Muslim Girls Training (MGT), an all female quasi military-type group which has as its mission homemaking and child guidance in accordance with NOI teachings.

NOI activity is widespread among black inmates in many prisons in the United States. In recent years internal dissidence and difficulties with rival Muslim groups and other adversaries have produced considerable violence, some involving physical confrontations and acts of violence with law enforcement agencies.

INTERVIEW OF SPECIAL AGENT
(SA) LAWRENCE F. WIRICK BY
SSC STAFF MEMBER

On July 31, 1975, at 11:45 a.m. Mr. Lester Seidel of the United States Senate Select Committee (SSC) interviewed SA Lawrence F. Wirick at the San Diego Office of the FBI. No Advice of Rights was furnished SA Wirick and it was not necessary for the interviewee to consult with an FBI representative. The interview was terminated at 12:50 p.m. and as best recalled included the following discussion in the form of questions and answers:

Seidel: You understand that this is an informal interview and is in connection with the Bureau's COINTELPRO as it relates to the FBI investigation of the BPP?

Wirick: Yes, but for what purpose is the Senate conducting this survey?

Seidel: To aid in formation of new legislation so that the FBI and other Government agencies will have more definite guidelines to follow.

Wirick: I believe the Congress already through lack of information, isolated instances and some hysteria has enacted too many restrictive laws that prevent the FBI and other Government agencies from protecting the law abiding element of our society from the "bad guys".

Seidel: (He was in general agreement) Did you handle the COINTELPRO from 1970 through March, 1971?

Wirick: Yes, but I believe the BPP ceased to function locally about November or December, 1970. As I recall my function was to write a progress type letter regarding progress which described the illegal activities of members of the BPP and to report that this information had been furnished local police agencies but information generally emanated from confidential informants.

UNITED STATES SENATE
SELECT COMMITTEE ON
INTELLIGENCE ACTIVITIES
(SSC)

INTERVIEW OF SPECIAL AGENT
(SA) LAWRENCE F. WIRICK BY
SSC STAFF MEMBER

Seidel: What type of illegal activities and did your program in any way instigate illegal activities on the part of the BPP?

Wirick: Criminal acts committed by local members of the BPP are what I was referring to. I don't believe it was ever necessary to instigate any illegal acts or in any way entrap BPP members in criminal acts. The majority of local BPP members were thieves, narcotics addicts, lazy, unemployed and were hero worshipers of the BPP in Oakland, California. They wanted to emulate the Oakland organization, but their own dishonesty, et cetera, was a constant source of turmoil amongst the local group.

I recall, date unknown, information was received regarding Kenny Denmon (Kenneth Lee Denmon), one time head of the local BPP, that he was using stolen credit cards.

Information was received that Walter Wallace (Walter Carl Wallace, Jr.) was on narcotics and that he and his wife, Velma, were stealing to get money for narcotics and that Velma's mother was also involved in local thefts.

All above information was furnished local law agencies and local arrests were made. Furnishing the above type of information is a function and responsibility of the FBI.

The BPP in San Diego was very effective in causing their own problems and their own extinction and their criminal activities were not restricted to the examples I've given.

Seidel: Did the COINTELPRO try to disrupt the BPP Breakfast Program?

Wirick: No, not to my knowledge. I recall that soon after the Breakfast Program was started that other members of the BPP accused Ken Denmon of stealing money from contributions made to the Program.

On second thought I believe we did disrupt the BPP Breakfast Program in that we received complaints from several dairys and bread companies, et cetera, that they had been approached by BPP members with veiled threats of extortion if they did not donate quantities of food, et cetera, to the BPP Breakfast Program. The FBI and local police investigated and I believe as a result their practices were discontinued, but the investigation failed to establish a prosecutable offense of extortion.

Seidel: Did you have any connection with distribution of "cartoons" depicting BPP members as compromising each other, et cetera?

Wirick: No, but I have seen "cartoons" in the BPP newspaper. Have you ever seen or read copies of the BPP newspaper?

Seidel: No

Wirick: They featured "cartoons" showing the "pigs" (police) being killed, stabbed, et cetera. I believe I recall seeing some "cartoons" showing how the BPP would kill the "honkies" (white people). They were similar to the propaganda leaflets used by the Nazis against American troops before an attack. The articles in the BPP newspaper were even more foul.

Seidel: Did the COINTELPRO promote dissen~~t~~sion between the BPP and the US Group (see Appendix page)?

Wirick: Not to my knowledge. As I recall there was never any need to. They were constantly at odds with each other and on a gang type basis were trying to eliminate each other. I believe Sylvester Bell, a San Diego BPP member was killed by an US Group member and John Savage, another local BPP member was killed by an US Group member.

In Los Angeles two other BPP members, names not recalled, were allegedly killed by US Group members. I believe this led to the popular saying in Southeast San Diego section where most blacks live that the score (game) was, "US 4 - BPP 0".

Seidel: What do you think of the merits of a proposal to spray shipments of the BPP newspaper with a noxious acid so that readers would be confronted with a vile odor when attempting to read the paper?

UNITED STATES SENATE
SELECT COMMITTEE ON
INTELLIGENCE ACTIVITIES
(SSC)

INTERVIEW OF SPECIAL AGENT
(SA) LAWRENCE F. WIRICK BY
SSC STAFF MEMBER

Wirick: After thought, no. Because the paper itself was so vile and anti-white that the odor would never stop BPP members from reading same. I've always hoped that a large segment of the population, especially the "do-gooders" could or would experience the nauseous reaction I have felt after reading the illiterate, foul-mouthed, anti-white, anti-Government, BPP paper. I think everybody should read a copy of the BPP paper so that they will know the type and character of BPP members.

Seidel: What do you think about anonymous letters sent to spouses of BPP members saying the husband was sleeping with a white girl, et cetera?

Wirick: Most wives of the members I recall were also BPP members and/or common-law-wives. Many BPP members did have liaison with white girls but I doubt if such a letter would bother most spouses of BPP members. However, such a letter might be of value under certain circumstances, example: the stories that were spread during World War II which were not necessarily all true regarding Hitler, Mussolini, General Patton and others.

Seidel: In your opinion was the COINTELPRO of any value? Should it be changed? Do you have any suggestions for changes, or should it be eliminated completely?

Wirick: Yes, as I recall, it acted as a progress letter of the BPP, its direction, its dissen~~t~~sion, its change in leadership, and indications of its slow local demise because of the character of the local BPP members, and as a summary of its activities for FBIHQ. I recall that

we made certain requests to conduct some types of counterintelligence against the BPP, but I do not recall that the Bureau ever authorized any counterintelligence act which might be productive.

Change? COINTELPRO is not being utilized to the best of my knowledge and has not been for some time.

I believe that in about two or three years Congress will be frantically asking the FBI why we did not furnish them intelligence, advance knowledge of a demonstration, a riot and other civil unrest and elimination of the COINTELPRO has been another step in the direction of placing the FBI and other law enforcement agencies in a position where we cannot react to the activities of groups such as the BPP which have been formed with the main purpose of overthrowing the United States.

BLACK PANTHER PARTY
Formerly Known As
Black Panther Party for Self-Defense

The Black Panther Party (BPP), organized in December, 1966, at Oakland, California, by Huey P. Newton and Bobby George Seale, has the publicly-stated purpose of organizing black people to take control of the life, politics and destiny of the black community. The Party, operating the Black Panther Intercommunal News Service, publishes a newspaper called "The Black Panther," which at one time openly advocated the use of guns and guerrilla tactics in a revolutionary program to end the oppression of the black people but since early 1971 has spoken for a survival program pending revolution. BPP national headquarters, aka Black Panther Intercommunal Headquarters, is located in Oakland, California.

While openly advocating direct overthrow of the U. S. Government by force and violence until 1971, leaders have since avoided extreme statements in favor of calling for action within the established order. Newton, in an interview appearing in the May, 1973, issue of "Playboy" magazine, stated the Panthers' chief ambition is to change the American Government by any means necessary but that ultimately such change will be through armed violence.

Despite its claimed dedication to community service, indicators of the BPP's continued attraction to violence persist. Since July, 1974, Newton and other BPP members have been arrested in Oakland, California, for threatening police officers, murder of a 17-year-old female and the pistol whipping of Newton's tailor. Newton failed to appear on these charges and is now a local fugitive. Additionally, one died and three were wounded as a result of a shooting at a BPP-sponsored dance in Oakland, California, in October, 1974.

ENCLOSURE

62-116395-611

U.S. SENATE SELECT COMMITTEE
ON INTELLIGENCE ACTIVITIES (SSC)

INTERVIEW OF FORMER SPECIAL AGENT
ROBERT S. BAKER BY SSC STAFF MEMBER

Staff Member Seidel identified himself to Mr. Baker, stating that the interview would be in the form of an informal discussion and that information furnished by Mr. Baker would be placed in a memorandum for the SSC. Mr. Seidel stated that he did not intend to use the names of individuals interviewed in his memorandum. He stated that Mr. Baker did not have to talk to him, and that any information he furnished would be furnished voluntarily.

Mr. Seidel asked if Mr. Baker was a supervisor with the San Diego Office of the FBI from sometime in 1968 through April, 1971.

Mr. Baker advised that he was a supervisor of the security squad but could not recall if the dates mentioned by Mr. Seidel were correct.

Mr. Seidel inquired as to the nature of matters supervised by him, to which Mr. Baker replied that matters such as investigation of the Communist Party (see appendix), the Socialist Workers Party (see appendix), the Black Panther Party, US, Incorporated (see appendix), the Nation of Islam (see appendix), Espionage, Sabotage matters, and other investigations were conducted on the squad supervised by him, which consisted of from 12 to 15 Special Agents.

Mr. Seidel inquired as to whether Mr. Baker supervised the COINTELPRO.

Mr. Baker advised that he did supervise this program which was initiated by FBI Headquarters and not on the field office level. He stated that as he recalled, a letter was submitted either monthly, quarterly or semi-annually. The letter was submitted by a Special Agent whose case load was such that he could take the time to prepare the letter.

Mr. Seidel inquired as to whether Special Agent Roy Burns was more of a young, eager, type Agent.

U.S. SENATE SELECT COMMITTEE
ON INTELLIGENCE ACTIVITIES (SSC)

INTERVIEW OF FORMER SPECIAL AGENT
ROBERT S. BAKER BY SSC STAFF MEMBER

Mr. Baker replied that this was not true but that Special Agent Burns had been assigned the COINTELPRO case because his case load was such that he was able to handle the program.

Mr. Seidel inquired whether Special Agent Roy Burns was transferred to the Butte Office of the FBI for disciplinary reasons.

Mr. Baker replied that Special Agent Burns was originally from Washington State and had wanted to be transferred to that area.

Mr. Seidel asked if the Bureau encouraged Agents to participate in disruptive programs and then rewarded them financially for their efforts.

Mr. Baker replied that the Bureau had an incentive award program, and if an Agent did a good job in any field, he could get recognition through an incentive award. Mr. Baker stated that he could not recall any award being given as a result of COINTELPRO activity.

Mr. Seidel asked Mr. Baker if he could recall any information concerning the Free Breakfast Program of the BPP.

Mr. Baker stated that he recalled that the operation of the Free Breakfast Program of the BPP was followed through sources. They advised that some of the BPP officials were stealing money from funds which were to be spent on the breakfast program. The breakfast program was served at a local Catholic church. Mr. Baker advised Mr. Seidel that an official of the Catholic church in San Diego was contacted regarding the priest in charge of the church where the breakfast program was being held, who was reportedly an alcoholic. Mr. Seidel was advised that the priest was transferred from the church.

U.S. SENATE SELECT COMMITTEE
ON INTELLIGENCE ACTIVITIES (SSC)

INTERVIEW OF FORMER SPECIAL AGENT
ROBERT S. BAKER BY SSC STAFF MEMBER

Mr. Seidel asked what Mr. Baker's definition of the COINTELPRO was.

Mr. Baker replied that the COINTELPRO was a disruptive type program.

Mr. Seidel stated that the FBI had apparently written a letter regarding a white girl friend of Kenneth Denman, a BPP leader in San Diego. He inquired as to why this letter was written.

Mr. Baker stated that Denman was considered one of the stronger leaders of the San Diego Branch of the BPP, and if it was possible to keep him from becoming a strong leader, it would be disruptive to the party. The fact that Denman was living with a white girl was considered derogatory toward him by BPP members in San Diego.

Mr. Seidel inquired as to whether such activity would have been taken against a leader in an organization such as the Southern Christian Leadership Conference (SCLC) (see description) if the leader of such a group had been living with a white woman. Would such a letter be appropriate?

Mr. Baker replied that he did not feel that such a letter would be appropriate in this case because this organization involved a religious leader and our program was not directed at religious groups but was directed toward black militant and extremist groups.

Mr. Seidel inquired as to whether Mr. Baker recalled individuals in the BPP named Tate, Wallace, Denman and Bell.

Mr. Baker stated that he could not recall anything specific about any of these individuals, except what he had previously stated concerning Denman. He said he could recall the names but nothing more concerning these individuals.

U.S. SENATE SELECT COMMITTEE
ON INTELLIGENCE ACTIVITIES (SSC)

INTERVIEW OF FORMER SPECIAL AGENT
ROBERT S. BAKER BY SSC STAFF MEMBER

Mr. Seidel then mentioned an incident wherein the San Diego Office of the FBI had furnished information to the Los Angeles Office of the FBI for transmission to local authorities concerning a group of BPP members from San Diego who were traveling to Los Angeles to attend a funeral.

Mr. Baker stated that he could recall that such an incident occurred and that information was furnished stating that BPP members from San Diego would be carrying concealed weapons. He said he thought the furnishing of this information resulted in some of the BPP members being arrested in Los Angeles.

Mr. Seidel inquired as to whether Mr. Baker could recall someone from the FBI in San Diego visiting the mother of a girl who was an alleged member of the BPP in San Diego, and whether the FBI went to the mother to put pressure on another member of the family.

Mr. Baker stated that he vaguely recalled such a case but could not recall the details and could not be certain this had occurred.

Mr. Seidel inquired as to whether the FBI had any technical surveillances on the BPP in San Diego.

Mr. Baker stated that he knew of none and added that such coverage was not needed in San Diego because there were good sources in the BPP who could furnish excellent coverage. Mr. Baker stated that he believes he would have known of any such installations covering the BPP in San Diego.

Mr. Seidel asked if Mr. Baker knew of San Francisco using any such techniques against the BPP.

Mr. Baker replied that he believed that San Francisco had used such techniques.

Mr. Seidel then asked why such techniques were not used in San Diego if they were used in San Francisco.

Mr. Baker replied that such techniques were not needed in San Diego due to the good source coverage of party activity.

Mr. Seidel inquired as to whether there was a conflict between US, Incorporated, and the BPP in San Diego.

Mr. Baker replied that US, Incorporated, headquarters were in Los Angeles. There was a power struggle between the two groups for membership of blacks and much travel occurred by US, Incorporated, leaders from Los Angeles to San Diego and Mexico, and from San Diego to Los Angeles. There were considerable conflict between the two groups.

Mr. Seidel asked whether Mr. Baker recalled Ron Karenga.

Mr. Baker replied that he did recall Ron Karenga as being the Los Angeles leader of US, Incorporated.

Mr. Seidel asked whether Mr. Baker recalled some cards stating "Ron Karenga is impotent" which were printed in Los Angeles and some of which might have been sent to San Diego.

Mr. Baker replied that he does not recall these cards but this could have been correct.

Mr. Seidel asked if Mr. Baker recalled some cartoons being drawn concerning the BPP.

Mr. Baker stated that he recalled that there were two or three cartoons prepared depicting strife between US, Incorporated, and the BPP.

INTERVIEW OF FORMER SPECIAL AGENT
ROBERT S. BAKER BY SSC STAFF MEMBER

Mr. Seidel then stated that these cartoons were prepared by the Bureau Laboratory.

Mr. Baker stated that he did not recall.

Mr. Baker advised Mr. Seidel that US, Incorporated, and the BPP were led by and made up of people with extensive criminal records, and because of this and their general demeanor, the FBI did not really have to provoke or disrupt them because they kept themselves in a constant state of turmoil. He stated that Special Agents connected with the COINTELPRO did not devote much time to the program because of heavy case loads of other matters and because they assisted in working criminal matters such as bank robberies and other criminal violations.

Mr. Baker advised Mr. Seidel that a great deal of time was spent by the Special Agents working with their sources because they had to be extremely careful that they were protected. If a crime was planned and a source had knowledge of it, the source would try to keep the crime from being committed. If it was not possible to prevent the crime, the source might be forced to participate, and if arrested, a problem would be created in attempting to get the source out of jail and still conceal his identity as a source.

Mr. Seidel inquired of Mr. Baker as to the names of the Agents he dealt with in Los Angeles and San Francisco in connection with COINTELPRO.

Mr. Baker stated that he recalled that Supervisor Albert Clark had something to do with the program in San Francisco, and in Los Angeles he dealt with Supervisor Richard Bloeser and Bill Knowland.

U.S. SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

INTERVIEW OF FORMER SPECIAL AGENT ROBERT S. BAKER BY SSC STAFF MEMBER

Mr. Seidel asked Mr. Baker if he was acquainted with Richard Held.

Mr. Baker stated that Richard Held was assigned as Assistant Special Agent in Charge in San Diego, and he knew him at that time. He stated that he is aware that Richard Held is now the Special Agent in Charge of the Chicago Office of the FBI.

Mr. Seidel stated to Mr. Baker that he was going to interview Assistant Director Robert Gebhardt and Special Agent in Charge Charles W. Bates.

This concluded the interview of former Special Agent Robert S. Baker by SSC Staff Member Lester Seidel.

The Southern Christian Leadership Conference (SCLC) was an organization founded by Dr. Martin Luther King, Jr., with the theme of new life for poor people. Dr. King, a leader in civil rights, was assassinated on April 4, 1969.

While openly advocating direct overthrow of the U. S. Government by force and violence until 1971, leaders have since avoided extreme statements in favor of calling for action within the established order. Newton, in an interview appearing in the May, 1973, issue of "Playboy" magazine, stated the Panthers' chief ambition is to change the American Government by any means necessary but that ultimately such change will be through armed violence.

Despite its claimed dedication to community service, indicators of the BPP's continued attraction to violence persist. Since July, 1974, Newton and other BPP members have been arrested in Oakland, California, for threatening police officers, murder of a 17-year-old female and the pistol whipping of Newton's tailor. Newton failed to appear on these charges and is now a local fugitive. Additionally, one died and three were wounded as a result of a shooting at a BPP-sponsored dance in Oakland, California, in October, 1974.

COMMUNIST PARTY, USA

Title 50, U. S. Code, Section 781 (Internal Security Act of 1950) stated that, as a result of evidence adduced before various committees of the Senate and House of Representatives, Congress found the existence of a world communist revolutionary movement, whose purpose is to establish a communist totalitarian dictatorship in the world's countries through the medium of a world-wide communist organization. Communist action organizations in various countries endeavor to carry out the objectives of the world communist movement by bringing about the overthrow of existing governments by any means. The communist organization in the United States - the Communist Party, USA (CPUSA) - pursuing its stated objectives, presents "a clear and present danger to the security of the United States." The Subversive Activities Control Board, established by Section 791 of the above Act, found the CPUSA to be a communist action organization. This finding was upheld by the United States Supreme Court in June, 1961. The CPUSA has continued to be an arm of the international communist movement dominated by the Soviet Union. The CPUSA, in its dependence on the Soviet Union, has never knowingly adopted a position contrary to Soviet policy. Its leaders frequently confer with Soviet leaders to receive guidance and direction on the policies the CPUSA is to follow. There has been no evidence that the primary aims of the CPUSA, as they conform to Soviet objectives, have changed over the years.

Revised 5/22/75

NATION OF ISLAM (NOI)
CHARACTERIZATION OF SUBVERSIVE ORGANIZATION
EXTREMIST MATTER

The Nation of Islam (NOI) is a black nationwife organization headquartered at Muhammad's Temple #2, 7351 South Stony Island Avenue, Chicago, Illinois. Elijah Muhammad, self-styled "Messenger of Allah" and divinely appointed leader of the black race in America, was leader of the NOI until his death on February 25, 1975, at which time his son, Wallace D. Muhammad, became Supreme Minister of the NOI. The NOI seeks a separate black nation, espouses its own version of the Islamic Religion, and has considered all "whites" to be devils; however, Wallace D. Muhammad in an interview published in "Muhammad Speaks", March 21, 1975, same being a weekly and the official NOI newspaper, stated there would no longer be stress put on the white people's status as "devils"; that whites have "begun to reform" and "The past is the past until it is dug up. We will not dig it up." NOI official policy instructs members to obey laws of the United States that do not conflict with NOI laws; to defend NOI officials, property, women, and themselves at all costs, if attacked; and to disarm any attacker and use the attacker's weapon against him.

The NOI body is broken down into: 1) the Fruit of Islam (FOI), an all male military-type group, to which instruction in judo and karate is given, and which has as its mmission security of officials, membership, and property of the NOI, and enforcing discipline in the NOI; and 2) the Muslim Girls Training (MGT), an all female quasi military-type group which has as its mission homemaking and child guidance in accordance with NOI teachings.

NOI activity is widespread among black inmates in many prisons in the United States. In recent years internal dissidence and difficulties with rival Muslim groups and other adversaries have produced considerable violence, some involving physical confrontations and acts of violence with law enforcement agencies.

SOCIALIST WORKERS PARTY

The Socialist Workers Party (SWP) is a revolutionary, Trotskyist-communist organization, which is headquartered in New York City. Its purpose, as stated in its Declaration of Principles, is the overthrow of the U. S. Government and the institution of a dictatorship of the working class and the eventual achievement of a communist society. It was founded in 1938 and maintains close association with international Trotskyist organizations as a "sympathizing" group, but it denies formal membership in any foreign group to escape application of the Voorhis Act, which regulates certain types of organizations subject to foreign control. While the SWP does not openly advocate the use of violence at the present time to overthrow the U. S. Government, it believes that eventual violent revolution in the U. S. is inevitable. Its objection to the current use of violence is based on the ground that it believes violence is premature at this time. The SWP seeks to precipitate a revolution when conditions are ripe and to seize control of the revolution and to direct it when it occurs.

APPENDIX

"US"
Also Known As
"US", Incorporated

"US" was chartered by the State of California as a non-profit corporation in September, 1966, with offices at 8211 South Broadway, Los Angeles, California. The corporation alleges that "US" is primarily an Afro-American cultural organization.

During the spring of 1968, however, a source advised that MAULANA RON KARENGA, true name RONIE MC KINLEY EVERETT, Founder-Chairman of "US", published a booklet entitled "The Quotable Karenga", in which he talked of revolution, black power, and condemned Christianity for the plight of the black man.

In this booklet, KARENGA stated "...You must have a cultural revolution before the violent revolution. The cultural revolution gives identity, purpose, and direction. ...The revolution being fought now is a revolution to win the minds of our people. If we fail to win this, we cannot wage the violent one. ...When the word is given, we'll see how tough you are. When it's 'burn', let's see how much you blow up. And when it's 'take that white girl's head too', we'll see how tough you are..."

The above source advised that "US" members are required to study and memorize this booklet. "US" members are also assigned Swahili names which they use in lieu of their given names.

A second source advised that KARENGA had spoken at various meetings in Los Angeles at which time he talked of creating an "US" army of 1,000 men, obtaining weapons and ammunition, guerrilla warfare tactics, and revolution. KARENGA also stated "The only way to get life is to take a life and as we get stronger, we will take what we want from the white man's United States." He also stated that if the police killed any "US" members, the "US" organization would kill some of them.

APPENDIX CONTINUED

The first source above advised that KARENGA also stated that race riots throughout the country were not riots but were actually revolts or revolutions and that the black people were going to win their freedom by violence, if necessary.

A third source advised that KARENGA stated that a revolution would take place in the future and that no one can believe in black revolution without believing in armed conflict because the two go hand in hand.

A fourth source advised in August, 1974, that the US Organization has been evicted from its headquarters at 4302 South Crenshaw Boulevard, Los Angeles, and because of lack of funds, has been unable to locate a new meeting place. The organization has terminated all public meetings.

Attached New York teletype advises of information from former Bureau Agent, who is a current informative asset, that the Senate Select Committee on Intelligence Operations (SSCIO) has become aware of Jaffe's allegations that the FBI has taken actions which have prevented him from obtaining or keeping a job in the news media field. Jaffe claims that his association with Bureau Agents with regard to Soviet intelligence matters cooled off after he was identified by a Soviet defector as cooperating with Soviet Intelligence and that the FBI has since deprived him from making a living in his profession. The SSCIO is looking into Jaffe's situation to determine if his allegations are true and if the FBI can be prevented from taking such actions in other similar situations. C

BACKGROUND:

Jaffe is a former correspondent for ABC and CBS who was a symbol number informant of the New York Office from 1958 to 1961. During this period, he furnished information on his numerous contacts with Soviet nationals whom he met through his assignment as a CBS correspondent at the United Nations. In 1961, he joined ABC as its correspondent in Moscow where he served until he was expelled in 1965 following the publication of an article unfavorable to the Soviet Union. He was then transferred to Hong Kong where he remained until 1968. Since 1968, he has worked for various news media and has acted as a free lance journalist. Following his return from Hong Kong, he took up residence in Washington, D. C., and was in contact with the Washington Field Office, furnishing information on Soviets and Chinese nationals whom he met in the course of his employment. U

Re: Samuel Adason Jaffe

Soviet defector ["Sammy"]X(U) has advised that Jaffe was recruited by the KGB, in about 1962 while he was in Moscow, through his relationship with a Soviet female. [Soviet defector "Shamrock" has confirmed that Jaffe was approached but does not believe the approach was successful.]c Jaffe reported to the New York Office in 1963 what he interpreted as a recruitment effort, and he was extensively reinterviewed in 1969 concerning his association with KGB officers in Moscow. [There is no information in Jaffe's file that he was ever reported on by Col. Penkovskiy, as Jaffe reportedly has claimed.]c During the interviews with Jaffe, he denied any overt acts helpful to the KGB, although he admitted a continuing relationship with several KGB officers. Both the New York and Washington Field Offices came to the conclusion that Jaffe was a KGB agent while in Moscow, but that there was doubt as to whether he continued in that role after he was expelled.

Our relations with Jaffe were tempered by ["Sammy's"]X(U) allegation, and Bureau Agents in contact with him were circumspect in any dealings with him thereafter. Jaffe very likely detected a change in the Agents' attitude which accounts for his statement that he felt his relationship with them had cooled off.

There is no evidence contained in Jaffe's file that either New York or Washington Field or the Bureau has ever taken any action which would affect Jaffe's livelihood. Following his return from Hong Kong, Jaffe told his handling Agents that he was experiencing difficulty in finding a job. He several times mentioned his concern that his association with the FBI might be the reason. On each occasion, he was assured that the FBI had never divulged his confidential relationship and would not do so any time in the future.u

Jaffe's file does disclose that during an interview with Washington Field Agents in 1969, he said that he had learned from a British Intelligence contact in Hong Kong that his recall from that city was caused by his refusal to cooperate with CIA. He also related that he later mentioned this to a CIA contact in Washington who responded that the British

Intelligence representative "had no right to tell you this." [CIA has informed us that they did have contacts with Jaffe while he was in Hong Kong and that he reported on Communist Chinese of interest to the Agency.]S His file also records that Jaffe told New York Agents in 1969 that a recently published book on the Council of Foreign Relations described him as having a subversive background. He was also described in the book as being a member of the American League for Peace and Democracy. Jaffe connected the appearance of this book with his then recent recall fron Hong Kong by ABC.

U. S. SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC); INTERVIEW OF ASSISTANT DIRECTOR IN CHARGE ROBERT E. GEBHARDT BY SSC STAFF MEMBER

On August 7, 1975, Assistant Director Robert E. Gebhardt, Los Angeles Division, was interviewed in the Los Angeles FBI Office by Mr. Lester Seidel, Staff Member of the Senate Select Committee, United States Senate.

Gebhardt's rights were not explained to him by Seidel although Seidel did explain the purpose of the interview, that is, the Cointel Program of the FBI as it related to the FBI's investigation of the Black Panther Party when Gebhardt was the Special Agent in Charge of the San Francisco Division from 1970 to 1972.

The interview lasted from 9:05 AM until 10:30 AM, and it was not necessary for Gebhardt to consult with any Bureau representative.

Gebhardt had previously been advised by a Bureau representative of his right to counsel, the privileged areas of information, consultation privileges, and the parameters of interview.

Seidel inquired at the outset as to whether Gebhardt was aware of the Cointel Program relative to the Black Panther Party investigation on a day to day basis being specifically advised details of the investigation as it relates to the Cointel Program. It was explained to Seidel that as Special Agent in Charge of the San Francisco FBI Office wherein over 500 employees were located at the time, Gebhardt had many responsibilities in the operation of that division and

ENCLOSURE 62-116395-615

therefore, relied upon the experience, expertise, and judgment of the various supervisors assigned to the office for the day to day direction of the various matters under investigation, including the investigation of the Black Panther Party.

It was further explained that if a problem was encountered or a particularly unusual situation developed, Gebhardt was, of course, consulted and was available for such consultation to resolve any particular problem areas.

Gebhardt was next asked if he recalled being SAC when the electronic coverage of the Black Panther Party and the various officials at BBP was instituted and eventually terminated. Seidel was advised that the electronic coverage was already in effect upon Gebhardt's arrival, however, he does recall receiving a phone call after the "Keith Decision" was handed down instructing that all electronic coverage of the BPP and the various members of the BPP be discontinued. The call was received from Bureau Headquarters and the discontinuance was effected immediately.

Seidel inquired as to whether Gebhardt felt the intelligence type investigations should be completely removed from the criminal investigations which investigations would be looking toward eventual prosecution.

Seidel was informed by Gebhardt that even in criminal investigations looking toward prosecutions, much intelligence information is obtained from time to time which really has no value from a prosecutive standpoint, but does have possible value with respect to the direction of the investigation. In some criminal investigations a great deal of intelligence information may be obtained and in other types, very little. Insofar as the FBI is concerned, however, every effort is made to make certain there is some Federal law which would be a basis for an investigation which procedures would include matters commonly referred to as security investigations.

In some instances, in such security investigations a great deal of intelligence information would be obtained therefore, it was Gebhardt's opinion that so-called intelligence type investigations should not be removed from or differentiated from criminal type investigations looking toward prosecutions since intelligence information is an outgrowth of the basic investigation.

Gebhardt was asked if he felt the Cointelpro was a separate entity distinguished from the basic investigation and it was explained that the Cointelpro was a phase of the overall investigation in any particular organization or individual.

Gebhardt was asked if he felt Congress should enact legislation which would set forth specific investigative techniques that could or could not be utilized by the FBI or other Federal investigative agencies. He was advised in Gebhardt's opinion, such legislation should not be enacted, and in reply to the question as to why such legislation should not be enacted, it was pointed out that as an investigative agency, there must of necessity be allowed a certain flexibility because no two investigations are exactly alike and the circumstances of such investigations could possibly not be related to such Federal law.

In answer to the question as to how Congress should assure the American public that questionable activity such as the Cointelpro, was not being engaged in by an investigative agency such as the FBI, Seidel was informed that the Congress and the American people must rely upon the integrity and honesty of the Director of the FBI and the Attorney General.

It was pointed out that both the Director of the FBI and the Attorney General are nominated by the President, hearings are held before the various Congressional Committees and finally approved by the Senate. It was further pointed out that Director Kelley has recently stated in connection with the publicity relative to Cointelpro, that he has no intention of permitting this program to be reinstituted in the FBI and if circumstances ever arose which circumstances he could not contemplate at this time, wherein it was thought such activities should be embarked upon, he would obtain the personal approval of the Attorney General prior to such instituting. Seidel was informed that Gebhardt was in total agreement with this statement of Mr. Kelley.

Gebhardt was asked as to what his feelings were relative to what the relationship should be between the FBI and Congress. He was informed that a Senate Oversight Committee was recently established and it was felt that this was a good start and that this Committee should formalize and

standardize their oversight responsibilities and make regular inquiries of the Director and other officials of the FBI as to our activities. He was informed that there should be either a joint oversight committee between the House and Senate or if the Congress decided on two oversight Committees in both the House and Senate, these committees should be the entities through which all information relative to the activities of the FBI should flow.

It was emphasized however, that there should be regular consultation between these representatives and the FBI.

Inquiry was made as to Gebhardt's opinion relative to the relationship between the Department of Justice and the FBI and Seidel was informed the relationship, in Gebhardt's opinion, is excellent, should continue, and there should be a free flow of information between the FBI and the Department of Justice.

At the conclusion of the interview, Gebhardt summed up his comments by stating that Congress should definitely set up a structured oversight procedure of the activities of the FBI with due regard to the confidentiality of many of the FBI operations and investigations and must assure itself that the members of the Committee and its staff will maintain the confidentiality where necessary.

Secondly, in the areas of investigative matters usually referred to as national defense, national security or intelligence operations, all of the FBI investigations must be based on the application of the facts toward a particular Federal statute and if the facts are so oblique that they cannot be clearly applied to a particular Federal statute, consultation with the Department of Justice should be had in all instances.

Staff Member Seidel identified himself to Mr. Baker, stating that the interview would be in the form of an informal discussion and that information furnished by Mr. Baker would be placed in a memorandum for the SSC. Mr. Seidel stated that he did not intend to use the names of individuals interviewed in his memorandum. He stated that Mr. Baker did not have to talk to him, and that any information he furnished would be furnished voluntarily.

Mr. Seidel asked if Mr. Baker was a supervisor with the San Diego Office of the FBI from sometime in 1968 through April, 1971.

Mr. Baker advised that he was a supervisor of the security squad but could not recall if the dates mentioned by Mr. Seidel were correct.

Mr. Seidel inquired as to the nature of matters supervised by him, to which Mr. Baker replied that matters such as investigation of the Communist Party (see appendix), the Socialist Workers Party (see appendix), the Black Panther Party, US, Incorporated (see appendix), the Nation of Islam (see appendix), Espionage, Sabotage matters, and other investigations were conducted on the squad supervised by him, which consisted of from 12 to 15 Special Agents.

Mr. Seidel inquired as to whether Mr. Baker supervised the COINTELPRO.

Mr. Baker advised that he did supervise this program which was initiated by FBI Headquarters and not on the field office level. He stated that as he recalled, a letter was submitted either monthly, quarterly or semi-annually. The letter was submitted by a Special Agent whose case load was such that he could take the time to prepare the letter.

Mr. Seidel inquired as to whether Special Agent Roy Burns was more of a young, eager, type Agent.

Mr. Baker replied that this was not true but that Special Agent Burns had been assigned the COINTELPRO case because his case load was such that he was able to handle the program.

Mr. Seidel inquired whether Special Agent Roy Burns was transferred to the Butte Office of the FBI for disciplinary reasons.

Mr. Baker replied that Special Agent Burns was originally from Washington State and had wanted to be transferred to that area.

Mr. Seidel asked if the Bureau encouraged Agents to participate in disruptive programs and then rewarded them financially for their efforts.

Mr. Baker replied that the Bureau had an incentive award program, and if an Agent did a good job in any field, he could get recognition through an incentive award. Mr. Baker stated that he could not recall any award being given as a result of COINTELPRO activity.

Mr. Seidel asked Mr. Baker if he could recall any information concerning the Free Breakfast Program of the BPP.

Mr. Baker stated that he recalled that the operation of the Free Breakfast Program of the BPP was followed through sources. They advised that some of the BPP officials were stealing money from funds which were to be spent on the breakfast program. The breakfast program was served at a local Catholic church. Mr. Baker advised Mr. Seidel that an official of the Catholic church in San Diego was contacted regarding the priest in charge of the church where the breakfast program was being held, who was reportedly an alcoholic. Mr. Seidel was advised that the priest was transferred from the church.

U.S. SENATE SELECT COMMITTEE
ON INTELLIGENCE ACTIVITIES (SSC)

INTERVIEW OF FORMER SPECIAL AGENT
ROBERT S. BAKER BY SSC STAFF MEMBER

Mr. Seidel asked what Mr. Baker's definition of the COINTELPRO was.

Mr. Baker replied that the COINTELPRO was a disruptive type program.

Mr. Seidel stated that the FBI had apparently written a letter regarding a white girl friend of Kenneth Denman, a BPP leader in San Diego. He inquired as to why this letter was written.

Mr. Baker stated that Denman was considered one of the stronger leaders of the San Diego Branch of the BPP, and if it was possible to keep him from becoming a strong leader, it would be disruptive to the party. The fact that Denman was living with a white girl was considered derogatory toward him by BPP members in San Diego.

Mr. Seidel inquired as to whether such activity would have been taken against a leader in an organization such as the Southern Christian Leadership Conference (SCLC) (see description) if the leader of such a group had been living with a white woman. Would such a letter be appropriate?

Mr. Baker replied that he did not feel that such a letter would be appropriate in this case because this organization involved a religious leader and our program was not directed at religious groups but was directed toward black militant and extremist groups.

Mr. Seidel inquired as to whether Mr. Baker recalled individuals in the BPP named Tate, Wallace, Denman and Bell.

Mr. Baker stated that he could not recall anything specific about any of these individuals, except what he had previously stated concerning Denman. He said he could recall the names but nothing more concerning these individuals.

INTERVIEW OF FORMER SPECIAL AGENT
ROBERT S. BAKER BY SSC STAFF MEMBER

Mr. Seidel then mentioned an incident wherein the San Diego Office of the FBI had furnished information to the Los Angeles Office of the FBI for transmission to local authorities concerning a group of BPP members from San Diego who were traveling to Los Angeles to attend a funeral.

Mr. Baker stated that he could recall that such an incident occurred and that information was furnished stating that BPP members from San Diego would be carrying concealed weapons. He said he thought the furnishing of this information resulted in some of the BPP members being arrested in Los Angeles.

Mr. Seidel inquired as to whether Mr. Baker could recall someone from the FBI in San Diego visiting the mother of a girl who was an alleged member of the BPP in San Diego, and whether the FBI went to the mother to put pressure on another member of the family.

Mr. Baker stated that he vaguely recalled such a case but could not recall the details and could not be certain this had occurred.

Mr. Seidel inquired as to whether the FBI had any technical surveillances on the BPP in San Diego.

Mr. Baker stated that he knew of none and added that such coverage was not needed in San Diego because there were good sources in the BPP who could furnish excellent coverage. Mr. Baker stated that he believes he would have known of any such installations covering the BPP in San Diego.

Mr. Seidel asked if Mr. Baker knew of San Francisco using any such techniques against the BPP.

Mr. Baker replied that he believed that San Francisco had used such techniques.

U.S. SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

INTERVIEW OF FORMER SPECIAL AGENT ROBERT S. BAKER BY SSC STAFF MEMBER

Mr. Seidel then asked why such techniques were not used in San Diego if they were used in San Francisco.

Mr. Baker replied that such techniques were not needed in San Diego due to the good source coverage of party activity.

Mr. Seidel inquired as to whether there was a conflict between US, Incorporated, and the BPP in San Diego.

Mr. Baker replied that US, Incorporated, headquarters were in Los Angeles. There was a power struggle between the two groups for membership of blacks and much travel occurred by US, Incorporated, leaders from Los Angeles to San Diego and Mexico, and from San Diego to Los Angeles. There were considerable conflict between the two groups.

Mr. Seidel asked whether Mr. Baker recalled Ron Karenga.

Mr. Baker replied that he did recall Ron Karenga as being the Los Angeles leader of US, Incorporated.

Mr. Seidel asked whether Mr. Baker recalled some cards stating "Ron Karenga is impotent" which were printed in Los Angeles and some of which might have been sent to San Diego.

Mr. Baker replied that he does not recall these cards but this could have been correct.

Mr. Seidel asked if Mr. Baker recalled some cartoons being drawn concerning the BPP.

Mr. Baker stated that he recalled that there were two or three cartoons prepared depicting strife between US, Incorporated, and the BPP.

Mr. Seidel then stated that these cartoons were prepared by the Bureau Laboratory.

Mr. Baker stated that he did not recall.

Mr. Baker advised Mr. Seidel that US, Incorporated, and the BPP were led by and made up of people with extensive criminal records, and because of this and their general demeanor, the FBI did not really have to provoke or disrupt them because they kept themselves in a constant state of turmoil. He stated that Special Agents connected with the COINTELPRO did not devote much time to the program because of heavy case loads of other matters and because they assisted in working criminal matters such as bank robberies and other criminal violations.

Mr. Baker advised Mr. Seidel that a great deal of time was spent by the Special Agents working with their sources because they had to be extremely careful that they were protected. If a crime was planned and a source had knowledge of it, the source would try to keep the crime from being committed. If it was not possible to prevent the crime, the source might be forced to participate, and if arrested, a problem would be created in attempting to get the source out of jail and still conceal his identity as a source.

Mr. Seidel inquired of Mr. Baker as to the names of the Agents he dealt with in Los Angeles and San Francisco in connection with COINTELPRO.

Mr. Baker stated that he recalled that Supervisor Albert Clark had something to do with the program in San Francisco, and in Los Angeles he dealt with Supervisor Richard Bloeser and Bill Knowland.

U.S. SENATE SELECT COMMITTEE
ON INTELLIGENCE ACTIVITIES (SSC)

INTERVIEW OF FORMER SPECIAL AGENT
ROBERT S. BAKER BY SSC STAFF MEMBER

Mr. Seidel asked Mr. Baker if he was acquainted with Richard Held.

Mr. Baker stated that Richard Held was assigned as Assistant Special Agent in Charge in San Diego, and he knew him at that time. He stated that he is aware that Richard Held is now the Special Agent in Charge of the Chicago Office of the FBI.

Mr. Seidel stated to Mr. Baker that he was going to interview Assistant Director Robert Gebhardt and Special Agent in Charge Charles W. Bates.

This concluded the interview of former Special Agent Robert S. Baker by SSC Staff Member Lester Seidel.

The Southern Christian Leadership Conference (SCLC) was an organization founded by Dr. Martin Luther King, Jr., with the theme of new life for poor people. Dr. King, a leader in civil rights, was assassinated on April 4, 1969.

INTERVIEW OF SPECIAL AGENT
(SA) LAWRENCE F. WIRICK BY
SSC STAFF MEMBER

On July 31, 1975, at 11:45 a.m. Mr. Lester Seidel of the United States Senate Select Committee (SSC) interviewed SA Lawrence F. Wirick at the San Diego Office of the FBI. No Advice of Rights was furnished SA Wirick and it was not necessary for the interviewee to consult with an FBI representative. The interview was terminated at 12:50 p.m. and as best recalled included the following discussion in the form of questions and answers:

Seidel: You understand that this is an informal interview and is in connection with the Bureau's COINTELPRO as it relates to the FBI investigation of the BPP?

Wirick: Yes, but for what purpose is the Senate conducting this survey?

Seidel: To aid in formation of new legislation so that the FBI and other Government agencies will have more definite guidelines to follow.

Wirick: I believe the Congress already through lack of information, isolated instances and some hysteria have enacted too many restrictive laws that prevent the FBI and other Government agencies from protecting the law abiding element of our society from the "bad guys".

Seidel: (He was in general agreement) Did you handle the COINTELPRO from 1970 through March, 1971?

Wirick: Yes, but I believe the BPP ceased to function locally about November or December, 1970. As I recall my function was to write a progress type letter regarding progress which described the illegal activities of members of the BPP and to report that this information had been furnished local police agencies but information generally emanated from confidential informants.

UNITED STATES SENATE
SELECT COMMITTEE ON
INTELLIGENCE ACTIVITIES
(SSC)

INTERVIEW OF SPECIAL AGENT
(SA) LAWRENCE F. WIRICK BY
SSC STAFF MEMBER

Seidel: What type of illegal activities and did your program in any way instigate illegal activities on the part of the BPP?

Wirick: Criminal acts committed by local members of the BPP is what I was referring to. I don't believe it was ever necessary to instigate any illegal acts or in any way entrap BPP members in criminal acts. The majority of local BPP members were thieves, narcotics addicts, lazy, unemployed and were hero worshipers of the BPP in Oakland, California. They wanted to emulate the Oakland organization, but their own dishonesty, et cetera, was a constant source of turmoil amongst the local group.

I recall, date unknown, information was received regarding Kenny Denmon (Kenneth Lee Denmon), one time head of the local BPP, that he was using stolen credit cards.

/ Information was received that Walter Wallace (Walter Carl Wallace, Jr.) was on narcotics and that he and his wife, Velma, were stealing to get money for narcotics and that Velma's mother was also involved in local thefts.

All above information was furnished local law agencies and local arrests were made. Furnishing the above type of information is a function and responsibility of the FBI.

The BPP in San Diego was very effective in causing their own problems and their own extinction and their criminal activities were not restricted to the examples I've given.

Seidel: Did the COINTELPRO try to disrupt the BPP Breakfast Program?

Wirick: No, not to my knowledge. I recall that soon after the Breakfast Program was started that other members of the BPP accused Ken Denmon of stealing money from contributions made to the Program.

On second thought I believe we did disrupt the BPP Breakfast Program in that we received complaints from several dairys and bread companies, et cetera, that they had been approached by BPP members with veiled threats of extortion if they did not donate quantities of food et cetera to the BPP Breakfast Program. The FBI and local police investigated and I believe as a result their practices were discontinued, but the investigation failed to establish a prosecutable offense of extortion.

Seidel: Did you have any connection with distribution of "cartoons" depicting BPP members as compromising each other et cetera?

Wirick: No, but I have seen "cartoons" in the BPP newspaper. Have you ever seen or read copies of the BPP newspaper?

Seidel: No

Wirick: They featured "cartoons" showing the "pigs" (police) being killed, stabbed, et cetera. I believe I recall seeing some "cartoons" showing how the BPP would kill the "honkies" (white people). They were similar to the propaganda leaflets used by the Nazis against American troops before an attack. The articles in the BPP newspaper were even more foul.

Seidel: Did the COINTELPRO promote dissension between the BPP and the US Group (see Appendix page)?

Wirick: Not to my knowledge. As I recall there was never any need to. They were constantly at odds with each other and on a gang type basis were trying to eliminate each other. I believe Sylvester Bell, a San Diego BPP member was killed by an US Group member and John Savage, another local BPP member was killed by an US Group member.

In Los Angeles two other BPP members, names not recalled, were allegedly killed by US Group members. I believe this led to the popular saying in Southeast San Diego section where most blacks live that the score (game) was, "US 4 - BPP 0".

Seidel: What do you think of the merits of a proposal to spray shipments of the BPP newspaper with a noxious acid so that readers would be confronted with a vile odor when attempting to read the paper?

UNITED STATES SENATE
SELECT COMMITTEE ON
INTELLIGENCE ACTIVITIES
(SSC)

INTERVIEW OF SPECIAL AGENT
(SA) LAWRENCE F. WIRICK BY
SSC STAFF MEMBER

Wirick: After thought, no. Because the paper itself was so vile and anti-white that the odor would never stop BPP members from reading same. I've always hoped that a large segment of the population, especially the "do-gooders" could or would experience the nauseous reaction I have felt after reading the illiterate, foul-mouthed, anti-white, anti-Government, BPP paper. I think everybody should read a copy of the BPP paper so that they will know the type and character of BPP members.

Seidel: What do you think about anonymous letters sent to spouses of BPP members saying the husband was sleeping with a white girl, et cetera?

Wirick: Most wives of the members I recall were also BPP members and/or common-law-wives. Many BPP members did have liaison with white girls but I doubt if such a letter would bother most spouses of BPP members. However, such a letter might be of value under certain circumstances, example: the stories that were spread during World War II which were not necessarily all true regarding Hitler, Mussolini, General Patton and others.

Seidel: In your opinion was the COINTELPRO of any value? Should it be changed? Do you have any suggestions for changes, or should it be eliminated completely?

Wirick: Yes, as I recall, it acted as a progress letter of the BPP, its direction, its dissension, its change in leadership, and indications of its slow local demise because of the character of the local BPP members, and as a summary of its activities for FBIHQ. I recall that

we made certain requests to conduct some types of counterintelligence against the BPP, but I do not recall that the Bureau ever authorized any counterintelligence act which might be productive.

Change? COINTELPRO is not being utilized to the best of my knowledge and has not been for some time.

I believe that in about two or three years Congress will be frantically asking the FBI why we did not furnish them intelligence, advance knowledge of a demonstration, a riot and other civil unrest and elimination of the COINTELPRO has been another step in the direction of placing the FBI and other law enforcement agencies in a position where we cannot react to the activities of groups such as the BPP which have been formed with the main purpose of overthrowing the United States.

Special Agent (SA) Earl M. Petersen was interviewed at the San Diego office of the Federal Bureau of Investigation (FBI) on July 31, 1975, by U. S. Senate Select Committee (SSC) Staff Member Lester Seidel. The interview began at 10:05 A.M. and ended at 11:35 A.M. Assistant Special Agent in Charge (ASAC) Arthur G. Barger was available nearby for consultation. He was not consulted during the interview.

Prior to the interview, SA Petersen had been advised by San Diego FBI officials that FBI Headquarters had waived the employee agreement not to furnish information for the purpose of this interview. He was advised that he had a right to counsel but that the FBI was unable to provide private counsel for him.

SA Petersen was advised that he would not be required to answer questions that might divulge the identity of any FBI source; that would reveal information relative to sensitive methods and techniques; or information which originated with other agencies, including foreign intelligence agencies.

SA Petersen was advised that the interview was to involve only the COINTELPRO as it applied to the Black Panther Party (BPP) (see appendix).

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

INTERVIEW OF SA EARL M. PETERSEN BY SSC STAFF MEMBER

Staff Member Lester Seidel identified himself to SA Petersen and stated that he was not warning SA Petersen of his rights as the interview was such that such a warning was not required. He advised SA Petersen that he did not have to talk to him and that any information furnished was on a voluntary basis. He stated that information furnished to him would be handled with discretion.

Mr. Seidel: Were you in charge of the COINTELPRO in San Diego from March, 1968 through October, 1968?

SA Petersen: This was possible but the dates the program was assigned to me are not recalled.

Mr. Seidel: What was the name of the squad to which you were assigned at that time?

SA Petersen. The Security Squad.

Mr. Seidel: Who did the squad investigate? Was it groups such as US, Inc. (see appendix) and the BPP?

SA Petersen: Yes, such groups as US, Inc., the BPP, and the Nation of Islam (NOI) (see appendix).

Mr. Seidel: And possibly splinter groups?

SA Petersen: Yes, groups that would form and disband and which could possibly be called splinter groups.

U. S. SENATE SELECT COMMITTEE

INTERVIEW OF SA EARL M. PETERSEN
BY SSC STAFF MEMBER

Mr. Seidel: How long have you been in the Bureau?

SA Petersen: Twenty-four years as of June 25, 1975.

Mr. Seidel: Where have you been assigned?

SA Petersen: In Boston, Baltimore, New York, Tampa, and San Diego.

Mr. Seidel: The Bureau has indicated that you were a coordinator of the COINTELPRO in San Diego. As such, what were your duties?

SA Petersen: The duties for the most part consisted of preparing letters to the Bureau asking for authority to take some specific action in the program; awaiting the reply from the Bureau; and then, if any action was taken, to advise the Bureau of the results of such action. It is noted that many of the requests to take specific action were turned down by the Bureau.

Mr. Seidel: Were you the focal point of the program?

SA Petersen: Yes, in the sense that any idea for action to be taken in the program was transmitted to the Bureau for approval by me and if approval was received, it would be related to whomever had suggested the activity. I would then report any results to the Bureau.

U. S. SENATE SELECT COMMITTEE
ON INTELLIGENCE ACTIVITIES (SSC)

INTERVIEW OF SA EARL M. PETERSEN
BY SSC STAFF MEMBER

Mr. Seidel:	Did you get heavy pressure from Bureau officials to take action in this program?
SA Petersen:	Not any more than any other case, and I had a number of other cases assigned to me at the time the COINTELPRO was assigned to me.
Mr. Seidel:	What type of things did you do?
SA Petersen:	I do not recall at this time any specific action taken in the program. I do recall that a Black Panther leader, Walter Wallace, was removed as leader of the party in San Diego. I believe it was suspected that he might have cooperated with the FBI. This could have been accomplished by interviewing him where the interview could be seen by other party members. If the Agents shook his hand, smiled, and acted like he was a friend, it might plant the seed of suspicion in the minds of other BPP members. I do not recall specifically whether this happened but at any rate, Wallace was not trusted and was removed as leader of the party.
Mr. Seidel:	Could such a thing get Wallace killed or injured?

SA Petersen: I do not see how it would because there would be no way anyone could determine whether or not Wallace was, in fact, cooperating with the FBI. He was probably removed by the BPP as a precautionary measure. I cannot recall whether or not Wallace was removed while I was coordinator of the program.

Mr. Seidel: Was COINTELPRO successful?

SA Petersen: I was not too impressed with its success in San Diego while I had it assigned to me because it was a new program and it took some time to get it established and working. Most of the success was probably due to information obtained regarding criminal violations, mostly local in nature, which was furnished to local law enforcement officers, causing the arrest of BPP members. This would have been done whether or not we had a COINTELPRO. It was necessary to prepare a letter to the Bureau asking authority to take action and then wait for a reply authorizing the activity. Many times suggested COINTELPRO activity suggestions would be turned down.

U. S. SENATE SELECT COMMITTEE
ON INTELLIGENCE ACTIVITIES (SSC)

INTERVIEW OF SA EARL M. PETERSEN BY SSC STAFF MEMBER

Mr. Seidel made available Xerox copies of Bureau letters captioned, "Counter-Intelligence Program; Black Nationalist - Hate Groups," dated August 25, 1967 and March 4, 1968. These were read by SA Petersen, who said he could not specifically recall reading the letters.

Mr. Seidel: Was contact with the police formal or informal?

SA Petersen: Contact was personal or telephonic contact and at one time, information furnished to individual officers was confirmed by letter to the Chief of Police. It is not recalled if this was the policy during the time COINTELPRO was assigned to me.

Mr. Seidel: What happened to SA Roy Burns?

SA Petersen: He was transferred to the Butte, Montana Field Office.

Mr. Seidel: Did he do anything wrong? I understand Agents were sometimes transferred to Butte as a disciplinary measure.

SA Petersen: SA Burns wanted to be transferred to Butte and requested the transfer. The Special Agent in Charge (SAC), Mr. Evans, was transferred there and may have helped SA Burns get moved there.

Mr. Seidel: How old is Bob Baker:

SA Petersen: Probably 51 or 52 years old.

Mr. Seidel: Did he retire early?

SA Petersen: No. He was in a position to retire and retired because he wanted to take advantage of a cost of living increase by retiring prior to a certain date, such as June 30.

Mr. Seidel: Were the BPP and US, Inc. both violence oriented groups?

SA Petersen: Very definitely. There was extreme friction between the BPP and US, Inc. at all times.

Mr. Seidel: Do you recall some caricatures used in connection with COINTELPRO?

SA Petersen: Yes.

Mr. Seidel: Who had the program at that time?

SA Petersen: I believe SA Burns had it then.

Mr. Seidel: What were the cartoons?

SA Petersen: I recall seeing them but do not recall any specific cartoon.

Mr. Seidel: Do you think anything done in COINTELPRO could have had a reaction causing someone to kill an individual in the other group?

SA Petersen: Because of the extreme antagonism between the two groups, anything we did would have had about the same effect as a gnat biting an elephant. I do not think COINTELPRO had that kind of impact.

INTERVIEW OF SA EARL M. PETERSEN
BY SSC STAFF MEMBER

Mr. Seidel: Did you ever supervise any technical installation or electronic surveillance of the BPP in San Diego?

SA Petersen: No. I don't recall anything like that being done here.

Mr. Seidel: How would you feel about writing a letter to a wife saying her husband was sleeping with various other women if the husband was a BPP leader?

SA Petersen: I would hesitate to do this because it might break up a family. If the facts were true and this might cause the BPP leader to be less effective, it would probably be a good counterintelligence move.

Mr. Seidel: I am referring to Page 91 of a BPP COINTELPRO summary which indicates that a BPP leader was living with a white girl and an anonymous letter was written to others in the BPP saying that this individual was living with a white girl. Do you recall anything about that?

SA Petersen: I believe that leader could have been Kenneth Denmon in San Diego. I recall that he was living with a white woman and that others in the BPP were made aware of this in some manner. The BPP in San

SA Petersen (continued): Diego was teaching children to hate and kill police officers. They planned violent criminal acts and were making plans to take over the established government at the first opportunity. If a leader of such a group could be discredited and removed, it would help to keep the group from becoming stronger, as they would have to select a new leader, and he would have to get the group reorganized. Denmon had many additional weaknesses which could be used in a counter-intelligence program.

Mr. Seidel: Do you recall a letter being sent to BPP Headquarters saying a leader of the BPP was cooperating with the police in Los Angeles?

SA Petersen: I do not recall such a letter.

Mr. Seidel: Do you recall some cards being sent to San Diego from Los Angeles saying, "Ron Karenga is impotent"?

SA Petersen: No, I do not recall such cards. Ron Karenga was a leader of US, Inc., not the BPP.

Mr. Seidel: Do you recall that cartoons were to be sent to BPP members to discredit the leaders?

SA Petersen: I recall the cartoons but do not recall whether they were sent to BPP members.

INTERVIEW OF SA EARL M. PETERSEN BY SSC STAFF MEMBER

Mr. Seidel: Do you recall an anonymous letter being sent to the Catholic Church to have the priest of the church where the BPP breakfast program was operated removed from his office?

SA Petersen: I do not recall such an anonymous letter; however, I do recall that the priest was transferred by the church.

Mr. Seidel: Knowing that the BPP paper was a paper that taught and advocated violence and had cartoons in it that encouraged the killing of police officers by blacks and was a violence oriented paper, how would you feel about putting a corrosive liquid on the paper to keep it from being distributed?

SA Petersen: I would not do it as I would feel that it was a violation of the law and too drastic. I would not do it personally or personally approve of it.

Mr. Seidel: You have been very helpful and the information you have provided will be used in considering new legislation at some time in the future.

SA Petersen: In these tranquil times, it disturbs me greatly to read in the papers and to hear news broadcasts containing all kinds of allegations against the FBI and the CIA and

SA Petersen (continued):	other intelligence agencies. I like to work within the law and to be guided by legislation in my work. I would, however, hate to see such restrictive legislation passed that at some time in the future when we might be faced with violence-prone organizations trying to take control of the government, we would be unable to properly handle our responsibility for the internal security of the United States.
Mr. Seidel:	Thank you for your cooperation.

Attorney General
U. S. Department of Justice
Washington, D.C.

Dear Mr. Attorney General:

On behalf of the Select Committee, we wish to express our appreciation to you for meeting with us on Wednesday afternoon. We recognize the need for the Committee to have a complete understanding of the concerns of the Department of Justice so that our inquiry can proceed in the most responsible manner. Our meeting was extremely valuable in that respect, and you may be sure that we have given full consideration to your views.

The Committee has been informed that Mr. John T. Elliff, leader of the Domestic Intelligence Task Force, and members of his staff met yesterday with Mr. K. William O'Connor, Special Counsel for Intelligence coordination, and members of his staff to agree upon procedures for delivery of and access to FBI materials requested by the Committee. The proposed procedures which resulted from that meeting are satisfactory to the Committee.

We are pleased that your staff was able to meet promptly with our representatives and that they reached agreement without delay. The Committee expects that the proposed procedures will, if implemented, expedite its work during the coming weeks. SUBJECT: Synopsis of Responses to Request for Comments on Proposed Procedures

1. The Deputy Attorney General, Office of Legislative Affairs, and Civil Rights Division register no objections to the proposed procedures on access. OLA suggests inclusion of a preamble referencing security agreements and the need for proper security assurances from the Committee to the Attorney General.

2. Both the Criminal Division and Office of Legal Counsel address the short response time frames imposed upon the Attorney General, and OLC suggests certain language changes for purposes of clarity and focus.

3. The Attorney General is troubled by Item 9 and its need for modification as to categories of material not treatable by these proposed procedures or as to a later discovered need to make presently unanticipated changes to effect a smoother operation of the procedures.

4. The Bureau's comments on the proposed procedures are attached and should be read. This Office does not agree with the Bureau that the proposed procedures should be presented to the President and the President's Counsel.

5. No response has been received from the Solicitor General.

Memorandum

TO : The Deputy Attorney General
Attn: K. William O'Connor

DATE: July 18, 1975

SUBJECT: PROPOSED PROCEDURES FOR ACCESS TO DEPARTMENT OF JUSTICE FILES

In response to your memorandum dated July 18, 1975, captioned as above, we observe that the "substantial negotiations" which produced the proposed procedures did not include participation by a representative of the FBI and that the request for our views concerning disclosure of highly sensitive FBI material was first received at 11:14 a.m. today with a reply expected by 2:00 p.m. today. We respectfully suggest that not only should you afford greater opportunity for an expression of our views on this matter, but that any such proposed procedures should be presented to the President's Counsel for concurrence and for an expression of the President's views as to the general policy of the Executive Branch in this regard. Further, you may want to consider addressing the problem of the impact such general disclosure of files would have on pending criminal investigations.

A preliminary review in the time available revealed that certain items require considerable modification. For example, Item (3)(c) should be reconsidered with the following language:

> "An exception to (a) and (b) above is made for information that would tend to identify sources to whom the FBI has an obligation of confidentiality as to which no access will be furnished unless the identity already has been made known to the Committee, or unless the Attorney General, the Chairman and the Vice Chairman jointly agree on the limited disclosure of such identity to the Chairman and the Vice Chairman."

Item (6)(b) should be reconsidered with the following language:

"If the Task Force Leader has any objections to the excisions or paraphrases, the FBI will furnish a written statement of the grounds for its position to the Special Counsel who shall resolve the matter by negotiation within 24 hours."

Item (8) should be reconsidered with the following language:

"The Staff and the Members of the Committee may examine the original materials to which the Staff is given access as extensively as necessary between the hours of 8:00 a.m. and 5:30 p.m., Monday through Friday, in the FBI J. Edgar Hoover Building at Room 4171."

In light of the difficulties described, it is my strong recommendation that such procedures should not be hastily agreed upon with the Committee and that full discussion should be had concerning this matter by representatives of the FBI, the Attorney General, the Committee and the Counsel to the President.

COMMENTS ON PROPOSED PROCEDURES

1. 48 hour lead time is very short and may create problems; 24 hour reaction time may be unreasonable for Attorney General.

2. The provision seems a little odd, out of context of negotiations.

3. Suggest that in 3(a), last line, word and should be or and "peculiarly sensitive" read to modify both foreign intelligence sources and ongoing operations.

4. No comment

5. No comment

6. Time frames are very restrictive; there should be a stated opportunity for TFL to work out any objections with FBI, before raising to Special Counsel - "...if the issue is not promptly resolved between the TFL and the FBI, the materials in issue will be conveyed..."

My view is that item 9 goes too far in that there must be some provision which allows the Department or the Committee to abrogate the arrangement. I should think the agreement could provide that at any time the Chairman of the Committee or the Attorney General could give a notification that the (1)agreement was not suitable for a particular category of material or(2)that for some reason the agreement was not operating suitably and that as to either one or two there would then be an endeavor to work out a suitable modification or different arrangement (but I think it has to be said that the arrangement can be cancelled by either party)

SUBJECT: Congressional Access to Personal Files Maintained by the FBI

Certain members of the Senate Select Committee have requested access to their personal files. The preferred mode of access is the subject of pending consideration by the Attorney General. As you know, under the mandate of the Senate Select Committee, access to the personal file of a member of the Senate Select Committee may be had without any consideration of Freedom of Information Act issues.

The Attorney General has considered several options, and has asked that you consider them and indicate hereon your view; he has asked that these views be delivered to me not later than 1:00 p.m., this afternoon so that he may promptly consider them. The options considered are not exclusive. If you have any suggestions other than the options indicated, please attach it to your response. Responses should be delivered to me in Room 4213, Main Justice, by the time indicated. Thank you for your cooperation.

OPTIONS

Option 1: Departmental staff examine the documents in the file and delete any references to sensitive sources or ongoing criminal investigation; thereafter, the file is made accessible to the Senator under controlled circumstances at the Department of Justice.

✓ Approved ______ Disapproved

Comment:

EITHER THIS OR 3 IS PREFERABLE BECAUSE I DON'T KNOW WHAT "PERSONAL FILES" LOOK LIKE, HARD TO CHOOSE

Option 2: Same as Option 1, except that a xerox of the documents as excised is delivered to the Senator.

______ Approved   __X__ Disapproved

Comment: PERHAPS SOME CONSIDERATION TO XEROX COPIES OF SPECIFIED DOCS AFTER REVIEW. EVEN THIS IS QUESTIONABLE, HOWEVER, BECAUSE OF "LEAK" PROBLEM.

Option 3: The file is assembled and the Senator given access to it, with certain papers withheld and the Senator is orally advised of the reasons for withholding of the documents.

Without knowing how these files were compiled (public sources? wiretap? confidential informant?), or what is in them (personal matter of derogatory nature? national security information?), or why they exist, (I have read in newspapers that they exist, but that's all), I would probably choose in the absence of knowing something about these Option #1, with the understanding that copies of releaseable information can then be made available to the Senator according to criteria spelled out in the Freedom of Information Act. I assume, however, that whoever is advising the AG about this has actually read the files in question, at least sufficient to know in a generic sense the answers to the questions raised above.

Despite the fact that I am operating in a vacuum on this, I do appreciate being consulted.

Dear Mr. O'Connor:

I have received your letter of July 15 regarding access/delivery of documents requested in the Committee's letter of July 9, 1975. The following relates specifically to the procedure suggested for handling documents on the so called "Kissinger 17" surveillance, which is also applied in your letter to materials relating to electronic surveillance of the Democratic National Convention in Atlantic City in August 1964, materials relating to the electronic surveillance of Dr. King, and possibly the O & C files.

I regard this suggested procedure as a major step forward and a recognition that previous arrangements were too cumbersome and time-consuming. Nevertheless, there are certain practical problems with the procedure which may be resolved by interpretation. For example, I assume that application of the procedure to the Atlantic City convention matters does not foreclose the Committee from receiving for use at its offices actual documents or portions of documents, as well as summaries. I understand that the FBI has no objection to providing such documents on this matter to the Committee for use at its offices.

Therefore, in order that the procedure you suggest may be applicable to all areas of Committee inquiry claimed by the Department to involve particularly sensitive matters, it should be interpreted as follows: the Committee staff will have direct access to all files and materials at FBIHQ; the Committee staff shall select certain documents from the files which it deems pertinent to the Committee's inquiry and necessary for the examination of witnesses or the establishment of certain facts during the course of the

R

inquiry; the FBI shall at that time designate specific portions of such documents which might jeopardize particularly sensitive sources or methods; with respect to such specifically designated portions of documents, the Committee staff will prepare appropriate excisions or summaries of the information; the summaries will be checked at that time with senior Bureau executives to ensure the protection of particularly sensitive FBI sources or methods; thereafter, the excised documents and summaries will be removed to the Committee's offices; the Committee staff may check back to the original documents as extensively as necessary; staff notes on the designated specific portions of documents will not be removed from FBIHQ; and Committee members may, of course, at any time see the documents which the staff has seen.

I believe this interpretation can serve as a workable framework for Committee access to particularly sensitive FBI materials. You may be assured that the Task Force shares your concern for the need to provide special handling techniques to convey or secure any particularly sensitive information or materials, as indicated in the Outline for Inquiry Procedures. We hope this interpretation will facilitate the mutual effort by the Committee and the Department of Justice to accomplish this purpose.

I would appreciate receiving your immediate advice to me as to whether any further interpretation of this matter is required. Any public discussion of these arrangements and interpretations should be cast in such terms as will not jeopardize particularly sensitive FBI sources.

Sincerely,

Re: Access/Delivery of Documents Requested in Senate Select Committee Letter of July 9, 1975

Dear Mr. Elliff:

Pursuant to our conversation of July 11, and confirming it, the following arrangements are approved for access to materials and delivery of materials to the Senate Select Committee staff, in addition to that which has already been made available.

All the provisions of this letter, hereinafter stated, are, of course, subject to the agreements embodied in the Outline for Inquiry Procedures referenced in the Committee's letter of June 27, 1975. Particular reference will periodically be made to the second sentence of paragraph B, page 2, of that document which specifies:

> "...The agency will also specifically indicate any of such materials which are extraordinarily sensitive in order to facilitate the mutual effort by the Committee and the agencies to provide special handling techniques to convey or secure any particularly sensitive information or materials as appropriate..."

Special handling techniques in addition to those indicated herein may be required in order to protect the security of sensitive materials covered herein.

Please refer to the attachments to the July 9, letter:

Page 3, Paragraph 2, Subsection A. All of the FBI files on the so called "Kissinger 17" surveillance will be made available to you and specific appropriately cleared staff in Room 4171 of the Hoover Building. These documents may be reviewed and studied there, and you and such staff may take such notes as you deem appropriate; we have agreed that the notes are to be left in the secure room of the Hoover Building during your study. When your study is completed, you may prepare a summary of the information which you consider to be appropriate for Committee use. The summary must be checked with senior Bureau executives to ensure the protection of national security matters, protection of confidential sources of information, and observation of privacy considerations. Thereafter, the approved summary may be removed to the Committee's office and all the staff notes will be destroyed. You may check the summary back to the original documents as extensively as necessary, in Room 4171.

Page 3, Paragraph 2, Subsection B. Materials have already been transmitted regarding the Kraft matter and the agreement between his attorney and the Attorney General. When you have reviewed those materials, and have contacted Mr. Kraft's attorney, should you deem that appropriate, I understand you will contact me if further information is requested.

Page 5, Paragraph 3, A & B. As you may know, representatives of the King family, including Mr. Harry H. Wachtel, attorney, have formally expressed to the Department a special concern regarding any public disclosure of any derogatory information regarding Dr. King which may be contained in Bureau files. Subject to your reaching an agreement with such representatives of the King family, and the acceptance by the Department of such a written agreement, all of the materials related to the electronic surveillance of Dr. King, in the custody of the FBI, will be made available to you and specific appropriately cleared staff under the same conditions and with the same agreements as specified above with regard to the "Kissinger 17" surveillance.

Page 6, Paragraph 4. Those materials in the custody of the FBI which reflect and relate to electronic surveillance of the Democratic National Convention in Atlantic City in August 1964, will be provided under the same conditions as articulated above with regard to the "Kissinger 17" surveillance.

Page 9, Paragraph C. A summary of procedures for mail covers has been provided by my recent letter to you. In addition to that, a ~~statistical~~ summary of mail covers on closed matters will be made available to you in Room 4171, together with access to the underlying documentation requesting the individual mail covers.

Documentation relating to the opening of mail will be withheld at present, due to ongoing investigations.

After your review of the mail cover summaries and any underlying documents you wish to review, we will discuss any further access which you may request to mail cover information.

Page 10, Paragraph E. I understand and accept your explanation that the word "implementation" in line 2 of paragraph E(1) does not seek access to the "raw" files of COINTELPRO programs. All of the memoranda originating the several COINTELPRO programs will be made available to you and specific appropriately cleared staff for review in Room 4171.

We will furnish to you, for your study at Senate Select Committee offices, a complete set of the excised exhibits A-E to the Petersen Report; as previously agreed, your staff may have access to any unexcised pages of Exhibits A-E which you may wish to see, and which will be maintained at Room 4171. The back up materials underlying any particular summary in A-E will be extracted from the "raw" files upon your request and made available to you for your study in Room 4171. General access to the "raw" files is not required, as I understand it, for your purposes under this agreement. General disclosure of information derived from documents other than the excised pages of Exhibits A-E will be made available subject to limitations to be determined, dependent upon the sensitivity of such information, in conference with appropriate Bureau officials and in accordance with the provisions of paragraph B of the Outline for Inquiry Procedures, to protect the considerations outlined above.

Page 14, Item I. This will confirm your understanding that certain Huston Plan documents prepared by the Bureau in response to your request under this heading have been delivered to the White House for "third agency clearance". This statement formally confirms my previous discussions with you of this fact when we met with Mr. Schwarz and Mr. Smothers on July 2. Be advised that the documents which have been transmitted to the White House for clearance will be forwarded to you, or made available for access, if appropriate, upon our receipt of the White House directions.

Page 16, Paragraph J. This will confirm our understanding that on July 14, there will be available for your review in Room 4171, a 160 page summary document reflecting an analysis of the O & C files.

After you have reviewed that analysis, I will discuss with you an appropriate further step with regard to the O & C files if such is indicated; such an agreement would be generally similar in terms to the foregoing arrangements.

I trust that this letter accurately reflects our understanding as reached in our discussion on July 11. If it does not, your immediate advice to me of any particulars in which we disagree in our understanding will be appreciated. In the meantime, I have furnished a copy of this letter to the Attorney General and the Deputy Attorney General and have requested the Bureau's cooperation in promptly making available the information indicated.

I would appreciate meeting with you and Mr. Schwarz and Mr. Smothers around July 18, for the purpose of discussing any problems which you may have identified and to clarify any outstanding documentary request which you may have, and to agree upon an appropriate schedule. Since we have received several additional requests from you, since the July 9, letter was delivered, it would seem appropriate to re-analyze your requirements in light of the agreements reached on July 11, reflected herein.

In response to your memorandum dated July 18, 1975, captioned as above, we observe that the "substantial negotiations" which produced the proposed procedures did not include participation by a representative of the FBI and that the request for our views concerning disclosure of highly sensitive FBI material was first received at 11:14 a.m. today with a reply expected by 2:00 p.m. today. We respectfully suggest that not only should you afford greater opportunity for an expression of our views on this matter, but that any such proposed procedures should be presented to the President's Counsel for concurrence and for an expression of the President's views as to the general policy of the Executive Branch in this regard. Further, you may want to consider addressing the problem of the impact such general disclosure of files would have on pending criminal investigations.

A preliminary review in the time available revealed that certain items require considerable modification. For example, Item (3)(c) should be reconsidered with the following language:

> "An exception to (a) and (b) above is made for information that would tend to identify sources to whom the FBI has an obligation of confidentiality as to which no access will be furnished unless the identity already has been made known to the Committee, or unless the Attorney General, the Chairman and the Vice Chairman jointly agree on the limited disclosure of such identity to the Chairman and the Vice Chairman."

Item (8) should be reconsidered with the following language:

SUBJECT: Synopsis of Responses to Request for Comments on Proposed Procedures

1. The Deputy Attorney General, Office of Legislative Affairs, and Civil Rights Division register no objections to the proposed procedures on access. OLA suggests inclusion of a preamble referencing security agreements and the need for proper security assurances from the Committee to the Attorney General.

2. Both the Criminal Division and Office of Legal Counsel address the short response time frames imposed upon the Attorney General, and OLC suggests certain language changes for purposes of clarity and focus.

3. The Attorney General is troubled by Item 9 and its need for modification as to categories of material not treatable by these proposed procedures or as to a later discovered need to make presently unanticipated changes to effect a smoother operation of the procedures.

4. The Bureau's comments on the proposed procedures are attached and should be read. This Office does not agree with the Bureau that the proposed procedures should be presented to the President and the President's Counsel.

5. No response has been received from the Solicitor General.

6. This Office recommends that Item 9 be modified as suggested by the Attorney General and that the language modifications suggested by OLC for Items 3 and 6 be adopted.

7. It is further suggested that the Attorney General convene a meeting of the senior Bureau officials for the purpose of informing them of his policy decision in this matter.

My view is that item 9 goes too far in that there must be some provision which allows the Department or the Committee to abrogate the arrangement. I should think the agreement could provid that at any time the Chairman of the Committee or the Attorney General could give a notification that the (1) agreement was not suitable for a particular category of material or (2) that for some reason the agreement was not operating suitably and that as to either one or two there would then be an endeavor to work out a suitable modification or different arrangement (but I think it has to be said that the arrangement can be cancelled by either party)

The Honorable Edward H. Levi
Attorney General
U. S. Department of Justice
Washington, D.C.

Dear Mr. Attorney General:

On behalf of the Select Committee, we wish to express our appreciation to you for meeting with us on Wednesday afternoon. We recognize the need for the Committee to have a complete understanding of the concerns of the Department of Justice so that our inquiry can proceed in the most responsible manner. Our meeting was extremely valuable in that respect, and you may be sure that we have given full consideration to your views.

The Committee has been informed that Mr. John T. Elliff, leader of the Domestic Intelligence Task Force, and members of his staff met yesterday with Mr. K. William O'Connor, Special Counsel for Intelligence coordination, and members of his staff to agree upon procedures for delivery of and access to FBI materials requested by the Committee. The proposed procedures which resulted from that meeting are satisfactory to the Committee.

We are pleased that your staff was able to meet promptly with our representatives and that they reached agreement without delay. The Committee expects that the proposed procedures will, if implemented, expedite its work during the coming weeks. As you know, one of our major concerns was that all of the problems with the Committee's outstanding requests for materials

We believe the procedures are an appropriate and practical accommodation of our mutual interests. Indeed, we have instructed our staff to make every effort to accomplish the work of the Committee within this framework.

The prompt resolution of this matter demonstrates a spirit of cooperation which we hope will prevail in all our future relations. The Committee looks forward to working with you personally on issues of common concern during the months ahead.

4. No comment

(2) The following procedures shall apply (a) where delivery of materials requested might jeopardize FBI sensitive sources or ongoing operations, or (b) where the Domestic Task Force Leader, chief counsel, or Minority coun requests access to materials, rather than delivery of materials to the Committee.

(3) The Department will furnish access at the Hoover Building in Room 4171 to those materials requested:

(a) only to the members of the Committee, where it is determined by the Attorney General that the materials involve peculiarly sensitive foreign intelligence sources and ongoing operations.

(b) In all other cases, to the appropriately cleared staff who will have access to all of the materials.

(c) An exception to (a) and (b) above is made for the names of so-called "live" informants or potential informants as defined in the FBI Manual of Instructions as to which no access will be furnished unless the identity of the individual as an informant or potential inform has already been made known to the Committee, or unless the Attorney General, the Chairman and Vice Chairman, jointly agree on the limited disclosure of such names to the Chairman and Vice Chairman.

(4) Those materials to which the staff has access may be reviewed and studied in Room 4171 of the Hoover Building and such notes may be taken as deemed appropriate by the Staff.

(5) The Committee staff shall select from these materials to which access is herein provided, those materials which it deems pertinent to the Committee's inquiries and necessary for delivery to the Committee's offices.

(6) The Bureau shall make copies of such materials as are specified by the staff under the provisions of (5) above for transfer to the Committee's offices

(a) before the copies of such materials are taken to the Committee's offices, the Bureau shall, within 24 hours of the selection, make appropriate excisions and paraphrases of information which might, if inadvertently disclosed, endanger sensitive FBI sources and ongoing operations.

(b) If the Task Force Leader has any objections to the excisions or paraphrases, the materials will be forthwith conveyed by the Bureau, with a written statement of its grounds for its position, to the Special Counsel who shall resolve the matter within 24 hours.

(c) In the event the matter is not resolved within 24 hours, the Special Counsel shall submit the matter forthwith to the Attorney General who shall notify the Chairman forthwith and arrange for an appropriate disposition.

(7) The Committee staff may remove to the Office of SSC for appropriate use, any notes which they may make upon review of screened material without such notes being reviewed by the Bureau. The Committee staff may remove notes on unscreened materials only if such notes are reviewed and cleared by the Bureau under the provisions of (6) (a) thru (c) above.

(8) The staff and the members of the Committee may examine the original materials to which the staff has been given access as extensively as necessary, in the Hoover Building at Room 4171.

(9) Where accepted by Attorney General and the Committee, these procedures may be modified only by their joint decision.

U. S. SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC); INTERVIEW OF SUPERVISOR RICHARD H. BLOESER BY SSC STAFF MEMBER

On August 5, 1975, Supervisor Richard H. Bloeser was interviewed by SSC Staff Member Lester Seidel at the Los Angeles FBI Office regarding the COINTELPRO/Black Panther Party (BPP).

Mr. Seidel advised Supervisor Bloeser that the interview was voluntary, but did not advise Supervisor Bloeser of his rights in this matter.

Mr. Seidel inquired of Supervisor Bloeser as to how many offices he had served in, his length of service in the Bureau, and how long had been spent on intelligence investigations. Supervisor Bloeser replied that he had served in Philadelphia, El Paso and Los Angeles, had been in the Bureau approximately 24½ years, and had been assigned to intelligence work for 22 years.

Mr. Seidel inquired as to whether Supervisor Bloeser believed that the Bureau had placed undue pressure on the field to come up with counter intelligence proposals concerning the BPP and was it difficult to come up with a proposal. Supervisor Bloeser responded that there was no undue pressure placed on the field by the Bureau, that the COINTELPRO/BPP was merely another case assigned to an agent and that agent, as in any other case, had the responsibility of handling the matter whether it concerned the solving of a case or the submission of proposals. Mr. Seidel was also informed that it was not unduly difficult to come up with a proposal and that a number of proposals were rejected at the field level and never submitted to the Bureau.

Mr. Seidel inquired specifically as to counter intelligence proposals involving cartoons ridiculing the BPP.

Supervisor Bloeser responded that he vaguely remembered such proposals but without reviewing the file had no definite recollection. Mr. Seidel did not request that the file be reviewed.

Mr. Seidel inquired specifically about a business card which allegedly had been prepared by the Bureau bearing the phrase "Karenga is impotent." Mr. Seidel requested Supervisor Bloeser's views on the distribution of this card by the FBI. Supervisor Bloeser responded that he vaguely remembered the card, that he thought it was humorous, and that the word impotent had various meanings.

Mr. Seidel then inquired about the blood feud which existed in the past between the US Organization and the BPP and the efforts of the Bureau to keep this feud alive and thus promote violence. He specifically inquired as to the personal feelings of Supervisor Bloeser concerning any counter intelligence proposals which, if placed in operation, could lead to violence between the two groups.

Supervisor Bloeser responded first that personally he had no apologies for the counter intelligence program as a whole, that proposals submitted six or seven years ago were believed necessary at that time due to the circumstances, specifically that at that time the BPP and the US Organization were involved in violent activity against the community as a whole. Mr. Seidel was informed that the feud between the US Organization and the BPP occurred long before the FBI COINTELPRO became involved in the feud and that any proposals approved by the Bureau had relatively little effect on the violence committed by either group. Mr. Seidel was also reminded that six or seven years ago the Congress of the United States fully supported the war in Vietnam in which thousands of people were killed but that under today's circumstances no support has been given to South Vietnam.

U. S. SENATE SELECT COMMITTEE ON
INTELLIGENCE ACTIVITIES (SSC);
INTERVIEW OF SUPERVISOR RICHARD H. BLOESER
BY SSC STAFF MEMBER

Mr. Seidel then posed a hypothetical question involving the following factors: Would Supervisor Bloeser now or in the past approve a counter intelligence proposal whereby one extremist with a criminal record of violence be anonymously informed that another extremist with a record of criminal violence was an informant for the FBI, knowing that the alleged informant might be injured or killed. Supervisor Bloeser replied that under the present conditions such a proposal would not be approved, but that he could not give an answer as to what his feelings might have been six or seven years ago under any given situation. Mr. Seidel was again reminded that Congress in the past has not hesitated to support wars which kill thousands of people but that recently they have criti~~zed~~cized the CIA for allegedly plotting to assassinate one individual whose death might prevent a war. Mr. Seidel was also informed that it was ironic that Congress was investigating another agency of the Federal Government which was attempting to prevent revolutionary violence in this country.

Mr. Seidel then inquired into the counter intelligence proposals approved by the Bureau in relation to the actress Jean Seberg and Raymond Hewitt, a leader of the BPP. This proposal concerned the fact that Seberg, who was then married to a French producer, admitted being pregnant by Hewitt who was also married at the time. The Bureau approved anonymously leaking this information to a Hollywood columnist. Mr. Seidel inquired as to whether Supervisor Bloeser did or did not believe that this was an invasion of privacy. Supervisor Bloeser responded that the item was newsworthy and that it would have been any fair game for any newsmen had they come across it in the course of their business which they could have probably easily done, and that certainly Congress would not have criti~~zed~~cized a newspaper for printing such an item or claim it to be an invasion of privacy. Mr. Seidel inquired as to the purpose of this particular operation and he was informed that Miss Seberg was giving support to the BPP and that it was hoped that such publicity would prevent any future support by her of the BPP.

U. S. SENATE SELECT COMMITTEE ON
INTELLIGENCE ACTIVITIES (SSC);
INTERVIEW OF SUPERVISOR RICHARD H. BLOESER
BY SSC STAFF MEMBER

He was further advised that it was the responsibility of the FBI to determine who was funding revolutionary groups in this country.

Mr. Seidel then inquired as to whether or not it was difficult to conduct intelligence investigations under present statutes and under the Criminal Rules of Procedure. He was informed that it was somewhat difficult to conduct an effective intelligence operation under present circumstances and that perhaps new legislative or executive orders would be helpful to the FBI in order to allow the FBI to continue its investigations in the Domestic Intelligence field. Mr. Seidel inquired as to whether it would be helpful to have specific legislation which might completely separate criminal and intelligence operations so one would not taint the other. He was informed that if such legislation could be enacted that it would undoubtedly help the FBI.

The interview lasted approximately two hours and it was not necessary to consult with another Bureau representative during this time.

U. S. SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC); INTERVIEW OF SA WALLACE E. WARD BY SSC STAFF MEMBER

On August 5, 1975, Special Agent (SA) Wallace E. Ward was interviewed by SSC Staff Member Lester Seidel at Los Angeles Field Office regarding Cointelpro/Black Panther Party. The interview lasted from 9:12 a.m. to 9:22 a.m.

SA Ward was advised by Mr. Seidel that the interview was voluntary but SA Ward was not advised of his rights in this matter.

Seidel asked how long SA Ward had been a Special Agent with the FBI, and SA Ward responded nine years. He further requested previous offices SA Ward had been assigned to, and SA Ward responded Cincinnati, Ohio. Seidel advised the Bureau informed him that SA Ward had been assigned Cointelpro/Black Panther Party in June 1969. Seidel requested to know what work SA Ward had been assigned before this, to which SA Ward responded he could not remember, but believed general criminal work.

Seidel requested to know what specific instructions were issued with regard to operating Cointelpro/Black Panther Party. SA Ward advised that due to his employment agreement, the sensitive nature of the Bureau work, and the possible overlap of Bureau investigation, he did not feel he could respond to any further questions. Seidel advised he understood SA Ward's position as he, Seidel, had worked criminal matters himself and knew the need for secrecy. The official interview was terminated at this point.

AMERICAN REVOLUTION BICENTENNIAL 1776-1976

ENCLOSURE 62-116395-609

In a friendly conversation that followed for approximately ten to fifteen minutes, SA Ward advised Seidel that he had only been assigned the Cointelpro/Black Panther Party matter for three months and had no knowledge that would be of value to Seidel. The Cointelpro/Black Panther Party matter was not further discussed. The rest of the time was involved in discussing points of interest in the Los Angeles basin of tourist value, such as Marineland, Palos Verdes, and Sunset Boulevard, Los Angeles.

SA Ward advises that he is aware that the Director waived his employment agreement with certain exceptions regarding privileged areas. With this in mind, SA Ward reviewed his employment agreement and concluded, after noting the following quotation, that he could not disclose any information without following the prescribed procedure:

"The burden is on me to determine, prior to disclosure, whether information may be disclosed, and in this regard, I agree to request approval of the Director of the FBI in each such instance by presenting the full text of my proposed disclosure in writing to the Director of the FBI at least thirty (30) days prior to disclosure".

With this in mind, SA Ward answered Mr. Seidel as noted heretofore.

Lester B. Seidel, Senate Select Committee Staff Member, requested on 8/19/75 that SA Richard H. Ross be made available for Staff interview concerning the Bureau's investigation of the Black Panther Party and COINTELPRO as it applies to the Black Panther Party. Seidel stated that he would prefer handling this particular interview in conjunction with his interview of SA Richard W. Held. He requested he be advised when the appropriate clearance procedures have been completed and SA Ross is available for interview. SA Ross is currently assigned to the Intelligence Division. SA Held was previously cleared for interview by memorandum dated 8/1/75.

RECOMMENDATIONS:

(1) That SA Ross be released from existing employment agreement for purposes of an interview concerning the Bureau's investigation of the Black Panther Party and COINTELPRO as it relates to the Black Panther Party.

(2) That an Intelligence Division representative be available but not present during the interview of SA Ross to assist in making a determination whether a question may be properly responded to.

Honorable Edward H. Levi
Attorney General
U. S. Department of Justice
Washington, D. C. 20530

Dear Mr. Attorney General:

I am writing to call your attention to a matter which may be a cause of concern to you and to the Select Committee at some time in the future.

As you may know, a special unit has been established in the FBI Intelligence Division to handle this Committee's requests for materials and to handle certain arrangements for the Committee staff's interviews. The Special Agents assigned to this unit accompany Bureau witnesses to the Committee offices, travel to out-of-town locations where Committee staff interviews are conducted, and apparently "de-brief" interview subjects after the interviews.

One possible problem has arisen with this arrangement. As you are aware, one of the alleged abuses which the Committee is examining pursuant to S. Res. 21 involves the FBI's activities with respect to the late Dr. Martin Luther King, Jr. As the inquiry has proceeded, information has been developed to indicate that one of the Special Agents who has been handling Committee staff interviews, "de-briefing" witnesses, and, presumably, compiling materials with respect to the King matter was also the supervisory case agent during the time that some of the alleged FBI improprieties regarding Dr. King took place. Moreover, as a logical step in our investigation, it was

RECEIVED

ENCLOSURE

recently necessary to interview this Special Agent to determine the nature and extent of his involvement in and knowledge of the alleged abuses at the time when he served as supervisory case agent with respect to the King case. During the interview he did provide detailed information concerning his substantial participation in this matter.

The Committee in no way intends at this juncture to pre-judge the propriety of the FBI's activities with respect to Dr. King, and it would be inappropriate to characterize the conduct of any of the Bureau's personnel regarding this case until all the facts are in. Nevertheless, I am concerned that in this kind of situation, the interests of the FBI and the Department of Justice might best be served, from the standpoint of appearances, by reconsidering the assignment of this Special Agent to the King matters. It is possible that some may conclude that there is a conflict between the Special Agent's personal interest, and the interests of the FBI and the Justice Department in ensuring that full disclosure to the Committee is made with respect to this case.

Finally, let me assure you that the Committee has no evidence that the present arrangement has prevented the Committee from obtaining the full disclosures sought; but it seems to me that it would be mutually beneficial for appropriate steps to be taken so that we will both be able to assure the American people and the Congress that our oversight responsibilities were fulfilled in an objective and impartial way.

I hope you will share my view that this course will best serve our respective interests and, of course, the interests of the country.

Sincerely,

Frank Church

Dear Mr. Chairman:

Your thoughtful letter of August 14, 1975, to the Attorney General was referred to me and it has been carefully considered. I certainly agree with the view expressed therein that it is important the Committee's oversight responsibilities be fulfilled in an objective and impartial way. To that end, I have required employees with experience to assist in locating the full documentation called for in Committee requests. The voluminous files and variety of indices entries would have been much more difficult to sort for your benefit without the assistance of persons having such expertise.

I appreciate your assurance that the Committee has no evidence that our arrangements have prevented the Committee from obtaining the full disclosure sought. I have absolute confidence that those FBI employees participating in our current efforts to assist your Committee are working in good faith and have not inhibited full disclosure. Further, I have required close supervision of this work by superiors and thereby avoided the possibility of an improper decision by any one individual affecting the responses.

As to the availability of an FBI representative during Committee staff interviews of present or former FBI employees concerning alleged "abuses," I have determined that such no longer will be generally afforded. The subject matters requiring consultation with such witnesses are essentially four: (1) information which identifies or may identify FBI confidential sources; (2) information which may adversely affect on-going FBI investigations; (3) information concerning sensitive methods and techniques; and (4) information obtained from third agencies, including foreign intelligence agencies. Witnesses may be cautioned prior to interview concerning such problem areas and refrain from furnishing the information pending consultation with FBI Headquarters. This modification is effective immediately.

I hope that you will bring this matter to the attention of your staff and that in so doing you also will review the standards of objectivity and impartiality being followed in their interviews to assure protection of individual rights.

I have discussed with Mike Epstein (in Elliff's absence) of the SSC and with Elmer Larson of the Bureau the demands this request will pose for the Bureau, and we have agreed to defer responding to Elliff's requests of August 20, 1975, for Parts IV and V, from September 4 to September 9, in an effort to meet the response date (September 3) of the attached request.

STUDY GOVERNMENTAL OPERATIONS WITH
RESPECT TO INTELLIGENCE ACTIVITIES
(PURSUANT TO S. RES. 21, 94TH CONGRESS)
WASHINGTON, D.C. 20510

August 28, 1975

Honorable Edward H. Levi
Attorney General
U. S. Department of Justice
Washington, D. C. 20530

Dear Mr. Attorney General:

I would like to bring to your personal attention a situation which has severely restricted our efforts to establish the relevant facts with respect to one of the areas of alleged abuse which is the subject of inquiry pursuant to S. Res. 21.

I have been informed by the staff that numerous materials which have been requested during the past several weeks which pertain to the FBI's activities with respect to Dr. Martin Luther King, Jr., have been withheld from the Committee by the Department because of concern expressed by Mr. Harry Wachtel, the attorney for the King family and estate, as to the appropriateness of the Department's "disseminating" to the Committee contents of conversations monitored during electronic surveillances of Dr. King.

Upon reviewing the lists of materials requested, I am at a loss to understand how most of those items could conceivably be encompassed by the issues raised by Mr. Wachtel, especially in view of the fact that our letters of request have specifically pointed out that tape recordings and transcripts should not be supplied.

Accordingly, I want to take this opportunity to place the Committee formally on record as reaffirming all of the outstanding requests for materials relating to the King matters, with the limited exception of (1) Mr. DeLoach's August 24 - 27, 1964 memoranda which pertain to the 1964 Democratic National Convention, and (2) those portions of any other requested materials which actually summarize or quote from conversations monitored during any electronic surveillance of Dr. King.

Delivery is requested by Wednesday, September 3, 1975, pursuant to the provisions of the general procedural agreement between the Department and the Committee which governs all Committee requests. I understand that the Bureau has been collecting the King-related materials upon receipt of each of our requests, and therefore I presume that there will be no substantial burden in meeting the September 3 date.

Your cooperation is appreciated.

I am taking the liberty of sending Mr. Wachtel a copy of this request.

NOTE: SL 1495-E (former) (Bureau file 134-19686) was operated from January, 1970, to approximately September, 1971, primarily targeted against White Hate Groups. In 1971, he traveled to Savannah, Georgia, at which time he reported on activities of the National States Rights Party office and that Jerry Ray, brother of James Earl Ray, stated he knew there was another party involved in the killing of King and that his brother was the one who pulled the trigger. This is the apparent HSCA interest in informant.

Referenced communications concern previous informal requests by the HSCA that we contact SL 1495-E to determine if he would be willing to be interviewed by the Committee. St. Louis contacted informant on 1/27/78 and he agreed, but two days later submitted a letter to St. Louis declining to be interviewed by the HSCA. Subsequently, the HSCA determined informant's identity through its investigation and contacted him, at which time, according to the HSCA, he agreed to interview. By letter to the Attorney General dated 1/26/78, the HSCA has asked for all information at FBI Headquarters and in the field concerning informant.

This matter has been coordinated with SA D. O. Coulson, Legal Liaison and Congressional Affairs Unit, Legal Counsel Division, and SA M. V. Hale, Top Echelon and Criminal Informant Unit, Criminal Investigative Division.

NOTE The HSCA plans to submit a formal request regarding this matter, but requested informant be contacted for his initial reaction to interview. The Congressional Inquiry Unit, Legal Liaison and Congressional Affairs Unit and Mr. Robert L. Keuch, Deputy Assistant Attorney General, Criminal Division, agree this approach is best prior to continuing discussions to resolve legal and other issues.

The apparent interest of the HSCA involves informant's travel to Savannah, Georgia, in 1971 at which time he reported on activities at the NSRP Office in Savannah, as set forth in referenced communication. Informant reported that Jerry Ray, brother of James Earl Ray, and J. B. Stoner, National Chairman, NSRP, were in the office when Jerry said that the FBI and he knew there was another party involved in the killing of King and that his brother was the one who pulled the trigger. The HSCA has requested FBI information on the NSRP, Stoner, Jerry Ray and other individuals identified as being in attendance in the NSRP Office in Savannah during that time. One of the individuals present, Richard Geppert, was later developed as an informant of the Springfield Office. Geppert has been interviewed by the HSCA and has furnished a signed statement in which he gives authority for HSCA review of all FBI information concerning him, including that pertaining to his confidential relationship with the FBI.

This matter has been coordinated with Legal Liaison and Congressional Affairs Unit and the Organized Crime Section, Criminal Investigative Division

Re: Request from House Select Committee on Assassinations to Meet with British Police Authorities

Dear Mr. Angel:

By way of background, the House Select Committee on Assassinations, as authorized by the U. S. House of Representatives, is investigating the circumstances surrounding the murders of President J. F. Kennedy and Dr. Martin Luther King, Jr.

The Chief Counsel and Staff Director requested contact be made with appropriate officials in the British Government to obtain authority to interview appropriate police officials who were involved in the arrest of James Earl Ray in London on June 8, 1968.

Assistant Legal Attache Dennis Dickson had contact with you on December 6, 1977 regarding this matter. At that time you requested the following:

A) Purpose or scope of inquiry;

B) Names of individuals to be interviewed and reasons therefor;

12/31/85

ENCLOSURE

62-117290-

C) Intended use of results of inquiry, i.e., public hearings, etc., it being noted that any records maintained by the British police would be as the result of an official inquiry and this would normally be available for police use only, unless otherwise exempted by the British Government.

The Select Committee responded that due to the brevity of the 95th Congress, it was most important that representatives of the Select Committee be allowed to meet with appropriate members of New Scotland Yard who are knowledgeable about the KING-RAY investigation. The Committee advised they would be happy to meet personally with British Government officials in London to provide answers to the issues forwarded to them for clarification and elucidation.

I would be most appreciative if you would advise if this situation is agreeable to you.

Sincerely,

Dennis R. Dickson
Acting Legal Attache

NOTE: By teletype dated 12/27/77, field offices designated by the HSCA were advised of the contents of the HSCA letter of 12/13/77. Responses have been received. Rather than incorporate the voluminous results into a letter to the Committee, it is more practical to make available for HSCA access at FBIHQ incoming field office teletypes.

It should be noted that, under current operating procedures existing between the Department of Justice and the HSCA, disclosure of these agents' identities to the HSCA cannot be prevented. However, G. Robert Blakey, Chief Counsel and Director, HSCA, has advised SA D. O. Coulson of Legal Liaison and Congressional Affairs Unit, Legal Counsel Division, that, in absence of an overriding need to do otherwise, the HSCA will not publish the names of any agent personnel below the position of section chief. This policy would follow precedent of the Senate Select Committee on Intelligence which issued its report in 1976.

In response to the above request, the following information is submitted:

On December 19, 1977, Mr. Robert L. Keuch, Deputy Assistant Attorney General, Criminal Division, advised that the Department of Justice would respond to Part A, Items 1 and 2 and Part B, Items 1 and 2, of the above request.

Regarding Part A, Item 3 and Part B, Item 3, the FBI field offices designated by the HSCA were requested to provide the information desired by the HSCA. Responses from these field offices have been received and copies of these documents are available for HSCA access at FBI Headquarters.

With respect to Part A, Item 4, a review of FBI Headquarters indices disclosed no memoranda, records, documents and news releases generated by the FBI in connection with the MURKIN investigation, other than that contained in the MURKIN file, which has already been made available to the HSCA.

In response to Part B, Item 4, it should be noted that HSCA request of November 30, 1977, asked for all FBI material pertaining to Martin Luther King, Jr., and the Southern Christian Leadership Conference (SCLC) in the FBI's Counterintelligence Program (COINTELPRO) file. By letter dated January 11, 1978, you were advised that representatives of the HSCA agreed to limit its request to COINTELPRO files involving the Communist Party USA and Black Nationalist-Hate Groups and to limit the period of HSCA interest from January 1, 1967, to May 1, 1968. On January 23, 1978, Staff Attorney Michael Eberhardt reiterated that the HSCA's interest is that period rather than the years 1965-1968 as set forth in the request of December 13, 1977. The above-mentioned COINTELPRO files and files of the King and SCLC security investigations from January 1, 1967, to May 1, 1968, have been prepared for HSCA access. Therefore, based on knowledge of personnel of the Congressional Inquiry Unit processing HSCA requests regarding King, all material at FBI Headquarters, which may contain COINTELPRO-type activities against King and SCLC during the period January 1, 1967, to May 1, 1968, has been made available to the HSCA.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS

On November 16, 1977, SA William F. Kusch of the Portland Division of the Federal Bureau of Investigation (FBI) was interviewed at House Annex #2 in Washington, D.C., by Mr. Mark Speiser and Mr. Peter Beeson, members of the House Select Committee on Assassinations, investigating the assassination of Dr. Martin Luther King, Jr.

The interview with SA Kusch dealt with a period of time SA Kusch was assigned to the New Orleans Division of the FBI, specifically April, 1968. During April of 1968, SA Kusch, along with numerous other Special Agents assigned to the New Orleans Division, conducted many interviews with persons who had, or who might have had, knowledge of the activities or contacts of James Earl Ray during the period of time Ray, using the name Eric Galt, was in New Orleans.

Specifically, SA Kusch was questioned regarding his squad assignments in New Orleans, the identities of other squad members, the identity of his supervisor, his Agent in charge and his assistant Agent in charge at the time.

Further, SA Kusch was questioned relative to the content of several interview report forms (FD 302s) concerning interviews that he conducted and prepared appropriate FD 302s in connection therewith, or FD 302s covering interviews that he was a party to. House Select Committee on Assassinations members exhibited said FD 302s to SA Kusch to refresh his memory.

House Select Committee members in essence apparently desired SA Kusch to amplify or further expand on these interviews.

SA Kusch pointed out that as a result of the passage of nine and one-half years, for the most part he could not specifically recall the persons interviewed. To specific questions regarding the interviews, SA Kusch could only point out that if additional questions had been asked of these persons interviewed at the time, resulting in the receipt of any positive or pertinent information regarding Galt, that information would have been duly recorded on said FD 302s.

Both Mr. Speiser and Mr. Beeson were cordial and SA Kusch responded to their questions in a candid manner.

M. KELLEY, ET AL (U.S.D.C., D.C.) (CIVIL ACTION NUMBER 76-1186) BUFILE 62-117193, LA FILE 100-57229," LOS ANGELES HAS PERMANENTLY CHARGED OUT TO THE BUREAU SEVERAL SERIALS WHICH THEREFORE ARE NOT AVAILABLE FOR REVIEW. SERIALS WERE FROM FILES CAPTIONED "MARTIN LUTHER KING, JR; SECURITY MATTER-COMMUNIST; BUFILE 100-106670; LA FILE 100-57229"; "COMMUNIST INFILTRATION OF SCLS; IS - C; BUFILE 100-438794 AND 100-442349; LA FILE 100-65141"; "CP-USA NEGRO QUESTION, COMMUNIST INFILTRATION IN RACIAL MATTERS; IS-C; BUFILE 100-3-116, LA FILE 157-859."

A REVIEW OF PERTINENT FILES WITHIN THE LOS ANGELES DIVISION BETWEEN THE YEARS 1965 - 1968 DETERMINED THE FOLLOWING:

. THE ABOVE FILE REGARDING COMMUNIST INFILTRATION OF THE SCLC WAS HANDLED ON THE SUBSTANTATIVE DESK SUPERVISED BY SA JOHN S. TEMPLE WHICH WAS DESIGNATED AS SQUAD NUMBER TWO. THIS SQUAD HANDLED INVESTIGATIONS OF RACIAL AND BLACK EXTREMIST MATTERS. THIS INVESTIGATION WAS ASSIGNED TO SA LOUIS K. DE GEUS IN FEBRUARY 1965; SA R. ANDREWS PETERS IN

SEPTEMBER 1965; SA W. JAMES WOOD IN APRIL 1967; SA WALTER M. BRADY IN JANUARY 1968; AND SA E. RHEAD RICHARDS, JR. IN MAY 1968.

THE MAIN FILE ON KING WAS ASSIGNED TO SQUAD TWO AS ABOVE AND WAS ASSIGNED TO SA DE GEUS IN JANUARY 1965; SA PETERS IN MARCH 1965; SA WOOD IN JANUARY 1967; SA BRADY IN JUNE 1967: AND SA GEORGE E. AIKEN, JR. IN FEBRUARY 1968.

THE FILE REGARDING THE CP-USA INFILTRATION OF RACIAL MATTERS IS ONLY PERIPHERALLY CONCERNED WITH KING OR THE SCLC AND CONTAINS NEWSPAPER CLIPPINGS AND OTHER INFORMATION WHICH WAS INCLUDED IN OTHER SUBSTANTATIVE FILES. WHILE NOT CLEAR, THE CASE APPEARS TO HAVE BEEN CONTROLLED BY SA TEMPLE.

THE ENTIRE SUBSTANTATIVE FILE CAPTIONED "MURKIN; BUFILE 44-38861; LA FILE 44-1574" WAS COPIED AND SUBMITTED TO THE BUREAU UNDER INSTANT CAPTION. THIS MATTER WAS HANDLED ON SQUAD NUMBER ONE WHICH WAS SUPERVISED BY SA WILLIAM JOHN NOLAN BUT APPEARS TO HAVE BEEN SUPERVISED BY

SA TEMPLE. SQUAD NUMBER ONE HANDLED SECURITY TYPE INVESTIGATION INVOLVING THE CP-USA, SWP, ET CETERA. THE CASE APPEARS TO HAVE BEEN AS ASSIGNED JOINTLY TO SA'S LEROY W. SHEETS AND THEODORE J. A'HEARN ALTHOUGH SHEETS WAS APPARENTLY INVOLVED AS CASE AGENT ONLY DURING THE INITIAL STAGES IN APRIL 1968.

ALL OF THE ABOVE INDIVIDUALS WITH THE EXCEPTION OF SA'S BRADY, RICHARDS AND AIKEN ARE NO LONGER EMPLOYEES OF THE FBI.

Dear Mr. Attorney General:

In connection with the investigation of the Select Committee on Assassinations into the death of Dr. Martin Luther King, Jr., a conference was held on November 7, 1977 between employees of the FBI and members of the Committee staff to discuss the Committee's November 3, 1977 letter of request for FBI materials on thirty-five individuals or organizations. As a result of this meeting, the following was resolved:

(a) The FBI would process the following numbered requests as they were originally stated in the November 3rd letter: 1, 4, 5, 7, 9-11, 13-24, 26, 28-33 and 35.

(b) The Committee would provide dates of births on the individuals in requests nos. 12 and 27 before the FBI would process these names. The dob on Robert J. Powers (request no. 12) is 6/5/24. The dob on Reverend Jesse Jackson (request no. 27) is 10/8/41.

(c) Besides providing the complete file on request no. 3 (Jesse B. Stoner), the FBI would also make available the most appropriate case agent(s) in the office of origin assigned to Stoner for the period 1965 through 1968.

(d) With respect to request no. 2, the FBI would provide [illegible] 1957 [illegible] as well as make available the appropriate case agent(s) in the office of origin for the same period.

~~62-117290-3896~~

ENCLOSURE 62-117290-382X

(e) With respect to request no. 6, the Committee would hold in abeyance such a request until the FBI provides a list of the most appropriate case agent(s) in the offices of origin for the several Klan organizations in existence in 1967 and 1968. (While such was not part of the understanding reached at the time of the meeting with FBI officials, the Committee would request however that all materials related to the United Klan of America LS for the period 1965 and 1966 be made ready for inspection by November 20, 1977.)

(f) With respect to request no. 8, the FBI would first advise the Committee as to the identity of other cities reporting on the White Citizens Council before a determination be made as to the final content of this request.

(g) With respect to request no. 25, the Committee will hold in abeyance such a request until the FBI makes available the most appropriate case agent(s) for the period in question.

(h) With respect to request no. 34, the Committee requests that only the thirteen "death threat" files on Dr. King be processed at this time, while a request for all other materials is held in abeyance until the FBI makes available the most appropriate case agent(s).

In Addition, the Committee would also request that the following agents be notified and made available by the FBI:

(1) Special Agent William F. Kusch - New Orleans
Special Agent Thomas E. Duhadway - New Orleans

(2) Special Agent Jack B. Simpson - Memphis ATLANTA

We are primarily interested in those records reflecting their [illegible] records should be provided by November 15, 1977. The Committee would also ask that all three of the above-mentioned Louisville agents be made available for interview by the same date.

NOTE: The Alton bank robbery occurred at the time James Earl Ray was a fugitive, prior to King's assassination. Ray was considered a suspect in this robbery subsequent to being identified as King's killer. No evidence was produced to link Ray with the robbery. The case was closed unsolved in 1972.

In its request of 8/9/77, the HSCA asked for access to our investigation into this bank robbery and the file was prepared. Later, the HSCA submitted a second request which requested "a copy of any and all materials or reports" in the Alton bank robbery. Mr. Keuch advised on 9/19/77, that delivery should be limited only to investigative reports in the case. The requested material was picked up at FBIHQ on 9/19/77 by Oliver Champion, HSCA messenger. Purpose of enclosed memorandum is to confirm delivery of this material.

December 5, 1977

JAMES EARL RAY;
Dr. MARTIN LUTHER KING, JR. - VICTIM;
CIVIL RIGHTS - CONSPIRACY

On November 21, 1977, retired Special Agent Joe C. Hester appeared at Washington, D. C., at the request of the House Committee on Assassinations.

Mr. Hester met with the Committee staff in their offices at Washington, D. C., and was interviewed for a total of four hours by two different groups of five persons each. Both groups were affable and were not in any way critical of the investigation conducted in this case.

The first group of five interviewers asked a variety of questions but seemed to be particularly preoccupied with the investigation conducted by Legats in Mexico. Mr. Hester was able to answer many of the general questions regarding the activities of Legats but referred them to Assistant Director Richard Long when they began to ask more specific questions regarding the investigations by Legats and the manner of transmittal of this information to FBI Headquarters.(U)

The second group of five interviewers asked more general questions regarding the Bureau's investigation of the King murder. They seemed to be greatly concerned with the allegation of conspiracy. Mr. Hester advised them that he believed the conspiracy theory was an invention by the Department of Justice to be used to justify the FBI's investigation of Dr. King's murder. Mr. Hester advised them that he had never personally believed there was a conspiracy and he did not believe that any of his FBI superiors had ever believed in the conspiracy theory. Mr. Hester further advised that it was his personal opinion that James Earl Ray, acting alone, had murdered Dr. King and that his subsequent travels were probably financed by armed robbery.

Memo to DAG, 12-29-77

62-117290-366

RE: JAMES EARL RAY;
Dr. MARTIN LUTHER KING, JR. - VICTIM

This group was concerned with how the subject Ray had known how to obtain false documents following his arrival in Canada. Mr. Hester pointed out that a "Top Ten" criminal had been arrested in Canada and had been returned to the Missouri State Penitentiary and had served time there with James Earl Ray prior to Ray's escape. Mr. Hester indicated it was his belief that this "Top Ten" fugitive had been responsible for instructing Ray on how to proceed in obtaining false documents in Canada.

This group touched on such diverse elements as the information furnished by John McFerren regarding Frank Liberto, and one of the interviewers agreed that they had not believed McFerren to be a very reliable witness. They also discussed Ray's purchase of the rifle in Birmingham; the fact that Officer Redditt was moved from the firehouse near the Lorraine Motel just prior to the murder; what motive did Ray have for killing Dr. King; whether or not there was any evidence to indicate a conspiracy; whether or not there were any wiretaps and whether or not there had been any surreptitious entries made against King and his followers at Memphis prior to the assassination; and when, following his escape, did Ray appear to have made up his mind to assassinate Dr. King.

In addition, they asked numerous questions about the political climate in Memphis just prior to the assassination and inquired as to what investigation was being conducted by the FBI in regard to the Sanitation Workers Strike and the first march conducted by Dr. King. Mr. Hester was forced to admit that he had had nothing to do with the investigation of Dr. King prior to the murder and he suggested that they talk to current Special Agent Howell S. Lowe who would be in a position to furnish information in this regard.

They inquired about the interview of James Earl Ray conducted by former Special Agent in Charge Robert G. Jensen, former Special Agent Robert F. Boyle, and Mr. Hester at the state prison in Nashville, Tennessee, following Ray's plea of guilty. Mr. Hester recounted as best he could recall the events that transpired in connection with this attempted interview and advised the interviewers that former Special Agent Robert F. Boyle has suffered a cerebral hemmorrhage and possibly might not be competent to furnish information regarding this investigation.

RE: JAMES EARL RAY;
Dr. MARTIN LUTHER KING, JR. - VICTIM

The Committee indicated that they might desire to interview Mr. Hester again, either personally or telephonically, and they were assured that he would be available and agreeable to assisting them in any way possible.

NOTE: SL 1495-E (former) (Bureau file 134-19686) was operated from January, 1970, to approximately September, 1971, primarily targeted against White Hate Groups. In 1971, he traveled to Savannah, Georgia, at which time he reported on activities of the National States Rights Party office and that Jerry Ray, brother of James Earl Ray, stated he knew there was another party involved in the killing of King and that his brother was the one who pulled the trigger. This is the apparent HSCA interest in informant.

Referenced communications concern previous informal requests by the HSCA that we contact SL 1495-E to determine if he would be willing to be interviewed by the Committee. St. Louis contacted informant on 1/27/78 and he agreed, but two days later submitted a letter to St. Louis declining to be interviewed by the HSCA. Subsequently, the HSCA determined informant's identity through its investigation and contacted him, at which time, according to the HSCA, he agreed to interview. By letter to the Attorney General dated 1/26/78, the HSCA has asked for all information at FBI Headquarters and in the field concerning informant.

This matter has been coordinated with SA D. O. Coulson, Legal Liaison and Congressional Affairs Unit, Legal Counsel Division, and SA M. V. Hale, Top Echelon and Criminal Informant Unit, Criminal Investigative Division.

II) THE FILES OF THE NEW ORLEANS OFFICE FAIL TO REVEAL THAT THIS OFFICE EITHER CONSIDERED OR ENGAGED IN ANY COUNTERINTELLIGENCE (COIN TEL PRO) EFFORTS DIRECTED AGAINST KING OR THE SOUTHERN CHRISTIAN LEADERSHIP CONFERENCE (SCLC).

NEW ORLEANS FILES WHICH INVOLVE THE SECURITY INVESTIGATIONS OF KING (NO 100-16800) AND THE SCLC (NO 100-16849) HAVE BEEN THOROUGHLY REVIEWED. NEW ORLEANS WAS MERELY AN AUXILIARY OFFICE IN THESE INVESTIGATIONS, WITH ATLANTA BEING THE OO. THE EXTENT OF INVESTIGATION CONDUCTED BY NEW ORLEANS WAS THE COVERING OF LEADS IN LA., SET FORTH BY ATLANTA OR OTHER OFFICES. THESE TWO FILES WERE REVIEWED SERIAL BY SERIAL AND NOWHERE IS THERE ANY INDICATION WHERE COUNTERINTELLIGENCE ACTIVITIES WERE EITHER CONSIDERED OR CARRIED OUT AGAINST KING OR THE SCLC BY THE NEW ORLEANS OFFICE.

DURING THE PERIOD OF 1965 - 1968, THE KING FILE IN THE NEW ORLEANS OFFICE WAS REOPENED AND ASSIGNED AND THEN RUC'D AT LEAST SEVEN TIMES AND THE SCLC FILE WAS REOPENED AND ASSIGNED AT LEAST FIVE TIMES DURING THIS SAME PERIOD.

NOTE The HSCA plans to submit a formal request regarding this matter, but requested informant be contacted for his initial reaction to interview. The Congressional Inquiry Unit, Legal Liaison and Congressional Affairs Unit and Mr. Robert L. Keuch, Deputy Assistant Attorney General, Criminal Division, agree this approach is best prior to continuing discussions to resolve legal and other issues.

The apparent interest of the HSCA involves informant's travel to Savannah, Georgia, in 1971 at which time he reported on activities at the NSRP Office in Savannah, as set forth in referenced communication. Informant reported that Jerry Ray, brother of James Earl Ray, and J. B. Stoner, National Chairman, NSRP, were in the office when Jerry said that the FBI and he knew there was another party involved in the killing of King and that his brother was the one who pulled the trigger. The HSCA has requested FBI information on the NSRP, Stoner, Jerry Ray and other individuals identified as being in attendance in the NSRP Office in Savannah during that time. One of the individuals present, Richard Geppert, was later developed as an informant of the Springfield Office. Geppert has been interviewed by the HSCA and has furnished a signed statement in which he gives authority for HSCA review of all FBI information concerning him, including that pertaining to his confidential relationship with the FBI.

This matter has been coordinated with Legal Liaison and Congressional Affairs Unit and the Organized Crime Section, Criminal Investigative ~~Unit~~ Division

Re: Request from House Select Committee on Assassinations to Meet with British Police Authorities

Dear Mr. Angel:

By way of background, the House Select Committee on Assassinations, as authorized by the U. S. House of Representatives, is investigating the circumstances surrounding the murders of President J. F. Kennedy and Dr. Martin Luther King, Jr.

The Chief Counsel and Staff Director requested contact be made with appropriate officials in the British Government to obtain authority to interview appropriate police officials who were involved in the arrest of James Earl Ray in London on June 8, 1968.

Assistant Legal Attache Dennis Dickson had contact with you on December 6, 1977 regarding this matter. At that time you requested the following:

A) Purpose or scope of inquiry;

B) Names of individuals to be interviewed and reasons therefor;

12/31/85

ENCLOSURE

62-117290-

C) Intended use of results of inquiry, i.e., public hearings, etc., it being noted that any records maintained by the British police would be as the result of an official inquiry and this would normally be available for police use only, unless otherwise exempted by the British Government.

The Select Committee responded that due to the brevity of the 95th Congress, it was most important that representatives of the Select Committee be allowed to meet with appropriate members of New Scotland Yard who are knowledgeable about the KING-RAY investigation. The Committee advised they would be happy to meet personally with British Government officials in London to provide answers to the issues forwarded to them for clarification and elucidation.

I would be most appreciative if you would advise if this situation is agreeable to you.

Sincerely,

Dennis R. Dickson
Acting Legal Attache

MANY THANKS FOR YOUR LETTER OF DECEMBER 9, 1977 ENCLOSING A TELEGRAM FROM AMBASSADOR BREWSTER.

NOTE: By teletype dated 12/27/77, field offices designated by the HSCA were advised of the contents of the HSCA letter of 12/13/77. Responses have been received. Rather than incorporate the voluminous results into a letter to the Committee, it is more practical to make available for HSCA access at FBIHQ incoming field office teletypes.

It should be noted that, under current operating procedures existing between the Department of Justice and the HSCA, disclosure of these agents' identities to the HSCA cannot be prevented. However, G. Robert Blakey, Chief Counsel and Director, HSCA, has advised SA D. O. Coulson of Legal Liaison and Congressional Affairs Unit, Legal Counsel Division, that, in absence of an overriding need to do otherwise, the HSCA will not publish the names of any agent personnel below the position of section chief. This policy would follow precedent of the Senate Select Committee on Intelligence which issued its report in 1976.

In response to Part B, Item 4, it should be noted that HSCA request of November 30, 1977, asked for all FBI material pertaining to Martin Luther King, Jr., and the Southern Christian Leadership Conference (SCLC) in the FBI's Counterintelligence Program (COINTELPRO) file. By letter dated January 11, 1978, you were advised that representatives of the HSCA agreed to limit its request to COINTELPRO files involving the Communist Party USA and Black Nationalist-Hate Groups and to limit the period of HSCA interest from January 1, 1967, to May 1, 1968. On January 23, 1978, Staff Attorney Michael Eberhardt reiterated that the HSCA's interest is that period rather than the years 1965-1968 as set forth in the request of December 13, 1977. The above-mentioned COINTELPRO files and files of the King and SCLC security investigations from January 1, 1967, to May 1, 1968, have been prepared for HSCA access. Therefore, based on knowledge of personnel of the Congressional Inquiry Unit processing HSCA requests regarding King, all material at FBI Headquarters, which may contain COINTELPRO-type activities against King and SCLC during the period January 1, 1967, to May 1, 1968, has been made available to the HSCA.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS

On November 16, 1977, SA William F. Kusch of the Portland Division of the Federal Bureau of Investigation (FBI) was interviewed at House Annex #2 in Washington, D.C., by Mr. Mark Speiser and Mr. Peter Beeson, members of the House Select Committee on Assassinations, investigating the assassination of Dr. Martin Luther King, Jr.

The interview with SA Kusch dealt with a period of time SA Kusch was assigned to the New Orleans Division of the FBI, specifically April, 1968. During April of 1968, SA Kusch, along with numerous other Special Agents assigned to the New Orleans Division, conducted many interviews with persons who had, or who might have had, knowledge of the activities or contacts of James Earl Ray during the period of time Ray, using the name Eric Galt, was in New Orleans.

Specifically, SA Kusch was questioned regarding his squad assignments in New Orleans, the identities of other squad members, the identity of his supervisor, his Agent in charge and his assistant Agent in charge at the time.

Further, SA Kusch was questioned relative to the content of several interview report forms (FD 302s) concerning interviews that he conducted and prepared appropriate FD 302s in connection therewith, or FD 302s covering interviews that he was a party to. House Select Committee on Assassinations members exhibited said FD 302s to SA Kusch to refresh his memory.

House Select Committee members in essence apparently desired SA Kusch to amplify or further expand on these interviews.

SA Kusch pointed out that as a result of the passage of nine and one-half years, for the most part he could not specifically recall the persons interviewed. To specific questions regarding the interviews, SA Kusch could only point out that if additional questions had been asked of these persons interviewed at the time, resulting in the receipt of any positive or pertinent information regarding Galt, that information would have been duly recorded on said FD 302s.

Both Mr. Speiser and Mr. Beeson were cordial and SA Kusch responded to their questions in a candid manner.

M. KELLEY, ET AL (U.S.D.C., D.C.) (CIVIL ACTION NUMBER 76-1186) BUFILE 62-117193, LA FILE 100-57229," LOS ANGELES HAS PERMANENTLY CHARGED OUT TO THE BUREAU SEVERAL SERIALS WHICH THEREFORE ARE NOT AVAILABLE FOR REVIEW. SERIALS WERE FROM FILES CAPTIONED "MARTIN LUTHER KING, JR; SECURITY MATTER-COMMUNIST; BUFILE 100-106670; LA FILE 100-57229"; "COMMUNIST INFILTRATION OF SCLS; IS - C; BUFILE 100-438794 AND 100-442349; LA FILE 100-65141"; "CP-USA NEGRO QUESTION, COMMUNIST INFILTRATION IN RACIAL MATTERS; IS-C; BUFILE 100-3-116, LA FILE 157-859."

A REVIEW OF PERTINENT FILES WITHIN THE LOS ANGELES DIVISION BETWEEN THE YEARS 1965 - 1968 DETERMINED THE FOLLOWING:

. THE ABOVE FILE REGARDING COMMUNIST INFILTRATION OF THE SCLC WAS HANDLED ON THE SUBSTANTATIVE DESK SUPERVISED BY SA JOHN S. TEMPLE WHICH WAS DESIGNATED AS SQUAD NUMBER TWO. THIS SQUAD HANDLED INVESTIGATIONS OF RACIAL AND BLACK EXTREMIST MATTERS. THIS INVESTIGATION WAS ASSIGNED TO SA LOUIS K. DE GEUS IN FEBRUARY 1965; SA R. ANDREWS PETERS IN

SEPTEMBER 1965; SA W. JAMES WOOD IN APRIL 1967; SA WALTER M. BRADY IN JANUARY 1968; AND SA E. RHEAD RICHARDS, JR. IN MAY 1968.

THE MAIN FILE ON KING WAS ASSIGNED TO SQUAD TWO AS ABOVE AND WAS ASSIGNED TO SA DE GEUS IN JANUARY 1965; SA PETERS IN MARCH 1965; SA WOOD IN JANUARY 1967; SA BRADY IN JUNE 1967: AND SA GEORGE E. AIKEN, JR. IN FEBRUARY 1968.

THE FILE REGARDING THE CP-USA INFILTRATION OF RACIAL MATTERS IS ONLY PERIPHERALLY CONCERNED WITH KING OR THE SCLC AND CONTAINS NEWSPAPER CLIPPINGS AND OTHER INFORMATION WHICH WAS INCLUDED IN OTHER SUBSTANTATIVE FILES. WHILE NOT CLEAR, THE CASE APPEARS TO HAVE BEEN CONTROLLED BY SA TEMPLE.

THE ENTIRE SUBSTANTATIVE FILE CAPTIONED "MURKIN; BUFILE 44-38861; LA FILE 44-1574" WAS COPIED AND SUBMITTED TO THE BUREAU UNDER INSTANT CAPTION. THIS MATTER WAS HANDLED ON SQUAD NUMBER ONE WHICH WAS SUPERVISED BY SA WILLIAM JOHN NOLAN BUT APPEARS TO HAVE BEEN SUPERVISED BY

SA TEMPLE. SQUAD NUMBER ONE HANDLED SECURITY TYPE INVESTIGATION INVOLVING THE CP-USA, SWP, ET CETERA. THE CASE APPEARS TO HAVE BEEN AS ASSIGNED JOINTLY TO SA'S LEROY W. SHEETS AND THEODORE J. A'HEARN ALTHOUGH SHEETS WAS APPARENTLY INVOLVED AS CASE AGENT ONLY DURING THE INITIAL STAGES IN APRIL 1968.

ALL OF THE ABOVE INDIVIDUALS WITH THE EXCEPTION OF SA'S BRADY, RICHARDS AND AIKEN ARE NO LONGER EMPLOYEES OF THE FBI.

Attorney General of the United States

Attention: Mr. Robert L. Keuch
Deputy Assistant Attorney General
Criminal Division, Room 2113

Dear Mr. Attorney General:

In connection with the investigation of the Select Committee on Assassinations into the death of Dr. Martin Luther King, Jr., a conference was held on November 7, 1977 between employees of the FBI and members of the Committee staff to discuss the Committee's November 3, 1977 letter of request for FBI materials on thirty-five individuals or organizations. As a result of this meeting, the following was resolved:

(a) The FBI would process the following numbered requests as they were originally stated in the November 3rd letter: 1, 4, 5, 7, 9-11, 13-24, 26, 28-33 and 35.

(b) The Committee would provide dates of births on the individuals in requests nos. 12 and 27 before the FBI would process these names. The dob on Robert J. Powers (request no. 12) is 6/5/24. The dob on Reverend Jesse Jackson (request no. 27) is 10/8/41.

(c) Besides providing the complete file on request no. 3 (Jesse B. Stoner), the FBI would also make available the most appropriate case agent(s) in the office of origin assigned to Stoner for the period 1965 through 1968.

(d) With respect to request no. 2, the FBI would prov[illegible] all [illegible] for 1957 [illegible] as well as make available the appropriate case agent(s) in the office of origin for the same period.

~~62-117290-38[illegible]~~

ENCLOSURE 62-117290-382X

(e) With respect to request no. 6, the Committee would hold in abeyance such a request until the FBI provides a list of the most appropriate case agent(s) in the offices of origin for the several Klan organizations in existence in 1967 and 1968. (While such was not part of the understanding reached at the time of the meeting with FBI officials, the Committee would request however that all materials related to the United Klan of America LS for the period 1965 and 1966 be made ready for inspection by November 20, 1977.)

(f) With respect to request no. 8, the FBI would first advise the Committee as to the identity of other cities reporting on the White Citizens Council before a determination be made as to the final content of this request.

(g) With respect to request no. 25, the Committee will hold in abeyance such a request until the FBI makes available the most appropriate case agent(s) for the period in question.

(h) With respect to request no. 34, the Committee requests that only the thirteen "death threat" files on Dr. King be processed at this time, while a request for all other materials is held in abeyance until the FBI makes available the most appropriate case agent(s).

In Addition, the Committee would also request that the following agents be notified and made available by the FBI:

(1) Special Agent William F. Kusch - New Orleans
Special Agent Thomas E. Duhadway - New Orleans

(2) Special Agent Jack B. Simpson - Memphis ATLANTA
Special Agent Richard H. Davis - Memphis ATLANTA
Special Agent Jack T. Beverstein - Memphis ATLANTA

As a priority item, it is also requested that the FBI provide the Committee with the work or personnel records of the following three Louisville FBI agents for the month of September 1965:

(1) Robert Peters

(2) William Duncan

(3) Bernard Brown

We are primarily interested in those records reflecting their [illegible] records should be provided by November 15, 1977. The Committee would also ask that all three of the above-mentioned Louisville agents be made available for interview by the same date.

Your prompt attention to these matters will be greatly appreciated.

NOTE: The Alton bank robbery occurred at the time James Earl Ray was a fugitive, prior to King's assassination. Ray was considered a suspect in this robbery subsequent to being identified as King's killer. No evidence was produced to link Ray with the robbery. The case was closed unsolved in 1972.

In its request of 8/9/77, the HSCA asked for access to our investigation into this bank robbery and the file was prepared. Later, the HSCA submitted a second request which requested "a copy of any and all materials or reports" in the Alton bank robbery. Mr. Keuch advised on 9/19/77, that delivery should be limited only to investigative reports in the case. The requested material was picked up at FBIHQ on 9/19/77 by Oliver Champion, HSCA messenger. Purpose of enclosed memorandum is to confirm delivery of this material.

JAMES EARL RAY;
Dr. MARTIN LUTHER KING, JR. - VICTIM;
CIVIL RIGHTS - CONSPIRACY

On November 21, 1977, retired Special Agent Joe C. Hester appeared at Washington, D. C., at the request of the House Committee on Assassinations.

Mr. Hester met with the Committee staff in their offices at Washington, D. C., and was interviewed for a total of four hours by two different groups of five persons each. Both groups were affable and were not in any way critical of the investigation conducted in this case.

The first group of five interviewers asked a variety of questions but seemed to be particularly preoccupied with the investigation conducted by Legats in Mexico. Mr. Hester was able to answer many of the general questions regarding the activities of Legats but referred them to Assistant Director Richard Long when they began to ask more specific questions regarding the investigations by Legats and the manner of transmittal of this information to FBI Headquarters.(U)

The second group of five interviewers asked more general questions regarding the Bureau's investigation of the King murder. They seemed to be greatly concerned with the allegation of conspiracy. Mr. Hester advised them that he believed the conspiracy theory was an invention by the Department of Justice to be used to justify the FBI's investigation of Dr. King's murder. Mr. Hester advised them that he had never personally believed there was a conspiracy and he did not believe that any of his FBI superiors had ever believed in the conspiracy theory. Mr. Hester further advised that it was his personal opinion that James Earl Ray, acting alone, had murdered Dr. King and that his subsequent travels were probably financed by armed robbery.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

RE: JAMES EARL RAY;
Dr. MARTIN LUTHER KING, JR. - VICTIM

This group was concerned with how the subject Ray had known how to obtain false documents following his arrival in Canada. Mr. Hester pointed out that a "Top Ten" criminal had been arrested in Canada and had been returned to the Missouri State Penitentiary and had served time there with James Earl Ray prior to Ray's escape. Mr. Hester indicated it was his belief that this "Top Ten" fugitive had been responsible for instructing Ray on how to proceed in obtaining false documents in Canada.

This group touched on such diverse elements as the information furnished by John McFerren regarding Frank Liberto, and one of the interviewers agreed that they had not believed McFerren to be a very reliable witness. They also discussed Ray's purchase of the rifle in Birmingham; the fact that Officer Redditt was moved from the firehouse near the Lorraine Motel just prior to the murder; what motive did Ray have for killing Dr. King; whether or not there was any evidence to indicate a conspiracy; whether or not there were any wiretaps and whether or not there had been any surreptitious entries made against King and his followers at Memphis prior to the assassination; and when, following his escape, did Ray appear to have made up his mind to assassinate Dr. King.

In addition, they asked numerous questions about the political climate in Memphis just prior to the assassination and inquired as to what investigation was being conducted by the FBI in regard to the Sanitation Workers Strike and the first march conducted by Dr. King. Mr. Hester was forced to admit that he had had nothing to do with the investigation of Dr. King prior to the murder and he suggested that they talk to current Special Agent Howell S. Lowe who would be in a position to furnish information in this regard.

They inquired about the interview of James Earl Ray conducted by former Special Agent in Charge Robert G. Jensen, former Special Agent Robert F. Boyle, and Mr. Hester at the state prison in Nashville, Tennessee, following Ray's plea of guilty. Mr. Hester recounted as best he could recall the events that transpired in connection with this attempted interview and advised the interviewers that former Special Agent Robert F. Boyle has suffered a cerebral hemmorrhage and possibly might not be competent to furnish information regarding this investigation.

RE: JAMES EARL RAY;
Dr. MARTIN LUTHER KING, JR. - VICTIM

The Committee indicated that they might desire to interview Mr. Hester again, either personally or telephonically, and they were assured that he would be available and agreeable to assisting them in any way possible.

NOTE: SL 1495-E (former) (Bureau file 134-19686) was operated from January, 1970, to approximately September, 1971, primarily targeted against White Hate Groups. In 1971, he traveled to Savannah, Georgia, at which time he reported on activities of the National States Rights Party office and that Jerry Ray, brother of James Earl Ray, stated he knew there was another party involved in the killing of King and that his brother was the one who pulled the trigger. This is the apparent HSCA interest in informant.

Referenced communications concern previous informal requests by the HSCA that we contact SL 1495-E to determine if he would be willing to be interviewed by the Committee. St. Louis contacted informant on 1/27/78 and he agreed, but two days later submitted a letter to St. Louis declining to be interviewed by the HSCA. Subsequently, the HSCA determined informant's identity through its investigation and contacted him, at which time, according to the HSCA, he agreed to interview. By letter to the Attorney General dated 1/26/78, the HSCA has asked for all information at FBI Headquarters and in the field concerning informant.

This matter has been coordinated with SA D. O. Coulson, Legal Liaison and Congressional Affairs Unit, Legal Counsel Division, and SA M. V. Hale, Top Echelon and Criminal Informant Unit, Criminal Investigative Division.

PRIOR TO HIS INVOLVEMENT IN THE "MURKIN" INVESTIGATION WAS IN THE FIELDS OF CR, RACIAL AND RELATED MATTERS.

II) THE FILES OF THE NEW ORLEANS OFFICE FAIL TO REVEAL THAT THIS OFFICE EITHER CONSIDERED OR ENGAGED IN ANY COUNTERINTELLIGENCE (COIN TEL PRO) EFFORTS DIRECTED AGAINST KING OR THE SOUTHERN CHRISTIAN LEADERSHIP CONFERENCE (SCLC).

NEW ORLEANS FILES WHICH INVOLVE THE SECURITY INVESTIGATIONS OF KING (NO 100-16800) AND THE SCLC (NO 100-16849) HAVE BEEN THOROUGHLY REVIEWED. NEW ORLEANS WAS MERELY AN AUXILIARY OFFICE IN THESE INVESTIGATIONS, WITH ATLANTA BEING THE OO. THE EXTENT OF INVESTIGATION CONDUCTED BY NEW ORLEANS WAS THE COVERING OF LEADS IN LA., SET FORTH BY ATLANTA OR OTHER OFFICES. THESE TWO FILES WERE REVIEWED SERIAL BY SERIAL AND NOWHERE IS THERE ANY INDICATION WHERE COUNTERINTELLIGENCE ACTIVITIES WERE EITHER CONSIDERED OR CARRIED OUT AGAINST KING OR THE SCLC BY THE NEW ORLEANS OFFICE.

DURING THE PERIOD OF 1965 - 1968, THE KING FILE IN THE NEW ORLEANS OFFICE WAS REOPENED AND ASSIGNED AND THEN RUC'D AT LEAST SEVEN TIMES AND THE SCLC FILE WAS REOPENED AND ASSIGNED AT LEAST FIVE TIMES DURING THIS SAME PERIOD.

NOTE The HSCA plans to submit a formal request regarding this matter, but requested informant be contacted for his initial reaction to interview. The Congressional Inquiry Unit, Legal Liaison and Congressional Affairs Unit and Mr. Robert L. Keuch, Deputy Assistant Attorney General, Criminal Division, agree this approach is best prior to continuing discussions to resolve legal and other issues.

The apparent interest of the HSCA involves informant's travel to Savannah, Georgia, in 1971 at which time he reported on activities at the NSRP Office in Savannah, as set forth in referenced communication. Informant reported that Jerry Ray, brother of James Earl Ray, and J. B. Stoner, National Chairman, NSRP, were in the office when Jerry said that the FBI and he knew there was another party involved in the killing of King and that his brother was the one who pulled the trigger. The HSCA has requested FBI information on the NSRP, Stoner, Jerry Ray and other individuals identified as being in attendance in the NSRP Office in Savannah during that time. One of the individuals present, Richard Geppert, was later developed as an informant of the Springfield Office. Geppert has been interviewed by the HSCA and has furnished a signed statement in which he gives authority for HSCA review of all FBI information concerning him, including that pertaining to his confidential relationship with the FBI.

This matter has been coordinated with Legal Liaison and Congressional Affairs Unit and the Organized Crime Section, Criminal Investigative Division

Re: Request from House Select Committee on Assassinations to Meet with British Police Authorities

Dear Mr. Angel:

By way of background, the House Select Committee on Assassinations, as authorized by the U. S. House of Representatives, is investigating the circumstances surrounding the murders of President J. F. Kennedy and Dr. Martin Luther King, Jr.

The Chief Counsel and Staff Director requested contact be made with appropriate officials in the British Government to obtain authority to interview appropriate police officials who were involved in the arrest of James Earl Ray in London on June 8, 1968.

Assistant Legal Attache Dennis Dickson had contact with you on December 6, 1977 regarding this matter. At that time you requested the following:

A) Purpose or scope of inquiry;

B) Names of individuals to be interviewed and reasons therefor;

12/31/85

ENCLOSURE

62-117290-

C) Intended use of results of inquiry, i.e., public hearings, etc., it being noted that any records maintained by the British police would be as the result of an official inquiry and this would normally be available for police use only, unless otherwise exempted by the British Government.

The Select Committee responded that due to the brevity of the 95th Congress, it was most important that representatives of the Select Committee be allowed to meet with appropriate members of New Scotland Yard who are knowledgeable about the KING-RAY investigation. The Committee advised they would be happy to meet personally with British Government officials in London to provide answers to the issues forwarded to them for clarification and elucidation.

I would be most appreciative if you would advise if this situation is agreeable to you.

Sincerely,

Dennis R. Dickson
Acting Legal Attache

NOTE: By teletype dated 12/27/77, field offices designated by the HSCA were advised of the contents of the HSCA letter of 12/13/77. Responses have been received. Rather than incorporate the voluminous results into a letter to the Committee, it is more practical to make available for HSCA access at FBIHQ incoming field office teletypes.

It should be noted that, under current operating procedures existing between the Department of Justice and the HSCA, disclosure of these agents' identities to the HSCA cannot be prevented. However, G. Robert Blakey, Chief Counsel and Director, HSCA, has advised SA D. O. Coulson of Legal Liaison and Congressional Affairs Unit, Legal Counsel Division, that, in absence of an overriding need to do otherwise, the HSCA will not publish the names of any agent personnel below the position of section chief. This policy would follow precedent of the Senate Select Committee on Intelligence which issued its report in 1976.

Reference is made to letter to the Attorney General from G. In response to the above request, the following information is submitted:

On December 19, 1977, Mr. Robert L. Keuch, Deputy Assistant Attorney General, Criminal Division, advised that the Department of Justice would respond to Part A, Items 1 and 2 and Part B, Items 1 and 2, of the above request.

Regarding Part A, Item 3 and Part B, Item 3, the FBI field offices designated by the HSCA were requested to provide the information desired by the HSCA. Responses from these field offices have been received and copies of these documents are available for HSCA access at FBI Headquarters.

With respect to Part A, Item 4, a review of FBI Headquarters indices disclosed no memoranda, records, documents and news releases generated by the FBI in connection with the MURKIN investigation, other than that contained in the MURKIN file, which has already been made available to the HSCA.

In response to Part B, Item 4, it should be noted that HSCA request of November 30, 1977, asked for all FBI material pertaining to Martin Luther King, Jr., and the Southern Christian Leadership Conference (SCLC) in the FBI's Counterintelligence Program (COINTELPRO) file. By letter dated January 11, 1978, you were advised that representatives of the HSCA agreed to limit its request to COINTELPRO files involving the Communist Party USA and Black Nationalist-Hate Groups and to limit the period of HSCA interest from January 1, 1967, to May 1, 1968. On January 23, 1978, Staff Attorney Michael Eberhardt reiterated that the HSCA's interest is that period rather than the years 1965-1968 as set forth in the request of December 13, 1977. The above-mentioned COINTELPRO files and files of the King and SCLC security investigations from January 1, 1967, to May 1, 1968, have been prepared for HSCA access. Therefore, based on knowledge of personnel of the Congressional Inquiry Unit processing HSCA requests regarding King, all material at FBI Headquarters, which may contain COINTELPRO-type activities against King and SCLC during the period January 1, 1967, to May 1, 1968, has been made available to the HSCA.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS

On November 16, 1977, SA William F. Kusch of the Portland Division of the Federal Bureau of Investigation (FBI) was interviewed at House Annex #2 in Washington, D.C., by Mr. Mark Speiser and Mr. Peter Beeson, members of the House Select Committee on Assassinations, investigating the assassination of Dr. Martin Luther King, Jr.

The interview with SA Kusch dealt with a period of time SA Kusch was assigned to the New Orleans Division of the FBI, specifically April, 1968. During April of 1968, SA Kusch, along with numerous other Special Agents assigned to the New Orleans Division, conducted many interviews with persons who had, or who might have had, knowledge of the activities or contacts of James Earl Ray during the period of time Ray, using the name Eric Galt, was in New Orleans.

Specifically, SA Kusch was questioned regarding his squad assignments in New Orleans, the identities of other squad members, the identity of his supervisor, his Agent in charge and his assistant Agent in charge at the time.

Further, SA Kusch was questioned relative to the content of several interview report forms (FD 302s) concerning interviews that he conducted and prepared appropriate FD 302s in connection therewith, or FD 302s covering interviews that he was a party to. House Select Committee on Assassinations members exhibited said FD 302s to SA Kusch to refresh his memory.

House Select Committee members in essence apparently desired SA Kusch to amplify or further expand on these interviews.

SA Kusch pointed out that as a result of the passage of nine and one-half years, for the most part he could not specifically recall the persons interviewed. To specific questions regarding the interviews, SA Kusch could only point out that if additional questions had been asked of these persons interviewed at the time, resulting in the receipt of any positive or pertinent information regarding Galt, that information would have been duly recorded on said FD 302s.

Both Mr. Speiser and Mr. Beeson were cordial and SA Kusch responded to their questions in a candid manner.

M. KELLEY, ET AL (U.S.D.C., D.C.) (CIVIL ACTION NUMBER 76-1186) BUFILE 62-117193, LA FILE 100-57229," LOS ANGELES HAS PERMANENTLY CHARGED OUT TO THE BUREAU SEVERAL SERIALS WHICH THEREFORE ARE NOT AVAILABLE FOR REVIEW. SERIALS WERE FROM FILES CAPTIONED "MARTIN LUTHER KING, JR; SECURITY MATTER-COMMUNIST; BUFILE 100-106670; LA FILE 100-57229"; "COMMUNIST INFILTRATION OF SCLS; IS -C; BUFILE 100-438794 AND 100-442349; LA FILE 100-65141"; "CP-USA NEGRO QUESTION, COMMUNIST INFILTRATION IN RACIAL MATTERS; IS-C; BUFILE 100-3-116, LA FILE 157-859."

A REVIEW OF PERTINENT FILES WITHIN THE LOS ANGELES DIVISION BETWEEN THE YEARS 1965 - 1968 DETERMINED THE FOLLOWING:

. THE ABOVE FILE REGARDING COMMUNIST INFILTRATION OF THE SCLC WAS HANDLED ON THE SUBSTANTATIVE DESK SUPERVISED BY SA JOHN S. TEMPLE WHICH WAS DESIGNATED AS SQUAD NUMBER TWO. THIS SQUAD HANDLED INVESTIGATIONS OF RACIAL AND BLACK EXTREMIST MATTERS. THIS INVESTIGATION WAS ASSIGNED TO SA LOUIS K. DE GEUS IN FEBRUARY 1965; SA R. ANDREWS PETERS IN

SEPTEMBER 1965; SA W. JAMES WOOD IN APRIL 1967; SA WALTER M. BRADY IN JANUARY 1968; AND SA E. RHEAD RICHARDS, JR. IN MAY 1968.

THE MAIN FILE ON KING WAS ASSIGNED TO SQUAD TWO AS ABOVE AND WAS ASSIGNED TO SA DE GEUS IN JANUARY 1965; SA PETERS IN MARCH 1965; SA WOOD IN JANUARY 1967; SA BRADY IN JUNE 1967: AND SA GEORGE E. AIKEN, JR. IN FEBRUARY 1968.

THE FILE REGARDING THE CP-USA INFILTRATION OF RACIAL MATTERS IS ONLY PERIPHERALLY CONCERNED WITH KING OR THE SCLC AND CONTAINS NEWSPAPER CLIPPINGS AND OTHER INFORMATION WHICH WAS INCLUDED IN OTHER SUBSTANTATIVE FILES. WHILE NOT CLEAR, THE CASE APPEARS TO HAVE BEEN CONTROLLED BY SA TEMPLE.

THE ENTIRE SUBSTANTATIVE FILE CAPTIONED "MURKIN; BUFILE 44-38861; LA FILE 44-1574" WAS COPIED AND SUBMITTED TO THE BUREAU UNDER INSTANT CAPTION. THIS MATTER WAS HANDLED ON SQUAD NUMBER ONE WHICH WAS SUPERVISED BY SA WILLIAM JOHN NOLAN BUT APPEARS TO HAVE BEEN SUPERVISED BY

SA TEMPLE. SQUAD NUMBER ONE HANDLED SECURITY TYPE INVESTIGATION INVOLVING THE CP-USA, SWP, ET CETERA. THE CASE APPEARS TO HAVE BEEN AS ASSIGNED JOINTLY TO SA'S LEROY W. SHEETS AND THEODORE J. A'HEARN ALTHOUGH SHEETS WAS APPARENTLY INVOLVED AS CASE AGENT ONLY DURING THE INITIAL STAGES IN APRIL 1968.

ALL OF THE ABOVE INDIVIDUALS WITH THE EXCEPTION OF SA'S BRADY, RICHARDS AND AIKEN ARE NO LONGER EMPLOYEES OF THE FBI.

Attention: Mr. Robert L. Keuch
Deputy Assistant Attorney General
Criminal Division, Room 2113

Dear Mr. Attorney General:

In connection with the investigation of the Select Committee on Assassinations into the death of Dr. Martin Luther King, Jr., a conference was held on November 7, 1977 between employees of the FBI and members of the Committee staff to discuss the Committee's November 3, 1977 letter of request for FBI materials on thirty-five individuals or organizations. As a result of this meeting, the following was resolved:

(a) The FBI would process the following numbered requests as they were originally stated in the November 3rd letter: 1, 4, 5, 7, 9-11, 13-24, 26, 28-33 and 35.

(b) The Committee would provide dates of births on the individuals in requests nos. 12 and 27 before the FBI would process these names. The dob on Robert J. Powers (request no. 12) is 6/5/24. The dob on Reverend Jesse Jackson (request no. 27) is 10/8/41.

(c) Besides providing the complete file on request no. 3 (Jesse B. Stoner), the FBI would also make available the most appropriate case agent(s) in the office of origin assigned to Stoner for the period 1965 through 1968.

(d) With respect to request no. 2, the FBI would provide all [illegible] files [illegible] for 1957 [illegible] as well as make available the appropriate case agent(s) in the office of origin for the same period.

~~62-117290-3896~~

ENCLOSURE 62-117290-382X

(e) With respect to request no. 6, the Committee would hold in abeyance such a request until the FBI provides a list of the most appropriate case agent(s) in the offices of origin for the several Klan organizations in existence in 1967 and 1968. (While such was not part of the understanding reached at the time of the meeting with FBI officials, the Committee would request however that all materials related to the United Klan of America LS for the period 1965 and 1966 be made ready for inspection by November 20, 1977.)

(f) With respect to request no. 8, the FBI would first advise the Committee as to the identity of other cities reporting on the White Citizens Council before a determination be made as to the final content of this request.

(g) With respect to request no. 25, the Committee will hold in abeyance such a request until the FBI makes available the most appropriate case agent(s) for the period in question.

(h) With respect to request no. 34, the Committee requests that only the thirteen "death threat" files on Dr. King be processed at this time, while a request for all other materials is held in abeyance until the FBI makes available the most appropriate case agent(s).

In Addition, the Committee would also request that the following agents be notified and made available by the FBI:

(1) Special Agent William F. Kusch - New Orleans
Special Agent Thomas E. Duhadway - New Orleans

(2) Special Agent Jack B. Simpson - Memphis ATLANTA
Special Agent Richard H. Davis - Memphis ATLANTA
Special Agent Jack T. Beverstein - Memphis ATLANTA

As a priority item, it is also requested that the FBI provide the Committee with the work or personnel records of the following three Louisville FBI agents for the month of September 1965:

(1) Robert Peters

(2) William Duncan

(3) Bernard Brown

We are primarily interested in those records reflecting their [illegible] records should be provided by November 15, 1977. The Committee would also ask that all three of the above-mentioned Louisville agents be made available for interview by the same date.

Your prompt attention to these matters will be greatly appreciated.

NOTE: The Alton bank robbery occurred at the time James Earl Ray was a fugitive, prior to King's assassination. Ray was considered a suspect in this robbery subsequent to being identified as King's killer. No evidence was produced to link Ray with the robbery. The case was closed unsolved in 1972.

In its request of 8/9/77, the HSCA asked for access to our investigation into this bank robbery and the file was prepared. Later, the HSCA submitted a second request which requested "a copy of any and all materials or reports" in the Alton bank robbery. Mr. Keuch advised on 9/19/77, that delivery should be limited only to investigative reports in the case. The requested material was picked up at FBIHQ on 9/19/77 by Oliver Champion, HSCA messenger. Purpose of enclosed memorandum is to confirm delivery of this material.

December 5, 1977

JAMES EARL RAY;
Dr. MARTIN LUTHER KING, JR. - VICTIM;
CIVIL RIGHTS - CONSPIRACY

On November 21, 1977, retired Special Agent Joe C. Hester appeared at Washington, D. C., at the request of the House Committee on Assassinations.

Mr. Hester met with the Committee staff in their offices at Washington, D. C., and was interviewed for a total of four hours by two different groups of five persons each. Both groups were affable and were not in any way critical of the investigation conducted in this case.

The first group of five interviewers asked a variety of questions but seemed to be particularly preoccupied with the investigation conducted by Legats in Mexico. Mr. Hester was able to answer many of the general questions regarding the activities of Legats but referred them to Assistant Director Richard Long when they began to ask more specific questions regarding the investigations by Legats and the manner of transmittal of this information to FBI Headquarters.(u)

The second group of five interviewers asked more general questions regarding the Bureau's investigation of the King murder. They seemed to be greatly concerned with the allegation of conspiracy. Mr. Hester advised them that he believed the conspiracy theory was an invention by the Department of Justice to be used to justify the FBI's investigation of Dr. King's murder. Mr. Hester advised them that he had never personally believed there was a conspiracy and he did not believe that any of his FBI superiors had ever believed in the conspiracy theory. Mr. Hester further advised that it was his personal opinion that James Earl Ray, acting alone, had murdered Dr. King and that his subsequent travels were probably financed by armed robbery.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

RE: JAMES EARL RAY;
Dr. MARTIN LUTHER KING, JR. - VICTIM

This group was concerned with how the subject Ray had known how to obtain false documents following his arrival in Canada. Mr. Hester pointed out that a "Top Ten" criminal had been arrested in Canada and had been returned to the Missouri State Penitentiary and had served time there with James Earl Ray prior to Ray's escape. Mr. Hester indicated it was his belief that this "Top Ten" fugitive had been responsible for instructing Ray on how to proceed in obtaining false documents in Canada.

This group touched on such diverse elements as the information furnished by John McFerren regarding Frank Liberto, and one of the interviewers agreed that they had not believed McFerren to be a very reliable witness. They also discussed Ray's purchase of the rifle in Birmingham; the fact that Officer Redditt was moved from the firehouse near the Lorraine Motel just prior to the murder; what motive did Ray have for killing Dr. King; whether or not there was any evidence to indicate a conspiracy; whether or not there were any wiretaps and whether or not there had been any surreptitious entries made against King and his followers at Memphis prior to the assassination; and when, following his escape, did Ray appear to have made up his mind to assassinate Dr. King.

In addition, they asked numerous questions about the political climate in Memphis just prior to the assassination and inquired as to what investigation was being conducted by the FBI in regard to the Sanitation Workers Strike and the first march conducted by Dr. King. Mr. Hester was forced to admit that he had had nothing to do with the investigation of Dr. King prior to the murder and he suggested that they talk to current Special Agent Howell S. Lowe who would be in a position to furnish information in this regard.

They inquired about the interview of James Earl Ray conducted by former Special Agent in Charge Robert G. Jensen, former Special Agent Robert F. Boyle, and Mr. Hester at the state prison in Nashville, Tennessee, following Ray's plea of guilty. Mr. Hester recounted as best he could recall the events that transpired in connection with this attempted interview and advised the interviewers that former Special Agent Robert F. Boyle has suffered a cerebral hemmorrhage and possibly might not be competent to furnish information regarding this investigation.

RE: JAMES EARL RAY;
Dr. MARTIN LUTHER KING, JR. - VICTIM

The Committee indicated that they might desire to interview Mr. Hester again, either personally or telephonically, and they were assured that he would be available and agreeable to assisting them in any way possible.

NOTE: SL 1495-E (former) (Bureau file 134-19686) was operated from January, 1970, to approximately September, 1971, primarily targeted against White Hate Groups. In 1971, he traveled to Savannah, Georgia, at which time he reported on activities of the National States Rights Party office and that Jerry Ray, brother of James Earl Ray, stated he knew there was another party involved in the killing of King and that his brother was the one who pulled the trigger. This is the apparent HSCA interest in informant.

Referenced communications concern previous informal requests by the HSCA that we contact SL 1495-E to determine if he would be willing to be interviewed by the Committee. St. Louis contacted informant on 1/27/78 and he agreed, but two days later submitted a letter to St. Louis declining to be interviewed by the HSCA. Subsequently, the HSCA determined informant's identity through its investigation and contacted him, at which time, according to the HSCA, he agreed to interview. By letter to the Attorney General dated 1/26/78, the HSCA has asked for all information at FBI Headquarters and in the field concerning informant.

This matter has been coordinated with SA D. O. Coulson, Legal Liaison and Congressional Affairs Unit, Legal Counsel Division, and SA M. V. Hale, Top Echelon and Criminal Informant Unit, Criminal Investigative Division.

II) THE FILES OF THE NEW ORLEANS OFFICE FAIL TO REVEAL THAT THIS OFFICE EITHER CONSIDERED OR ENGAGED IN ANY COUNTERINTELLIGENCE (COIN TEL PRO) EFFORTS DIRECTED AGAINST KING OR THE SOUTHERN CHRISTIAN LEADERSHIP CONFERENCE (SCLC).

NEW ORLEANS FILES WHICH INVOLVE THE SECURITY INVESTIGATIONS OF KING (NO 100-16800) AND THE SCLC (NO 100-16849) HAVE BEEN THOROUGHLY REVIEWED. THE EXTENT OF INVESTIGATION CONDUCTED BY NEW ORLEANS WAS THE COVERING OF LEADS IN LA., SET FORTH BY ATLANTA OR OTHER OFFICES. THESE TWO FILES WERE REVIEWED SERIAL BY SERIAL AND NOWHERE IS THERE ANY INDICATION WHERE COUNTERINTELLIGENCE ACTIVITIES WERE EITHER CONSIDERED OR CARRIED OUT AGAINST KING OR THE SCLC BY THE NEW ORLEANS OFFICE.

DURING THE PERIOD OF 1965 - 1968, THE KING FILE IN THE NEW ORLEANS OFFICE WAS REOPENED AND ASSIGNED AND THEN RUC'D AT LEAST SEVEN TIMES AND THE SCLC FILE WAS REOPENED AND ASSIGNED AT LEAST FIVE TIMES DURING THIS SAME PERIOD.

NOTE The HSCA plans to submit a formal request regarding this matter, but requested informant be contacted for his initial reaction to interview. The Congressional Inquiry Unit, Legal Liaison and Congressional Affairs Unit and Mr. Robert L. Keuch, Deputy Assistant Attorney General, Criminal Division, agree this approach is best prior to continuing discussions to resolve legal and other issues.

The apparent interest of the HSCA involves informant's travel to Savannah, Georgia, in 1971 at which time he reported on activities at the NSRP Office in Savannah, as set forth in referenced communication. Informant reported that Jerry Ray, brother of James Earl Ray, and J. B. Stoner, National Chairman, NSRP, were in the office when Jerry said that the FBI and he knew there was another party involved in the killing of King and that his brother was the one who pulled the trigger. The HSCA has requested FBI information on the NSRP, Stoner, Jerry Ray and other individuals identified as being in attendance in the NSRP Office in Savannah during that time. One of the individuals present, Richard Geppert, was later developed as an informant of the Springfield Office. Geppert has been interviewed by the HSCA and has furnished a signed statement in which he gives authority for HSCA review of all FBI information concerning him, including that pertaining to his confidential relationship with the FBI.

This matter has been coordinated with Legal Liaison and Congressional Affairs Unit and the Organized Crime Section, Criminal Investigative Division

Re: Request from House Select Committee on Assassinations to Meet with British Police Authorities

Dear Mr. Angel:

By way of background, the House Select Committee on Assassinations, as authorized by the U. S. House of Representatives, is investigating the circumstances surrounding the murders of President J. F. Kennedy and Dr. Martin Luther King, Jr.

The Chief Counsel and Staff Director requested contact be made with appropriate officials in the British Government to obtain authority to interview appropriate police officials who were involved in the arrest of James Earl Ray in London on June 8, 1968.

Assistant Legal Attache Dennis Dickson had contact with you on December 6, 1977 regarding this matter. At that time you requested the following:

A) Purpose or scope of inquiry;

B) Names of individuals to be interviewed and reasons therefor;

12/31/85

ENCLOSURE

62-117290-

C) Intended use of results of inquiry, i.e., public hearings, etc., it being noted that any records maintained by the British police would be as the result of an official inquiry and this would normally be available for police use only, unless otherwise exempted by the British Government.

The Select Committee responded that due to the brevity of the 95th Congress, it was most important that representatives of the Select Committee be allowed to meet with appropriate members of New Scotland Yard who are knowledgeable about the KING-RAY investigation. The Committee advised they would be happy to meet personally with British Government officials in London to provide answers to the issues forwarded to them for clarification and elucidation.

I would be most appreciative if you would advise if this situation is agreeable to you.

Sincerely,

Dennis R. Dickson
Acting Legal Attache

NOTE: By teletype dated 12/27/77, field offices designated by the HSCA were advised of the contents of the HSCA letter of 12/13/77. Responses have been received. Rather than incorporate the voluminous results into a letter to the Committee, it is more practical to make available for HSCA access at FBIHQ incoming field office teletypes.

It should be noted that, under current operating procedures existing between the Department of Justice and the HSCA, disclosure of these agents' identities to the HSCA cannot be prevented. However, G. Robert Blakey, Chief Counsel and Director, HSCA, has advised SA D. O. Coulson of Legal Liaison and Congressional Affairs Unit, Legal Counsel Division, that, in absence of an overriding need to do otherwise, the HSCA will not publish the names of any agent personnel below the position of section chief. This policy would follow precedent of the Senate Select Committee on Intelligence which issued its report in 1976.

In response to the above request, the following information is submitted:

On December 19, 1977, Mr. Robert L. Keuch, Deputy Assistant Attorney General, Criminal Division, advised that the Department of Justice would respond to Part A, Items 1 and 2 and Part B, Items 1 and 2, of the above request.

Regarding Part A, Item 3 and Part B, Item 3, the FBI field offices designated by the HSCA were requested to provide the information desired by the HSCA. Responses from these field offices have been received and copies of these documents are available for HSCA access at FBI Headquarters.

With respect to Part A, Item 4, a review of FBI Headquarters indices disclosed no memoranda, records, documents and news releases generated by the FBI in connection with the MURKIN investigation, other than that contained in the MURKIN file, which has already been made available to the HSCA.

In response to Part B, Item 4, it should be noted that HSCA request of November 30, 1977, asked for all FBI material pertaining to Martin Luther King, Jr., and the Southern Christian Leadership Conference (SCLC) in the FBI's Counterintelligence Program (COINTELPRO) file. By letter dated January 11, 1978, you were advised that representatives of the HSCA agreed to limit its request to COINTELPRO files involving the Communist Party USA and Black Nationalist-Hate Groups and to limit the period of HSCA interest from January 1, 1967, to May 1, 1968. On January 23, 1978, Staff Attorney Michael Eberhardt reiterated that the HSCA's interest is that period rather than the years 1965-1968 as set forth in the request of December 13, 1977. The above-mentioned COINTELPRO files and files of the King and SCLC security investigations from January 1, 1967, to May 1, 1968, have been prepared for HSCA access. Therefore, based on knowledge of personnel of the Congressional Inquiry Unit processing HSCA requests regarding King, all material at FBI Headquarters, which may contain COINTELPRO-type activities against King and SCLC during the period January 1, 1967, to May 1, 1968, has been made available to the HSCA.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS

On November 16, 1977, SA William F. Kusch of the Portland Division of ~~the Federal~~ Bureau ~~of Investigation~~ (FBI) was interviewed at House Annex #2 in Washington, D.C., by Mr. Mark Speiser and Mr. Peter Beeson, members of the House Select Committee on Assassinations, investigating the assassination of Dr. Martin Luther King, Jr.

The interview with SA Kusch dealt with a period of time SA Kusch was assigned to the New Orleans Division of the FBI, specifically April, 1968. During April of 1968, SA Kusch, along with numerous other Special Agents assigned to the New Orleans Division, conducted many interviews with persons who had, or who might have had, knowledge of the activities or contacts of James Earl Ray during the period of time Ray, using the name Eric Galt, was in New Orleans.

Specifically, SA Kusch was questioned regarding his squad assignments in New Orleans, the identities of other squad members, the identity of his supervisor, his Agent in charge and his assistant Agent in charge at the time.

Further, SA Kusch was questioned relative to the content of several interview report forms (FD 302s) concerning interviews that he conducted and prepared appropriate FD 302s in connection therewith, or FD 302s covering interviews that he was a party to. House Select Committee on Assassinations members exhibited said FD 302s to SA Kusch to refresh his memory.

House Select Committee members in essence apparently desired SA Kusch to amplify or further expand on these interviews.

SA Kusch pointed out that as a result of the passage of nine and one-half years, for the most part he could not specifically recall the persons interviewed. To specific questions regarding the interviews, SA Kusch could only point out that if additional questions had been asked of these persons interviewed at the time, resulting in the receipt of any positive or pertinent information regarding Galt, that information would have been duly recorded on said FD 302s.

Both Mr. Speiser and Mr. Beeson were cordial and SA Kusch responded to their questions in a candid manner.

Reference is made to letter to the Attorney General from G. Robert Blakey, Chief Counsel and Director, HSCA, dated December 15, 1977, which requested information in connection with the HSCA's investigation into the assassination of Martin Luther King, Jr. This letter requested that the FBI determine the dates and places of any and all electronic surveillance of King and any other individual directly or indirectly associated with the Southern Christian Leadership Conference (SCLC). The Committee indicated it only desired written confirmation as to the existence of such electronic surveillance and the dates and places involved, with no reference to the results of such surveillance.

In response to the above request, appropriate records at FBI Headquarters were reviewed with the following results:

Microphone Surveillances of King

Dates of Surveillance	Location
January 5-7, 1964	Willard Hotel, Washington, D. C.
January 27, 1964	Shroeder Hotel, Milwaukee, Wisconsin

M. KELLEY, ET AL (U.S.D.C., D.C.) (CIVIL ACTION NUMBER 76-1186) BUFILE 62-117193, LA FILE 100-57229," LOS ANGELES HAS PERMANENTLY CHARGED OUT TO THE BUREAU SEVERAL SERIALS WHICH THEREFORE ARE NOT AVAILABLE FOR REVIEW. SERIALS WERE FROM FILES CAPTIONED "MARTIN LUTHER KING, JR; SECURITY MATTER-COMMUNIST; BUFILE 100-106670; LA FILE 100-57229"; "COMMUNIST INFILTRATION OF SCLS; IS - C; BUFILE 100-438794 AND 100-442349; LA FILE 100-65141"; "CP-USA NEGRO QUESTION, COMMUNIST INFILTRATION IN RACIAL MATTERS; IS-C; BUFILE 100-3-116, LA FILE 157-859."

A REVIEW OF PERTINENT FILES WITHIN THE LOS ANGELES DIVISION BETWEEN THE YEARS 1965 - 1968 DETERMINED THE FOLLOWING:

. THE ABOVE FILE REGARDING COMMUNIST INFILTRATION OF THE SCLC WAS HANDLED ON THE SUBSTANTATIVE DESK SUPERVISED BY SA JOHN S. TEMPLE WHICH WAS DESIGNATED AS SQUAD NUMBER TWO. THIS SQUAD HANDLED INVESTIGATIONS OF RACIAL AND BLACK EXTREMIST MATTERS. THIS INVESTIGATION WAS ASSIGNED TO SA LOUIS K. DE GEUS IN FEBRUARY 1965; SA R. ANDREWS PETERS IN

SEPTEMBER 1965; SA W. JAMES WOOD IN APRIL 1967; SA WALTER M. BRADY IN JANUARY 1968; AND SA E. RHEAD RICHARDS, JR. IN MAY 1968.

THE MAIN FILE ON KING WAS ASSIGNED TO SQUAD TWO AS ABOVE AND WAS ASSIGNED TO SA DE GEUS IN JANUARY 1965; SA PETERS IN MARCH 1965; SA WOOD IN JANUARY 1967; SA BRADY IN JUNE 1967: AND SA GEORGE E. AIKEN, JR. IN FEBRUARY 1968.

THE FILE REGARDING THE CP-USA INFILTRATION OF RACIAL MATTERS IS ONLY PERIPHERALLY CONCERNED WITH KING OR THE SCLC AND CONTAINS NEWSPAPER CLIPPINGS AND OTHER INFORMATION WHICH WAS INCLUDED IN OTHER SUBSTANTATIVE FILES. WHILE NOT CLEAR, THE CASE APPEARS TO HAVE BEEN CONTROLLED BY SA TEMPLE.

THE ENTIRE SUBSTANTATIVE FILE CAPTIONED "MURKIN; BUFILE 44-38861; LA FILE 44-1574" WAS COPIED AND SUBMITTED TO THE BUREAU UNDER INSTANT CAPTION. THIS MATTER WAS HANDLED ON SQUAD NUMBER ONE WHICH WAS SUPERVISED BY SA WILLIAM JOHN NOLAN BUT APPEARS TO HAVE BEEN SUPERVISED BY

SA TEMPLE. SQUAD NUMBER ONE HANDLED SECURITY TYPE INVESTIGATION INVOLVING THE CP-USA, SWP, ET CETERA. THE CASE APPEARS TO HAVE BEEN AS ASSIGNED JOINTLY TO SA'S LEROY W. SHEETS AND THEODORE J. A'HEARN ALTHOUGH SHEETS WAS APPARENTLY INVOLVED AS CASE AGENT ONLY DURING THE INITIAL STAGES IN APRIL 1968.

ALL OF THE ABOVE INDIVIDUALS WITH THE EXCEPTION OF SA'S BRADY, RICHARDS AND AIKEN ARE NO LONGER EMPLOYEES OF THE FBI.

The Honorable Griffin B. Bell
Attorney General of the United States

Attention: Mr. Robert L. Keuch
Deputy Assistant Attorney General
Criminal Division, Room 2113

Dear Mr. Attorney General:

In connection with the investigation of the Select Committee on Assassinations into the death of Dr. Martin Luther King, Jr., a conference was held on November 7, 1977 between employees of the FBI and members of the Committee staff to discuss the Committee's November 3, 1977 letter of request for FBI materials on thirty-five individuals or organizations. As a result of this meeting, the following was resolved:

(a) The FBI would process the following numbered requests as they were originally stated in the November 3rd letter: 1, 4, 5, 7, 9-11, 13-24, 26, 28-33 and 35.

(b) The Committee would provide dates of births on the individuals in requests nos. 12 and 27 before the FBI would process these names. The dob on Robert J. Powers (request no. 12) is 6/5/24. The dob on Reverend Jesse Jackson (request no. 27) is 10/8/41.

(c) Besides prodiding the complete file on request no. 3 (Jesse B. Stoner), the FBI would also make available the most appropriate case agent(s) in the office of origin assigned to Stoner for the period 1965 through 1968.

(d) With respect to request no. 2, the FBI would provide all [illegible] 1957 [illegible] as well as make available the appropriate case agent(s) in the office of origin for the same period.

~~62-117290-3896~~

ENCLOSURE 62-117290-382X

(e) With respect to request no. 6, the Committee would hold in abeyance such a request until the FBI provides a list of the most appropriate case agent(s) in the offices of origin for the several Klan organizations in existence in 1967 and 1968. (While such was not part of the understanding reached at the time of the meeting with FBI officials, the Committee would request however that all materials related to the United Klan of America LS for the period 1965 and 1966 be made ready for inspection by November 20, 1977.)

(f) With respect to request no. 8, the FBI would first advise the Committee as to the identity of other cities reporting on the White Citizens Council before a determination be made as to the final content of this request.

(g) With respect to request no. 25, the Committee will hold in abeyance such a request until the FBI makes available the most appropriate case agent(s) for the period in question.

(h) With respect to request no. 34, the Committee requests that only the thirteen "death threat" files on Dr. King be processed at this time, while a request for all other materials is held in abeyance until the FBI makes available the most appropriate case agent(s).

In Addition, the Committee would also request that the following agents be notified and made available by the FBI:

(1) Special Agent William F. Kusch - New Orleans
Special Agent Thomas E. Duhadway - New Orleans

(2) Special Agent Jack B. Simpson - Memphis ATLANTA
Special Agent Richard H. Davis - Memphis ATLANTA
Special Agent Jack T. Beverstein - Memphis ATLANTA

As a priority item, it is also requested that the FBI provide the Committee with the work or personnel records of the following three Louisville FBI agents for the month of September 1965:

(1) Robert Peters

(2) William Duncan

(3) Bernard Brown

We are primarily interested in those records reflecting their [illegible] records should be provided by November 15, 1977. The Committee would also ask that all three of the above-mentioned Louisville agents be made available for interview by the same date.

Your prompt attention to these matters will be greatly appreciated.

NOTE: The Alton bank robbery occurred at the time James Earl Ray was a fugitive, prior to King's assassination. Ray was considered a suspect in this robbery subsequent to being identified as King's killer. No evidence was produced to link Ray with the robbery. The case was closed unsolved in 1972.

In its request of 8/9/77, the HSCA asked for access to our investigation into this bank robbery and the file was prepared. Later, the HSCA submitted a second request which requested "a copy of any and all materials or reports" in the Alton bank robbery. Mr. Keuch advised on 9/19/77, that delivery should be limited only to investigative reports in the case. The requested material was picked up at FBIHQ on 9/19/77 by Oliver Champion, HSCA messenger. Purpose of enclosed memorandum is to confirm delivery of this material.

December 5, 1977

JAMES EARL RAY;
Dr. MARTIN LUTHER KING, JR. - VICTIM;
CIVIL RIGHTS - CONSPIRACY

On November 21, 1977, retired Special Agent Joe C. Hester appeared at Washington, D. C., at the request of the House Committee on Assassinations.

Mr. Hester met with the Committee staff in their offices at Washington, D. C., and was interviewed for a total of four hours by two different groups of five persons each. Both groups were affable and were not in any way critical of the investigation conducted in this case.

The first group of five interviewers asked a variety of questions but seemed to be particularly preoccupied with the investigation conducted by Legats in Mexico. Mr. Hester was able to answer many of the general questions regarding the activities of Legats but referred them to Assistant Director Richard Long when they began to ask more specific questions regarding the investigations by Legats and the manner of transmittal of this information to FBI Headquarters.(U)

The second group of five interviewers asked more general questions regarding the Bureau's investigation of the King murder. They seemed to be greatly concerned with the allegation of conspiracy. Mr. Hester advised them that he believed the conspiracy theory was an invention by the Department of Justice to be used to justify the FBI's investigation of Dr. King's murder. Mr. Hester advised them that he had never personally believed there was a conspiracy and he did not believe that any of his FBI superiors had ever believed in the conspiracy theory. Mr. Hester further advised that it was his personal opinion that James Earl Ray, acting alone, had murdered Dr. King and that his subsequent travels were probably financed by armed robbery.

Memo to DAG, 12-29-77

62-117290-366

RE: JAMES EARL RAY;
Dr. MARTIN LUTHER KING, JR. - VICTIM

This group was concerned with how the subject Ray had known how to obtain false documents following his arrival in Canada. Mr. Hester pointed out that a "Top Ten" criminal had been arrested in Canada and had been returned to the Missouri State Penitentiary and had served time there with James Earl Ray prior to Ray's escape. Mr. Hester indicated it was his belief that this "Top Ten" fugitive had been responsible for instructing Ray on how to proceed in obtaining false documents in Canada.

This group touched on such diverse elements as the information furnished by John McFerren regarding Frank Liberto, and one of the interviewers agreed that they had not believed McFerren to be a very reliable witness. They also discussed Ray's purchase of the rifle in Birmingham; the fact that Officer Redditt was moved from the firehouse near the Lorraine Motel just prior to the murder; what motive did Ray have for killing Dr. King; whether or not there was any evidence to indicate a conspiracy; whether or not there were any wiretaps and whether or not there had been any surreptitious entries made against King and his followers at Memphis prior to the assassination; and when, following his escape, did Ray appear to have made up his mind to assassinate Dr. King.

In addition, they asked numerous questions about the political climate in Memphis just prior to the assassination and inquired as to what investigation was being conducted by the FBI in regard to the Sanitation Workers Strike and the first march conducted by Dr. King. Mr. Hester was forced to admit that he had had nothing to do with the investigation of Dr. King prior to the murder and he suggested that they talk to current Special Agent Howell S. Lowe who would be in a position to furnish information in this regard.

They inquired about the interview of James Earl Ray conducted by former Special Agent in Charge Robert G. Jensen, former Special Agent Robert F. Boyle, and Mr. Hester at the state prison in Nashville, Tennessee, following Ray's plea of guilty. Mr. Hester recounted as best he could recall the events that transpired in connection with this attempted interview and advised the interviewers that former Special Agent Robert F. Boyle has suffered a cerebral hemmorrhage and possibly might not be competent to furnish information regarding this investigation.

RE: JAMES EARL RAY;
Dr. MARTIN LUTHER KING, JR. - VICTIM

The Committee indicated that they might desire to interview Mr. Hester again, either personally or telephonically, and they were assured that he would be available and agreeable to assisting them in any way possible.

NOTE: SL 1495-E (former) (Bureau file 134-19686) was operated from January, 1970, to approximately September, 1971, primarily targeted against White Hate Groups. In 1971, he traveled to Savannah, Georgia, at which time he reported on activities of the National States Rights Party office and that Jerry Ray, brother of James Earl Ray, stated he knew there was another party involved in the killing of King and that his brother was the one who pulled the trigger. This is the apparent HSCA interest in informant.

Referenced communications concern previous informal requests by the HSCA that we contact SL 1495-E to determine if he would be willing to be interviewed by the Committee. St. Louis contacted informant on 1/27/78 and he agreed, but two days later submitted a letter to St. Louis declining to be interviewed by the HSCA. Subsequently, the HSCA determined informant's identity through its investigation and contacted him, at which time, according to the HSCA, he agreed to interview. By letter to the Attorney General dated 1/26/78, the HSCA has asked for all information at FBI Headquarters and in the field concerning informant.

This matter has been coordinated with SA D. O. Coulson, Legal Liaison and Congressional Affairs Unit, Legal Counsel Division, and SA M. V. Hale, Top Echelon and Criminal Informant Unit, Criminal Investigative Division.

II) THE FILES OF THE NEW ORLEANS OFFICE FAIL TO REVEAL THAT THIS OFFICE EITHER CONSIDERED OR ENGAGED IN ANY COUNTERINTELLIGENCE (COIN TEL PRO) EFFORTS DIRECTED AGAINST KING OR THE SOUTHERN CHRISTIAN LEADERSHIP CONFERENCE (SCLC).

NEW ORLEANS FILES WHICH INVOLVE THE SECURITY INVESTIGATIONS OF KING (NO 100-16800) AND THE SCLC (NO 100-16849) HAVE BEEN THOROUGHLY REVIEWED. NEW ORLEANS WAS MERELY AN AUXILIARY OFFICE IN THESE INVESTIGATIONS, WITH ATLANTA BEING THE OO. THE EXTENT OF INVESTIGATION CONDUCTED BY NEW ORLEANS WAS THE COVERING OF LEADS IN LA., SET FORTH BY ATLANTA OR OTHER OFFICES. THESE TWO FILES WERE REVIEWED SERIAL BY SERIAL AND NOWHERE IS THERE ANY INDICATION WHERE COUNTERINTELLIGENCE ACTIVITIES WERE EITHER CONSIDERED OR CARRIED OUT AGAINST KING OR THE SCLC BY THE NEW ORLEANS OFFICE.

DURING THE PERIOD OF 1965 - 1968, THE KING FILE IN THE NEW ORLEANS OFFICE WAS REOPENED AND ASSIGNED AND THEN RUC'D AT LEAST SEVEN TIMES AND THE SCLC FILE WAS REOPENED AND ASSIGNED AT LEAST FIVE TIMES DURING THIS SAME PERIOD.

NOTE The HSCA plans to submit a formal request regarding this matter, but requested informant be contacted for his initial reaction to interview. The Congressional Inquiry Unit, Legal Liaison and Congressional Affairs Unit and Mr. Robert L. Keuch, Deputy Assistant Attorney General, Criminal Division, agree this approach is best prior to continuing discussions to resolve legal and other issues.

The apparent interest of the HSCA involves informant's travel to Savannah, Georgia, in 1971 at which time he reported on activities at the NSRP Office in Savannah, as set forth in referenced communication. Informant reported that Jerry Ray, brother of James Earl Ray, and J. B. Stoner, National Chairman, NSRP, were in the office when Jerry said that the FBI and he knew there was another party involved in the killing of King and that his brother was the one who pulled the trigger. The HSCA has requested FBI information on the NSRP, Stoner, Jerry Ray and other individuals identified as being in attendance in the NSRP Office in Savannah during that time. One of the individuals present, Richard Geppert, was later developed as an informant of the Springfield Office. Geppert has been interviewed by the HSCA and has furnished a signed statement in which he gives authority for HSCA review of all FBI information concerning him, including that pertaining to his confidential relationship with the FBI.

This matter has been coordinated with Legal Liaison and Congressional Affairs Unit and the Organized Crime Section, Criminal Investigative Division

Re: Request from House Select Committee on Assassinations to Meet with British Police Authorities

Dear Mr. Angel:

By way of background, the House Select Committee on Assassinations, as authorized by the U. S. House of Representatives, is investigating the circumstances surrounding the murders of President J. F. Kennedy and Dr. Martin Luther King, Jr.

The Chief Counsel and Staff Director requested contact be made with appropriate officials in the British Government to obtain authority to interview appropriate police officials who were involved in the arrest of James Earl Ray in London on June 8, 1968.

Assistant Legal Attache Dennis Dickson had contact with you on December 6, 1977 regarding this matter. At that time you requested the following:

A) Purpose or scope of inquiry;

B) Names of individuals to be interviewed and reasons therefor;

12/31/85 Sp/macpne

ENCLOSURE

62-117290-

C) Intended use of results of inquiry, i.e., public hearings, etc., it being noted that any records maintained by the British police would be as the result of an official inquiry and this would normally be available for police use only, unless otherwise exempted by the British Government.

The Select Committee responded that due to the brevity of the 95th Congress, it was most important that representatives of the Select Committee be allowed to meet with appropriate members of New Scotland Yard who are knowledgeable about the KING-RAY investigation. The Committee advised they would be happy to meet personally with British Government officials in London to provide answers to the issues forwarded to them for clarification and elucidation.

I would be most appreciative if you would advise if this situation is agreeable to you.

Sincerely,

Dennis R. Dickson
Acting Legal Attache

NOTE: By teletype dated 12/27/77, field offices designated by the HSCA were advised of the contents of the HSCA letter of 12/13/77. Responses have been received. Rather than incorporate the voluminous results into a letter to the Committee, it is more practical to make available for HSCA access at FBIHQ incoming field office teletypes.

It should be noted that, under current operating procedures existing between the Department of Justice and the HSCA, disclosure of these agents' identities to the HSCA cannot be prevented. However, G. Robert Blakey, Chief Counsel and Director, HSCA, has advised SA D. O. Coulson of Legal Liaison and Congressional Affairs Unit, Legal Counsel Division, that, in absence of an overriding need to do otherwise, the HSCA will not publish the names of any agent personnel below the position of section chief. This policy would follow precedent of the Senate Select Committee on Intelligence which issued its report in 1976.

Reference is made to letter to the Attorney General from G. In response to the above request, the following information is submitted:

On December 19, 1977, Mr. Robert L. Keuch, Deputy Assistant Attorney General, Criminal Division, advised that the Department of Justice would respond to Part A, Items 1 and 2 and Part B, Items 1 and 2, of the above request.

Regarding Part A, Item 3 and Part B, Item 3, the FBI field offices designated by the HSCA were requested to provide the information desired by the HSCA. Responses from these field offices have been received and copies of these documents are available for HSCA access at FBI Headquarters.

With respect to Part A, Item 4, a review of FBI Headquarters indices disclosed no memoranda, records, documents and news releases generated by the FBI in connection with the MURKIN investigation, other than that contained in the MURKIN file, which has already been made available to the HSCA.

In response to Part B, Item 4, it should be noted that HSCA request of November 30, 1977, asked for all FBI material pertaining to Martin Luther King, Jr., and the Southern Christian Leadership Conference (SCLC) in the FBI's Counterintelligence Program (COINTELPRO) file. By letter dated January 11, 1978, you were advised that representatives of the HSCA agreed to limit its request to COINTELPRO files involving the Communist Party USA and Black Nationalist-Hate Groups and to limit the period of HSCA interest from January 1, 1967, to May 1, 1968. On January 23, 1978, Staff Attorney Michael Eberhardt reiterated that the HSCA's interest is that period rather than the years 1965-1968 as set forth in the request of December 13, 1977. The above-mentioned COINTELPRO files and files of the King and SCLC security investigations from January 1, 1967, to May 1, 1968, have been prepared for HSCA access. Therefore, based on knowledge of personnel of the Congressional Inquiry Unit processing HSCA requests regarding King, all material at FBI Headquarters, which may contain COINTELPRO-type activities against King and SCLC during the period January 1, 1967, to May 1, 1968, has been made available to the HSCA.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS

On November 16, 1977, SA William F. Kusch of the Portland Division of the Federal Bureau of Investigation (FBI) was interviewed at House Annex #2 in Washington, D.C., by Mr. Mark Speiser and Mr. Peter Beeson, members of the House Select Committee on Assassinations, investigating the assassination of Dr. Martin Luther King, Jr.

The interview with SA Kusch dealt with a period of time SA Kusch was assigned to the New Orleans Division of the FBI, specifically April, 1968. During April of 1968, SA Kusch, along with numerous other Special Agents assigned to the New Orleans Division, conducted many interviews with persons who had, or who might have had, knowledge of the activities or contacts of James Earl Ray during the period of time Ray, using the name Eric Galt, was in New Orleans.

Specifically, SA Kusch was questioned regarding his squad assignments in New Orleans, the identities of other squad members, the identity of his supervisor, his Agent in charge and his assistant Agent in charge at the time.

Further, SA Kusch was questioned relative to the content of several interview report forms (FD 302s) concerning interviews that he conducted and prepared appropriate FD 302s in connection therewith, or FD 302s covering interviews that he was a party to. House Select Committee on Assassinations members exhibited said FD 302s to SA Kusch to refresh his memory.

House Select Committee members in essence apparently desired SA Kusch to amplify or further expand on these interviews.

SA Kusch pointed out that as a result of the passage of nine and one-half years, for the most part he could not specifically recall the persons interviewed. To specific questions regarding the interviews, SA Kusch could only point out that if additional questions had been asked of these persons interviewed at the time, resulting in the receipt of any positive or pertinent information regarding Galt, that information would have been duly recorded on said FD 302s.

Both Mr. Speiser and Mr. Beeson were cordial and SA Kusch responded to their questions in a candid manner.

In an effort to respond to that portion of the HSCA's request concerning existence or nonexistence of electronic surveillance of individuals directly or indirectly associated with the SCLC, personnel of the Congressional Inquiry Unit, FBI Headquarters, familiar with certain aspects of the King, SCLC and related files, compiled a list of individuals with the SCLC for the approximate period January, 1962, through 1968. M. KELLEY, ET AL (U.S.D.C., D.C.) (CIVIL ACTION NUMBER 76-1186) BUFILE 62-117193, LA FILE 100-57229," LOS ANGELES HAS PERMANENTLY CHARGED OUT TO THE BUREAU SEVERAL SERIALS WHICH THEREFORE ARE NOT AVAILABLE FOR REVIEW. SERIALS WERE FROM FILES CAPTIONED "MARTIN LUTHER KING, JR; SECURITY MATTER-COMMUNIST; BUFILE 100-106670; LA FILE 100-57229"; "COMMUNIST INFILTRATION OF SCLS; IS - C; BUFILE 100-438794 AND 100-442349; LA FILE 100-65141"; "CP-USA NEGRO QUESTION, COMMUNIST INFILTRATION IN RACIAL MATTERS; IS-C; BUFILE 100-3-116, LA FILE 157-859."

A REVIEW OF PERTINENT FILES WITHIN THE LOS ANGELES DIVISION BETWEEN THE YEARS 1965 - 1968 DETERMINED THE FOLLOWING:

. THE ABOVE FILE REGARDING COMMUNIST INFILTRATION OF THE SCLC WAS HANDLED ON THE SUBSTANTATIVE DESK SUPERVISED BY SA JOHN S. TEMPLE WHICH WAS DESIGNATED AS SQUAD NUMBER TWO. THIS SQUAD HANDLED INVESTIGATIONS OF RACIAL AND BLACK EXTREMIST MATTERS. THIS INVESTIGATION WAS ASSIGNED TO SA LOUIS K. DE GEUS IN FEBRUARY 1965; SA R. ANDREWS PETERS IN

SEPTEMBER 1965; SA W. JAMES WOOD IN APRIL 1967; SA WALTER M. BRADY IN JANUARY 1968; AND SA E. RHEAD RICHARDS, JR. IN MAY 1968.

THE MAIN FILE ON KING WAS ASSIGNED TO SQUAD TWO AS ABOVE AND WAS ASSIGNED TO SA DE GEUS IN JANUARY 1965; SA PETERS IN MARCH 1965; SA WOOD IN JANUARY 1967; SA BRADY IN JUNE 1967: AND SA GEORGE E. AIKEN, JR. IN FEBRUARY 1968.

THE FILE REGARDING THE CP-USA INFILTRATION OF RACIAL MATTERS IS ONLY PERIPHERALLY CONCERNED WITH KING OR THE SCLC AND CONTAINS NEWSPAPER CLIPPINGS AND OTHER INFORMATION WHICH WAS INCLUDED IN OTHER SUBSTANTATIVE FILES. WHILE NOT CLEAR, THE CASE APPEARS TO HAVE BEEN CONTROLLED BY SA TEMPLE.

THE ENTIRE SUBSTANTATIVE FILE CAPTIONED "MURKIN; BUFILE 44-38861; LA FILE 44-1574" WAS COPIED AND SUBMITTED TO THE BUREAU UNDER INSTANT CAPTION. THIS MATTER WAS HANDLED ON SQUAD NUMBER ONE WHICH WAS SUPERVISED BY SA WILLIAM JOHN NOLAN BUT APPEARS TO HAVE BEEN SUPERVISED BY

SA TEMPLE. SQUAD NUMBER ONE HANDLED SECURITY TYPE INVESTIGATION INVOLVING THE CP-USA, SWP, ET CETERA. THE CASE APPEARS TO HAVE BEEN AS ASSIGNED JOINTLY TO SA'S LEROY W. SHEETS AND THEODORE J. A'HEARN ALTHOUGH SHEETS WAS APPARENTLY INVOLVED AS CASE AGENT ONLY DURING THE INITIAL STAGES IN APRIL 1968.

ALL OF THE ABOVE INDIVIDUALS WITH THE EXCEPTION OF SA'S BRADY, RICHARDS AND AIKEN ARE NO LONGER EMPLOYEES OF THE FBI.

The Honorable Griffin B. Bell
Attorney General of the United States

Washington, D. C. 20530

Attention: Mr. Robert L. Keuch
Deputy Assistant Attorney General
Criminal Division, Room 2113

Dear Mr. Attorney General:

In connection with the investigation of the Select Committee on Assassinations into the death of Dr. Martin Luther King, Jr., a conference was held on November 7, 1977 between employees of the FBI and members of the Committee staff to discuss the Committee's November 3, 1977 letter of request for FBI materials on thirty-five individuals or organizations. As a result of this meeting, the following was resolved:

(a) The FBI would process the following numbered requests as they were originally stated in the November 3rd letter: 1, 4, 5, 7, 9-11, 13-24, 26, 28-33 and 35.

(b) The Committee would provide dates of births on the individuals in requests nos. 12 and 27 before the FBI would process these names. The dob on Robert J. Powers (request no. 12) is 6/5/24. The dob on Reverend Jesse Jackson (request no. 27) is 10/8/41.

(c) Besides providing the complete file on request no. 3 (Jesse B. Stoner), the FBI would also make available the most appropriate case agent(s) in the office of origin assigned to Stoner for the period 1965 through 1968.

(d) With respect to request no. 2, the FBI would prov[illegible] all the material in [illegible] files [illegible] 1957 [illegible] as well as make available the appropriate case agent(s) in the office of origin for the same period.

~~62-117290-3896~~

ENCLOSURE 62-117290-382X

(e) With respect to request no. 6, the Committee would hold in abeyance such a request until the FBI provides a list of the most appropriate case agent(s) in the offices of origin for the several Klan organizations in existence in 1967 and 1968. (While such was not part of the understanding reached at the time of the meeting with FBI officials, the Committee would request however that all materials related to the United Klan of America LS for the period 1965 and 1966 be made ready for inspection by November 20, 1977.)

(f) With respect to request no. 8, the FBI would first advise the Committee as to the identity of other cities reporting on the White Citizens Council before a determination be made as to the final content of this request.

(g) With respect to request no. 25, the Committee will hold in abeyance such a request until the FBI makes available the most appropriate case agent(s) for the period in question.

(h) With respect to request no. 34, the Committee requests that only the thirteen "death threat" files on Dr. King be processed at this time, while a request for all other materials is held in abeyance until the FBI makes available the most appropriate case agent(s).

In Addition, the Committee would also request that the following agents be notified and made available by the FBI:

(1) Special Agent William F. Kusch - New Orleans
Special Agent Thomas E. Duhadway - New Orleans

(2) Special Agent Jack B. Simpson - Memphis ATLANTA
Special Agent Richard H. Davis - Memphis ATLANTA
Special Agent Jack T. Beverstein - Memphis ATLANTA

As a priority item, it is also requested that the FBI provide the Committee with the work or personnel records of the following three Louisville FBI agents for the month of September 1965:

(1) Robert Peters

(2) William Duncan

(3) Bernard Brown

We are primarily interested in those records reflecting their [illegible] records should be provided by November 15, 1977. The Committee would also ask that all three of the above-mentioned Louisville agents be made available for interview by the same date.

Your prompt attention to these matters will be greatly appreciated.

NOTE: The Alton bank robbery occurred at the time James Earl Ray was a fugitive, prior to King's assassination. Ray was considered a suspect in this robbery subsequent to being identified as King's killer. No evidence was produced to link Ray with the robbery. The case was closed unsolved in 1972.

In its request of 8/9/77, the HSCA asked for access to our investigation into this bank robbery and the file was prepared. Later, the HSCA submitted a second request which requested "a copy of any and all materials or reports" in the Alton bank robbery. Mr. Keuch advised on 9/19/77, that delivery should be limited only to investigative reports in the case. The requested material was picked up at FBIHQ on 9/19/77 by Oliver Champion, HSCA messenger. Purpose of enclosed memorandum is to confirm delivery of this material.

FEDERAL BUREAU OF INVESTIGATION

Memphis, Tennessee

December 5, 1977

JAMES EARL RAY;
Dr. MARTIN LUTHER KING, JR. - VICTIM;
CIVIL RIGHTS - CONSPIRACY

On November 21, 1977, retired Special Agent Joe C. Hester appeared at Washington, D. C., at the request of the House Committee on Assassinations.

Mr. Hester met with the Committee staff in their offices at Washington, D. C., and was interviewed for a total of four hours by two different groups of five persons each. Both groups were affable and were not in any way critical of the investigation conducted in this case.

The first group of five interviewers asked a variety of questions but seemed to be particularly preoccupied with the investigation conducted by Legats in Mexico. Mr. Hester was able to answer many of the general questions regarding the activities of Legats but referred them to Assistant Director Richard Long when they began to ask more specific questions regarding the investigations by Legats and the manner of transmittal of this information to FBI Headquarters.(e)

The second group of five interviewers asked more general questions regarding the Bureau's investigation of the King murder. They seemed to be greatly concerned with the allegation of conspiracy. Mr. Hester advised them that he believed the conspiracy theory was an invention by the Department of Justice to be used to justify the FBI's investigation of Dr. King's murder. Mr. Hester advised them that he had never personally believed there was a conspiracy and he did not believe that any of his FBI superiors had ever believed in the conspiracy theory. Mr. Hester further advised that it was his personal opinion that James Earl Ray, acting alone, had murdered Dr. King and that his subsequent travels were probably financed by armed robbery.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Memo to DAG, 12-29-77

62-117290-366

RE: JAMES EARL RAY;
Dr. MARTIN LUTHER KING, JR. - VICTIM

This group was concerned with how the subject Ray had known how to obtain false documents following his arrival in Canada. Mr. Hester pointed out that a "Top Ten" criminal had been arrested in Canada and had been returned to the Missouri State Penitentiary and had served time there with James Earl Ray prior to Ray's escape. Mr. Hester indicated it was his belief that this "Top Ten" fugitive had been responsible for instructing Ray on how to proceed in obtaining false documents in Canada.

This group touched on such diverse elements as the information furnished by John McFerren regarding Frank Liberto, and one of the interviewers agreed that they had not believed McFerren to be a very reliable witness. They also discussed Ray's purchase of the rifle in Birmingham; the fact that Officer Redditt was moved from the firehouse near the Lorraine Motel just prior to the murder; what motive did Ray have for killing Dr. King; whether or not there was any evidence to indicate a conspiracy; whether or not there were any wiretaps and whether or not there had been any surreptitious entries made against King and his followers at Memphis prior to the assassination; and when, following his escape, did Ray appear to have made up his mind to assassinate Dr. King.

In addition, they asked numerous questions about the political climate in Memphis just prior to the assassination and inquired as to what investigation was being conducted by the FBI in regard to the Sanitation Workers Strike and the first march conducted by Dr. King. Mr. Hester was forced to admit that he had had nothing to do with the investigation of Dr. King prior to the murder and he suggested that they talk to current Special Agent Howell S. Lowe who would be in a position to furnish information in this regard.

They inquired about the interview of James Earl Ray conducted by former Special Agent in Charge Robert G. Jensen, former Special Agent Robert F. Boyle, and Mr. Hester at the state prison in Nashville, Tennessee, following Ray's plea of guilty. Mr. Hester recounted as best he could recall the events that transpired in connection with this attempted interview and advised the interviewers that former Special Agent Robert F. Boyle has suffered a cerebral hemmorrhage and possibly might not be competent to furnish information regarding this investigation.

RE: JAMES EARL RAY;
Dr. MARTIN LUTHER KING, JR. - VICTIM

The Committee indicated that they might desire to interview Mr. Hester again, either personally or telephonically, and they were assured that he would be available and agreeable to assisting them in any way possible.

NOTE: SL 1495-E (former) (Bureau file 134-19686) was operated from January, 1970, to approximately September, 1971, primarily targeted against White Hate Groups. In 1971, he traveled to Savannah, Georgia, at which time he reported on activities of the National States Rights Party office and that Jerry Ray, brother of James Earl Ray, stated he knew there was another party involved in the killing of King and that his brother was the one who pulled the trigger. This is the apparent HSCA interest in informant.

Referenced communications concern previous informal requests by the HSCA that we contact SL 1495-E to determine if he would be willing to be interviewed by the Committee. St. Louis contacted informant on 1/27/78 and he agreed, but two days later submitted a letter to St. Louis declining to be interviewed by the HSCA. Subsequently, the HSCA determined informant's identity through its investigation and contacted him, at which time, according to the HSCA, he agreed to interview. By letter to the Attorney General dated 1/26/78, the HSCA has asked for all information at FBI Headquarters and in the field concerning informant.

This matter has been coordinated with SA D. O. Coulson, Legal Liaison and Congressional Affairs Unit, Legal Counsel Division, and SA M. V. Hale, Top Echelon and Criminal Informant Unit, Criminal Investigative Division.

PRIOR TO HIS INVOLVEMENT IN THE "MURKIN" INVESTIGATION WAS IN THE FIELDS OF CR, RACIAL AND RELATED MATTERS.

II) THE FILES OF THE NEW ORLEANS OFFICE FAIL TO REVEAL THAT THIS OFFICE EITHER CONSIDERED OR ENGAGED IN ANY COUNTERINTELLIGENCE (COIN TEL PRO) EFFORTS DIRECTED AGAINST KING OR THE SOUTHERN CHRISTIAN LEADERSHIP CONFERENCE (SCLC).

NEW ORLEANS FILES WHICH INVOLVE THE SECURITY INVESTIGATIONS OF KING (NO 100-16800) AND THE SCLC (NO 100-16849) HAVE BEEN THOROUGHLY REVIEWED. NEW ORLEANS WAS MERELY AN AUXILIARY OFFICE IN THESE INVESTIGATIONS, WITH ATLANTA BEING THE OO. THE EXTENT OF INVESTIGATION CONDUCTED BY NEW ORLEANS WAS THE COVERING OF LEADS IN LA., SET FORTH BY ATLANTA OR OTHER OFFICES. THESE TWO FILES WERE REVIEWED SERIAL BY SERIAL AND NOWHERE IS THERE ANY INDICATION WHERE COUNTERINTELLIGENCE ACTIVITIES WERE EITHER CONSIDERED OR CARRIED OUT AGAINST KING OR THE SCLC BY THE NEW ORLEANS OFFICE.

DURING THE PERIOD OF 1965 - 1968, THE KING FILE IN THE NEW ORLEANS OFFICE WAS REOPENED AND ASSIGNED AND THEN RUC'D AT LEAST SEVEN TIMES AND THE SCLC FILE WAS REOPENED AND ASSIGNED AT LEAST FIVE TIMES DURING THIS SAME PERIOD.

NOTE The HSCA plans to submit a formal request regarding this matter, but requested informant be contacted for his initial reaction to interview. The Congressional Inquiry Unit, Legal Liaison and Congressional Affairs Unit and Mr. Robert L. Keuch, Deputy Assistant Attorney General, Criminal Division, agree this approach is best prior to continuing discussions to resolve legal and other issues.

The apparent interest of the HSCA involves informant's travel to Savannah, Georgia, in 1971 at which time he reported on activities at the NSRP Office in Savannah, as set forth in referenced communication. Informant reported that Jerry Ray, brother of James Earl Ray, and J. B. Stoner, National Chairman, NSRP, were in the office when Jerry said that the FBI and he knew there was another party involved in the killing of King and that his brother was the one who pulled the trigger. The HSCA has requested FBI information on the NSRP, Stoner, Jerry Ray and other individuals identified as being in attendance in the NSRP Office in Savannah during that time. One of the individuals present, Richard Geppert, was later developed as an informant of the Springfield Office. Geppert has been interviewed by the HSCA and has furnished a signed statement in which he gives authority for HSCA review of all FBI information concerning him, including that pertaining to his confidential relationship with the FBI.

This matter has been coordinated with Legal Liaison and Congressional Affairs Unit and the Organized Crime Section, Criminal Investigative ~~Unit~~ Division

Re: Request from House Select Committee on Assassinations to Meet with British Police Authorities

Dear Mr. Angel:

By way of background, the House Select Committee on Assassinations, as authorized by the U. S. House of Representatives, is investigating the circumstances surrounding the murders of President J. F. Kennedy and Dr. Martin Luther King, Jr.

The Chief Counsel and Staff Director requested contact be made with appropriate officials in the British Government to obtain authority to interview appropriate police officials who were involved in the arrest of James Earl Ray in London on June 8, 1968.

Assistant Legal Attache Dennis Dickson had contact with you on December 6, 1977 regarding this matter. At that time you requested the following:

A) Purpose or scope of inquiry;

B) Names of individuals to be interviewed and reasons therefor;

12/31/85

ENCLOSURE

62-117290-

C) Intended use of results of inquiry, i.e., public hearings, etc., it being noted that any records maintained by the British police would be as the result of an official inquiry and this would normally be available for police use only, unless otherwise exempted by the British Government.

The Select Committee responded that due to the brevity of the 95th Congress, it was most important that representatives of the Select Committee be allowed to meet with appropriate members of New Scotland Yard who are knowledgeable about the KING-RAY investigation. The Committee advised they would be happy to meet personally with British Government officials in London to provide answers to the issues forwarded to them for clarification and elucidation.

I would be most appreciative if you would advise if this situation is agreeable to you.

Sincerely,

Dennis R. Dickson
Acting Legal Attache

NOTE: By teletype dated 12/27/77, field offices designated by the HSCA were advised of the contents of the HSCA letter of 12/13/77. Responses have been received. Rather than incorporate the voluminous results into a letter to the Committee, it is more practical to make available for HSCA access at FBIHQ incoming field office teletypes.

It should be noted that, under current operating procedures existing between the Department of Justice and the HSCA, disclosure of these agents' identities to the HSCA cannot be prevented. However, G. Robert Blakey, Chief Counsel and Director, HSCA, has advised SA D. O. Coulson of Legal Liaison and Congressional Affairs Unit, Legal Counsel Division, that, in absence of an overriding need to do otherwise, the HSCA will not publish the names of any agent personnel below the position of section chief. This policy would follow precedent of the Senate Select Committee on Intelligence which issued its report in 1976.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS
U. S. HOUSE OF REPRESENTATIVES (HSCA)

Reference is made to letter to the Attorney General from G. Robert Blakey, Chief Counsel and Director, HSCA, dated December 13, 1977, which requested, in connection with the HSCA's investigation into the assassination of Martin Luther King, Jr., certain information concerning identities of FBI agents assigned to the FBI's assassination investigation and to counterintelligence efforts against King.

In response to the above request, the following information is submitted:

On December 19, 1977, Mr. Robert L. Keuch, Deputy Assistant Attorney General, Criminal Division, advised that the Department of Justice would respond to Part A, Items 1 and 2 and Part B, Items 1 and 2, of the above request.

Regarding Part A, Item 3 and Part B, Item 3, the FBI field offices designated by the HSCA were requested to provide the information desired by the HSCA. Responses from these field offices have been received and copies of these documents are available for HSCA access at FBI Headquarters.

With respect to Part A, Item 4, a review of FBI Headquarters indices disclosed no memoranda, records, documents and news releases generated by the FBI in connection with the MURKIN investigation, other than that contained in the MURKIN file, which has already been made available to the HSCA.

In response to Part B, Item 4, it should be noted that HSCA request of November 30, 1977, asked for all FBI material pertaining to Martin Luther King, Jr., and the Southern Christian Leadership Conference (SCLC) in the FBI's Counterintelligence Program (COINTELPRO) file. By letter dated January 11, 1978, you were advised that representatives of the HSCA agreed to limit its request to COINTELPRO files involving the Communist Party USA and Black Nationalist-Hate Groups and to limit the period of HSCA interest from January 1, 1967, to May 1, 1968. On January 23, 1978, Staff Attorney Michael Eberhardt reiterated that the HSCA's interest is that period rather than the years 1965-1968 as set forth in the request of December 13, 1977. The above-mentioned COINTELPRO files and files of the King and SCLC security investigations from January 1, 1967, to May 1, 1968, have been prepared for HSCA access. Therefore, based on knowledge of personnel of the Congressional Inquiry Unit processing HSCA requests regarding King, all material at FBI Headquarters, which may contain COINTELPRO-type activities against King and SCLC during the period January 1, 1967, to May 1, 1968, has been made available to the HSCA.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS

On November 16, 1977, SA William F. Kusch of the Portland Division of the Federal Bureau of Investigation (FBI) was interviewed at House Annex #2 in Washington, D.C., by Mr. Mark Speiser and Mr. Peter Beeson, members of the House Select Committee on Assassinations, investigating the assassination of Dr. Martin Luther King, Jr.

The interview with SA Kusch dealt with a period of time SA Kusch was assigned to the New Orleans Division of the FBI, specifically April, 1968. During April of 1968, SA Kusch, along with numerous other Special Agents assigned to the New Orleans Division, conducted many interviews with persons who had, or who might have had, knowledge of the activities or contacts of James Earl Ray during the period of time Ray, using the name Eric Galt, was in New Orleans.

Specifically, SA Kusch was questioned regarding his squad assignments in New Orleans, the identities of other squad members, the identity of his supervisor, his Agent in charge and his assistant Agent in charge at the time.

Further, SA Kusch was questioned relative to the content of several interview report forms (FD 302s) concerning interviews that he conducted and prepared appropriate FD 302s in connection therewith, or FD 302s covering interviews that he was a party to. House Select Committee on Assassinations members exhibited said FD 302s to SA Kusch to refresh his memory.

House Select Committee members in essence apparently desired SA Kusch to amplify or further expand on these interviews.

SA Kusch pointed out that as a result of the passage of nine and one-half years, for the most part he could not specifically recall the persons interviewed. To specific questions regarding the interviews, SA Kusch could only point out that if additional questions had been asked of these persons interviewed at the time, resulting in the receipt of any positive or pertinent information regarding Galt, that information would have been duly recorded on said FD 302s.

Both Mr. Speiser and Mr. Beeson were cordial and SA Kusch responded to their questions in a candid manner.

In an effort to respond to that portion of the HSCA's request concerning existence or nonexistence of electronic surveillance of individuals directly or indirectly associated with the SCLC, personnel of the Congressional Inquiry Unit, FBI Headquarters, familiar with certain aspects of the King, SCLC and related files, compiled a list of individuals with the SCLC for the approximate period January, 1962, through 1968. Although this list is not all inclusive due to the large number of persons affiliated with the SCLC, an effort was made to include those individuals in key positions and who were most active in the organization. M. KELLEY, ET AL (U.S.D.C., D.C.) (CIVIL ACTION NUMBER 76-1186) BUFILE 62-117193, LA FILE 100-57229," LOS ANGELES HAS PERMANENTLY CHARGED OUT TO THE BUREAU SEVERAL SERIALS WHICH THEREFORE ARE NOT AVAILABLE FOR REVIEW. SERIALS WERE FROM FILES CAPTIONED "MARTIN LUTHER KING, JR; SECURITY MATTER-COMMUNIST; BUFILE 100-106670; LA FILE 100-57229"; "COMMUNIST INFILTRATION OF SCLS; IS - C; BUFILE 100-438794 AND 100-442349; LA FILE 100-65141"; "CP-USA NEGRO QUESTION, COMMUNIST INFILTRATION IN RACIAL MATTERS; IS-C; BUFILE 100-3-116, LA FILE 157-859."

A REVIEW OF PERTINENT FILES WITHIN THE LOS ANGELES DIVISION BETWEEN THE YEARS 1965 - 1968 DETERMINED THE FOLLOWING:

. THE ABOVE FILE REGARDING COMMUNIST INFILTRATION OF THE SCLC WAS HANDLED ON THE SUBSTANTATIVE DESK SUPERVISED BY SA JOHN S. TEMPLE WHICH WAS DESIGNATED AS SQUAD NUMBER TWO. THIS SQUAD HANDLED INVESTIGATIONS OF RACIAL AND BLACK EXTREMIST MATTERS. THIS INVESTIGATION WAS ASSIGNED TO SA LOUIS K. DE GEUS IN FEBRUARY 1965; SA R. ANDREWS PETERS IN

SEPTEMBER 1965; SA W. JAMES WOOD IN APRIL 1967; SA WALTER M. BRADY IN JANUARY 1968; AND SA E. RHEAD RICHARDS, JR. IN MAY 1968.

THE MAIN FILE ON KING WAS ASSIGNED TO SQUAD TWO AS ABOVE AND WAS ASSIGNED TO SA DE GEUS IN JANUARY 1965; SA PETERS IN MARCH 1965; SA WOOD IN JANUARY 1967; SA BRADY IN JUNE 1967: AND SA GEORGE E. AIKEN, JR. IN FEBRUARY 1968.

THE FILE REGARDING THE CP-USA INFILTRATION OF RACIAL MATTERS IS ONLY PERIPHERALLY CONCERNED WITH KING OR THE SCLC AND CONTAINS NEWSPAPER CLIPPINGS AND OTHER INFORMATION WHICH WAS INCLUDED IN OTHER SUBSTANTATIVE FILES. WHILE NOT CLEAR, THE CASE APPEARS TO HAVE BEEN CONTROLLED BY SA TEMPLE.

THE ENTIRE SUBSTANTATIVE FILE CAPTIONED "MURKIN; BUFILE 44-38861; LA FILE 44-1574" WAS COPIED AND SUBMITTED TO THE BUREAU UNDER INSTANT CAPTION. THIS MATTER WAS HANDLED ON SQUAD NUMBER ONE WHICH WAS SUPERVISED BY SA WILLIAM JOHN NOLAN BUT APPEARS TO HAVE BEEN SUPERVISED BY

SA TEMPLE. SQUAD NUMBER ONE HANDLED SECURITY TYPE INVESTIGATION INVOLVING THE CP-USA, SWP, ET CETERA. THE CASE APPEARS TO HAVE BEEN AS ASSIGNED JOINTLY TO SA'S LEROY W. SHEETS AND THEODORE J. A'HEARN ALTHOUGH SHEETS WAS APPARENTLY INVOLVED AS CASE AGENT ONLY DURING THE INITIAL STAGES IN APRIL 1968.

ALL OF THE ABOVE INDIVIDUALS WITH THE EXCEPTION OF SA'S BRADY, RICHARDS AND AIKEN ARE NO LONGER EMPLOYEES OF THE FBI.

The Honorable Griffin B. Bell
Attorney General of the United States

Attention: Mr. Robert L. Keuch
Deputy Assistant Attorney General
Criminal Division, Room 2113

Dear Mr. Attorney General:

In connection with the investigation of the Select Committee on Assassinations into the death of Dr. Martin Luther King, Jr., a conference was held on November 7, 1977 between employees of the FBI and members of the Committee staff to discuss the Committee's November 3, 1977 letter of request for FBI materials on thirty-five individuals or organizations. As a result of this meeting, the following was resolved:

(a) The FBI would process the following numbered requests as they were originally stated in the November 3rd letter: 1, 4, 5, 7, 9-11, 13-24, 26, 28-33 and 35.

(b) The Committee would provide dates of births on the individuals in requests nos. 12 and 27 before the FBI would process these names. The dob on Robert J. Powers (request no. 12) is 6/5/24. The dob on Reverend Jesse Jackson (request no. 27) is 10/8/41.

(c) Besides providing the complete file on request no. 3 (Jesse B. Stoner), the FBI would also make available the most appropriate case agent(s) in the office of origin assigned to Stoner for the period 1965 through 1968.

(d) With respect to request no. 2, the FBI would provide all [illegible] files [illegible] headquarters for 1957 [illegible] as well as make available the appropriate case agent(s) in the office of origin for the same period.

~~62-117290-3816~~

ENCLOSURE 62-117290-382X

(e) With respect to request no. 6, the Committee would hold in abeyance such a request until the FBI provides a list of the most appropriate case agent(s) in the offices of origin for the several Klan organizations in existence in 1967 and 1968. (While such was not part of the understanding reached at the time of the meeting with FBI officials, the Committee would request however that all materials related to the United Klan of America LS for the period 1965 and 1966 be made ready for inspection by November 20, 1977.)

(f) With respect to request no. 8, the FBI would first advise the Committee as to the identity of other cities reporting on the White Citizens Council before a determination be made as to the final content of this request.

(g) With respect to request no. 25, the Committee will hold in abeyance such a request until the FBI makes available the most appropriate case agent(s) for the period in question.

(h) With respect to request no. 34, the Committee requests that only the thirteen "death threat" files on Dr. King be processed at this time, while a request for all other materials is held in abeyance until the FBI makes available the most appropriate case agent(s).

In Addition, the Committee would also request that the following agents be notified and made available by the FBI:

(1) Special Agent William F. Kusch - New Orleans
Special Agent Thomas E. Duhadway - New Orleans

(2) Special Agent Jack B. Simpson - Memphis ATLANTA
Special Agent Richard H. Davis - Memphis ATLANTA
Special Agent Jack T. Beverstein - Memphis ATLANTA

As a priority item, it is also requested that the FBI provide the Committee with the work or personnel records of the following three Louisville FBI agents for the month of September 1965:

(1) Robert Peters

(2) William Duncan

(3) Bernard Brown

We are primarily interested in those records reflecting their [illegible] records should be provided by November 15, 1977. The Committee would also ask that all three of the above-mentioned Louisville agents be made available for interview by the same date.

Your prompt attention to these matters will be greatly appreciated.

NOTE: The Alton bank robbery occurred at the time James Earl Ray was a fugitive, prior to King's assassination. Ray was considered a suspect in this robbery subsequent to being identified as King's killer. No evidence was produced to link Ray with the robbery. The case was closed unsolved in 1972.

In its request of 8/9/77, the HSCA asked for access to our investigation into this bank robbery and the file was prepared. Later, the HSCA submitted a second request which requested "a copy of any and all materials or reports" in the Alton bank robbery. Mr. Keuch advised on 9/19/77, that delivery should be limited only to investigative reports in the case. The requested material was picked up at FBIHQ on 9/19/77 by Oliver Champion, HSCA messenger. Purpose of enclosed memorandum is to confirm delivery of this material.

December 5, 1977

JAMES EARL RAY;
Dr. MARTIN LUTHER KING, JR. - VICTIM;
CIVIL RIGHTS - CONSPIRACY

On November 21, 1977, retired Special Agent Joe C. Hester appeared at Washington, D. C., at the request of the House Committee on Assassinations.

Mr. Hester met with the Committee staff in their offices at Washington, D. C., and was interviewed for a total of four hours by two different groups of five persons each. Both groups were affable and were not in any way critical of the investigation conducted in this case.

The first group of five interviewers asked a variety of questions but seemed to be particularly preoccupied with the investigation conducted by Legats in Mexico. Mr. Hester was able to answer many of the general questions regarding the activities of Legats but referred them to Assistant Director Richard Long when they began to ask more specific questions regarding the investigations by Legats and the manner of transmittal of this information to FBI Headquarters.(U)

The second group of five interviewers asked more general questions regarding the Bureau's investigation of the King murder. They seemed to be greatly concerned with the allegation of conspiracy. Mr. Hester advised them that he believed the conspiracy theory was an invention by the Department of Justice to be used to justify the FBI's investigation of Dr. King's murder. Mr. Hester advised them that he had never personally believed there was a conspiracy and he did not believe that any of his FBI superiors had ever believed in the conspiracy theory. Mr. Hester further advised that it was his personal opinion that James Earl Ray, acting alone, had murdered Dr. King and that his subsequent travels were probably financed by armed robbery.

Memo to DAG, 12-29-77

62-117290-366

RE: JAMES EARL RAY;
Dr. MARTIN LUTHER KING, JR. - VICTIM

This group was concerned with how the subject Ray had known how to obtain false documents following his arrival in Canada. Mr. Hester pointed out that a "Top Ten" criminal had been arrested in Canada and had been returned to the Missouri State Penitentiary and had served time there with James Earl Ray prior to Ray's escape. Mr. Hester indicated it was his belief that this "Top Ten" fugitive had been responsible for instructing Ray on how to proceed in obtaining false documents in Canada.

This group touched on such diverse elements as the information furnished by John McFerren regarding Frank Liberto, and one of the interviewers agreed that they had not believed McFerren to be a very reliable witness. They also discussed Ray's purchase of the rifle in Birmingham; the fact that Officer Redditt was moved from the firehouse near the Lorraine Motel just prior to the murder; what motive did Ray have for killing Dr. King; whether or not there was any evidence to indicate a conspiracy; whether or not there were any wiretaps and whether or not there had been any surreptitious entries made against King and his followers at Memphis prior to the assassination; and when, following his escape, did Ray appear to have made up his mind to assassinate Dr. King.

In addition, they asked numerous questions about the political climate in Memphis just prior to the assassination and inquired as to what investigation was being conducted by the FBI in regard to the Sanitation Workers Strike and the first march conducted by Dr. King. Mr. Hester was forced to admit that he had had nothing to do with the investigation of Dr. King prior to the murder and he suggested that they talk to current Special Agent Howell S. Lowe who would be in a position to furnish information in this regard.

They inquired about the interview of James Earl Ray conducted by former Special Agent in Charge Robert G. Jensen, former Special Agent Robert F. Boyle, and Mr. Hester at the state prison in Nashville, Tennessee, following Ray's plea of guilty. Mr. Hester recounted as best he could recall the events that transpired in connection with this attempted interview and advised the interviewers that former Special Agent Robert F. Boyle has suffered a cerebral hemmorrhage and possibly might not be competent to furnish information regarding this investigation.

RE: JAMES EARL RAY;
Dr. MARTIN LUTHER KING, JR. - VICTIM

The Committee indicated that they might desire to interview Mr. Hester again, either personally or telephonically, and they were assured that he would be available and agreeable to assisting them in any way possible.

Reference is made to the December 18, 1975, letter of the SSC as modified at a conference on December 30, 1975, between Messrs. W. O. Cregar and P. V. Daly of this Bureau and Committee Staff Members Michael Epstein and Mark Gitenstein.

This memorandum effects delivery of material in response to Items 1, 1(a), 1(b), and 1(e). The matters referred to are four FBI investigations about which the SSC was previously furnished materials relating to FBI preventive actions.

Concerning Item 1, which requested reports or letterhead memoranda (LHMs) disseminated outside the Bureau by FBI Headquarters (FBIHQ), for the six-month period preceding the act of violence prevented, the following is noted. In regard to the incidents involving the proposed assassination of a narcotics agent in Minneapolis, Minnesota, and the planned racial violence in Cleveland, Ohio, there were no reports or LHMs submitted by either the Minneapolis Field Office or Cleveland Field Office during the six-month period preceding the incident.

U. S. Senate Select Committee

Concerning Item 1(a), which requested predications for each investigation, it should be noted that in the incident involving the proposed assassination of a narcotics agent, there was no predication submitted by the Minneapolis Field Office. This was due to the fact that there was no FBI jurisdiction concerning this matter and consequently no investigation by the FBI.

Concerning Item 1(b), which requested the first investigative report or LHM disseminated by FBIHQ outside the FBI in each case, and a list of recipients of that report or LHM, the following should be noted. Regarding the incident involving the proposed assassination of a narcotics agent, no report or LHM was submitted by the Minneapolis Field Office as there was no FBI investigation. On the administrative pages accompanying reports or LHM's involving the other incidents, there are notations which identify those agencies which received copies of these documents.

Item 1(e), requested annual reports or LHM's from the Office of Origin to FBIHQ for the last five years during which each case was an open (pending) investigation. Regarding the incidents involving the Hanafi Muslim sect in Washington, D. C., the proposed assassination of a narcotics agent in Minneapolis, Minnesota, and the planned racial violence in Cleveland, Ohio, no annual reports or LHMs were submitted by either the Washington, Cleveland, or Minneapolis Field Office.

Reference is made to the oral request of Special Assistant to the Attorney General Jack W. Fuller, October 20, 1975, for information concerning six individuals whose names were placed on the National Security Agency (NSA) Watch List because of FBI investigative interest in them.

In response to that request, enclosed are the original and one copy each of six memoranda relating to the following individuals:

1. Kathie Boudin
2. Stokely Carmichael
3. Howard Lamar Fuller
4. Leonard Handelsman
5. Naomi Esther Jaffe
6. Saifeldine Ahmed Abdenabi Wadi-Ramahi.

EX 103
REC-14 62-116395-1330

The memoranda include information as to the reasons why these individuals were investigated by the FBI, included on the Watch List and the use made of the product received from NSA concerning them, if any. Regarding those individuals on whom there is no record of receipt of information of a positive nature from NSA, it should be noted that it was our practice to destroy upon receipt any Watch List "product" which did not appear to be of significance in our investigations and to retain neither copies nor record of receipt.

On 10/20/75, Mr. Jack Marsh of the White House contacted Jack Fuller, supra, concerning this matter and Mr. Fuller requested that we select six individuals who had been included on the Watch List and furnish the requested information for possible use at an Executive Session of the SSC. On 10/20/75, Mr. Dave Lohman, NSA, advised Supervisor J. P. Thomas, INTD, that NSA was aware that we were going to receive this request; that there was no need, from NSA's standpoint, for classification of response merely because it stated that certain persons were on the Watch List. He stated NSA intended to tell the SSC the number of requests it had received from other agencies, including FBI, to put names on the Watch List but that NSA had told Jack Marsh, supra, that specific names would have to be furnished by the agencies interested in the particular subjects.

HOWARD LAMAR FULLER, ALSO KNOWN AS OWUSU SADAUKAI

Howard Lamar Fuller, also known as Owusu Sadaukai has been under investigation by the FBI since 1967 for involvement in black extremist activities, which have included foreign travel and efforts to organize blacks in the United States to destroy capitalism through use of violence if necessary. Following travel to Africa in 1971, Fuller, as National Chairman of the African Liberation Support Committee (ALSC), was instrumental in organizing national demonstrations and activities in support of liberation movements on the African continent.

By letter dated August 4, 1972, the FBI requested the National Security Agency (NSA) to furnish any information regarding Fuller in view of his involvement in subversive activities, as outlined above.

A search of logical Bureau records failed to locate any information furnished to the FBI by the NSA in response to the above request.

STOKELY CARMICHAEL

Stokely Carmichael is a well-known and publicly identified black extremist. Carmichael, during the approximate period 1967 to present, has openly called for revolution by blacks and the destruction of capitalism in America through violent action.

Carmichael was among individuals of investigative interest who were placed on the National Security Agency's (NSA) Watchlist because of his extremist activities and contacts which include both domestic and foreign personalities of similar persuasion.

In addition to maintaining his residence in Guinea and frequent trips to the United States, Carmichael has also traveled to North Vietnam, Cuba and People's Republic of China. Information furnished the Federal Bureau of Investigation by NSA included data concerning his foreign travel, his visits to the United States, travel of associates to visit him in Guinea and invitations to attend various international conferences.

This information received from NSA, in some instances, was furnished appropriate FBI Field Offices to assist this Bureau's investigation in following the travel and extremist activities of Carmichael.

Reference is made to the SSC request dated November 21, 1975.

Our files contained no reference to "Project CHATTER" prior to November 6, 1975. On that date, on invitation of the Department of the Navy, a representative of this Bureau reviewed Navy records which the Navy planned to release to the SSC, to the Senate Judiciary Subcommittee on Administrative Practices and Procedures and to the press on November 7, 1975. Those Navy records dealt with "Project CHATTER" and other topics pertinent to Items 1 through 8 in the referenced SSC request. Reviews of logical FBI files and inquiries of current FBI personnel, who might possibly have knowledge of the topics discussed in the Navy records, were made.

The only pertinent item developed through the file reviews and aforementioned inquiries was a memorandum dated August 4, 1950, recording an invitation from the Office of Naval Intelligence to the FBI to attend a conference and be informed about a "truth serum" being developed by the Navy. A copy of that memorandum, which relates to Item 2 in the referenced request, is attached (inked notations thereon appear on the original). (62-2699-75)

No other record was located of any memorandum or other communication prepared by FBI personnel relating to the August 11, 1950, meeting mentioned in Item 2 of the referenced request. Accordingly, our response to Items 3, 4, 5, 6, 7 and 8 in that request is negative.

This document is prepared in response to your request and is not for dissemination outside your Committee. Its use is limited to official proceedings by your Committee and the content may not be disclosed to unauthorized personnel without the express approval of the FBI.

A review of FBI files for information relating to drugs designed to modify behavior indicates an interest dating back to 1922. However, this interest has not extended to the point where the FBI has conducted programs involving research, experimentation or use of drugs for interrogation purposes. Neither has it funded such programs. We have maintained liaison with other U. S. Government agencies and industrial organizations in order to be aware of developments in this area. However, we have not implemented any programs to apply the results of research conducted by such organizations.

The FBI representative who reviewed the Navy records was Supervisor J. P. Thomas, Intelligence Division; results reported in memorandum W. O. Cregar to Mr. W. R. The Senate Judiciary Subcommittee has previously been advised that available Bureau records and interview with current knowledgeable employee indicate that the FBI has never engaged in or funded anyone's efforts in research and/or development programs in the use or effect of drugs on human behavior. This information is recorded in memorandum from Mr. J. Cochran, Jr., to Mr. T. J. Jenkins, dated 11/28/75, entitled "Request by Senate Judiciary Subcommittee on Administrative Practice and Procedure for Information Concerning Use of Drugs for Interrogation." A copy of the communication being furnished herewith is being maintained in the Senstudy Unit, Intelligence Division. A copy of the 11/21/75 SSC request is attached to the file copy of this LHM.

Mr. Alberti, ONI, has contacted Liaison relative to a conference between Naval Medical Research men and FBI representatives in order to discuss the usage of truth serum in Intelligence circles. [redacted] Alberti indicated the Navy had made considerable advances in developing a new drug which he felt could be utilized to a great advantage in the questioning of espionage suspects. He added the Navy was willing to turn such information over to the FBI and that the Navy would also appreciate any knowledge possessed by the Bureau with respect to our advancement in this field.

It is suggested this memorandum be forwarded to the FBI Laboratory for consideration. The Liaison Section should be advised of any decision in this matter so that Mr. [redacted] Alberti can be in turn advised accordingly.

RE: TRUTH SERUMS

The Bureau has received inquiries recently concerning the reliability of the so-called truth serums. The Bureau is not in possession of any information concerning the use of drugs or chemicals which will compel a person to speak only the truth. The Bureau, however, will not tolerate any experiments or participation on the part of its personnel in the utilization of the so-called truth serums or other chemicals alleged to have a similar effect. All employees are accordingly cautioned against any participation whatsoever in the utilization of truth serums or similar drugs in connection with any cases.

Obviously, great criticism would be directed at the Bureau if it utilized any element of this kind in connection with its investigations. The Bureau cannot jeopardize its good reputation by even considering the utilization of such an investigative procedure and, consequently, in the event any Bureau agent violates these instructions, drastic administrative action will be taken.

Very truly yours,

J. Edgar Hoover

~~TO ALL INVESTIGATIVE EMPLOYEES:~~

Dear Sir:

The Bureau has received inquiries recently concerning the reliability of the so-called truth serums. The Bureau is not in possession of any information concerning the use of drugs or chemicals which will compel a person to speak only the truth. The Bureau, however, will not tolerate any experiments or participation on the part of its personnel in the utilization of the so-called truth serums or other chemicals alleged to have a similar effect. All employees are accordingly cautioned against any participation whatsoever in the utilization of truth serums or similar drugs in connection with any cases.

Obviously, great criticism would be directed at the Bureau if it utilized any element of this kind in connection with its investigations. ~~Obviously,~~ the Bureau cannot jeopardize its good reputation by even considering the utilization of such an investigative procedure and, consequently, in the event any Bureau agent violates these instructions, drastic administrative action will be taken.

RE: INTERVIEW OF FORMER FBI
SPECIAL AGENT (SA) JOSEPH WILLIAM MAGEE
BY AN SSC STAFF MEMBER

The following concerns an interview of Dr. Joseph William Magee, a former FBI SA who retired in 1965, by an SSC Staff Member.

On January 2, 1976, Magee advised this Bureau that on a Friday, about September 18, 1975, he was telephonically contacted by a Mike Epstein of the SSC who indicated a desire to talk to him immediately. Magee told Epstein that he was quite busy and would not be able to see him immediately. The only information Epstein gave as to the reason for wanting to interview Magee was to get information about the early organization of the FBI Laboratory. There followed some further telephone calls between the two but they never got together for an interview at that time. However, on December 29 or 30, 1975, Epstein again called Magee and asked Magee to appear at the SSC office for interview on January 6, 1976. The only information Epstein gave on this occasion as the subject matter of the interview was that it would be about the operations of the Bureau.

On January 2, 1976, the Legal Counsel Division of this Bureau determined from Epstein that the topic of interview of Magee would be FBI Laboratory procedures and practices and, in general, background information concerning FBI Laboratory operations. On the same date Magee was advised by this Bureau of Epstein's advice concerning the subject matter of the interview.

Re: Interview of Former FBI Special Agent (SA)
Joseph William Magee by an SSC Staff Member

Magee was released by this Bureau from his confidentiality agreement for purposes of the interview.

On January 7, 1976, Magee voluntarily furnished this Bureau the results of the interview which are as follows, not necessarily in chronological order.

Interview took place on January 6, 1976, and Epstein was the sole interrogator. The interview was very informal, most of which took place in a coffee shop in the Dirksen Senate Office Building, and it lasted little more than a half hour. Magee was not advised of his rights. The following subject matters were covered. Epstein inquired as to whether the FBI had had a drug program. Magee responded by asking if Epstein meant a program relating to the use of truth serum and Epstein responded in the affirmative. Magee told him that the FBI did not have such a program but that during the 25 years he had been with the Bureau, there may have been some very selected occasions when truth serum may have been used, but that he had no specific knowledge of such use. Magee further advised that he never knew of any FBI SA also being a medical doctor and that he did not believe that an SA would ever have injected anyone with a truth serum. Epstein voiced surprise that the FBI was not aggressive enough to have a truth serum program in connection with its use of the polygraph.

Epstein next inquired as to what the FBI did relative to vulnerability studies. Magee told him that he did not know what Epstein was talking about. Epstein elaborated by stating that in the 1960s, Central Intelligence Agency (CIA) allegedly conducted surveys such as spraying chemicals in a subway station to see if it could be sabotaged in this manner. Magee answered that he knew of no such type of activity by the FBI and did not think the FBI would ever engage in such activity.

Re: Interview of Former FBI Special Agent (SA)
Joseph William Magee by an SSC Staff Member

Epstein inquired concerning the relationship between the FBI and CIA. Magee told him that he knew at one time the FBI had one man who was the liaison link with CIA, that person being former SA Sam Papich. Epstein wanted to know if meetings between Papich and the CIA were primarily for the FBI's benefit. Magee responded that he did not know much about the liaison arrangements and meetings but it was his belief that such meetings, as may have been held between FBI and CIA personnel, were designed for the mutual benefit of all parties and that he did not know of any meetings which were designed solely for the FBI's benefit.

Epstein inquired as to what the FBI did relative to certain gases, the exact type unrecalled by Magee in his report on this interview. Magee responded that some FBI SAs possess gas masks to be used for obvious reasons but that the FBI had no programs for use of gas.

Epstein asked Magee what he knew about Martin Luther King, Jr. and whether he, Magee, had ever heard any recordings concerning King. Magee said that he had not but that he understood that the FBI had recordings of King which were bona fide. Magee then told Epstein of his recollection of an obscure news story of an event in North Carolina a number of years ago when it was developed that some of King's associates had illegally sold a number of rental automobiles and that the news account indicated that no prosecution was authorized by the Department of Justice, possibly on the basis that the Department of Justice did not then want to disrupt the civil rights activities of King's associates.

NOTE:

Magee's report of the interview was telephonically furnished to Supervisor S. F. Phillips of the Senstudy 75 Project. Additional data herein taken from W. O. Cregar to W. R. Wannall memorandum 1/2/76, and Legal Counsel to Mr. J. B. Adams memoranda 1/2,5/76.

Samuel Adason Jaffe was a symbol number informant of the New York Office from 1958 to 1961 and was later in contact with the Washington Field Office. During these periods of contact, Jaffe furnished information on his numerous contacts with Soviet and People's Republic of China officials, which were occasioned by his employment with ABC and CBS and with other news media. ~~S~~(U)

~~S~~(U) Following his identification by Soviet defector ["Sammy"] as having been recruited by the KGB while assigned to Moscow, Jaffe was extensively interviewed and advised that he believed he had been the subject of a recruitment approach but denied being a KGB agent. Jaffe filed a request under the Freedom of Information Act in March, 1975, and subsequently appealed our denial of access to information concerning him as contained in our files. U. S. SENATE SELECT COMMITTEE TO STUDY GOVERNMENTAL OPERATIONS WITH RESPECT TO INTELLIGENCE ACTIVITIES (SSC)

Reference is made to the December 18, 1975, letter of the SSC as modified at a conference on December 30, 1975, between Messrs. W. O. Cregar and P. V. Daly of this Bureau and Committee Staff Members Michael Epstein and Mark Gitenstein.

This memorandum effects delivery of material in response to Items 1 (a), 1 (b), and 1 (e). The matters referred to are six FBI investigations about which the SSC was previously furnished materials relating to FBI preventive actions.

Concerning Item 1 (b), which requested the first investigative report or letterhead memorandum (LHM) disseminated by FBI Headquarters (FBIHQ) outside the FBI in each case, and a list of recipients of that report or LHM, the following should be noted. On the administrative pages accompanying each of these reports or LHMs there are notations which identify those agencies which received copies of these documents.

Item 1 (e) requested annual reports or LHMs from the office of origin to FBIHQ for the last five years during which each case was an open (pending) investigation. In lieu of annual reports from San Francisco Field Office, which is office of origin for the over all investigation of the Black Panther Party (BPP) nationally, reports are being furnished from our Detroit Field Office in whose territory the activity of interest actually took place. It is also noted that during the early 1970s,

auxiliary offices (of which Detroit was one) were required to submit 90-day summary reports on BPP activities. In those cases no annual reports were submitted. It is for this reason that more than five reports are being furnished concerning Black Panther Party activities in Detroit.

Regarding information pertaining to the Richmond, Virginia, Chapter of the Black Panther Party, no annual reports are being furnished as the Richmond Field Office did not submit any reports or LHMs.

Regarding information pertaining to the discovery of a dynamite bomb in the United Nations Building in New York City, no annual reports are being furnished as none were submitted by the New York Field Office.

The following concerns an interview on November 21, 1975, of former FBI SA J. Brooke Blake by an SSC Staff Member.

The FBI released Mr. Blake from his confidentiality agreement for the purpose of the interview.

Mr. Blake's account of the interview follows:

"On November 21, 1975, I met Committee attorney-investigator Robert K. Kelley at Room G-308, Dirksen Senate Office Building, Washington, D. C.

"Kelley took me to Room 155 of the Russell Building, where he introduced a Committee contract court reporter, Fred Ward. The room contained many empty conference tables and chairs and is one used by senators' wives for some program they have with the Red Cross.

"Ward and Kelley were the only persons present throughout the deposition which was tape-recorded by Ward using the court reporter's transcribing equipment. The official deposition started at 2:07 p.m., and ended at 2:52 p.m. There was an approximate 4-minute interruption by a telephone call for Kelley, which I had to answer, and

then he politely asked me to leave the room. The informal way the deposition was taken surprised but didn't bother me. It could catch someone off guard if strong cross examination developed.

"Kelley informed me of my constitutional rights, the right to have a senator present and the right to request a senator and/or attorney at any time throughout the deposition. He had hinted while walking to the room of an interest in how Klan informants are developed and Bureau policy. He did not have a form on my rights or any form for me to sign. After his advisement, I advised him I had been briefed by the FBI only on procedure and the limitation of the waiver of oath as pertained to information only on Tom Rowe. He was informed I would not answer policy questions because I had been out eleven years and of the availability of the Bureau executives to answer those questions. He explained a notary would be waiting to notarize my deposition when we returned to Room G-308. I stated that I would only allow the oath she gave me to apply to the fact I was the person who gave the deposition. He agreed. The preliminary conversation and advisement of my rights was not recorded to my knowledge. Apparently he predicated the inquiry as the result of Rowe's testimony and to corroborate same. He made it clear Rowe was most complimentary to the Bureau and all Agents he knew.

"Set forth below are briefs of his questions and my answers: (He was using a statement or memo of about six pages which recorded testimony from Gary Thomas Rowe, Jr.)

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FORMER FBI SA J. BROOKE BLAKE BY SSC

"Q - Manner of reporting from Informant Rowe?
A - He reported in person, in writing and by telephone depending on the urgency of the information. All information received from him was recorded in FBI files and disseminated to local, state and federal authorities on a need-to-know basis.

"Q - Instructions by me to Rowe as to what information he should report?
A - All information, with main interest in intelligence activities discussed by action groups.

"Q - My knowledge of any interest regarding an arrest record for Rowe?
A - None recalled nor did I ever recall seeing a rap sheet on him.

"Q - Any actions of violence which were planned which he reported to me and what was done with the information?
A - None recalled, only evidence recalled was a report of another Klansman carrying blasting caps on his person while at a Klan convention. This information was disseminated to fellow Agents on the scene with me surveilling the convention.

"Q - Rowe claimed that I had told him about the Bureau's activities in Cointel.
A - His statement had to be false because I had never heard of the code word until used recently in newspaper reports covering the Church Senate Subcommittee on Intelligence Activities.

"Q - Any directions I had given to Rowe to attend political campaigns and/or disrupt them?
A - Did not recall such.

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FORMER FBI SA J. BROOKE BLAKE BY SSC

"Q - Knowledge of any Klan violence in which Rowe participated?
A - None recalled but explained that due to his personality he could not look like an angel.

"Q - Did I ever tell Rowe that the FBI had declared war on the Klan?
A - No, but elaborated he was well aware of the FBI's interest in solving the various bombings throughout Alabama.

"Q - My reaction to the fact that Rowe was a member of the Klan's Security Detail and one of Bobby Shelton's bodyguards?
A - Explained that the fact that he was elevated in the Klan's ranks was a concern of mine and the FBI's. We wanted him put where he would be able to furnish valuable information, but restrained him from rising to any executive position in the Klan.

"Q - Testimony that Rowe had given the Committee that there were certain Birmingham police officers who were involved with the Klan?
A - Because of the general possibilities, any information he furnished was disseminated only to certain known reliable police contacts. I pointed out to them the delicate nature of most of Rowe's information and the fact that it could not be disseminated by memorandum form to all department employees of any agency.

"Q - Another question regarding attendance at political meetings with the direction that Rowe persuade the Klan to take a certain position for candidates?
A - No such directions ever made.

"Q - What was the scope of Rowe's assignment as a Klan informant?
A - To obtain and report any or all intelligence information he could determine.

"Q - Any directions given Rowe about Matt Murphy, a candidate for police commissioner in Birmingham?
A - Was not at all familiar with Murphy other than hearing the name by Kelley who commented from his memorandum that the question pertained to something that occurred after I left the FBI.

"Q - When I was assigned to handle Rowe, what was my recollection of his reputation and value to the FBI?
A - That he was known to the Department of Justice and the FBI as the top Klan informant and that he was in the position to furnish vital information to the Government.

"Q - Any special instructions I recalled on how I was to handle him?
A - I was to maintain control over him and recognize that by his personality that if his control was not maintained that he was the type that would run off because of his enthusiasm and put his safety in jeopardy. He was also the type who would try to run the show if you let him.

"Q - Any recollections I had to the Mother's Day incident?
A - I had only heard of the incident, but was not with the Bureau in Birmingham.

"Q - Did I ever direct Rowe while he was in the homes of Klansmen to attempt to steer them to certain rooms in the house while they engaged in conversation?
A - No, and I commented that they rarely discussed anything of value in homes or Klan meeting halls, but did so in small action groups.

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FORMER FBI SA J. BROOKE BLAKE BY SSC

"Q - A general question on the problem of handling a Klan informant as opposed to a criminal informant with Kelley setting an example of an informant in a bank robbery?

A - I did not see any particular difference from his example and that of a Klansman planning to bomb a building.

"These were the only questions I recorded in note form as he asked them. There may have been a few others, but none of any significance and Kelley appeared very cooperative and matter of fact throughout the deposition. Ward and Kelley escorted me back to Room G-308 where I was asked to swear to the deposition by a notary public, Audrey Hatry."

NOTE:

W. O. Cregar to Mr. W. R. Wannall memorandum 11/11/75 captioned "Senstudy 75" recommended releasing Blake from his confidentiality agreement for purposes of the interview, which was to be confined to Blake's handling of former informant Gary Thomas Rowe, Jr. Mr. Blake's account of the interview was set out in his personal letter to Supervisor S. F. Phillips of the Senstudy 75 Project. The letter was edited to omit comments irrelevant to the interview or of a personal nature.

RE: Testimony before Senate Select
Committee on Governmental Operations
with Respect to Intelligence Activities
by J. Brooke Blake, November 21, 1975

Dear Mr. Phillips:

On November 21, 1975, I met Committee attorney-investigator, Robert K. Kelly at Room G-308, Dirksen Senate Office Building, Washington, D. C. He suggested we have lunch in the building cafeteria. During those thirty minutes he spoke in generalities about the Committee's work and I was able to keep the conversation on a theme of my asking about his background and current activities. He did ask if I knew Roy Moore. He was informed I knew Roy in Birmingham and that he was one of a very few "trouble shooting" inspectors who traveled throughout the United States as agent in charge of major case investigations. He asked my opinion on why Roy and I answered my guess was his experience and ability to rally agents. I explained the latter as Roy Moore being the type boss for whom most agents enjoyed working.

~~Throughout lunch and~~ the deposition ~~Kelly~~ seemed infactuated ~~with informant~~, Tom Rowe.

Reports were submitted by various FBI field offices regarding the activities of the ELF and COMINFIL, NAACP, within the territory covered by each of these offices. In some instances, some of these offices listed themselves as office of origin. However, inasmuch as the national headquarters of these two organizations were located in New York City, FBIHQ considered the New York Office as the office of origin in the investigation of these organizations and documents submitted by the New York Office were utilized in response to your request.

Material concerning these four organizations has been prepared and is being delivered with this memorandum.

Item 2 of the SSC letter asked for "any information which you have refuting the suggestion...of the General Accounting Office's September 24 report to the House Judiciary Committee, that cases in which violence can be predicted probably represent less than 2 percent of all FBI domestic intelligence investigations."

Item 3 asked the FBI to "provide all memoranda or analyses prepared for the Justice Department, Director Kelley, or Assistant Director Wannall on the findings of the General Accounting Office as presented to the House Judiciary Committee on September 24."

Referenced memorandum and LHM dated 12/24/75, were prepared as an initial response to the SSC. RE: DECEMBER 18, 1975, LETTER TO THE
ATTORNEY GENERAL FROM SENATORS
MONDALE AND BAKER

On December 22, 1975, the FBI received a copy of a letter dated December 18, 1975, which Senators Mondale and Baker sent to the Attorney General levying certain requirements on the FBI with a request that the responses be provided the SSC during the last week of December, 1975, and the first week of January, 1976.

Item 2 contained a request for any information refuting the suggestion made on page 34 of the General Accounting Office's September 24 report to the House Judiciary Committee, that cases in which violence can be predicted probably represent less than two percent of all FBI domestic intelligence investigations.

Page 34 of the September 24, 1975, report of the Comptroller General before the House Subcommittee on Civil Rights and Constitutional Rights concerning FBI domestic intelligence operations contains the following statement: "There were only 12 instances--or less than 2 percent--in which the FBI obtained advanced (sic) knowledge of planned activities on the part of a subversive or extremist group or individual." This statement appears, both in form and content, to be somewhat different from that contained in your letter of December 18. One can predict violence when leaders of an organization express an intention to resort to violent means to attain some end, when they further that intention by obtaining weapons and ammunition, and train and exhort their members and followers to take violent action. That, however, is not analogous to the situation where an informant or source is in a position to furnish the FBI advance information with regard to some specific violent action to be taken by members of an extremist or subversive group.

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: DECEMBER 18, 1975, LETTER TO THE ATTORNEY GENERAL
FROM SENATORS MONDALE AND BAKER

The FBI is very reluctant to draw any conclusions from these General Accounting Office's statistics, and we maintain no records or statistics which would either refute or substantiate the inferences which you apparently draw from their interim report. The two percent may represent hundreds of citizens' lives and thousands of dollars in potential property damage. It may only represent one life - a policeman, a citizen, perhaps a President or public official. How does one measure the value of this type of information? Surely not solely in terms of percentages.

You should perhaps consider the base from which the General Accounting Office apparently drew their statistics. Their interim report was based on their review of 676 FBI domestic intelligence cases under investigation during Calendar Year 1974, in ten varied U. S. cities. Over 50 percent of these 676 cases were admittedly only preliminary inquiries. These were limited investigations designed primarily to fully identify the subject through established sources and to ascertain whether that subject was in fact associated with an extremist group or organization, or was likely to engage in violence himself. That little advance information of planned violence evolved from these limited investigations is not surprising. Most of the information concerning planned violence would normally come from well-established informants in groups and would not likely show up in these individual case files.

Also, had the General Accounting Office used as its base the years of greater incidence of domestic violence, such as 1967-72, the figures might have been appreciably different.

Item 3 was a request for any analyses of the General Accounting Office's September 24, 1975, report.

The FBI has not prepared any analytical memoranda or any analyses of the preliminary findings of the General Accounting Office as presented to the House Subcommittee on Civil Rights and Constitutional Rights on September 24, 1975.

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: DECEMBER 18, 1975, LETTER TO THE ATTORNEY GENERAL
FROM SENATORS MONDALE AND BAKER

The General Accounting Office report of September 24 was an interim report hurriedly prepared to respond to a congressional request. Neither the FBI nor the Department of Justice was afforded the opportunity to review this report for substance or to have comments included prior to its delivery to the Congressional Committee.

The General Accounting Office originally planned to submit its final report in November or December, 1975; it is now expected in January, 1976. The final General Accounting Office report will include findings, conclusions, and recommendations based on a review of the full 900 domestic intelligence case sampling and a voluminous amount of additional material. The FBI and the Department of Justice have been assured of the right to review this report prior to its issuance and to have comments included where appropriate. Any FBI analyses will be conducted after receipt of the General Accounting Office's final report.

Attorney General Edward H. Levi
Room 5111
Department of Justice
Washington, D.C. 20530

Dear General Levi:

We have been asked to chair a special subcommittee of the Select Committee on Intelligence which will concentrate on matters relating to domestic intelligence activities of the Federal government. Our mandate is to prepare for the full committee's consideration a draft report of findings of fact on alleged abuses or excesses by the FBI and other domestic intelligence agencies; the causes of such alleged abuses or excesses and recommendations which the Committee might make to remedy the problems we have uncovered.

We are aware of the fine work in which your staff has been engaged in these areas and hope that they will be available to work with the Committee staff on these matters. However, the Subcommittee finds the Committee record needs to be supplemented in several important respects and therefore finds it necessary to direct a number of requests to the FBI for further information which we hope will be treated on a priority basis so that the Subcommittee can meet the deadlines set by the full committee. These and future requests which will be handled between the two committee counsel or Mr. Elliff, Domestic Task Force Leader, and Mr. Shaheen, Special Counsel for Intelligence Coordination, will pertain to both information necessary for us to formulate meaningful recommendations and to pursue matters on certain specific alleged abuses which remain unsettled. Among the future requests will be questions pertaining to your guidelines on "Domestic Security Investigations" and on manpower and budget statistics for the FBI's domestic intelligence program.

For us to meet the deadline set by the full committee, it is essential that the information requested below be

SUBJECT: GENERAL ACCOUNTING OFFICE (GAO)
REVIEW OF FBI OPERATIONS

Attached is one draft copy of testimony to be delivered on Wednesday morning, 9/24/75, by the Comptroller General Elmer B. Staats, before the House Judiciary Committee, Subcommittee on Civil Rights and Constitutional Rights, chaired by Congressman Don Edwards of California. Attachment consists of a 16-page opening statement, supplemented by appendixes, containing: 1) a statement setting forth GAO's verification proposal; 2) correspondence among GAO, House Judiciary Chairman Peter W. Rodino, Jr., and Attorney General Levi, concerning GAO's verification proposal; 3) a statement entitled, "FBI's Domestic Operations--A Perspective," outlining the fundamental authority for FBI operations, Bureau administrative structure and procedures, as well as statistical data on security investigations between 1965 and 1975; and 4) a 33-page analysis of the legal authority for FBI domestic intelligence operations.

GAO offered us an advance copy of Mr. Staats' testimony with the proviso that it would accept FBI suggestions and minor corrections but would not make any substantive alterations in the draft. We have reviewed the draft, and GAO has made some technical changes at our suggestion. From a substantive viewpoint, while we take exception to GAO's phraseology in certain instances, as well as to certain factual conclusions and inferences, our overall reading of this material is that it represents an effort on GAO's part to present an objective picture of FBI operations.

In his prepared statement, Mr. Staats will offer the following conclusions and observations:

EX-105 REC-6

1. GAO's sampling of FBI cases "...provide a good overall picture of what the FBI is doing in the domestic intelligence area."

2. GAO's staff which reviewed FBI-prepared case summaries concluded that the use of summaries, supplemented by follow-up interviews with FBI Special Agents, provided "...a good understanding of what occurred in each investigation."

3. Because GAO's verification proposal was not adopted, it was unable to provide Congress with full assurance of the accuracy and completeness of summary information that the FBI provided.

4. The legal authority upon which FBI domestic intelligence operations are based is ambiguous, and it would be appropriate for Congress to specify such authority.

5. Legislation specifying FBI authority in the domestic security area should address the issue of what role GAO should play in assisting the Congress to carry out its oversight function.

The material described above comprises GAO's opening testimony for the morning of 9/24/75. GAO has indicated that it will furnish the FBI material prepared for delivery in the afternoon on that date when it is completed. We expect that GAO's afternoon testimony will be considerably more detailed and that the draft submitted to us will be more critical of FBI domestic intelligence policies and practices. We will evaluate this material upon receipt.

Reference INTD memo, dated 9/18/75, captioned as above, concerning congressional testimony on FBI domestic security intelligence investigations to be delivered on Wednesday morning, 9/24/75, by Comptroller General Elmer B. Staats.

Attached is draft copy of testimony prepared by GAO's staff for delivery by Mr. Staats on Wednesday afternoon, 9/24/75. As was the case with the draft of Mr. Staats' morning testimony, GAO has furnished this document with the understanding that it would entertain suggestions for minor corrections but would not make substantive alterations. We have been informed that the attachment was prepared under an exceedingly short deadline. Hasty preparation is evident from our preliminary evaluation, and, although the draft is critical of certain aspects of our domestic security intelligence investigations, we do not consider this document to be an articulate or incisive statement.

Nevertheless, the draft does raise issues which may be the subject of follow-up inquiry, particularly with reference to investigative sources and techniques. Under the subheading "Sources and Techniques Used During an Investigation," on pages 8, 9, and 10, reference is made to the use of school and telephone company employees as confidential sources, access to postal and passport records, pretext interviews, COINTELPRO-type activity, and surreptitious entries in cases reviewed by GAO. In addition, reference is made at the bottom of page 9 to information derived from electronic surveillance coverage which appeared in cases reviewed by GAO. However, GAO's testimony fails to indicate that the information referred to was completely derived from overhears. Consequently, the testimony may create an erroneous impression with respect to the use of electronic surveillances in these cases. We are working with GAO to have the draft altered to avoid misinterpretation with respect to the use of electronic surveillances.

In his afternoon testimony, Mr. Staats will make the following observations and recommendations:

1. Few would deny the necessity for the FBI to conduct domestic security intelligence investigations, but there should be clearer guidelines governing their purpose and scope.

2. The Office of the Deputy Attorney General should be charged with the responsibility for ensuring that the FBI complies with guidelines which might be issued by the Attorney General rather than diffusing this responsibility among various divisions of the Department of Justice.

3. As suggested by the Rockefeller Commission, there should be a mechanism created either in the FBI or in the Department of Justice to evaluate and analyze the results of the FBI's domestic security intelligence investigations.

4. Although only 16 of the 676 cases reviewed by GAO (3 percent) were referred to a United States Attorney for prosecutive opinion, in 43 percent of the cases (291), the FBI was able to establish that the subject was a leader or a member of a subversive organization or was prone to violence.

5. FBI field offices are not fully consistent in the manner in which they conduct preliminary inquiries and frequently do not conclude the inquiry within the allotted 90 days.

FBIHQ personnel are continuing to review the attachment, and we anticipate consulting with GAO's staff on Monday morning, 9/22/75, to discuss any changes deemed necessary.

On Wednesday, 9/24/75, Comptroller General Elmer B. Staats testified in public session before the Subcommittee on Civil Rights and Constitutional Rights of House Committee on the Judiciary. His testimony, and that of several assisting GAO officials, was based on their preliminary review of the FBI's domestic intelligence operations.

A copy of Mr. Staats' revised prepared testimony is attached.

The Committee convened in Room 2141 of the House Office Building (Rayburn Building) at 9:23 a.m. Mr. Staats read his prepared testimony and answered some questions until approximately 12:25 p.m. The Committee reconvened for questioning at 1:52 p.m., and adjourned at 3:03 p.m.

Subcommittee members present were:

Don Edwards, California, Presiding
Robert F. Drinan, Massachusetts
Herman Badillo, New York
M. Caldwell Butler, Virginia

In addition to Mr. Staats, approximately ten other GAO representatives were present, some of whom responded to Congressional questions on specific points of the GAO audit. Aside from the rather large GAO contingent, their wives and friends, there was sparse public attendance and most of the seats in the hearing room were empty. There was limited coverage by press and TV news cameramen, half of whom departed after the morning session.

Verification

The Comptroller General read from his prepared testimony and was interrupted occasionally for questions. The initial pertinent comments and questions by Chairman Don Edwards were directed at eliciting a statement from Staats that the denial of direct access to FBI files for the purpose of independent verification was unique in GAO's audit history and that, because of this, GAO was unable to completely assure Congress as to the accuracy of their survey. GAO indicated they still felt that they had valid audit. They were afforded the opportunity to interview FBI officials and case Agents and had no reason to doubt the accuracy of the summaries. They were not impuning the motives of the FBI or the Attorney General in denying access; they understood the principle involved, but insisted that verification was necessary. Mr. Edwards mentioned the House may subpoena the necessary FBI files to permit verification. Mr. Fogel of GAO replied that GAO would prefer the files on which summaries were prepared be shipped to FBI Headquarters where the GAO could conduct their random verification proposal.

GAO strenuously disagreed with Attorney General's opinion that GAO's audit authority was limited to access for the purposes of conducting financial audits and Congressman Edwards was critical of the Attorney General's failure to correspond with Congress subsequent to 6/25/75.

FBI-Prepared File Summaries

Mr. Staats stated that GAO's testimony and preliminary review was based on 676 FBI case summaries in the Subversive and/or Extremist field out of a projected 899 from 10 FBI field offices. In response to specific questions from Mr. Drinan, he and Mr. Richard Fogel, GAO, indicated that GAO had received more than the 676 summaries (they had received as of 9/24, 852 out of 899), but that in order to prepare for testimony, their analysis was based on the 676. Drinan attempted to establish that the FBI was delaying or dragging its feet in providing the other summaries. GAO replied that most FBI field offices have been extremely cooperative in the time-consuming job of preparing summaries. (GAO did not identify publicly the FBI office which they did not consider completely cooperative--Springfield. Because of manpower limitations and other case demands on Springfield, this

CONTINUED - OVER

office has completed only 68 out of a projected 90 summaries. Springfield has indicated they will make every effort to complete all 90 summaries not later than mid-October.)

Legal Authority

GAO testified that the FBI did have legal authority to conduct domestic intelligence investigations, but that this authority was in definite need of clarification, as its basis is in some instances shrouded in ambiguity.

Miss Geraldine Rubar of the GAO Legal Office discussed with precision the Presidential Directives, the 1936 Hoover memoranda and the various statutes conferring authority. Mr. Drinan loudly stated his opinion that the FBI was operating for forty years in this field without legal authority and asked to be shown where the term "extremists" appeared in any Presidential Directives or statutes. Miss Rubar replied that the term was not in vogue at the time but that it was used by Attorney General Ramsey Clark in a 1967 memorandum to the FBI when he ordered intensified investigation and coverage in the area of black nationalist groups and extremists.

Mr. Drinan repeatedly, but unsuccessfully, attempted to get Miss Rubar to state the FBI had no investigative jurisdiction in the Subversive and Extremist field even to the point of inquiring if even one of GAO's staff attorneys had perhaps reached that minority opinion. Miss Rubar replied that there was agreement among GAO's legal staff that the jurisdiction was there but was in need of clarification and updating.

Initiating Investigations

Mr. Staats testified that, from GAO's reading of the FBI Manual, there was a degree of vagueness as to the type and amount of evidence needed to open an FBI investigation in the Extremist and Subversive field. GAO arbitrarily categorized cases into those opened on the basis of hard, medium or a soft degree of evidence and said 36 percent of the 676 cases reviewed were opened on a "soft degree" of evidence.

CONTINUED - OVER

Congressmen Dodd, Drinan and Badello expressed specific interest in the "soft" area. In response to their queries, GAO Auditor Fogel listed several instances where, based on summaries, GAO believed the opening of preliminary inquiries by the FBI field offices was subject to question. Among these were:

1. An instance where cases were opened on two individuals on information provided the FBI by local police that two high school youths were present in the courtroom at a trial of an extremist. (There was no indication by GAO in their testimony as to whether the police had identified these individuals as high school youths, or whether the preliminary inquiries conducted by the FBI so identified them.)

2. An instance where the FBI opened a case on a husband and wife on the basis of having seen their license plate outside the home of a New Left functionary where a social party was in progress. (Again, there was no indication by GAO in the testimony as to whether the FBI knew it was a social party at the time the preliminaries were opened or determined this subsequently.)

3. A case was opened on an individual who expressed an interest in applying for membership in a group considered extremist or subversive by the FBI.

4. A case was opened on an individual who telephoned a member of an extremist group.

5. A case was opened on a person who parked his car outside a convention of a subversive/extremist organization.

6. A case was opened as a result of a mail cover on an individual who corresponded with a national officer of a black extremist organization.

7. A case was opened on an individual who attended a meeting of the press committee of a subversive organization.

CONTINUED - OVER

All of the above were enumerated as examples of FBI field office exercising judgment and discretion in opening cases based on "soft" evidence. Congressman Badillo took loud exception to this and said he saw no basis for opening cases in any of these instances and referred to them as "no basis" cases rather than soft.

GAO advised they were not prepared to make a positive recommendation on these cases (36 percent) at this time but, in their final report, they would address this issue. GAO indicated it could be an area where the FBI might review and more carefully define criteria.

Organizations

Congressman Drinan took exception to the use of terms in the FBI Manuals, such as extremists and black and white hate groups. He stated these are basically people pursuing their goal of racial justice. He then asked for GAO to list some of these organizations which the FBI characterized as "Extremist." Mr. Fogel then named the following:

The Ku Klux Klan
The Minuteman
The American Nazi Party
The Black Panther Party
The Nation of Islam

Mr. Drinan made no further comment on this subject.

Preliminary Inquiries

GAO pointed out that 73 percent of the preliminary inquiries received went beyond the 90-day FBI Manual limitation and that in 68 percent of these cases, FBIHQ was not advised and had no opportunity to review or possibly terminate the investigation. Congressmen Dodd and Drinan claimed the FBI was, therefore, not following its own rules. GAO offered no explanations as to why field offices might go over the 90-day limit, such as matters requiring special investigative effort and attention, such as the bombing cases, Hearst case, Pine Ridge Indian case, which affected offices under audit.

CONTINUED - OVER

Programs, Sources and Techniques

GAO enumerated the programs, investigative aids, sources, and the techniques utilized in FBI investigations. For the most part, these elicited no abnormal interest, but it was apparent the Committee will follow this subject in GAO's final report and in the event any FBI officials are invited to testify, they will be subject to intensive questioning on COINTELPRO, surreptitious entry, and mail openings.

Regarding sources, Drinan critically referred to "the Army of informants" and wanted numbers and payment figures which GAO could not supply. Drinan also expressed interest in Counterintelligence (Espionage) Matters which GAO declined to discuss and stated it was not a part of their mandate to review those matters.

Miscellaneous

The Committee inquired as to why the FBI was unable to provide more precise accounting figures on time and resources devoted to specific areas. Mr. Staats advised that in his experience with other agencies, the FBI's position was unusual; but that it was an organization which required flexibility and SACs had to be able to shift resources on a short notice. He indicated there apparently had been no prior need in the FBI for the modern management accounting system, but that one was now under development.

GAO witnesses followed the prepared text with respect to Departmental guidance, Attorney General's guidelines, dissemination of information, file maintenance and destruction, the Rockefeller Commission's recommendation for the development of an analytical capability for domestic intelligence matters.

In the opinion of the writer, the tone of questions and statements of Messrs. Drinan and Badillo were very critical of the FBI, and on occasion that of Mr. Dodd's. These Congressmen repeatedly attempted to put words in the Comptroller General's mouth and to twist his statements to their own liking. Basically, Mr. Staats and the GAO witnesses stuck to their prepared statement and their amplification was in basic support of this statement.

CONTINUED - OVER

In particular, these critics attempted to get Mr. Staats to state that, in view of the few statistics pointing toward prosecution and conviction, that the FBI's investigative effort in the domestic intelligence field was a waste of taxpayers' money. Mr. Staats refused to so state and indicated that the cost effectiveness of FBI coverage and penetration of subversive and extremist groups was very difficult to measure. He said one could not tell how much violence was deterred by FBI coverage or the knowledge on the part of subversives and extremist leaders that their identities were known and activities were under FBI scrutiny.

News media coverage diminished by more than half after the noon recess. The writer overheard one media reporter state to a TV technician they had the option of returning to cover the afternoon session, but they were not because "it was another Drinan circus."

The Committee thanked Mr. Staats and GAO for their "excellent" report and indicated they anticipated receipt of the completed written report in November, 1975.

U. S. SENATE SELECT COMMITTEE
TO STUDY GOVERNMENTAL OPERATIONS
WITH RESPECT TO INTELLIGENCE ACTIVITIES (SSC)

Reference is made to the testimony of FBI Director Clarence M. Kelley before the SSC on December 10, 1975. During this testimony, certain questions arose on which answers were deferred. Set forth hereinafter are the unanswered questions along with the responses thereto.

Senator Howard H. Baker, Jr., inquired as to Director Kelley's feeling concerning an Inspector General concept extending Governmentwide. Senator Baker asked the Director to think about the question and furnish his thoughts at a later date. Upon reflection and consideration of the question, Director Kelley has decided it would be inappropriate for him, as Director of the FBI, to comment concerning the need for a national Inspector General as it would affect any agency other than the FBI.

Senator Gary Hart stated that although higher authorities had been alerted to the existence of Counterintelligence Programs (COINTELPROS) in one or two instances, in terms of the bulk of the Programs there was no systematic information flowing upward through the chain of command to former Director Hoover's superiors. Specifically, Senator Hart indicated the SSC had received testimony that the existence of the COINTELPRO effort against the New Left had not been made known to higher authorities and asked if Director Kelley had any information in this regard. Director Kelley asked for an opportunity to substantiate the notification provided by former Director Hoover to higher authorities.

While no systematic report was made on a regular basis by former Director Hoover regarding COINTELPRO activities, information regarding the COINTELPROS was periodically provided to his superiors in the Executive and Legislative Branches. FBI files contain considerable documentation clearly establishing no effort was made by Director Hoover to conceal from superior authorities the fact the FBI was engaged in neutralizing and disruptive tactics against revolutionary and violence-prone groups. This documentation is as follows:

1. Briefing of the President. On November 6, 1958, Director Hoover presented to President Dwight Eisenhower and the Cabinet an oral briefing entitled "Current Communist Subversion and Espionage in the United States, 1958." Included in the presentation material was a description of the Bureau's effort to "intensify any confusion and dissatisfaction among its (Communist Party, USA) members." Use of informants was cited as a technique to further this goal. This particular effort was referred to as one of several programs to counteract resurgence of Communist Party influence in the United States. In November, 1974, former Assistant to the Director Cartha D. DeLoach advised he recalled very clearly briefing President Lyndon B. Johnson regarding the Bureau's activities against black militants.

2. Notification of White House. In 1958, a letter was sent to Presidential Aide Robert Cutler at the White House specifically advising that our COINTELPRO directed against the Communist Party had been initiated in August, 1956, and citing examples of techniques utilized. In 1965, a letter was directed to Presidential Aide Marvin Watson at the White House advising him this Bureau was seizing every opportunity to disrupt the Klan.

3. Notification of Secretary of State. In 1961, a letter enclosing a memorandum setting forth examples of COINTELPRO actions directed against the Communist Party was sent to Secretary of State Dean Rusk.

4. Notification of Attorneys General. A letter was directed to Attorney General William Rogers in 1958 specifically advising him our COINTELPRO had been initiated against the Communist Party in August, 1956, and citing examples of techniques utilized. In 1961, a letter was directed to Attorney General Robert Kennedy enclosing a memorandum citing examples of COINTELPRO actions directed against the Communist Party. In 1965, a letter was sent to Attorney General Nicholas Katzenbach advising him the FBI was seizing every opportunity to disrupt the Ku Klux Klan. Attorney General Ramsey Clark was furnished, in 1967, a letter which enclosed a detailed memorandum outlining our efforts to neutralize and disrupt the Ku Klux Klan. In September, 1969, Attorney General John Mitchell was advised of our efforts to disrupt the Klan. Additionally, former Assistant to the Director DeLoach advised in November, 1974, he had briefed former Attorney General Ramsey Clark regarding the various COINTELPROS and he also expressed the opinion that former Assistant to the Director Alan H. Belmont or former Assistant to the Director William C. Sullivan had briefed Attorney General Katzenbach.

5. Notification of Congress. Bureau files reveal that detailed information concerning the COINTELPROS was prepared for off-the-record use by former Director Hoover in connection with several appearances before the House Subcommittee on Appropriations. Material concerning the COINTELPROS was prepared for the Director's use in connection with Appropriations testimony for the fiscal years 1958, 1959, 1960, 1961, 1963, 1966 and 1967. All this material was clearly marked for off-the-record discussion. Published transcripts of hearings by the House Subcommittee on Appropriations contain notations that on at least six occasions between 1958 and 1966, off-the-record discussions took place at those points in Mr. Hoover's prepared remarks dealing with the COINTELPROS. Former Assistant to the Director John P. Mohr advised in November, 1974, he recalled the Director on several occasions had furnished details to the House Subcommittee on Appropriations relating to FBI COINTELPROS. In November, 1974, Assistant to the Director Nicholas P. Callahan advised he, too, recalled several instances involving off-the-record discussion

by the Director with members of the House Subcommittee regarding this Bureau's efforts to neutralize groups and organizations involved and that there was no critical comment made in regard thereto.

An FBI Headquarters supervisor who was assigned responsibility for COINTELPRO matters during the period 1964 to 1967 recalls that on a number of occasions he was required to prepare informal memoranda and summaries relating to COINTELPRO actions. It was his understanding this material was to be utilized by Director Hoover in connection with briefings of various Government officials.

A review of FBI files has not located any document indicating higher authority was formally advised of the existence of the COINTELPRO effort directed against revolutionary New Left elements. It should be pointed out the program that targeted the New Left was only in existence during the period 1968 to 1971 (35 months) and only 285 actions were approved, which represent approximately 12 percent of all actions approved in the basic COINTELPROS. Additionally, during the time period of the New Left program this Bureau was engaged in extensive reporting and dissemination of information relating to activities and violence perpetrated by revolutionary elements, including the so-called New Left.

The Chairman, Senator Frank Church, inquired as to how much time and money is being spent by the FBI in conducting investigations on possible Presidential appointments to Federal offices, plus any other information which would indicate what proportion of the FBI's time and effort was absorbed in this kind of activity. Senator Church also asked the Director to supply the number of such investigations conducted each year beginning with 1970 and also information as to what offices are now covered by such investigations.

The FBI conducts investigations under the Federal Employee Security Program pursuant to Executive Orders 10450 and 10422. Executive Order 10450 became effective May 28, 1953, and sets forth security requirements for employment in the Executive Branch. The purpose of the Federal Employee Security Program is to insure that the employment and retention in employment of any civilian in the Executive Branch is clearly consistent with the interests of the national security.

At the request of the White House, investigations are conducted concerning Presidential appointees and White House personnel. At the request of Cabinet officers, investigations are conducted concerning certain personnel.

Upon request, investigations are conducted concerning staff personnel of seven Congressional Committees. These are handled by agreement with the Department of Justice and include:

Senate Foreign Relations Committee
Senate Committee on Judiciary
House Committee on Judiciary
Joint Committee on Atomic Energy
Senate Appropriations Committee
House Appropriations Committee
Senate Armed Services Committee

At the request of the Department of Justice, investigations are conducted concerning Departmental Applicants for Presidential appointments and professional positions such as Federal Judges, United States Attorneys, and other legal positions. In addition, investigations are conducted for the Administrative Office of the United States Courts concerning applicants for the positions of United States Magistrate, Federal Public Defender, Referee in Bankruptcy, Federal Court Executive, and Probation Officer. Also investigations are conducted concerning persons who have applied for pardons after completion of sentences upon being convicted of felonies in the United States District Courts.

Investigations are also conducted of personnel who have sensitive positions with the Nuclear Regulatory Commission and the Energy Research and Development Administration (formerly the Atomic Energy Commission).

In connection with all of these investigations, we report the facts developed and furnish the results to the requesting agency without any comment or recommendation or any evaluation of the facts developed.

The costs involved concerning investigations on behalf of the White House, Congressional Staff Committees, Department of Justice, and Applications for Pardon After Completion of Sentence, as well as cases referred to the FBI under various public laws, are included in the overall FBI budget. In all other investigations charges are made. The current rates for these charges, which became effective on October 12, 1975, are listed below. For Fiscal Year 1975, expenditures for these investigations amounted to approximately $6,760,000 of which slightly over $3,000,000 was reimbursed from other agencies. It is to be noted the costs of these investigations fluctuate from year to year dependent upon changes in salary, travel, and other expenses.

In early 1975, at the request of the SSC and the House Select Committee on Intelligence Activities (HSC), we began conducting applicant-type investigations of personnel assigned to these committees and also of applicants for positions with these committees. Through January 6, 1976, we have conducted 160 such investigations received from the SSC and 39 received from the HSC. Although no charges have been made, the costs involved at the current rate would be $338,720 for the SSC and $82,563 for the HSC, for a total of $421,283.

Pursuant to Constitutional Amendment 25, approved in 1967, the President requested an investigation in October of 1973, concerning Gerald R. Ford for the appointment to Vice President. Then in August, 1974, an investigation was conducted at the request of the President concerning Nelson Aldrich Rockefeller, Vice President-Designate. Thus, for the first time in the history of the United States Government, an applicant-type investigation was conducted concerning the President and Vice President. These were the most extensive investigations ever conducted by the FBI. of an applicant-type nature.

The investigations handled by the FBI are limited to existing law, executive order, or by special agreement with the President and/or the Attorney General. They are not routine and it is not believed they should be or could be eliminated.

U. S. Senate Select Committee
to Study Governmental Operations
With Respect to Intelligence Activities (SSC)

Where possible, steps have been taken to insure that these cases are kept to an absolute minimum. It is noted prior to July, 1973, the FBI conducted investigations concerning nonprofessional positions in connection with Departmental applicant/U. S. Court applicant investigations, such as general clerical personnel. It was determined and agreed upon that these investigations could be handled by the Civil Service Commission and, therefore, they were transferred to that agency.

A manpower utilization survey conducted during March, 1975, disclosed that 2.3% of field investigative time by FBI personnel was being devoted to these applicant-type investigations conducted for other Government agencies. This low percentage is indicative of the Bureau's efforts to hold down applicant-type work to that essential and necessary to meet our various commitments in this field. We have and will continue to oppose legislation seeking to involve the FBI in routine applicant-type investigations.

NOTE:

Senator Baker's question re Inspector General appears on pages 2473 and 2474 of the galley draft of Director Kelley's testimony. It is felt the answer given is proper in that any comment made re Inspector General concept governing other agencies would, in fact, be a comment on behalf of the Director regarding conditions existing in and/or needs of oversight, etc., of other agencies which could be misconstrued. Senator Hart's questions concerning COINTELPRO are contained on pages 2498 and 2499 of the proof and Senator Church's questions appear on pages 2506, 2507 and 2508 of the proof. This matter has been coordinated by the Senstudy Project with Legal Counsel Division, Section IS-2 of INTD and the Employee Security and Special Inquiry Section of the Special Investigative Division.

SAM A. JAFFE
INFORMATION CONCERNING

Jaffe is a former New York Office informant who was a correspondent for CBS and ABC. While with ABC, he was stationed in Moscow from 1961 to 1965. During this assignment he was compromised by the KGB through a relationship he had with a Soviet female and because of a car accident. Jaffe reported the subsequent recruitment effort by the KGB to both the U. S. Embassy and to New York. He admitted to New York that he had a continuing relationship in Moscow with several KGB officers, but denied that he furnished them anything. In 1964, a Soviet defector reported that Jaffe had been recruited by the KGB in about 1961 and thereafter furnished the KGB with information about other Americans in Moscow. Our investigation, including two intensive interviews of Jaffe, neither substantiated or refuted the defector's allegation.

Our evaluation of Jaffe's relationship with the KGB is that after his admitted compromise he undoubtedly cooperated to a degree, simply to avoid being expelled from Moscow because of the damage it would have caused to his then advancing career. He was eventually expelled in 1965, ostensibly because of an unfavorable article written by ABC Correspondent John Scali about the Soviet leadership. We have never uncovered any evidence that Jaffe assisted the KGB after he left Moscow.

Memorandum to Mr. W. R. Wannall
Re: Sam A. Jaffe
105-23333

Jaffe filed a Freedom of Information Act request in 1975 for all information in our files, claiming that the FBI or CIA had leaked an allegation that he was a KGB agent, which has prevented him from obtaining employment in the media field. His claim is not substantiated by anything contained in our files. Both the Senate and House Committees on Intelligence Operations have taken an interest in his case and we have furnished both Committees with excised copies of Jaffe's file.

The "Washington Star News" issue of 1/22/76, carried an article reporting an interview of Jaffe by a "New York Times" reporter in which Jaffe related he had been an unpaid FBI informant during the 1950s and 1960s, reporting on his contacts with Soviet nationals. *The article is generally factual and does not touch on Jaffe's allegation as to a leak. On 1/21/76, Jaffe telephoned SA Richard Kinsey of the Intelligence Division (SA Kinsey had participated in an interview of Jaffe on 11/24/75, on Deputy Associate Director Adams' instructions to hear out Jaffe's allegations). Jaffe was concerned because an unnamed "New York Times" reporter had interviewed him on the same day and inferred he had information that Jaffe was a paid FBI informant. Jaffe wanted to know if we had so advised either the Senate or House Committees since the reporter claimed to have seen documentation that Jaffe had received money from the FBI. Jaffe was advised that he could not be furnished information as to what we had furnished the Committees but that he knew whether or not he had received money from us. Jaffe said that he was concerned that we had leaked additional derogatory information concerning him.

While it is possible that the "New York Times" reporter has had access to Jaffe's file as furnished to the Senate or House Committees, it is not believed that we have sufficient evidence of this in order to make a complaint to either Committee, based only on what Jaffe reported as to the reporter's background for his inquiry of Jaffe.

* Our records disclose that Jaffe was never paid, either for services or expenses during the period he was operated as a symbol number informant.

Late on the afternoon on January 14, 1976, Pat Shea, staff member, Senate Select Committee, made available the attached, which is a draft bill captioned Intelligence Oversight Act of 1976.

This draft is the product of the Senate Select Committee staff.

Mark Gitenstein, Martha Talley, and Pat Shea, all of whom are Senate Select Committee staff members, are scheduled to meet with Bureau representatives at 2 P.M., tomorrow, January 15, 1976. This meeting will afford us the opportunity to discuss in detail the draft bill.

The bill would create a Committee on Intelligence Activities to which all proposed legislation pertaining to the intelligence community would be referred. It would be granted broad, sweeping powers of access to and disclosure of intelligence community information.

Also received late on the afternoon of January 14, 1976, was a letter from Chairman Ribicoff of the Government Operations Committee. Attached to that letter is a copy of S.189 introduced by Senator Nelson on January 16, 1975, S.317 introduced by Senator Baker on January 23, 1975, and S. CON. RES.4 introduced by Senator Hathaway on January 23, 1975.

Mr.

introduced the following bill; which was read twice and referred to the Committee on

A BILL

(Insert title of bill here)

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Intelligence Oversight Act of 1976."

SEC 2. It is the purpose of this Act to establish a new Standing Committee of the Senate to oversee and to make continuing studies of the intelligence activities and programs of the United States Government. In carrying out this purpose, the Committee on Intelligence Activities shall make every effort to assure that the appropriate agencies and departments of the United States provide informed and timely intelligence necessary for the Executive and Legislative Branches to make sound decisions affecting the security of the Nation. It is further the purpose of this Act to provide vigilant legislative oversight over the intelligence activities of the United States to assure that such activities are in conformity with the Constitution and laws of the United States.

SEC. 3. Sections 4 through 12 of this Act are enacted --

(1) as an exercise of the rulemaking power of the Senate, and as such they shall be considered as part of the Standing Rules of the Senate, and such rules shall supersede other rules only to the extent that they are inconsistent therewith; and

(2) with full recognition of the Constitutional right of the Senate to change such rules at any time, in the same manner, and to the same extent as in the case of any other rule of the Senate.

SEC. 4. Rule XXIV of the Standing Rules of the Senate is amended by adding at the end thereof a new paragraph as follows:

"3. (a) Five members of the Committee on Intelligence Activities shall be appointed by the majority leader of the Senate and four shall be appointed by the minority leader of the Senate.

"(b) No Senator may serve on the Committee on Intelligence Activities for more than six years, exclusive of service by any Senator on such committee during the ninety-fourth Congress. To the greatest extent practicable, the requirements of this section shall be met by selecting three new Senators to serve on the Committee at the beginning of the ninety-sixth Congress and each Congress thereafter.

"(c) At the beginning of each Congress, the members of the Committee on Intelligence Activities appointed by the majority leader shall select a chairman and the members of such committee appointed by the minority leader shall select a vice chairman. The vice chairman shall act in the place and stead of the chairman in the absence of the chairman."

SEC. 5. (a) Subparagraph (d)1 of paragraph 1 of Rule XXV of the Standing Rules of the Senate is amended by striking out the period at the end of such subparagraph and inserting in lieu thereof a comma and the following: "except matters described in subparagraphs (s)(1) and (2)."

(b) Subparagraph (i)1 of paragraph 1 of Rule XXV of the Standing Rules of the Senate is amended by striking out the period at the end of such paragraph and inserting in lieu thereof a comma and the following: "(except matters described in subparagraphs (s)(1)) ~~and (2))~~."

(c) Subparagraph (1)9 of paragraph 1 of Rule XXV of the Standing Rules of the Senate is amended by striking out the comma after the word "espionage" and inserting in lieu thereof the following: "(except matters described in subparagraphs (s)(1) ~~and (2),~~".

SEC. 6. (a) Paragraph 1 of Rule XXV of the Standing Rules of the Senate is amended by adding at the end thereof the following new subparagraph:

"(s)(1) Committee on Intelligence Activities, to which committee shall be referred all proposed legislation, messages, petitions, memorials, and other matters relating to the following:

"(A) The Central Intelligence Agency and the Director of Central Intelligence.

"(B) Intelligence activities of all other departments and agencies of the Government, including, but not limited to, the intelligence activities of the Defense Intelligence Agency, the National Security Agency, and other agencies of the Department of Defense; the Department of Justice; the Department of State; and the Department of the Treasury.

"(C) The organization or reorganization of any department or agency of the Government to the extent that the organization or reorganization relates to a function or activity involving national intelligence or domestic intelligence.

"(D) Authorizations for appropriations for the following:

"(i) The Central Intelligence Agency.

"(ii) The Defense Intelligence Agency.

"(iii) The National Security Agency.

"(iv) The national intelligence activities carried out by the Department of Defense.

"(v) Intelligence activities of the Federal Bureau of Investigation.

"(vi) The intelligence activities of any successor departments or agencies to those departments and agencies named in this subclause.".

(b) Paragraph 3 of Rule XXV of the Standing Rules of the Senate is amended by inserting

"Intelligence Activities ---------------------- 9"

immediately below

"District of Columbia ------------------------ 7".

(c) Paragraph 6 of Rule XXV of the Standing Rules of the Senate is amended by adding at the end thereof the following new subparagraph:

"(i) For the purposes of this paragraph, service of a Senator as a member of the Committee on Intelligence Activities shall not be taken into account.".

SEC. 7. The Committee on Intelligence Activities of the Senate, for the purposes of accountability to the Senate, shall make regular and periodic reports to the Senate on the nature and extent of the intelligence activities of the various departments and agencies of the United States, and shall promptly call to the attention of the Senate any matters deemed to raise significant questions under the Constitution or laws of the United States or to otherwise require the immediate attention of the Senate.

SEC. 8. (a) No member of the Committee on Intelligence Activities of the Senate and no member of the staff of such committee shall disclose outside such committee any information in the possession of or obtained by such committee relating to the activities of the Central Intelligence Agency or any other department or agency of the United States engaged in intelligence activities unless authorized by such committee. No member of the Senate shall disclose outside the Senate any information conveyed to the Senate in closed session by the Committee on Intelligence Activities of the Senate unless authorized by the Senate.

(b) The Committee on Intelligence Activities of the Senate may refer to the Select Committee on Standards and Conduct of the Senate for investigation and other action: (1) any disclosure outside the Committee on Intelligence Activities of the Senate, not authorized by such committee, of any information in the possession of or obtained by such committee relating to the activities of the Central Intelligence Agency or any other department or agency of the United States engaged in intelligence activities; and (2) any disclosure outside the Senate, not authorized by the Senate, of any information conveyed to the Senate in closed session by the Committee on Intelligence Activities. The Select Committee on Standards and Conduct of the Senate shall investigate any breach of confidentiality referred to it pursuant to this subsection and shall recommend appropriate action, such as censure or removal from office.

SEC. 9. (a) No person may be employed as a professional staff member of the Committee on Intelligence Activities of the Senate or be engaged by contract or otherwise to perform services for such committee for a period totaling more than nine years.

(b) No employee of such committee or any person engaged by contract or otherwise to perform services for or at the request of such committee shall be given access to any classified information by such committee unless such employee or person has received an appropriate security clearance as determined by such committee in consultation with the Director of Central Intelligence. The type of security clearance to be required in the case of any such employee or person shall, within the determination of such committee, in consultation with the Director of Central Intelligence, be commensurate with the sensitivity of the classified information to which such employee or person will be given access by such committee.

SEC. 10. The Committee on Intelligence of the Senate shall formulate and carry out such rules and procedures as it deems necessary to prevent the disclosure, without the consent of the person or persons concerned, of information in the possession of such committee which infringes upon the privacy or Constitutional rights of such person or persons. Nothing herein shall be construed to prevent such committee from publicly disclosing any such information in any case in which such committee determines the public interest in the disclosure of such information clearly outweighs any infringement on the privacy of any person or persons.

SEC. 11. (a) The Committee on Intelligence Activities of the Senate may, after full and considered consultation with appropriate officials of the Executive Branch, disclose to the public any information received by it from the President or Vice President or any department or agency of the United States upon the committee's determination that the national interest would be served by such disclosure. In any case in which such committee decides to ~~make~~ release public any information requested to be kept confidential by the President, Vice President, or the head of a department or agency, as the case may be, such committee shall notify the President to that effect. Such committee may publicly disclose such information after the expiration of ten days following the day on which notice is transmitted to the President unless prior to the expiration of such ten-day period the President submits a written certification to such committee stating that the national interest in the disclosure of such information is clearly outweighted by the probability of grave harm to the national security.

(b) If after timely receipt of a certification by the President made pursuant to subsection (a), the Committee on Intelligence Activities determines that such information should be publicly disclosed, such committee shall refer the question of disclosure of such information to the Senate for such action as the Senate deems appropriate.

(c) Any question referred to the Senate by the Committee on Intelligence Activities pursuant to subsection (b) shall be disposed by the Senate within three calendar days following the day on which the question is reported to the Senate, excluding days on which the Senate is not in session.

SEC. 12. The Committee on Intelligence Activities of the Senate is authorized to permit any personal representative of the President, designated by the President to serve as a liaison to such committee, to attend any closed meeting of such committee.

SEC. 13. (a) Notwithstanding any other provision of law, it shall be the duty of the head of each department and agency of the United States to keep the Committee on Intelligence Activities of the Senate fully and currently informed with respect to all intelligence activities which in any respect are the responsibility of or are planned, supervised, financed, or engaged in by such department or agency.

(b) Notwithstanding any other provision of law, it shall also be the duty of the head of any department or agency of the United States involved in any intelligence activities to furnish any information or document in its possession, custody, or control, or witness in its employ, whenever requested by the Committee on Intelligence Activities of the Senate with respect to any matter within such committee's jurisdiction.

(c) In order that the Committee on Intelligence Activities of the Senate may have sufficient time to consult with and advise any department or agency of the United States regarding certain kinds of intelligence activities proposed to be carried out by such department or agency, before such department or agency initiates such activities, such committee is authorized to specify any type or kind of intelligence activity as to which in its judgment such committee should be given notice prior to any executive decision to carry out any such activity. No department or agency of the United States may engage in, directly or indirectly, and no agency head may authorize or direct any type or kind of intelligence activity specified in writing to the President as especially sensitive by the Committee on Intelligence Activities of the Senate unless such committee has been fully informed of the proposed activity by the head of the department or agency concerned prior to the time such activity is initiated.

SEC. 14. No funds may be appropriated for any fiscal year beginning after September 30, 1976, to or for the use of any department or agency of the United States to carry out any of the following activities unless such funds have been previously authorized to carry out such activity for such fiscal year;

(A) The activities of the Central Intelligence Agency.

(B) The activities of the Defense Intelligence Agency.

(C) The activities of the National Security Agency.

(D) The national intelligence activities carried out by the Department of Defense.

(E) The intelligence activities of the Federal Bureau of Investigation.

(F) The intelligence activities of any successor departments and agencies to those departments and agencies listed in clauses (A) through (E).

SEC. 15. The Comptroller General of the United States shall from time to time, at the request of the Committee on Intelligence Activities of the Senate, conduct financial audits and reviews of the intelligence activities of any department or agency of the United States. For the purpose of conducting any such audit or review, the Comptroller General, or any of his duly authorized representatives, shall be given access to and the opportunity to examine all books, accounts, records, reports, files, and all other materials within the possession, custody, or control of any such department or agency.

SEC. 16. Upon expiration of the Select Committee on Governmental Operations With Respect to Intelligence Activities, established by Senate Resolution 21, 94th Congress, all records, files, documents, and other materials of such committee shall be transferred to the Committee on Intelligence Activities.

SEC. 17. As used in this Act --

(1) The term "national intelligence" means the collection, analysis, production, dissemination, and use of political, military, and economic information affecting the relations of the United States with foreign governments, and other activity which is in support of, or supported by the collection, analysis, production, dissemination, and use of such information. Such term also includes, but is not limited to, counterintelligence and clandestine activities.

(2) The term "domestic intelligence" means (a) the collection within the United States, its territories and possessions, of information about foreign intelligence services within the United States and the analysis, production, dissemination, and use of such information; (b) information about those activities of persons within the United States, its territories and possessions which is, or may be, considered by any department, agency, bureau, office, division, instrumentality, or employee of the United States to pose a threat to the internal security of the United States; and (c) any activity which is in support of such information described in clause (a) or (b) of this paragraph. Such term also includes, but is not limited to, counterintelligence and clandestine activities.

(3) The term "intelligence activities" means the sphere of action and function of national intelligence and domestic intelligence.

SEC. 18. Nothing in this Act shall be construed as constituting an authorization for the conduct of any activity not otherwise authorized by law.

SEC. 19. If any provision of this Act, or the application thereof to any person or circumstance, is held invalid, the validity of the remaining provisions and the application of such provisions to other persons or circumstances shall not be affected thereby.

Honorable Frank Church
Chairman
Select Committee to Study Governmental Operations
With Respect to Intelligence Activities
United States Senate
Washington, D.C. 20510

Dear Mr. Chairman:

You will recall that by letter to me of January 27, 1975, from Senate Majority Leader Mike Mansfield and Minority Leader Hugh Scott, we were advised of the Senate's plan to conduct an investigation and study of intelligence activities by Government agencies. The scope of the study was defined in Senate Resolution 21 of the 94th Congress. The letter specifically requested that we not destroy or otherwise dispose of any records or documents which might have a bearing on the subjects under investigation or relating to the matters specified in Section 2 of Senate Resolution 21. That Section of the Resolution described the Senate's extensive interest in the domestic intelligence, as well as foreign counterintelligence, activities of Executive Branch agencies, including the FBI.

In accommodation of that request of the leadership of the United States Senate, I immediately issued instructions to all offices and divisions of this Bureau establishing a moratorium on the destruction of all records of whatever description. In retrospect, I now feel that the moratorium need not have been as all-encompassing as that, but this was done to assure that there could be no question of my intention for the FBI to comply fully with the request with regard to the preservation of relevant records in which the Senate might develop an interest.

It is now almost one year since the inception of the moratorium on our regular records destruction program. For your information, our regular destruction program, as approved by the National Archives and Records Service, is designed to prevent retention of masses of records well beyond the period during which they may serve a useful purpose. Further, our records destruction program, as approved by the National Archivist, permits the destruction of those records which are deemed to no longer possess evidentiary, intelligence, or historical value. The moratorium, which was not expected to last as long as it has, has created substantial administrative burdens not only at FBI Headquarters but throughout our 59 field offices. The suspension of sound records management and file destruction practices in many areas is causing very substantial space and storage problems.

I, therefore, now propose, with your concurrence, to resume that portion of our records destruction program which, in reality, could not have been contemplated by the Senate leadership's request in the first instance. We would continue the destruction moratorium on all classifications of files which would fall within the general description of "security files." These would encompass all files on domestic intelligence matters, extremist matters, racial matters, as well as foreign counterintelligence subject matters. We would, with regard to such "security matters," destroy duplicative material only.

The matters that we propose to resume routine destruction of, in accordance with our previously established Records Retention Plan, are the following: files relating to criminal investigations, suitability or applicant-type investigations, correspondence files, and files of an administrative nature generally. Should you or any members of your Committee express an interest for our continued retention of any record material other than as specified herein, you may be assured that such a request would receive every consideration.

Honorable Frank Church

I do hope that you are able to express concurrence in the proposals herein since the file destruction moratorium has produced substantial administrative burdens for us. Please also accept my assurance of our continued full cooperation with you and your Committee.

Sincerely yours,

Clarence M. Kelley

Dear Mike:

Attached is a list of additional items we need in connection with our investigation of the King case.

Next Tuesday there will be an Executive Session of the Domestic Intelligence Subcommittee on the subject of the usefulness of FBI domestic intelligence reports. In connection therewith, I would appreciate your supplying the Committee with a representative sample of (a) daily morning reports, (b) daily evening reports, and (c) summation weekly reports which were prepared by the IDIU during 1970.[1] In order that we may have a random cross-section of these reports, please forward one such report for the third day and/or the second week of each month of 1970.

Finally, please also forward ten sample "hourly summaries" prepared by the IDIU during the summer of 1968.[2]

Your continued cooperation is appreciated.

Sincerely,

Information has come to the attention of the Committee which indicates the possibility that the FBI conducted heretofore undisclosed electronic surveillance of personnel of the executive office of the President (possibly a Deputy Director of the Budget Bureau) and that this information was included on a list of names of persons subject to FBI electronic surveillance prepared for Attorney General Elliot Richardson in or about July 1973.

Therefore, the Committee requests all material in the possession of the Justice Department or the FBI which may bear on the above. Please notify me by phone when any such material may be available.

On December 3, 1975, Douglas Frank Durham, who confidentially furnished information to the FBI concerning extremist activities of the American Indian Movement (AIM) until publicly identified as an FBI informant in March, 1975, contacted our Minneapolis Division and furnished information which should be brought to your attention.

He said on May 7, 1975, he was interviewed by Patrick Shea and Mary DeOreo, investigators for the Senate Select Committee on Intelligence Operations, who indicated a strong desire to discredit the FBI and asked if he, Durham, could "come up with some dirt" on the FBI because there was strong support to "nail the FBI to the cross." This interview took place in the Washington, D. C., office of Reverend John Adams of the United Methodist Church. Adams, who was present during the interview, paid Durham transportation and other expenses, plus $125 in testimony fees. Adams appeared to be very anxious to "personally smear the FBI."

REC-31 62-116395-1308

Adams has previously been described by ~~Durham as~~ a nonmember advisor to AIM.

Durham said during the initial interview he got the impression that Don Rothberg, 2021 "K" Street, N. W., Washington, D. C., a reporter for the Associated Press, was very close to the investigative Staff of Senator Frank Church's Committee. He said Rothberg later traveled to Des Moines, Iowa, and reviewed Durham's conversation with the Senate investigators, at which time Rothberg informed Durham that "I feel as they do. We have to control these police departments and the FBI."

Durham further advised that Patrick Shea had informed him that Senate investigators maintained direct contact with AIM Attorney Kenneth Tilsen and talked to Tilsen prior to Durham's interview in Washington, D. C., on May 7, 1975.

The "Minneapolis Tribune" on December 14, 1975, published an article captioned "Local FBI Accused of Meddling in Trial," which in part stated that in 1969 the Minneapolis office of the FBI sent an anonymous letter to the Hennepin County Attorney concerning a defendant in a criminal case and her attorney. The letter alleged that the defendant had "some pretty good connections" and her lawyer held a "Communist Party membership." The article stated that a Minneapolis radio station reporter said on Friday, December 12, 1975, that he was given by Kenneth Tilsen a copy of the anonymous letter. The article further stated that Tilsen had said on December 13, 1975, that he got a copy of the letter from Lock Johnson, an investigator for the U. S. Senate Committee investigating the FBI. The article stated Tilsen said Johnson came to the twin cities (Minneapolis - St. Paul, Minnesota) about three weeks ago to interview him and Rosemary Freeman (the defendant in the aforementioned case). Tilsen stated he was not shown the alleged correspondence between the Minneapolis FBI Office and FBI Headquarters, in Washington, D. C., but was given a summary of the information. The article further stated that "last night" Johnson confirmed that he had interviewed Tilsen and Miss Freeman and that he had summarized for Tilsen the contents of the alleged exchange between the Minneapolis FBI and FBI, Washington, D. C.

Durham stated he has also been contacted by Ellen Miller, 13316 Rayburn House, 202-225-9751, Washington, D. C., who is affiliated with Congressman Otis Pike's Committee. She asked Durham to provide her with anything he could offer which would reveal how the FBI and police utilized informants and how they "conned" these informants into providing information.

Durham stated he eventually received a subpoena to testify before the Senate Select Committee on Intelligence Activities, but refused to comply with this subpoena, threatening to hold a press conference concerning his experience with this Committee's investigators if they forced him to appear. Durham said he expressed his feelings to an Assistant United States Attorney in Des Moines, Iowa, and in a few days he was told to forget the subpoena.

Please advise what action should be taken in this matter.

NOTE:

The above information was contained in Minneapolis teletype to the Bureau, 1/2/76, entitled "American Indian Movement; EM." While Durham, the former MP 4115-E, is no longer being operated as an informant, he periodically contacts the Minneapolis Division. Durham is currently traveling around the country under the sponsorship of the John Birch Society speaking about his knowledge of extremist activity.

C. 118 j); and the act of August 26, 1950, 64 Stat. 476 (5 U. S. C. 22-1, et seq.), and as President of the United States, and deeming such action necessary in the best interests of the national security, it is hereby ordered as follows:

SECTION 1. In addition to the departments and agencies specified in the said act of August 26, 1950, and Executive Order No. 10237 of April 26, 1951, the provisions of that act shall apply to all other departments and agencies of the Government.

SEC. 2. The head of each department and agency of the Government shall be responsible for establishing and maintaining within his department or agency an effective program to insure that the employment and retention in employment of any civilian officer or employee within the department or agency is clearly consistent with the interests of the national security.

SEC. 3. (a) The appointment of each civilian officer or employee in any department or agency of the Government shall be made subject to investigation. The scope of the investigation shall be determined in the first instance according to the degree of adverse effect the occupant of the position sought to be filled could bring about, by virtue of the nature of the position, on the national security, but in no event shall the investigation include less than a national agency check (including a check of the fingerprint files of the Federal Bureau of Investigation), and written inquiries to appropriate local law-enforcement agencies, former employers and supervisors, references, and schools attended by the person under investigation: *Provided*, that upon request of the head of the department or agency concerned, the Civil Service Commission may, in its discretion, authorize such less investigation as may meet the requirements of the national security with respect to per-diem, intermittent, temporary, or seasonal employees, or aliens employed outside the United States. Should there develop at any stage of investigation information indicating that the employment of any such person may not be clearly consistent with the interests of the national security, there shall be conducted with respect to such person a full field investi-

gation, or such less investigation as shall be sufficient to enable the head of the department or agency concerned to determine whether retention of such person is clearly consistent with the interests of the national security.

(b) The head of any department or agency shall designate, or cause to be designated, any position within his department or agency the occupant of which could bring about, by virtue of the nature of the position, a material adverse effect on the national security as a sensitive position. Any position so designated shall be filled or occupied only by a person with respect to whom a full field investigation has been conducted: *Provided*, that a person occupying a sensitive position at the time it is designated as such may continue to occupy such position pending the completion of a full field investigation, subject to the other provisions of this order: *And provided further*, that in case of emergency a sensitive position may be filled for a limited period by a person with respect to whom a full field preappointment investigation has not been completed if the head of the department or agency concerned finds that such action is necessary in the national interest, which finding shall be made a part of the records of such department or agency.

SEC. 4. The head of each department and agency shall review, or cause to be reviewed, the cases of all civilian officers and employees with respect to whom there has been conducted a full field investigation under Executive Order No. 9835 of March 21, 1947, and, after such further investigation as may be appropriate, shall readjudicate, or cause to be readjudicated, in accordance with the said act of August 26, 1950, such of those cases as have not been adjudicated under a security standard commensurate with that established under this order.

SEC. 5. Whenever there is developed or received by any department or agency information indicating that the retention in employment of any officer or employee of the Government may not be clearly consistent with the interests of the national security, such information shall be forwarded to the head of the employing department or agency or his representative, who, after such investigation as may be appropriate, shall review, or cause to be reviewed, and, where necessary, readjudicate, or cause to be readjudicated, in accordance with the said act of August 26, 1950, the case of such officer or employee.

SEC. 6. Should there develop at any stage of investigation information indicating that the employment of any officer or employee of the Government may not be clearly consistent with the interests of the national security, the head of the department or agency concerned or his representative shall immediately suspend the employment of the person involved if he deems such suspension necessary in the interests of the national security and, following such investigation and review as he deems necessary, the head of the department or agency concerned shall terminate the employment of such suspended officer or employee whenever he shall determine such termination necessary or advisable in the interests of the national security, in accordance with the said act of August 26, 1950.

SEC. 7. Any person whose employment is suspended or terminated under the authority granted to heads of departments and agencies by or in accordance with the said act of August 26, 1950, or pursuant to the said Executive Order No. 9835 or any other security or loyalty program relating to officers or employees of the Government, shall not be reinstated or restored to duty or reemployed in the same department or agency and shall not be reemployed in any other department or agency, unless the head of the department or agency concerned finds that such reinstatement, restoration, or reemployment is clearly consistent with the interests of the national security, which finding shall be made a part of the records of such department or agency: *Provided*, that no person whose employment has been terminated under such authority thereafter may be employed by any other department or agency except after a determination by the Civil Service Commission that such person is eligible for such employment.

SEC. 8. (a) The investigations conducted pursuant to this order shall be designed to develop information as to whether the employment or retention in employment in the Federal service of the person being investigated is clearly

gation, or such less investigation as shall be be appropriate, shall review, or cause to be

consistent with th[illegible]nterests of the national security. Such information shall relate, but shall not be limited, to the following:

(ii) Any deliberate misrepresentations, falsifications, or omissions of material facts.

(iii) Any criminal, infamous, dishonest, immoral, or notoriously disgraceful conduct, habitual use of intoxicants to excess, drug addiction, or sexual perversion.

(iv) Any illness, including any mental condition, of a nature which in the opinion of competent medical authority may cause significant defect in the judgment or reliability of the employee, with due regard to the transient or continuing effect of the illness and the medical findings in such case.[1]

(v) Any facts which furnish reason to believe that the individual may be subjected to coercion, influence, or pressure which may cause him to act contrary to the best interests of the national security.

(2) Commission of any act of sabotage, espionage, treason, or sedition, or attempts thereat or preparation therefor, or conspiring with, or aiding or abetting, another to commit or attempt to commit any act of sabotage, espionage, treason, or sedition.

(3) Establishing or continuing a sympathetic association with a saboteur, spy, traitor, seditionist, anarchist, or revolutionist, or with an espionage or other secret agent or representative of a foreign nation, or any representative of a foreign nation whose interests may be inimical to the interests of the United States, or with any person who advocates the use of force or violence to overthrow the government of the United States or the alteration of the form of government of the United States by unconstitutional means.

(4) Advocacy of use of force or violence to overthrow the government of the United States, or of the [illegible]ration of the form of government of the United States by unconstitutional means.

(6) Intentional, unauthorized disclosure to any person of security information, or of other information disclosure of which is prohibited by law, or willful violation or disregard of security regulations.

(8) Refusal by the individual, upon the ground of constitutional privilege against self-incrimination, to testify before a congressional committee regarding charges of his alleged disloyalty or other misconduct.[2]

(b) The investigation of persons entering or employed in the competitive service shall primarily be the responsibility of the Civil Service Commission, except in cases in which the head of a department or agency assumes that responsibility pursuant to law or by agreement with the Commission. The Commission shall furnish a full investigative report to the department or agency concerned.

(c) The investigation of persons (including consultants, however employed), entering employment of, or employed by, the Government other than in the competitive service shall primarily be the responsibility of the employing department or agency. Departments and agencies without investigative facilities may use the investigative facilities of the Civil Service Commission and other departments and agencies may use such facilities under agreement with the Commission.

[3] As amended by Executive Order 11605 of July 2, 1971.

(d) There shall be referred promptly to the Federal Bureau of Investigation all investigations being conducted by any other agencies which develop information indicating that an individual may have been subjected to coercion, influence, or pressure to act contrary to the interests of the national security, or information relating to any of the matters described in subdivisions (2) through (8)[4] of subsection (a) of this section. In cases so referred to it, the Federal Bureau of Investigation shall make a full field investigation.

SEC. 9. (a) There shall be established and maintained in the Civil Service Commission a security-investigations index covering all persons as to whom security investigations have been conducted by any department or agency of the Government under this order. The central index established and maintained by the Commission under Executive Order No. 9835 of March 21, 1947, shall be made a part of the security-investigations index. The security-investigations index shall contain the name of each person investigated, adequate identifying information concerning each such person, and a reference to each department and agency which has conducted an investigation concerning the person involved or has suspended or terminated the employment of such person under the authority granted to heads of departments and agencies by or in accordance with the said act of August 26, 1950.

(c) The reports and other investigative material and information developed by investigations conducted pursuant to any statute, order, or program described in section 7 of this order shall remain the property of the investigative agencies conducting the investigations, but may, subject to considerations of the national security, be retained by the department or agency concerned. Such reports and other investigative material and information shall be maintained in confidence, and no access shall be given thereto except, with the consent of the investigative agency concerned, to other departments and agencies conducting security programs under the authority granted by or in accordance with the said act of August 26, 1950, as may be required for the efficient conduct of Government business.

SEC. 10. Nothing in this order shall be construed as eliminating or modifying in any way the requirement for any investigation or any determination as to security which may be required by law.

SEC. 11. On and after the effective date of this order the Loyalty Review Board established by Executive Order No 9835 of March 21, 1947, shall not accept agency findings for review, upon appeal or otherwise. Appeals pending before the Loyalty Review Board on such date shall be heard to final determination in accordance with the provisions of the said Executive Order No. 9835, as amended. Agency determinations favorable to the officer or employee concerned pending before the Loyalty Review Board on such date shall be acted upon by such Board, and whenever the Board is not in agreement with such favorable determination the case shall be remanded to the department or agency concerned for determination in accordance with the standards and procedures established pursuant to this order. Cases pending before the regional loyalty boards of the Civil Service Commission on which hearings have not been initiated on such date shall be referred to the department or agency concerned. Cases being heard by regional loyalty boards on such date shall be heard to conclusion, and the determination of the board shall be forwarded to the head of the department or agency concerned: *Provided*, that if no specific department or agency is involved, the case shall be dismissed without prejudice to the applicant. Investigations pending in the Federal Bureau of Investigation or the Civil Service Commission on such date shall be completed, and the reports thereon shall be made to the appropriate department or agency.

SEC. 12. (a) E[illegible]utive Order No. 9835 of March 21, 1947, as amended is hereby revoked.

→(b) The head of each department and agency shall be furnished by the Attorney General with the name of each organization which shall be or has been heretofore designated under this order. Except as specifically provided hereafter, nothing contained herein shall be construed in any way to affect previous designations made pursuant to Executive Order No. 10450, as amended.

(c) The Subversive Activities Control Board shall, upon petition of the Attorney General, conduct appropriate hearings to determine whether any organization is totalitarian, fascist, communist, subversive, or whether it has adopted a policy of unlawfully advocating the commission of acts of force or violence to deny others their rights under the Constitution or laws of the United States or of any State, or which seeks to overthrow the government of the United States or any State or subdivision thereof by unlawful means.

(d) The Board may determine that an organization has adopted a policy of unlawfully advocating the commission of acts of force or violence to deny others their constitutional or statutory rights or that an organization seeks to overthrow the government of the United States or any State or subdivision thereof by unlawful means if it is found that such group engages in, unlawfully advocates, or has among its purposes or objectives, or adopts as a means of obtaining any of its purposes or objectives.—

(1) The commission of acts of force or violence or other unlawful acts to deny others their rights or benefits guaranteed by the Constitution or laws of the United States or of the several States or political subdivisions thereof; or

(2) The unlawful damage or destruction of property; or injury to persons: or

(3) The overthrow or destruction of the government of the United States or the government of any State, Territory, district, or possession thereof, or the government of any political subdivision therein, by unlawful means; or

(4) T[illegible] commission of acts which violate laws pertaining to treason, rebellion or insurrection, riots or civil disorders, seditious conspiracy, sabotage, trading with the enemy, obstruction of the recruiting and enlistment service of the United States, impeding officers of the United States, or related crimes or offenses.

(e) The Board may determine an organization to be "totalitarian" if it is found that such organization engages in activities which seek by unlawful means the establishment of a system of government in the United States which is autocratic and in which control is centered in a single individual, group, or political party, allowing no effective representation to opposing individuals, groups, or parties and providing no practical opportunity for dissent.

(f) The Board may determine an organization to be "fascist" if it is found that organization engages in activities which seek by unlawful means the establishment of a system of government in the United States which is characterized by rigid one-party dictatorship, forcible suppression of the opposition, ownership of the means of production under centralized governmental control and which fosters racism.

(g) The Board may determine an organization to be "communist" if it is found that such organization engages in activities which seek by unlawful means the establishment of a government in the United States which is based upon the revolutionary principles of Marxism-Leninism, which interprets history as a relentless class war aimed at the destruction of the existing society and the establishment of the dictatorship of the proletariat, the government ownership of the means of production and distribution of property, and the establishment of a single authoritarian party.

(h) The Board may determine an organization to be "subversive" if it is found that such organization engages in activities which seek the abolition or destruction by unlawful means of the government of the United States or any State, or subdivision thereof.

(i) The Board may further determine, after consideration of the evidence, that an organization has ceased to exist. Upon petition of the Attorney General or upon petition of any organization which has been designated pursuant to this section the Board after appropriate hearings may determine that such organization does not currently meet the standards for designation. The Attorney General shall appropriately revise or modify the information furnished to departments and agencies consistant with the determinations of the Board.

(j) The Board shall issue appropriate regulations for the implementation of this section.[5]

Sec. 13. The Attorney General is requested to render to the heads of departments and agencies such advice as may be requisite to enable them to establish and maintain an appropriate employee-security program.

Sec. 14. (a) The Civil Service Commission, with the continuing advice and collaboration of representatives of such departments and agencies as the National Security Council may designate, shall make a continuing study of the manner in which this order is being implemented by the departments and agencies of the Government for the purpose of determining:

(1) Deficiencies in the department and agency security programs established under this order which are inconsistent with the interests of, or directly or indirectly weaken the national security.

(2) Tendencies in such programs to deny to individual employees fair, impartial, and equitable treatment at the hands of the Government, or rights under the Constitution and laws of the United States or this order.

Information affecting any department or agency developed or received during the course of such continuing study shall be furnished immediately to the head of the department or agency concerned. The Civil Service Commission shall report to the National Security Council, at least semiannually, on the results of such study, shall recommend means to correct any such deficiencies or tendencies, and shall inform the National Security Council immediately of any deficiency which is deemed to be of major importance.[5]

(b) All departments and agencies of the Government are directed to cooperate with the Civil Service Commission to facilitate the accomplishment of the responsibilities assigned to it by subsection (a) of this section.

(c) To assist the Civil Service Commission in discharging its responsibilities under this order, the head of each department and agency shall, as soon as possible and in no event later than ninety days after receipt of the final investigative report on a civilian officer or employee subject to a full field investigation under the provisions of this order, advise the Commission as to the action taken with respect to such officer or employee. The information furnished by the heads of departments and agencies pursuant to this section shall be included in the reports which the Civil Service Commission is required to submit to the National Security Council in accordance with subsection (a) of this section. Such reports shall set forth any deficiencies on the part of the heads of departments and agencies in taking timely action under this order, and shall mention specifically any instances of noncompliance with this subsection.[6]

MEMORANDUM FOR MR. HOOVER,
DIRECTOR, FEDERAL BUREAU OF INVESTIGATION

This will refer to your memorandum of November 22 with reference to the Marquis Childs column appearing in The Washington Post on November 18, 1947 and to your letters of November 21, the one addressed to Mr. Childs and the other addressed to Mr. Paul A. Walker, Acting Chairman, Federal Communications Commission.

It is my view that the Bureau's practice of passing along to the various Government departments and agencies information which comes to its attention in connection with the conduct of investigations normally and regularly within the Bureau's jurisdiction is entirely appropriate and correct. Indeed, it would appear that the Bureau would be remiss in its duty if it failed to pass along information coming to it which might prove to be in the interest of the general welfare. It is not the Bureau's responsibility to determine whether the information is or is not of importance to the particular agency in the carrying out of its current activities and responsibilities and whether or not any action is taken by the department or agency is not, of course, a principal concern of the Bureau.

I believe, therefore, that the Bureau should continue its practice of passing along information which it is believed might be of interest to the various departments and agencies. At the same time I believe that it would be appropriate either (a) to prepare a circular to the various departments and agencies explaining the Bureau's purpose in furnishing information from time to time, or (b) to make a particular effort for a time when transmitting individual items of information to explain in the transmittal memorandum the Bureau's purpose in making such transmittal.

Attorney General

United States Department of Justice
Federal Bureau of Investigation

IN REPLY, PLEASE REFER TO
FILE No. ______

November 21, 1947

Mr. Paul A. Walker
Acting Chairman
Federal Communications Commission
Washington, D. C.

Dear Mr. Walker:

Under date of November 18, 1947, there appeared in the column of Mr. Marquis Childs in the Washington Post the following statement attributed to Mr. Clifford J. Durr of the Federal Communications Commission: "Already the FBI is furnishing to the commission unsolicited reports on individuals connected with radio, and I can assure you that if you should be told the kind of things contained in many of these reports you would dismiss the information as baseless gossip."

The Federal Bureau of Investigation has referred to the Federal Communications Commission from time to time information which it has received in the course of its regular investigations which appeared pertinent or material to matters within the jurisdiction of the Commission. It is the policy and practice of the Federal Bureau of Investigation to avoid any attempts to evaluate the significance of information relating to matters without its jurisdiction or the effect of such information upon the contemporary policies and programs of other agencies. As a result, the Bureau furnishes to the various Government departments such information as it receives which appears pertinent to the operations of those Government departments. In so far as is practicable, the Bureau attempts to evaluate the reliability of the source of this information without attempting to make any suggestions as to the use which should or should not be made of the information itself.

Mr. Childs, in his column quoting Mr. Durr's statement, adds the following observation upon Mr. Durr's statement: "Note the word 'unsolicited'. It indicates that the FBI initiated investigations and sought to influence FCC decisions by sending reports on certain individuals to the commission. If this is happening, it is something Congress should know about."

I desire to advise you that this Bureau has not at any time attempted in any manner or degree to influence FCC decisions. The material which has been transmitted to the Commission was sent solely for the purpose of affording the Commission information which came to the Bureau from various sources, which information, it was believed, might be of interest to the official activities of the Commission.

In the light of the statements made by Mr. Durr and since these statements have not been repudiated by any other members of the Federal Communications Commsssion, I must assume that the material which the Bureau has been furnishing to the Commission is not desired by the Commission. I am consequently discontinuing the transmittal of such data to the Commission upon the assumption that the material is of no interest to the Commission.

Very truly yours,

John Edgar Hoover

Director

DEPARTMENT OF JUSTICE
WASHINGTON 25, D. C.

April 7, 1948

TO THE HEADS OF ALL DEPARTMENTS AND
INDEPENDENT AGENCIES OF THE EXECUTIVE BRANCH.

In memorandum of October 7, 1947, I called attention to the fact that the Federal Bureau of Investigation has primary investigative jurisdiction of Section 9-A (61-1, Title 18, USC) of the Hatch Act. It is also pointed out that under the provisions of a presidential interpretation dated 30 October 1947 the Federal Bureau of Investigation has the responsibility of investigating all charges of disloyalty on the part of Federal employees within the Executive Branch of the Government.

The Federal Bureau of Investigation has sufficient investigative personnel under its direct supervision to carry out this responsibility in the continental United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands. However, it does not have personnel stationed in other areas of the world. Therefore, it has been necessary, in order that the Bureau may be enabled to carry out its responsibility, to arrange by agreement with the Departments and Agencies principally concerned for the delegation of the actual investigative work to certain other Departments of the Executive Branch in those areas where it has no investigative personnel.

It is recognized that there are two major classes of loyalty investigation. The first is the routine loyalty check of applicants for classified positions or of incumbents of such positions initiated in accord with Executive Order 9835. The second type is that in which doubt of loyalty of incumbents arises independently of the routine check. Procedures in regard to these two types must necessarily vary.

I. Routine loyalty checks of employees stationed overseas.

The Federal Bureau of Investigation will direct specific requests for the assistance of other agencies in handling the actual investigative work in accordance with the following principles:

A. The Department of the Army, Navy or Air Force shall be requested to utilize its own facilities for the necessary investigation of any of its own civilian personnel stationed outside the continental limits of the United States, Alaska, Hawaii, Puerto Rico and the Virgin Islands. The Federal Bureau of Investigation will continue to have the sole responsibility of conducting such investigation as is necessary within the continental limits of the United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands.

involving civilian personnel of the Army, Navy or Air Force. The Federal Bureau of Investigation will refer to the appropriate agency all available material and will request investigation, and upon completion thereof, the reports should be furnished to the Federal Bureau of Investigation as provided hereafter.

B. With respect to the necessary investigation of any of the personnel of other Departments and Agencies stationed outside the continental limits of the United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands--

1. Requests for such investigation of Federal civilian employees stationed in occupied areas or areas under military investigative jurisdiction shall be directed to the Department of the Army, Navy, or Air Force for transmission to the Theater Commander or Area Commanding Officer, who will utilize for this purpose any appropriate investigative facility of the United States available in his area of command.

2. Requests for such investigation of any Federal civilian employees stationed in unoccupied areas shall be directed to the State Department for transmittal to its appropriate foreign office, which will utilize for this purpose any investigative authority of the United States available in that country, or, in case no competent investigative facilities are available in that country, the principal diplomatic officer shall refer the matter for investigation to the principal diplomatic officer stationed in a nearby country where investigative facilities are available.

The reports of completed investigations shall be returned to the Federal Bureau of Investigation in response to its original request for assistance through the same channels utilized in transmitting the request for investigation, for consolidation with such material as the Bureau may have available in its files, or may have developed by investigation, and for further processing in line with the procedures which have been developed for carrying out the Loyalty Program.

II. "Complaint Type" loyalty checks of employees stationed overseas.

Such inquiries normally originate in the field and must be handled with the utmost possible dispatch. The agency in which the case originates will notify the Federal Bureau of Investigation as soon as a preliminary inquiry in the field has established grounds for a full investigation. The Federal Bureau of Investigation will immediately check its files and inform the field agency of any derogatory information which it may have on file. The Federal Bureau of Investigation will at once open a full field investigation within the continental limits of the United States, etc., when such investigation is required by the availability of information within those areas. Completion of such investigation will be reported to the originating agency through normal channels.

A. The Departments of Army, Navy, and Air Force will utilize their own facilities for the necessary investigation of any of their own civilian personnel stationed outside the continental limits of the United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands.

B. With respect to the necessary investigation under Class II of any of the personnel of other Departments and Agencies stationed outside the continental limits of the United States, Alaska, Hawaii, Puerto Rico and the Virgin Islands:

1. In occupied areas the Theater Commander will have full responsibility to utilize any appropriate investigative facility of the United States available in his area of command.

2. In unoccupied areas the principal diplomatic officer will be responsible for utilizing any investigative facility of the United States which is available in the country of his jurisdiction, or, if there is no such investigative facility available within the country of his jurisdiction, he shall refer the matter to the principal diplomatic officer stationed in a nearby country in which investigative facilities are available.

The reports of completed investigation shall be forwarded to the Federal Bureau of Investigation through normal channels.

It is understood that the declaration of emergency, or the establishment of martial law within areas of the continental United States, Alaska, Hawaii, Puerto Rico, or the Virgin Islands will have the effect of making those areas "occupied territory," with the consequent application of procedures described in sections IA and BI and IIA above.

The agreement which this memorandum serves to record has to do only with the establishing of a method of handling actual investigations in areas where the Federal Bureau of Investigation has no investigative facilities. Furthermore, the procedures herein prescribed do not purport to limit in any way, or delay the exercise of, the authority possessed by certain Department and Agency heads summarily to dismiss employees where necessary in the interest of National Defense.

These loyalty investigations should be given preferential attention and prompt handling in all instances.

[illegible] 1953

Honorable Philip Young
Chairman
Civil Service Commission
Washington 25, D.C.

Dear Mr. Young:

As you know, subsection (d) of section 8 of Executive Order No. 10450 requires that there be referred promptly to the Federal Bureau of Investigation investigations conducted by all agencies under the order which develop information of the type described in the subsection. The subsection further requires the FBI to make a full field investigation in cases so referred to it. However, except as indicated below, the FBI is not equipped to conduct investigations outside this country. In view of this limitation on its investigative facilities, an arrangement was worked out in connection with administration of Executive Order No. 9835 with respect to investigations in foreign areas. It is suggested that the procedures be continued in connection with investigations to be carried out by the FBI under Executive Order No. 10450. These are as follows:

(1) The FBI will conduct all necessary investigations in the continental United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands.

(2) The Departments of the Army, the Navy, and the Air Force will each use its own facilities to conduct investigations in connection with its own civilian personnel outside the areas listed in (1) above.

(3) With respect to the investigation of civilian personnel, other than personnel of departments named in (2), above:

(a) The Theatre Commander or Post Commanding Officer will utilize any appropriate investigative facilities of the United States available to him in an occupied area or in areas under military investigative jurisdiction;

(b) In other areas the Department of State will utilize any investigative authority of the United States available in the country concerned. If no competent investigative facilities are available in that country the investigative facilities of the United States in a nearby country will be utilized by the Department of State.

To repeat, the foregoing represents the arrangement between agencies with respect to investigations abroad worked out in the administration of Executive Order No. 9835, and accordingly the procedures outlined will merely involve continuing present practices. In the absence of any indication of disagreement with the practices outlined above, this Department will conduct itself on the theory that they remain in effect.

Sincerely,

WILLIAM P. ROGERS

EXECUTIVE ORDER PROVIDING SECURITY
REQUIREMENTS FOR GOVERNMENT EMPLOYMENT

Pursuant to your requests, memoranda dated February 4, 1953, February 26, 1953, April 6, 1953, and April 10, 1953, have been submitted to you containing observations regarding proposed drafts of the above Executive Order. Pursuant to the request of Mr. Edward S. Lazowska of the Department, who delivered a copy of a new draft of this proposed Order on the evening of April 13, 1953, the following observations are set forth for your information and consideration:

In connection with the provision in paragraph 3 (a) which allows the Civil Service Commission, in certain cases, to authorize less than the minimum amount of investigation stated in this paragraph but which meets the requirements of the national security, it is felt the Civil Service Commission must exercise extreme care to insure that any investigation authorized, particularly with respect to individuals who may have access to confidential information, does, in fact, meet the requirements of the national security.

In connection with Section 4 of the draft, your attention is invited to my previous observation that this Bureau feels it should conduct the additional investigation that may be appropriate only in those cases in which the purpose of the additional investigation is to develop information of a loyalty or subversive nature. In this connection it is observed that the provisions of Sections 8 (b) and 8 (c) may be intended to accomplish this purpose; however, it is suggested that you may desire to have the Order state more clearly regarding what agencies have the responsibilities to conduct the additional investigation requested in Section 4.

66-[illegible]-29

In connection with Section 5 of the draft, the thought occurs that its provisions as to what agency is required to conduct "such investigation as may be appropriate" may not be entirely clear. It is believed that the intent of this section is to provide that upon receipt by an agency of information necessitating investigation by the Civil Service Commission or the employing agency, such information should be forwarded to the Civil Service Commission or the employing agency; that upon the receipt of information necessitating investigation by this Bureau, such information should be forwarded to this Bureau for a full field investigation. You may wish to give consideration to possible further clarification of this section.

Regarding the phrase "following such investigation and review as he deems necessary" set forth in Section 6, it is believed that "as he deems necessary" refers to the word "review." If, however, it might also refer to the word "investigation," the thought occurs that it might be in conflict with other provisions in the draft which prescribe that in certain instances full field investigations must be conducted.

In connection with Section 8 (5) it is noted that this section does not specifically provide for sympathetic association with individu members of the organizations referred to in this section. In this connection, you will recall that the attachment to my memorandum of April 1 1953, set forth observations of the Interdepartmental Intelligence Conference regarding the draft, one of which concerned a suggestion along this line.

It is observed that Section 14 (a) authorizes the National Security Council to designate representatives of other Departments and agencies to furnish advice and to collaborate with the Civil Service Commission in connection with the Commission's study of the manner in which the Order is implemented. We would appreciate any information regarding the extent representatives of this Bureau might be expected to render advice and collaborate with the Civil Service Commission.

It would be appreciated if you could furnish the advice requested in my memorandum of February 26, 1953, regarding your desires as to this Bureau following the policy of channeling its investigative reports through the Civil Service Commission to the departments and agencies concerned.

It is noted that my previous memoranda raised the point as to what effect the abolishing of the Loyalty Review Board might have on Executive Order 10422. For your information, funds have been appropriated for the implementation of Executive Order 10422 and this Bureau is proceeding with investigations under this Order and submitting reports to the Civil Service Commission for appropriate adjudication.

Regarding what agencies will have investigative responsibilities abroad under this Order, as mentioned in my previous memoranda, you may wish to give consideration to, if possible, continuing the arrangements which have been perfected under Executive Order 9835.

My memorandum of April 6, 1953, commented regarding paragraph 8 (b) (4) of the draft received April 2, 1953. It was stated that it was felt investigations regarding individuals who might be subjected to coercion, influence or pressure because of the presence of a close relative in a nation whose interests may be inimical to the interests of the United States which develop a subversive aspect should be done by this Bureau rather than the Civil Service Commission or the employing agency. It is observed that Section 8 (d) of the draft received April 13, 1953, requires this Bureau to conduct all investigations which develop information indicating that an individual may have been subjected to coercion, influence, or pressure to act contrary to the interests of the national security. It is suggested you might desire to clarify this provision further to specifically provide that investigations under this category will be conducted by this Bureau only where there is information indicating a question of loyalty or subversive activity.

As previously mentioned, it will be necessary that the rules and regulations to be issued in connection with the implementation of this Order, such as those governing the establishing and operation of hearing boards, be as complete as possible in order to maintain uniformity.

It will, of course, be necessary for this Bureau to receive sufficient funds in order to discharge its responsibilities under this Order.

Deputy Attorney General

XEXECUTIVE ORDER 10450
XSECURITY REQUIREMENTS FOR
GOVERNMENT EMPLOYMENT

In connection with the implementation of Executive Order 10450, the following suggestions, which were previously furnished to you in connection with the drafts of the Order, are being set forth for your consideration for inclusion in the Security Regulations drawn up in connection with this Order:

There should be no abuse of the privilege granted to fill sensitive positions in emergency cases prior to the completion of full field pre-appointment investigations.

In order that there be no misunderstanding, it might be well to specify in the regulations that the Order covers only the Executive Branch of the Government.

It is the understanding of this Bureau that the Civil Service Commission maintains a register of persons eligible for Government employment. In connection with this register, under Executive Order 9835 these names have been processed in a manner similar to those of employees, and the adjudication made by the Civil Service Commission. Section 11 of the Order states that cases being heard by regional loyalty boards on the effective date of this Order in which no specific department or agency is involved shall be dismissed without prejudice to the applicant. This section, unless clarified in the regulations, may affect the Civil Service Commission's register of eligibles.

Information should be included advising what agencies have investigative responsibility abroad in connection with this Order. You may desire to continue the arrangements perfected under Executive Order 9835 regarding this matter.

There may be some question as to what agencies have investigative responsibilities in connection with the additional investigation that may be necessary in the readjudication of full field investigations under Executive Order 9835, as called for in Section 4 of the Order. As you were previously advised, this Bureau feels it should conduct such investigations only when the purpose is to develop information of a nature described in Section 8(d) of the Order. Unless specific information to this effect is included in the regulations, it can be anticipated that this Bureau will receive a large number of requests for investigations solely for the purpose of bringing the investigation up to date, or to develop some information of a nonsubversive nature.

Under Executive Order 9835, this Bureau, through agreement with the Civil Service Commission, followed the policy of sending all its reports to the Civil Service Commission for dissemination to the appropriate departments and agencies. As you know, the current Order requires that the Civil Service Commission maintain a security-investigations index, which is to include the index maintained by the Civil Service Commission in conjunction with Executive Order 9835. This Bureau believes the policy previously followed of sending these reports to the Civil Service Commission should be continued.

It will be necessary that a standard form containing sufficient identifying data be utilized in checking individuals' names through this Bureau's files and in connection with investigations conducted under this Order.

With reference to per-diem, intermittent, temporary, etc., employees, the Civil Service Commission should utilize extreme care in permitting, at the request of a department or agency head, less than the minimum investigation required in other cases.

Regarding Section 5 of the Order, this Bureau, on receipt of information of a nature necessitating investigation by it, contemplates following the policy of immediately initiating the investigation rather than awaiting a request for such an investigation by the department or agency concerned. The agency head, however, will be notified that information of a nature requiring investigation by this Bureau has been received and an investigation is being conducted and that upon request he will be furnished with the basis for the investigation. If it is felt that such a policy is in conflict with the provisions of the Order, it would be appreciated if consideration could be given to clarifying this in the regulations.

9 Apart from the above suggestions regarding the security regulations, it is noted that the abolition of the Civil Service Commission's regional loyalty boards and the Loyalty Review Board will affect the adjudication procedure required by Executive Order 10422. This is being called to your attention so that the necessary action may be taken to insure that there is no undue delay in connection with the adjudication of cases being investigated under Executive Order 10422.

10 Your attention is called to Section 9(k) of the Sample Security Regulations dated April 23, 1953. As you will observe, this section concerns the determinations made by hearing boards, and in part states: "One copy of the decision of the board, together with the complete record of the case, including investigative reports, shall be sent to the (head of department or agency) and one copy shall be sent to the employee." This Bureau is strongly opposed to making copies of its reports, in whole or in part, available to individuals investigated under this Order, and considers it absolutely necessary that its reports be maintained in confidence. Of course, this Bureau does not object to the employee's being advised, insofar as security considerations permit, of that information in the reports which is considered necessary in connection with the charges against the employee.

As you will observe, under Section 9(k) the employee could be furnished a copy of the complete record of the case. Such record might include confidential information in the possession of the board which security considerations do not permit making available to the employee. In this connection, it is noted that Section 5(a)(3) of the regulations states: "The decision of the hearing board shall be in writing and shall be signed by all members of the board. One copy of the decision shall be sent to the (head of department or agency) and one copy shall be sent to the suspended employee."

In addition, it is noted that the above provisions of Section 9(k) are contradictory to the provisions of Section 9(c) of the Order proper, which states that reports and other investigative material and information are to be maintained in confidence and no access given thereto, except, with the consent of the investigative agency concerned, to other departments and agencies conducting security programs under the authority of the act of August 26, 1950.

It is strongly urged that you amend the provisions in Section 9(k) of the Sample Security Regulations, because, unless such is done, some departments and agencies may furnish to the employee a copy of the complete record of the case, which would include this Bureau's investigative reports.

Your attention is called to Section 4(b) of the regulations setting forth provisions covering the scope of the investigation to be conducted. The provisions, as set forth, do not include a check of the fingerprint files of this Bureau. As Section 3(a) of the Order, itself, calls for a check of such files, it is suggested you may wish to include this also in the regulations.

EXECUTIVE ORDER 10450
SECURITY REQUIREMENTS FOR GOVERNMENT EMPLOYMENT

Reference is made to this Bureau's memoranda dated February 6 and 26, 1953; April 6, 10, and 14, 1953, and May 1, 1953, regarding the captioned Executive Order.

Your immediate advice as to what agencies have the responsibility of conducting investigations abroad under this Order will be appreciated. It can be anticipated that this problem will immediately present itself upon the effective date of the Order. For example, this Bureau may receive a request to conduct a full field investigation regarding an employee who in the past has spent considerable time in foreign countries. Upon the receipt of such a request, it will be necessary to know to what agency a request to conduct the investigation abroad should be directed. As previously suggested, you may wish to continue the arrangements perfected for handling this problem under Executive Order 9835. For your information, these arrangements are set forth in a memorandum dated April 7, 1948, from the Attorney General to the heads of all departments and independent agencies of the Executive Branch of the Government. The thought occurs that you may desire to issue similar advice to all departments and agencies in connection with Executive Order 10450. (~~66-6200-121-290 & Part I, Section 2, Serial~~ 87 ~~of the Loyalty Policy File~~)

Another matter that may cause some difficulty after Executive Order 10450 becomes effective is the question of what agencies have investigative responsibility with respect to the conduct of the further investigation that may be considered appropriate in connection with the re-adjudication of cases of those employees concerning whom a full field investigation was conducted under Executive Order 9835; however, their cases have not heretofore been adjudicated under a security standard commensurate with that established under Executive Order 10450. As previously stated, this Bureau feels it should conduct such investigations only when the purpose is to develop information of a nature described in Section 8 (a) of the Order. It would ~~be~~ appreciated if you would advise whether you are in agreement with this. Should you agree with this policy, you may wish to so advise the heads of all departments and agencies as unless such is done, this Bureau may receive a large number of requests for investigations solely for the purpose of bringing the previous investigations up to date or to develop some allegation of a nonsubversive nature.

Your attention is invited to my memorandum of May 1, 1953, wherein I urged that the provisions in Section 9 (k) of the "Sample Security Regulations" be amended to preclude the possibility of any department or agency furnishing a copy of this Bureau's reports to the individuals investigated under the Order. It is believed this should be done prior to the effective date of Executive Order 10450, and I would appreciate being advised of what action is contemplated in this regard. It is observed that in connection with Executive Order 9835 the Attorney General under date of December 11, 1947, directed a confidential memorandum to all department and agency heads of the Executive Branch of the Government wherein he included information regarding the use of this Bureau's reports under Executive Order 9835. The Attorney General's memorandum stated, "The information appearing in Federal Bureau of Investigation reports is available for the consideration of the employing agency in preparing charges against the employee and for appropriate use by the hearing boards. The Federal Bureau of Investigation is opposed to making copies of its reports, in whole or in part, available to individuals as such, and particularly to persons investigated under the Program." Part III, Section I, Serial 31, of Loyalty Policy file)

It was noted in previous memoranda to you that this Bureau under Executive Order 9835, through agreement with the Civil Service Commission, followed the policy of sending all its reports to the Civil Service Commission for dissemination to the appropriate departments and agencies. It was suggested that as Executive Order 10450 requires the Civil Service Commission to maintain a security-investigations index regarding persons investigated under the Order, the policy of this Bureau sending all its reports to the Civil Service Commission be continued. Unless advice to the contrary is received from you, this Bureau contemplates following this policy.

The "Sample Security Regulations" prepared by the Department contains information regarding the manner in which hearings are to be conducted by the Security Hearing Boards under Executive Order 10450. These regulations, however, do not state whether these hearings are to be opened or closed to the public. For your information, the Loyalty Review Board in connection with the matter of hearings held under Executive Order 9835, issued a directive to all departments and agencies advising that such hearings should be in private and attendance limited to representatives of the agency who are directly connected with the adjudication of the case, representatives of the Loyalty Review Board, and the employee or applicant concerned, his counsel or representative, and the witness who is testifying. You may wish to issue appropriate advice to all departments and agencies regarding who shall be permitted to be present during hearings held under Executive Order 10450.

It is also noted that the "Sample Security Regulations" state that the employee shall be permitted to cross-examine any witness offered in support of the charges against him. This raises the question as to whether Security Hearing Boards may be allowed, upon the request of a witness, to hear such witness in the absence of the employee or his counsel. In connection with this problem under Executive Order 9835, the Loyalty Review Board issued a directive to all Executive departments and agencies permitting Loyalty Hearing Boards to hear witnesses in the absence of the employee and his counsel if the witnesses so requested. In this regard, this Bureau under Executive Order 9835, at the request of Mr. Hiram Bingham, Chairman of the Loyalty Review Board, ascertains from individuals who permit their names to be used, who give pertinent information adverse to the employee and who do not expressly indicate an unwillingness to testify, their desires regarding the following questions:

1. Whether they will testify before a Loyalty Hearing Board in the presence of the individual under investigation and his counsel, which would subject them to cross-examination;

2. If not, whether they will testify before a Loyalty Hearing Board not in the presence of the individual under investigation and his counsel;

3. If they are unwilling to appear at a scheduled hearing or unable to be present, whether they are willing to have their statements read verbatim to the individual under investigation and his counsel;

4. If they do not appear, whether they are willing to have their names disclosed at the hearing.

This Bureau will continue the above policy under Executive Order 10450; however, should you determine that Security Hearing Boards may hear witnesses only in the presence of the employee and his counsel, it will be appreciated if you will immediately advise this Bureau so that all individuals interviewed who may later be requested to testify before a Security Hearing Board will clearly understand that such testimony must be in the presence of the employee and his counsel and they may be cross-examined by the employee or his counsel.

It can be anticipated that, in connection with some hearings held under Executive Order 10450, the hearing board may request agents of this Bureau to appear and testify. In this connection, this Bureau would appreciate it if the policy followed in this respect under Executive Order 9835 could be continued. This policy was set forth in a confidential memorandum from the Attorney General dated December 11, 1947, to all department and agency heads of the Executive Branch of the Government, which stated that Special Agents of this Bureau will testify before hearing boards where they are in a position to furnish competent evidence. They will not, however, participate otherwise in the proceedings nor will they be made available merely to interpret information appearing in their investigative reports. It is suggested you may wish to furnish such information to all departments and agencies of the Executive Branch of the Government.

Previous memoranda to you observed that as Executive Order 10450 is an Executive Order, it is assumed its coverage is limited to the Executive Branch of the Government. In this connection, the question may arise as to whether the General Accounting Office, the Government Printing Office, and the Library of Congress might be permitted to participate in the procedures effected under Executive Order 10450. You may recall that they have participated in the procedures of Executive Order 9835. You may therefore desire to ascertain from the General Accounting Office, the Government Printing Office, and the Library of Congress whether they wish to participate in the procedures prescribed by Executive Order 10450, and if they do desire to participate, determine whether the provisions of Executive Order 10450 authorize such participation. It would be appreciated if you would immediately advise this Bureau what action it should take if the names and fingerprints of such employees are submitted to this Bureau for checking through its files or if requests for full field investigations are received concerning such employees prior to a final determination as to whether they are to participate in the procedures under Executive Order 10450.

It would be appreciated if you could furnish an early reply to the questions posed in this memorandum.

STANDARD FORM NO. 64

Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. J. Edgar Hoover
Director, FBI

DATE: June 25, 1953

FROM : William P. Rogers,
Deputy Attorney General

SUBJECT: Executive Order 10450
Security Requirements for Government Employment

This is with reference to your memoranda of May 1 and May 14, 1953, relating to the administration of Executive Order 10450.

1. Your opinion that there should be no abuse of the privilege granted by section 3(b) of the order in filling sensitive positions in emergency cases prior to the completion of full field pre-appointment investigations is well taken. So, also, is your suggestion that the Civil Service Commission, in respect to section 3(a), should utilize extreme care in permitting less than the minimum investigation with respect to per diem, intermittent, temporary, or seasonable employees and aliens employed outside the United States.

2. I agree with your assumption that the coverage of the order is limited to the Executive Branch of the Government. However, I do not believe it will be necessary to make specific provision in the regulations to that effect. Inasmuch as they are to be issued separately by and in the name of each executive branch, department or agency, it will be made clear that they relate only to the administration of the particular department or agency concerned.

You also make reference to the fact that certain of the non-executive branch agencies, such as the General Accounting Office and the Government Printing Office, participated in the procedures prescribed by Executive Order 9835. I understand this resulted, not because that order was necessarily applicable to those agencies, but because they voluntarily adopted procedures similar to those prescribed by the order. Executive Order 10450 does not prevent them from adopting a similar policy in relation to it. The main question is whether the appropriations of the FBI are sufficient to pay for the investigations required by such agencies. I understand that the appropriations are sufficient with respect to some of the agencies whose employees are part of the classified civil service, such as the General Accounting Office, but not for others, such as the Library of Congress. In the past a system of reimbursement was worked out with respect to investigations for agencies not covered by existing appropriations. I would suggest that the Bureau work out similar procedures with the Civil Service Commission and other interested agencies with respect to Executive Order 10450.

3. In reference to the problem of the responsibility of conducting investigations abroad, the Departments of State and Army were requested by letter dated June 5, 1953, to continue the same arrangement under Executive Order No. 10450 for investigations abroad as existed under Executive Order No. 9835. The letter stated that in the absence of any indication of disagreement with this plan, it would be assumed that the existing arrangement would remain in effect. To date no expressions of disagreement have come from either Department.

4. In respect to the re-adjudication question arising under section 4, I agree that the Bureau should conduct additional investigations only when their purpose is to develop information of the type described in section 8(d). However, I believe the Civil Service Commission, rather than this Department, should issue direct instructions to all departments and agencies as to proper procedures in connection with requests for investigation. I would accordingly recommend that you work out a plan with the Civil Service Commission to so advise the interested departments and agencies.

5. As you point out, the last sentence of section 9(k) of the sample security regulations is subject to possible interpretation requiring the employee to be given a copy of the investigative reports in connection with his case. In order to preclude this possibility, an appropriate amendment has been transmitted to all departments and agencies. Many of them have also been informally advised of the matter. In addition, since they are supposed to submit their regulations to this Department before issuance, proper precautions will be taken at that time.

✓ 6. I agree that your existing policy of sending all Bureau reports to the Commission for dissemination to the appropriate departments and agencies should be continued.

7. You note that the sample security regulations do not state whether the hearings are to be open or closed and that under Executive Order 9835 the Loyalty Review Board issued a directive to all departments and agencies requiring hearings under that order to be private. In accordance with your suggestion, an amendment to that effect has been transmitted to all executive departments and agencies.

8. You point out that the sample security regulations provide in section 9(c)(4) that each employee shall have the right "to cross-examine any witness offered in support of the charges", whereas under Executive Order 9835 the Loyalty Review Board issued

a directive permitting Loyalty Hearing Boards to hear witnesses in the absence of the employee and his counsel, if the witness so requested.

I understand the provision of section 9(c)(4) to be a deliberate policy judgment that witnesses, other than confidential informants, shall be subject to cross-examination. Accordingly, persons giving testimony will not have the choices set forth in your memorandum. I therefore suggest that you advise prospective witnesses that their testimony will have to be in the presence of the employee and his counsel and will be subject to cross-examination.

9. I consider the Bureau's policy of permitting Special Agents to testify at the hearings only "where they are in a position to furnish competent evidence," to be sound and suggest that you undertake through the Civil Service Commission to advise the agencies concerned that this policy will be continued.

10. Serious consideration has been given to your suggestion that dismissals without prejudice to applicants in cases before the Regional Loyalty Boards may effect the Civil Service Commission's register of eligibles. The Commission has already advised that it believes that, under the basic Civil Service Act, it can establish criteria with respect to the register of eligibles similar to those set out in the order. The Department has advised the Commission that the order does not preclude it from so acting under the authority of the Civil Service Act if it is satsified as to the existence of such authority.

11. I also go along with your view that it will be necessary that agencies use a standard form containing sufficient identifying data in checking individuals' names through the Bureau's files and in connection with investigations conducted under the Executive Order, and suggest that you work out a procedure for establishing such a form with the Civil Service Commission.

12. With relation to section 5 of the order you state that the Bureau, on receipt of information of a nature necessitating investigation by it, intends to follow the policy of immediately initiating the investigation rather than awaiting a request from the department or agency concerned, but notifying the head of the department or agency that information of a nature requiring investigation by the Bureau has been received and an investigation is being conducted. You also mention that upon request the interested agency will be furnished with the basis for the investigation. I do not believe this policy to be in conflict with any provision of the order and see no reason why you should not follow the policy you suggest.

13. You point out that section 3(a) of the order requires "a check of the fingerprint files of the Federal Bureau of Investigation", but that section 4(b) of the sample security regulations dealing with the same subject matter omits the quoted language. In accordance with your suggestion, an amendment to the regulations along the lines you suggest has been transmitted to all executive departments and agencies.

14. You note that the abolition of Regional Loyalty Boards and the Loyalty Review Board will affect procedures pursuant to Executive Order 10422 relating to United States citizens who are United Nations employees. As you suggested, amendments to cover this situation have been promulgated to all executive departments and agencies.

Subject: EXECUTIVE ORDER 10450
- SECURITY REQUIREMENTS FOR GOVERNMENT EMPLOYMENT

With the inception of the captioned Executive Order it became evident to this Bureau that certain problems would arise which have been encountered in the past in this Bureau's operations under the provisions of Executive Order 9835. Several of these have been posed to the Department of Justice and the latter has now furnished this Bureau its advice regarding them.

One consideration is just what agencies in the Federal Government are to be included in the operations of Executive Order 10450. As your files will reflect, by letter dated August 21, 1947, the Honorable Arthur S. Flemming, then the Acting President of the Commission, furnished this Bureau a list of all such agencies to be included within the provisions of Executive Order 9835. Numbered among these were the General Accounting Office and the Government Printing Office, neither of which were agencies of the Executive Branch. The thought occurred as to whether these agencies are to be included under the new program and if so whether your estimates of cases to be handled for these agencies in the current and succeeding fiscal years which you have furnished this Bureau include the General Accounting Office and the Government Printing Office.

It is understood that the Commission considers employees of these agencies within the provisions of Executive Order 9835 since they are competitive employees as are the bulk of [illegible]

JUL 6

employees of several executive agencies. It would be appreciated if you would furnish this Bureau a list of the agencies to be included within the provisions of Executive Order 10450 at your earliest convenience. In addition, would you advise whether the General Accounting Office and the Government Printing Office and their employees will be considered as subject to the provisions of the captioned order. If such is the case we would appreciate your advice as to whether your estimate of the volume of work to be handled for these agencies was included in the budgetary estimates furnished this Bureau.

As you are aware, employees of the Library of Congress have been processed under Executive Order 9835 through agreement with officials of the Library and the results of name checks and investigations handled for the Library were compensated for on a reimbursable basis. Would you advise whether the agreement had with the Library of Congress for processing its employees under the old Loyalty Order has been renewed for Executive Order 10450. If such is the case is the Library of Congress agreeable to continue the procedure of reimbursement for each matter handled?

With regard to the question as to what agencies have investigative responsibilities in connection with the additional investigation that may be necessary in the readjudication of full field investigations conducted under Executive Order 9835 as called for in Section 4 of the captioned order, this Bureau feels it should conduct such investigations only when the purpose is to develop information of a nature described in Section 8(d) of this order. The Department of Justice advised that it concurs in this opinion and stated that it feels the Civil Service Commission should issue direct instructions to all departments and agencies as to the proper procedures to be followed in connection with requests for further investigation. It is felt that if such instructions are issued it will preclude the receipt of a large number of requests by the FBI for investigation solely to bring the previous investigation up to date or to develop some allegations of a nonsubversive nature. For your further information, the Department of Justice has advised that it agrees this Bureau should continue the procedure established under the Loyalty Order of channeling its investigative reports through the Civil Service Commission for dissemination to the appropriate departments or agencies.

Your attention is invited to the letter from Mr. Peter Campbell Brown, then the Acting Assistant to the Attorney General, to the Honorable Seth W. Richardson, then the Chairman of the Loyalty Review Board, dated May 5, 1949. Therein Mr. Brown requested Mr. Richardson to clarify Review Board instructions to the various departments and agencies to the effect that "Special Agents of the Federal Bureau of Investigation will testify before Hearing Boards where they are in a position to furnish competent evidence. They will not, however, participate otherwise in the proceedings or will they be made available merely to interpret information appearing in their investigative reports." This policy will continue to be the policy of this Bureau under Executive Order 10450 and it has been concurred in by the Department of Justice. The Department has further suggested that the Commission so advise the various departments and agencies that this policy will be continued.

These points are being called to your attention in order that you may furnish this Bureau the information requested above, as well as give consideration to the necessity for furnishing instructions as outlined above to the various agencies for their information and guidance in the operations of Executive Order 10450.

Honorable J. Edgar Hoover
Director, Federal Bureau of Investigation
Washington, D.C.

Dear Mr. Hoover:

You will recall that several agencies of the Legislative Branch of the Government participated in the loyalty program prescribed in Executive Order 9835. These same agencies have made requests of the Commission that they be permitted to participate in a similar manner under the program prescribed in Executive Order 10450. By letter dated June 29, 1953, the Deputy Attorney General advised the Commission that if these agencies are of the view that they can adopt procedures which would make it possible for them to participate in the program by virtue of authority conferred under the acts under which they operate, it would be entirely appropriate for them to participate in the program on a voluntary basis. It was suggested in this letter that the Commission work out with your Bureau the question relating to reimbursement by the agencies involved.

Because of the above opinion I have attached for your consideration proposed undated drafts of letters to the Librarian of Congress, The Public Printer, and the Director of Personnel of the General Accounting Office advising that subject to their meeting the above conditions they may participate in this program. The budget estimates of the Commission for some time have included work items which would result from making national agency checks and inquiries and limited personal investigations, when necessary, for the Government Printing Office and the General Accounting Office. It is our understanding that this is true with respect to the budget estimates of your Bureau insofar as they pertain to searching fingerprint records and Standard Forms 87 for employees of these agencies and making full field investigations when necessary under Section 8(d) of Executive Order 10450. For this reason no feature of reimbursement has been mentioned in our proposed letters to these agencies.

The Commission is willing to conduct for the Library of Congress on a reimbursable basis activities which it would perform for an agency in the Executive Branch under Executive Order 10450. I have taken the liberty of including in the draft to the Librarian of Congress the basis for reimbursing your Bureau for its part in this program. This was done for discussion purposes. It is not the Commission's intent to imply commitments on the part of the FBI.

After your review I would appreciate your returning the enclosures to me together with any comments or suggestions you may wish to make.

Sincerely yours,

Jos. E. Winslow

OFFICE OF THE ATTORNEY GENERAL
RECEIVED
DEC 3 1965

Dear Mr. Attorney General:

The President has directed the Civil Service Commission, after consulting with the major users of personnel investigations, to formulate and issue minimum standards of acceptable investigative coverage for Federal civilian employment.

I should appreciate your comments and suggestions relative to the following proposed minimum standards for acceptable full field coverage:

Scope of Full Field Investigations

Full field investigations on Federal employees and applicants are personally conducted investigations which cover the life of the individual with special emphasis on the person's background and activities during the most recent fifteen years, or since his eighteenth birthday, whichever is the shorter period. In addition, a thorough personal investigation is made of any materially derogatory matters developed, requiring investigation before the fifteen-year period.

The basic elements of investigation are:

- a national agency check, as described on page 736-3 of the Federal Personnel Manual.
- personal interviews with present and former employers, supervisors, fellow workers, references, neighbors, school authorities and other associates.
- checks of police, credit, [illegible] field office and other pertinent records as appropriate, such as Immigration and Naturalization, Passport Division of the State Department, vital statistics, military service, and the like.

INDEXED

ENCLOSURE

Personal interviews are scheduled with employers, supervisors, and work associates to verify and obtain pertinent details for all employments in the investigative period. Particular care is taken also to verify the fact of unemployment or self-employment claimed by the subject of investigation.

The last period of education at a college level is always verified by a check of the school records. Secondary education is investigated when the subject is young and has had no subsequent schooling. Personal interviews are conducted with witnesses such as professors and former students who were associated with the subject during recent schooling.

Neighborhood investigation is regularly conducted to cover residence during the most recent three years. Testimony of neighbors before that period may be sought to verify periods of unemployment or self-employment, or to resolve questionable matters which have been raised from other sources.

The number of witnesses interviewed cannot be reduced to a formula but in each case depends upon the diversity of the subject's experience and places of residence, as well as upon the depth of knowledge shown by witnesses concerning the subject's character, habits, and background. The objective of the investigation is to obtain a comprehensive and well-rounded picture of the individual's background and activities.

Matters Covered in Full Field Investigations

Basically, full field investigations are designed to develop sufficient information to enable agency security officials to determine the fitness of persons entering critical-sensitive positions. Fitness includes both security and suitability elements.

Character, habits, morals, and reputation are investigated generally. Loyalty is particularly stressed and if a question is raised concerning the subject's loyalty the case is referred to the Federal Bureau of Investigation in accordance with Section 8 (d) of Executive Order 10450. Particular attention is directed to such matters as immorality, habitual use of intoxicants to excess, lack of integrity, dismissals from employment, arrests, financial responsibility, and health.

The affirmative qualities and qualifications of the subject are fully reported.

Over and above the minimum standards, the full field investigation may be tailored to obtain information in depth concerning special attributes and qualifications required for proper performance in the particular kind of position involved.

To facilitate early completion of this study, I should like to receive your comments by December 31, 1965. Mr. Kimbell Johnson, Director, Bureau of Personnel Investigations, is available to discuss any aspect of the proposed standards with members of your staff. He may be reached on Code 183, Extension 7205.

Sincerely yours,

John W Macy Jr

Director, FBI

SCOPE OF FULL FIELD INVESTIGATIONS

Reference is made to your letter of December 9, 1965, forwarding a copy of Chairman Macy's letter of December 2, 1965, concerning minimum standards for acceptable full field coverage.

As you are aware, this Bureau conducts our own personnel investigations. The scope of these and other full field investigations conducted by this Bureau under various programs, such as the Federal Employee Security Program and the United Nations Loyalty Program, exceeds the minimum standards set forth in Chairman Macy's letter. The letter of December 2, 1965, does not change the investigative responsibilities of this Bureau.

In view of the above, this Bureau has no comments to make concerning the proposed minimum standards of acceptable investigative coverage for Federal civilian employment. This Bureau took a similar position in connection with this matter in a letter to Mr. Kimball Johnson dated April 22, 1959.

EXECUTIVE ORDERS 9835,
10450, AND 11605

Executive Order 9835, Part III, paragraph 3, provided that the Attorney General "after appropriate investigation and determination" would furnish to the Loyalty Review Board the name of each foreign or domestic organization which the Attorney General had designated "as totalitarian, fascist, communist or subversive, or as having adopted a policy of advocating or approving the commission of acts of force or violence to deny others their rights under the Constitution of the United States, or as seeking to alter the form of government of the United States by unconstitutional means."

Executive Order 10450, Section 12, revoked Executive Order 9835, as amended; however, it provided that the Department of Justice "shall continue to furnish the information described in paragraph 3 of Part III" of Executive Order 9835, "but directly to the head of each department or agency."

Executive Order 11605, paragraph 2, amended Section 12 of Executive Order 10450 by, among other provisions, providing that "the head of each department and agency shall be furnished by the Attorney General with the name of each organization which shall be or has been heretofore designated under this order" and that "nothing. . . herein shall. . . affect previous designations made pursuant to Executive Order 10450, as amended." (Subparagraph (b)) Executive Order 11605 further provided that "the Subversive Activities Control Board shall, upon petition of the Attorney General, conduct appropriate hearings to determine whether any organization is totalitarian, fascist, communist, subversive, or whether it has adopted a policy of unlawfully advocating the commission of acts of force or violence to deny others their rights under the Constitution or laws of the United States or of any State, or which seeks to overthrow the government of the United States or any State or subdivision thereof by unlawful means." (Subparagraph (c))

SEE NOTE PAGE 2

To date, Congress has refused to appropriate funds for the operation of the Subversive Activities Control Board (SACB).

During a current study of FBI jurisdiction by this Bureau, the questions have arisen: has the authority to designate organizations been taken from the Attorney General and given to the SACB by Executive Order 11605, or is this authority concurrent; and at this time, what are the responsibilities and authority of the FBI under Executive Order 10450, as amended, and Executive Order 11605?

Would you please provide me with a statement of the Department's current position on these questions.

DATE: April 3, 1973

SUBJECT: Executive Orders 9835, 10450, and 11605

This is in reference to your memorandum dated March 20, 1973 in which you requested to be advised regarding the Department's position relating to the above executive orders.

In the event the Subversive Activities Control Board ceases to function after July 1, 1973, the designation program as authorized by E. O. 10450, as amended, will continue to remain in effect. The Board's demise will, however, eliminate it as the body which at this time has the exclusive authority to conduct, upon petition of the Attorney General, the evidentiary hearings and make the determinations as to whether an organization should be designated within the criteria and standards specified by E. O. 10450, as amended by E. O. 11605.

The question of revising E. O. 10450 to overcome any deficiency which arises as a result of the demise of the Board is currently under study in the Department. There is also legislation pending to afford Congressional approval to E. O. 11605. Until such time as these matters are resolved, it is requested that the Bureau continue to conduct the investigations which it has carried out under E. O. 10450 which is, of course, still in effect.

EXECUTIVE ORDER 10450

Executive Order (EO) 10450 is currently being amended by the Department and representatives of this Bureau have participated in a task force headed by Mr. Oran Waterman, Director, Department Security Staff, which is recommending certain changes be made in EO 10450.

During the course of discussions within the task force, it was pointed out to Mr. Waterman the Bureau's authority to conduct investigations in the domestic subversion field has come under considerable scrutiny. This Bureau is now conducting investigations of domestic subversion on the basis of existing Federal statutes. This investigative policy may not adequately meet the needs of an effective security of Government employees program under EO 10450.

The Assistant Attorney General, Office of Legal Counsel, previously solicited our views on abolition of the Attorney General's List. In our response captioned "Abolition of the Attorney General's List," dated April 11, 1974, our comments included advice that under our current statutory basis for domestic subversion investigations may not adequately meet the needs of EO 10450 and the observation the FBI has never received specific instructions from the Attorney General to conduct intelligence-type investigations to identify and determine the activities of organizations described in Section 8 (a) (5) of EO 10450. We also requested to be advised as to the instructions of the Attorney General relating to the FBI conducting intelligence-type investigations under EO 10450, as well as the scope and parameters within which such investigations should be conducted.

Deputy Assistant Attorney General
Criminal Division

Our current practice of conducting subversive-type investigations based on Federal statutes may tend to restrict our intelligence gathering concerning organizations, associations, movements, groups and combinations of persons as defined in Section 8 (a) (5) of EO 10450. In responding to our above-referred-to memorandum of April 11, 1974, it is recommended the Attorney General consider issuance of some form of Departmental instructions or order establishing firm guidelines for intelligence-type investigations which would define our authority in this regard. It is believed this would put the FBI on a firm foundation to conduct intelligence-type investigations involving groups defined in Section 8 (a) (5) to adequately support EO 10450. We have previously recommended that the Department seek a comprehensive Executive Order, and furnished suggested language, which would provide a firm basis for FBI intelligence-type investigations in the security field. This recommendation is still under study by the Department.

We would be glad to meet with representatives of the Department to discuss this matter in more detail.

FEDERAL EMPLOYEE SECURITY PROGRAM
EXECUTIVE ORDER 10450

Since the issuance of Executive Order 11785 on June 4, 1974, abolishing the Attorney General's list of designated organizations, one of the standards used by the FBI in initiating investigations of individuals pursuant to Executive Order 10450 has been eliminated. This is true with regard to investigations under captioned matter of individuals which may be initiated by the FBI based on information contained in our files as well as in evaluating requests for investigations of individuals received from other agencies and departments pursuant to Section 8(d) of Executive Order 10450.

In this connection it is noted that the Criminal Division of the Department in its letter of July 11, 1974, advised that continued investigation by the FBI of the Nation of Islam is warranted because, among other things, "its reported activities appear to come within the criteria of Executive Order 10450."

In view of the issuance of Executive Order 11785, it will be appreciated if you will furnish guidelines to be used by the FBI in initiating investigations of individuals under captione matter pursuant to Executive Order 10450 and specifically criteri to be utilized in determining whether available information is sufficient basis for an investigation.

EXECUTIVE ORDER 10450

This will confirm the request on August 6, 1974, of Mr. Oran H. Waterman, Director, Department Security Staff, advising he was acting on a request from your office, that copies of reports containing the results of investigations of individuals conducted under captioned matter pursuant to the provisions of Executive Order 10450 be furnished, where pertinent, to his office directly rather than through your office. This procedure was instituted on August 6, 1974. After review by the Department Security Staff it is understood that the reports are forwarded to the Criminal Division.

As in the past, these reports are furnished to the Department in order that consideration may be given as to whether any Federal laws have been violated and for information concerning possible subversive infiltration into the Executive Branch of the Government.

With regard to a determination as to whether any Federal laws have been violated, it is noted the violations generally involve Title 18, U. S. Code, Section 1001, and a response is received from the Criminal Division.

Information concerning subversive infiltration into the Executive Branch of the Government is furnished for the Department's assistance in discharging its responsibilities under Section 13 of Executive Order 10450 which reads: "The Attorney General is requested to render to the heads of departments and agencies such advice as may be requisite to enable them to establish and maintain an appropriate employee security program."

It will be appreciated if you will advise if the practice set forth above is responsive to the needs of the Department.

DATE: NOV 1 1974

SUBJECT: Federal Employee Security Program
Executive Order 10450

This is in response to your memoranda, entitled as above, dated May 8, 1974 and August 19, 1974, directed to the Deputy Attorney General, Criminal Division, and referring to problems which have arisen as a result of the promulgation of Executive Order 11785 which amends Executive Order 10450. In view of the involvement of my staff in these matters, I will undertake to answer your questions with the concurrence of the Criminal Division.

As you know this matter has been under continuing review both in the Task Force, chaired by a representative of this office, of working level representatives of various agencies in the security field and is now under study to a lesser degree in Project #10 of the "Domestic Council on Privacy".

You ask that the Department; (a) provide specific instructions to the Bureau to conduct intelligence-type investigations to identify and determine the activities of organizations now described in the amended Section 8(a)(5) of Executive Order 10450; (b) furnish guidelines to be used by the Bureau in initiating investigations of individuals under the captioned matter pursuant to Executive Order 10450 and specifically, criteria to be utilized in determining whether available information is a sufficient basis for investigation.

Under the amendment to Section 8(a)(5) of Executive Order 10450, we now have only two types of organizations; (1) those which unlawfully advocate or practice the commission of acts of force or violence to prevent others from exercising their rights under the constitution or laws of the United States or

Buy U.S. Savings Bonds Regularly on the Payroll Savings Plan

any State, (2) or which seek to overthrow the Government of the United States, or any State or subdivision thereof, by unlawful means. (Emphasis added).

Of course, the key words which are underlined indicate that the investigation should be initially based on a possible violation of a federal (such as the Smith Act) or state statute prohibiting unlawful advocacy or the commission of any unlawful act of force or violence. However, in order for the Bureau to detect organizations with a potential of the above nature, it is important that the investigation proceed on the basis of information indicating that the organization may be of the nature mentioned. It is not necessary that a crime occur before the investigation is initiated, but only that a reasonable evaluation of the available information suggests that the activities of the organization may fall within the proscription of the Order. The most recent example of the type of organization, that you have advised is becoming more prevalent, is the small but dedicated to violence, Symbionese Liberation Army (SLA). Organizations of this nature would clearly fall within the Order and should be investigated as soon as information is available indicating their potentiality for violence and of course, if possible, prior to the fulfillment of their purposes.

It is true that Executive Order 11785 eliminated the prior communist, totalitarian, fascist, and subversive characterizations and definitions, but there was no intention of restricting the investigations of such organizations if their programs call for acts of force or violence or the unlawful advocacy of the commission of acts of force or violence in furtherance of these programs.

It is not possible to set definite parameters covering the initiation of investigations of potential organizations falling within the Order but once the investigation reaches a stage that offers a basis for determining that the activities are legal in nature, then the investigation should cease, but if the investigation suggests a determination that the organization is engaged in illegal activities or potentially illegal activities it should continue.

It follows in answer to your second question that individuals who are active either as members of or as affiliates of

organizations described above should be investigated when information is received indicating their involvement. The same yardstick indicated above for organizations in determining whether the investigation should continue, should apply concerning individuals and when a determination can reasonably be made that the individuals activities, either within the organization or as an individual, do not appear to be in violation of any law, then the investigation should cease.

FEDERAL EMPLOYEE SECURITY PROGRAM
EXECUTIVE ORDER 10450

Reference is made to your memorandum dated November 1, 1974, in answer to our previous inquiries requesting advice concerning the effect of Executive Order (EO) 11785 on our investigations of organizations and individuals engaged in subversive activities.

While referenced memorandum advises we should use the same yardstick for investigation of subversive organizations and subversive individuals, the comments following that advice, concerning individuals, are believed subject to interpretation as being more restrictive in scope. Specifically, concerning organizations, you essentially advised that when investigation determines the activities are legal in nature, then the investigation should cease, but if the activities are illegal or potentially illegal, the investigation should continue. Concerning individuals, the memorandum advises essentially that the same yardstick be used but adds when the activities do not appear to be in violation of any law, then the investigation should cease.

Further, the tenor of your memorandum, particularly comments contained in page two, paragraph one, follow the concept of investigative scope consistent with the advice as to investigation of subversive organizations but does appear to conflict with the latter comments concerning investigation of individuals where the phrase "not in violation of any law" is used. We would appreciate clarification concerning this matter.

SEE NOTE PAGE THREE

Assistant Attorney General
for Administration

Your memorandum of November 1, 1974, in part, responded to this Bureau's memorandum of August 19, 1974, which asked for guidelines to be used by the FBI in initiating investigations of applicants and employees in the Executive Branch of the Government pursuant to Section 8(d) of EO 10450. This Section specifically instructs other agencies to promptly refer to the FBI for investigation those cases which develop information indicating that an individual may have been subjected to coercion, influence or pressure to act contrary to the interests of the national security, or information relating to any of the other matters described therein.

Since the guidelines furnished by you are concerned primarily with possible violation of law, a decision to be made by the Department, it will be appreciated if you will furnish additional guidelines to cover "sympathetic association" and other standards mentioned in Section 8(a) (2) through (8) when the investigation concerns an applicant or employee in the Executive Branch of the Government.

In considering the foregoing, it should be noted the FBI has another responsibility under EO 10450 which is set forth in Section 5. This Section provides that whenever there is developed or received by any department or agency information indicating that the retention in employment of any officer or employee of the Government may not be clearly consistent with the interests of the national security, such information shall be forwarded to the head of the employing department or agency or his representative.

Your attention is also invited to Chapter 736 of the Federal Personnel Manual, which instructs agencies to promptly refer to the FBI for investigation cases "which develop information indicating that a person may have been subject to coercion, influence or pressure to act contrary to the interests of the national security, or information on possible disloyalty to the United States."

Assistant Attorney General
for Administration

Chapter 732 of the Federal Personnel Manual instructs that before an agency issues a letter of charges under EO 10450, the Department of Justice shall be consulted to assure that the rights of the employees are fully considered. Section 13 of EO 10450 requests the Attorney General to render to the heads of departments and agencies such advice as may be requisite to enable them to establish and maintain an appropriate employee security program.

Available information indicates that difficulties of proof imposed by the courts in loyalty and security cases have proved almost insurmountable and as a result no removals or other adverse actions have been taken on these grounds for several years and the adjudicative basis has apparently shifted from loyalty and security to suitability.

An early response in this matter will be appreciated.

NOTE:

We have corresponded with the Department concerning amendments to EO 10450 by EO 11785 and requested guidelines as to our investigations of subversive matters defined in EO 10450 as amended by EO 11785 as none have been previously furnished by the Department. This is necessary because the Federal Employee Security Program depends on subversive information originating with our subversive investigations. The foregoing requests clarification in conflicting language in the Department's response as to subversive investigations and response to questions concerning the FBI's investigative role in the above Program.

Although our original inquiry was directed to Assistant Attorney General, Criminal Division, the Department memorandum notes Assistant Attorney General, Administrative Division, answered with concurrence of the Criminal Division. We are, therefore, directing our request for clarification to Assistant Attorney General for Administration.

Set forth below is this Bureau's response to the requests mentioned in referenced letter. Also enclosed are materials responsive to the requests mentioned in referenced letter.

POLICIES AND PROCEDURES OF THE FBI FOR INVESTIGATIONS PURSUANT TO EO 10450, AS AMENDED

Executive Order (EO) 10450, as amended, came into existence on April 27, 1953, and serves as the basic authority under which most personnel investigations are conducted at the present time involving applicants and employees in the Executive Branch.

EO 10450, in its preamble, states that the interests of the national security require all persons privileged to be employed by the Government shall be reliable, trustworthy, of good conduct and character, and of complete and unswerving loyalty to the United States.

Section 2 requires the agency head to maintain an effective program to insure that the employment or retention of applicants and employees is clearly consistent with the interests of the national security.

Section 8 lists the conditions for developing information which is of investigative and, by inference, adjudicative interest.

Section 13 states: "The Attorney General is requested to render to the heads of departments and agencies such advice as may be requisite to enable them to establish and maintain an appropriate employee security program."

Chapter 732 of the Federal Personnel Manual instructs that before an agency issues a letter of charges under EO 10450, the Department of Justice shall be consulted to assure that the rights of the employees are fully considered.

The Government Printing Office, General Accounting Office, and Library of Congress, all in the Legislative Branch, voluntarily participated in the loyalty program prescribed by EO 9835. The same agencies desired to participate in the program set up by EO 10450. These agencies again, with the approval of the Department of Justice, worked out with the Department and with the Civil Service Commission procedures for their participation in EO 10450. The results of FBI investigations under EO 10450 concerning applicants and employees of these agencies in the Legislative Branch are furnished to the Civil Service Commission, which in turn furnishes the results to the designated officials in the specific agency.

Available information indicates that difficulties of proof imposed by the courts in loyalty and security cases are considered almost insurmountable and as a result no removal or other adverse actions have been taken on these grounds for several years and the adjudicative basis has shifted from loyalty and security to suitability. Thus, favorable determinations are said to be based on EO 10450 while unfavorable decisions almost always rely on the suitability provisions of Civil Service Regulations.

It is noted that you have previously reviewed Section 19, "Applicant and Employee Investigations Conducted for Other Government Agencies," FBI Manual of Instructions, Volume II, which contains instructions to be followed for investigations carried out pursuant to EO 10450, as amended. This should be referred to for an understanding of the FBI's policy and procedures.

Section 8(d) reads as follows:

> There shall be referred promptly to the Federal Bureau of Investigation all investigations being conducted by any other agencies which develop information indicating that an individual may have been subjected to coercion, influence, or pressure to act contrary to the interests of the national security, or information relating to any of the matters described in subdivisions (2) through (8) of subsection (a) of this section. In cases so referred to it, the Federal Bureau of Investigation shall make a full field investigation.

Chapter 736 of the Federal Personnel Manual instructs agencies to promptly refer to the FBI for investigation cases "which develop information indicating that a person may have been subject to coercion, influence, or pressure to act contrary to the interests of the national security, or information on possible disloyalty to the United States." This Chapter also requires that "information as to subversive activity on the part of employees in the Executive Branch....is referred by the employing agency.... to the Federal Bureau of Investigation" so that necessary investigation is conducted by the FBI.

In a memorandum dated August 19, 1974, (enclosed), to the Deputy Assistant Attorney General, Criminal Division, with a copy for the Director, Department Security Staff, Department of Justice, reference was made to EO 11785 dated June 4, 1974, (enclosed), which abolished the Attorney General's list of designated organizations, one of the standards used by the FBI in initiating investigations of individuals pursuant to EO 10450. It was pointed out this standard was eliminated with regard to investigations of applicants and employees in the Executive Branch which may be initiated by the FBI based on information in our files as well as in evaluating requests for investigations of individuals received from other agencies and departments pursuant to Section 8(d) of EO 10450. Guidelines were requested for the use of the FBI in initiating investigations of individuals pursuant to EO 10450 and specifically criteria to be utilized in determining whether available information is sufficient basis for investigation under EO 10450.

A response to these inquiries was made by the Assistant Attorney General for Administration on November 1, 1974, (enclosed), advising that the FBI should continue to conduct investigations to identify organizations coming within the purview of Section 8(a)(5) of EO 10450, i.e., organizations which: (1)unlawfully advocate or practice the commission of acts of force or violence to prevent others from exercising their rights under the Constitution or laws of the United States or any State; or (2)which seek to overthrow the Government of the United States or any State or subdivision thereof by unlawful means. The Department advised that if the investigation of an organization "suggests a determination that the organization is engaged in illegal activities or potentially illegal activities, it should continue.

Regarding the investigation of individuals, the Department advised that members or affiliates of organizations described above should be investigated and the same yardstick should be utilized as was indicated for organizations in determining whether the investigation should continue. The Department added, however, that "when a determination can reasonably be made that the individual's activities, either within the organization or as an individual, do not appear to be in violation of any law, then the investigation should cease."

In a memorandum dated December 11, 1974, (enclosed), to the Assistant Attorney General for Administration, clarification was requested of the guidelines for investigations by the FBI of applicants and employees in the Executive Branch under EO 10450 since the Department's statement that the same yardstick should be utilized in the case of organizations and individuals appears to be at variance with that used concerning organizations.

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

STANDARDS FOR CHECKING FBI FILES FOR A NATIONAL AGENCY CHECK

Section 3(a) provides that the appointment of each civilian employee shall be made subject to investigation but in no event shall the investigation include less than a national agency check including a check of the fingerprint files of the FBI.

Although the scope of a national agency check is not defined in EO 10450, Chapter 736 of the Federal Personnel Manual defines a national agency check as including a check of the fingerprint files, Identification Division, FBI, and of the investigative files of the FBI.

STANDARDS FOR DETERMINING WHETHER OR NOT THERE IS "DEROGATORY INFORMATION" IN THE FBI FILES

The standards for determining what is derogatory information is such information that shall relate, but shall not be limited to, those facts described in subdivisions (1-8) of Section 8(a).

POLICIES FOR DISSEMINATION OF SUCH DEROGATORY INFORMATION

Section 5 of EO 10450 provides:

> Whenever there is developed by any department or agency information indicating that the retention in employment of any officer or employee of the Government may not be clearly consistent with the interests of the national security, such information shall be forwarded to the head of the employing department or agency or his representatives....

If the FBI receives information coming within the provisions of this section, the FBI has the responsibility to disseminate it whether it be of a suitability or loyalty nature. Chapter 735 of the Federal Personnel Manual contains language similar to that in Section 5. The conditions for the types of derogatory information involved are set forth in Section 8(a) of the Order.

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

Supplement Number 4 (revised) of Departmental Order 3464, signed by the Attorney General on January 13, 1953, provides that all files, documents, records and reports in the Department of Justice shall be regarded as of a confidential nature.

The Attorney General by memorandum dated December 5, 1947, advised the Bureau that the practice in passing along to the various government departments and agencies information which comes to its attention in connection with the conducting of investigations, normally and regularly within the Bureau's jurisdiction, is entirely appropriate and correct. The Attorney General added that it would appear that the Bureau would be remiss in its duty if it failed to pass along information coming to it which might prove in the interest of the general welfare. He added that it is not the Bureau's responsibility to determine whether the information is or is not of importance to the particular agency in the carrying out of its current activities and responsibility, and whether or not any action is taken by the department or agency is not, of course, a principal concern of the Bureau. The Attorney General advised, therefore, that in his opinion the Bureau should continue to pass along information, which it is believed might be of interest to the various departments and agencies.

It should be noted that our FBI reports distributed to outside agencies are stamped as the property of the FBI with this additional notation," This document contains neither recommendations nor conclusions of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency."

FBI memorandum dated August 14, 1974, (enclosed), to the Assistant Attorney General for Administration, copies for the Deputy Assistant Attorney General, Criminal Division, and for the Director, Department Security Staff, confirmed the results of investigations of individuals pursuant to EO 10450 be furnished, where pertinent, to the Director, Department Security Staff.

The memorandum pointed out that, as in the past, these reports are furnished to the Department in order that consideration may be given as to whether any Federal laws have been violated and for information concerning possible subversive infiltration into the Executive Branch of the Government.

With regard to a determination as to whether any Federal laws have been violated, it was noted the violations generally involve Title 18, U.S. Code 1001, and a response is received from the Criminal Division.

Information concerning subversive infiltration into the Executive Branch is furnished for the Department's assistance in discharging its responsibilities under Section 13 of EO 10450.

The Assistant Attorney General for Administration, by memorandum dated August 26, 1974, (enclosed), advised that the practice as outlined in the memorandum of August 14, 1974, satisfies the needs of the Department.

As the result of reorganization in the Department, these reports are now sent to the Director, Security and Administrative Services Staff.

CIRCUMSTANCES UNDER WHICH THE FBI WILL CONDUCT ITS OWN INVESTIGATION OF A PROSPECTIVE FEDERAL EMPLOYEE

With regard to Sections 5 and 8(d), supra, the FBI sent a memorandum dated May 1, 1953, (enclosed), to the Deputy Attorney General pointing out that the FBI contemplated following the policy in existence under EO 9835 (Federal Employee Loyalty Program) of initiating an investigation based on available information rather than awaiting a request for such an investigation under EO 10450 from the interested department or agency. It was stated that if this practice was in conflict with the provisions of EO 10450, consideration could be given to clarification in subsequent regulations.

In reply the Deputy Attorney General on June 25, 1953, (enclosed), advised he did not believe the policy outlined in the memorandum dated May 1, 1953, to be in conflict with any provision of EO 10450 and saw no reason why the FBI should not continue this policy.

The FBI has continued the practice approved in the Department's memorandum of June 25, 1953, and by memorandum dated January 23, 1976, to the Deputy Attorney General, the Department was advised that this policy still continues under the provisions of EO 10450.

Dear Concerned Citizen:

Thank you for sharing your thoughts with me regarding the work of the Select Committee on Intelligence Activities. I am sorry to learn that you are unable to endorse the Committee's investigation and the efforts which have been undertaken to strengthen the Nation's intelligence agencies through closer definitions of their legal authority and areas of legitimate operation.

One of the possible abuses under investigation is the violation of the First and Fourth Amendment rights of Americans under the Constitution and Bill of Rights. The American system of government is unique in that it not only permits, but encourages, its citizens to voice their views on important issues. One of the rights we are trying to protect is your right to express your thoughts to me, either over the telephone or through the mails, without having your message intercepted or recorded by unauthorized persons. Highly sophisticated equipment now makes it possible to turn our surveillance techniques, which were originally designed to intercept foreign transmissions, inward against ourselves. It is important that provision be made for the lawful use of this capability, and that protection be assured our own citizens who could become the unwitting victims of this unconstitutional but nevertheless powerful surveillance technology.

I want to take this opportunity to assure you that the Committee's purpose is not, as some have suggested, to destroy, degrade, or even disrupt the legitimate functions of the intelligence gathering and law enforcement agencies of the United States. On the contrary, its purpose is to fortify these valid and vital areas of operation. However, we do intend to identify abuses or patterns of abuses which are clearly unlawful and take action to prevent their recurrence, whether they involve individuals or nations. We as individuals must live within the law; so must our Government and its agencies.

I appreciate your taking the time to write to me, and trust that the ultimate outcome of this investigation will strengthen the faith of our people in the integrity of their Government.

With all kind wishes.

Sincerely,

Frank Church

TO INTELLIGENCE ACTIVITIES (SSC)

Reference is made to SSC letter dated February 5, 1976, as modified during a meeting on February 12, 1976, between John T. Elliff, SSC Staff Member, and Steven K. Blackhurst, Assistant Special Counsel for Intelligence Coordination, Department of Justice.

In accordance with the agreement between Messrs. Elliff and Blackhurst, the SSC request of February 5, 1976, has been limited only to documents pertaining to Attorney General authorization for electronic surveillance directed toward organizations engaged in preparations for the fall of 1969 "March on Washington."

A review of Bureau files indicated three organizations were targeted for such coverage. These organizations were the New Mobilization Committee to End the War in Vietnam (NMC), the Student Mobilization Committee to End the War in Vietnam (SMC), and the Vietnam Moratorium Committee (VMC).

Attached are unexcised copies of the Attorney General authorizations, with the exception of the authorization dated November 7, 1969, for these electronic surveillances. Page two of the November 7, 1969, communication contains a deletion pertaining to the identity of targets of electronic surveillance not concerned with this subject matter. This deletion was approved during the meeting February 12, 1976, mentioned above.

MEMORANDUM FOR THE ATTORNEY GENERAL

RE: FALL OFFENSIVE AGAINST THE WAR IN VIETNAM
NOVEMBER 12-16, 1969
INTERNAL SECURITY - MISCELLANEOUS

The New Mobilization Committee to End the War in Vietnam (NMC) is coordinating efforts for a massive antiwar manifestation to take place in Washington, D. C., November 12-16, 1969. This group maintains a Washington, D. C., office at 1029 Vermont Avenue, Northwest, where the planning takes place.

This demonstration could possibly attract the largest number of demonstrators ever to assemble in Washington, D. C. The large number is cause for major concern should violence of any type break out. It is necessary for this Bureau to keep abreast of events as they occur, and we feel that in this instance advance knowledge of plans and possible areas of confrontation would be most advantageous to our coverage and to the safety of individuals and property. Accordingly, we are requesting authorization to install a telephone surveillance on the Washington office of the NMC.

Interception will be made without trespass and maximum security will be guaranteed. Because of extensive contacts of the organization involved, it cannot be anticipated whether individuals who are or may be placed under an active investigation for possible criminal violations will be overheard by this coverage.

RE: FALL OFFENSIVE AGAINST THE WAR IN VIETNAM
NOVEMBER 12-16, 1969
INTERNAL SECURITY - MISCELLANEOUS

The New Mobilization Committee to End the War in Vietnam (NMC) is sponsoring a massive antiwar manifestation to take place in Washington, D. C., on November 12-16, 1969. The Student Mobilization Committee to End the War in Vietnam (SMC) and the Vietnam Moratorium Committee (VMC) are closely coordinating their efforts with NMC in organizing the demonstration. NMC, SMC and VMC occupy adjoining office space at 1029 Vermont Avenue, Northwest, Washington, D. C.

SMC is completely dominated and controlled by the Trotskyist Socialist Workers Party (SWP) and its youth affiliate, the Young Socialist Alliance (YSA). The VMC has recently endorsed fully the activities of NMC concerning the upcoming antiwar demonstration.

This demonstration could possibly attract the largest number of demonstrators ever to assemble in Washington, D. C., which is cause for major concern should violence of any type break out. It is necessary for this Bureau to keep abreast of events as they occur, and we feel advance knowledge of plans and possible areas of confrontation during the demonstration would be most advantageous to our coverage and to the safety of individuals and property.

We have separately requested authorization to install a telephone surveillance on the office of NMC. To further implement our coverage, we are requesting authorization to install telephone surveillances on the offices of SMC and VMC.

Hon. Frank Church
U.S. Senate
Washington, D.C.

Dear Sen. Church:

By way of background, I served honorably with both the Federal Bureau of Inve igation and the Central Intelligence Agency for a combined total of over 33 years. I am proud of my service with each agency and I feel that my activities were quite worthwhile and in the national interest. I am a graduate of George Washington University Law School and a member of the bar. I am now retired.

As an interested and intellectually curious citizen, I have been reading accounts in the public press concerning the activities of the committee which you happen to chair and of the House Committee which Rep. Otis Pike happens to chair, both dealing with the U.S. investigative and intelligence programs. Briefly stated, I am totally nauseated by the irresponsible way in which both of you demand highly sensitive and classified data which seems to be publicized soon after you get it. It is my opinion and that of many friends that your committees are effectively destroying the credibility of these agencies and making impossible their effective performance in the future.

Before going further, let me state that I do not condone irregularities, improprieties or illegalities by either agency in their normal, routine activities but I do see the justification, in serious security or Mafia like criminal activities, for certain "extracurricular" activities to achieve needed ends and I think that the Congress should quietly recognize such, with reasonable controls. You should be proud and complimentary, for instance in my opinion, about the highly publicized and often misrepresented mail intercept program when you stop to realize that it was confined to mail to and from Russia and, insofar as I read, the results were given appropriate safeguards.

I have no objection to having some type of scrutiny and supervision of these agencies by some well qualified and impartial panel and I do not object to having appropriate administrative action taken against offending employees and officials, if their rights are protected. What I do strongly object to is the pathetically inept and horrendously damaging procedures whereby your inquiries on sensitive matters are regularly reported, sometimes incompletely and for apparent political reasons. It just seems to me that someone connected with your committees is afflicted with political "diarrhea of the mouth" which impels them to babble without regard to common sense or the welfare of our intelligence programs and, as I read the press, you two gentlemen both have this weakness.

I am sure that the intelligence organizations of all major nations make some mistakes. But have you ever seen the British, the French, the Russians, the Germans, the Israeli or the Japanese governments conduct such a "three ring circus" on sensitive matters as you men are doing to your everlasting discredit? I am sure also that we are the laughing stock of all the above enumerated nations. What foreign official will entrust sensitive and confidential data to U.S. intelligence agents in the foreseeable future when he knows that he may soon see his data publicized because of some misguided Congressional activity? I very sincerely feel that strong administrative and/or criminal action should be taken in any cases where either or both of your committees and/or their personnel have been the vehicle for embarrassing or damaging the U.S. by actions which resulted in confidential data being reported.

In order that there be no misunderstanding, this letter represents nothing more than my very sincere conviction of great personal contempt and disgust with the way in which you and your committees have done a great disservice to the United States by sadly mishandling your responsibilities to these agencies and to our nation.

Sincerely,

Reference is made to SSC letter dated July 9, 1975, page three, paragraph two, subsection A, requesting materials in Bureau files relating to electronic surveillance of the so-called "Kissinger-17," and Department letter to the SSC dated July 15, 1975, captioned "Access/Delivery of Documents Requested in Senate Select Committee Letter of July 9, 1975," which letter sets forth arrangements that had been agreed upon on July 11, 1975, by representatives of the Department of Justice and the SSC concerning the manner in which the Bureau will respond to the above.

In accordance with the above agreement, SSC Staff Member James Dick on February 18, 1976, appeared at FBI Headquarters and prepared a longhand summary based on his review of material relating to the so-called "Kissinger-17." SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: REQUEST FOR MATERIAL RELATING TO ELECTRONIC SURVEILLANCE OF "KISSINGER-17"

NOTE:

The above agreement referred to in referenced Department letter states that material in FBI files relating to the "Kissinger-17" surveillance would be made available for review to SSC personnel at FBIHQ. These personnel may take such notes as deemed appropriate which notes were to be left in secure location at FBIHQ during the time the SSC study was in progress. When the study was completed, the SSC was to prepare a summary of the information considered appropriate for Committee use. The summary would be checked to ensure the protection of national security matters, protection of confidential sources of information and observation of privacy considerations. Thereafter, the approved summary would be furnished to the Committee and Staff notes destroyed. Mr. Dick on July 16 and 17, 1975, reviewed the material relating to the "Kissinger-17" and left his notes in possession of Bureau personnel. On 2/17/76, Mr. Dick requested permission to return to FBIHQ to review the above notes and prepare his summary which he did on 2/18/76. The summary prepared by Mr. Dick can be placed into two categories: (a) Political or personal information obtained from the tesurs which was disseminated to individuals at the White House and (b) a list of the targets and the dates the coverage was in operation for each target comprising the "Kissinger-17." Review of this summary indicates that no confidential sources of this Bureau are jeopardized, and there appears to be no jeopardy to national security matters. Regarding the latter, however, it is felt that the White House would be in the best position to pass final judgement in this matter.

It is to be noted that the matter of tesur coverage of some members of the "Kissinger-17" is currently in litigation.

The following notes were taken by James Dick, Senate Select Committee Staff, on February 18, 1976, based on a review of the file on the seventeen wiretaps which occurred between May 1969 and February 1971. These notes contain two types of summaries: (a) essentially political or personal information which was ~~[illegible]~~ obtained from the wiretaps and disseminated to Henry Kissinger, John Ehrlichman, H. R. Haldeman, and/or President Nixon, and (b) a list of the targets and the dates the coverage was in operation for each.

U. S. SENATE SELECT COMMITTEE TO STUDY GOVERNMENTAL OPERATIONS WITH RESPECT TO INTELLIGENCE ACTIVITIES (SSC)

1. Question: Does the FBI know the whereabouts of Riha--whether he is alive or dead? Where?

Answer: The FBI does not know the whereabouts of Riha or whether he is alive or dead.

2. Question: Was Riha known to the Agency? If so, when first known and why?

Answer: All information relating to the FBI's knowledge of Riha has been previously furnished to the SSC. The first communication pertaining to Riha was a memorandum from CIA dated October 27, 1958. This memorandum was furnished the SSC on June 13, 1975.

3. Question: Was Riha employed by FBI? If so, in what capacity? Dates of employment?

Answer: Riha was not employed by the FBI.

4. Question: In March or April 1969 or thereafter, did Mrs. Gloria (Galya) Tannenbaum of Denver and Boulder, Colorado, contact the FBI in Colorado or Washington to assure the FBI that missing University of Colorado Professor Thomas Riha was alive and well and had left his home for personal reasons on March 15, 1969? If so, who in the FBI received this information and to whom was this information passed on in the FBI and the CIA? When was this done?

Answer: Mrs. Gloria (Galya) Tannenbaum did not contact the FBI in March or April, 1969, for any reason. On May 14, 1969, she was contacted by Special Agents of the FBI at her residence in Denver, Colorado, in connection with an investigation involving charges that she had impersonated an officer of the U. S. Immigration and Naturalization Service. There is no record that Riha was discussed during this contact. A letter from the Denver Office of the FBI dated February 12, 1970, reported that on January 28, 1970, she was interviewed by Special Agents of the FBI at Boulder City Jail, Boulder, Colorado, at which time she offered the opinion that Riha had decided to leave Boulder due to marital difficulties and personal clashes with other members of the faculty at the University of Colorado. She listed a number of telephonic and personal contacts she had had with him subsequent to March, 1969.

The communication reporting the May 14, 1969, contact does not list the names of the Special Agents who contacted her, however, the communication was prepared by Special Agent Merrill R. Smith. At that time Special Agent Smith and Special Agent J. Hale McMenamin were the only Agents assigned at Boulder, Colorado. As the SSC was previously advised on November 21, 1975, the January 22, 1970, communication from Denver FBI to FBIHQ could not be located and therefore it cannot be determined who at FBIHQ received it or if the information was passed to CIA.

The letter from the Denver Office to FBIHQ on February 12, 1970, was initialed by a case supervisor in the General Investigative Division and a case supervisor in the Intelligence Division. Other than the information following in response to question number 5, there is no indication that the information was passed to CIA.

5. Question: Was this or other information passed on by the FBI to the CIA or to other agencies and the Denver and Boulder police? What was the information conveyed? When was this done?

U. S. SENATE SELECT COMMITTEE TO
STUDY GOVERNMENTAL OPERATIONS
WITH RESPECT TO INTELLIGENCE
ACTIVITIES (SSC)

Answer: The report of the interview of Tannenbaum on January 28, 1970, was included in a memorandum which was furnished to FBIHQ by communication from Denver dated February 12, 1970, captioned "Galya Tannenbaum, aka, Impersonation." The memorandum was disseminated at FBIHQ to CIA, Secret Service, State Department, Immigration and Naturalization Service, and Defense Intelligence Agency. The memorandum was furnished to the U. S. Attorney, Denver, Colorado, by the Denver FBI Office. There is no indication that the information was passed to the Denver or Boulder police.

6. Question: Why did FBI say in 1969 and 1970--and continues to say now--that it conducted no investigation of Riha's disappearance when it is known that FBI agents talked in 1969 and 1970 with friends of Riha about his disappearance?

Answer: The FBI said in 1969 and 1970 and continues to say now that it conducted no investigation of Riha's disappearance because from the outset of his disappearance to now, the FBI has never conducted any investigation into the disappearance of Thomas Riha. Reference is made to the third, fourth, fifth and sixth paragraphs of Denver FBI letter to the Director dated February 12, 1970, supra, previously furnished to the SSC on November 21, 1975, which read as follows: "All persons interviewed in this investigation were specifically advised by interviewing Agents that the purpose of this investigation was to ascertain whether Galya Tannenbaum had in any way violated Federal statutes concerning impersonation. Interviewees were specifically advised investigation was not in any way connected with the dissapearance of Thomas Riha, a currently missing Assistant Professor of History at the University of Colorado, Boulder, Colorado.

"This statement was made to interviewees because the Denver Office has received inquiries by news media concerning Riha's disappearance and they have been specifically advised there is no evidence relating to his disappearance showing any violation of Federal law over which this Bureau has jurisdiction. The circumstances of his disappearance suggest a missing person situation and that investigation is being handled by the Boulder Police Department.

"Because of the close personal relationship between Tannenbaum and Riha, it would be possible, without the above statement by interviewing Agents, that interviewees could gain the impression the FBI is investigating the disappearance instead of the impersonation of a Federal officer by Tannenbaum.

"Pursuant to current Bureau instructions, this office is not and has not conducted any investigation concerning Riha."

7. Question: Why, in January or February 1970, did an FBI agent at the Denver office refuse to accompany CIA Agent Michael Todorovich from Boulder to see then Denver District Attorney Mike McKevitt? Was it made known by the CIA agent that the purpose of the visit was to ease the pressure on issuance of a subpoena to Dr. Joseph Smiley, former president of the University of Colorado? (Under such a subpoena, Smiley might have been required to reveal the agency that had given him the April 1969 report that Riha was alive and well at that time.)

Answer: The only information with reference to the contact between former Special Agent in Charge Scott J. Werner and CIA agent Mike Todorovich is contained in Denver FBI letter to Director dated February 12, 1970, captioned "Thomas Riha," previously furnished to the SSC on June 13, 1975.

8. Question: In December 1969, when Riha's dying mother, Dr. Ruth Ann Cook of Taunus, West Germany, contacted the FBI in Washington about her missing son, she was very anxious to "do anything" to determine where he was and what had happened to him. Yet the FBI (J. Edgar Hoover) said in December 1969, that Mrs. Cook declined the FBI's offer to place a missing persons notice on Riha in the FBI bulletin. What information did the FBI furnish Mrs. Cook to lead her to make this unlikely decision not to pursue all possible ways to find out what happened to her son?

Answer: All reports of communications between Dr. Ruth Ann Cook, mother of Thomas Riha, and the FBI, were furnished to the SSC on November 21, 1975.

9. Question: Was Dr. Cook connected with the FBI in any way at any time? In what capacity? When?

Answer: Dr. Cook was not connected with the FBI in any way at any time.

10. Question: Was Mrs. Gloria (Galya) Tannenbaum ever employed by the FBI? For what purpose or purposes? Was she hired to check on Leonard Carlin, Chicago attorney who was active in defending antiwar activists in the 1960s?

Answer: Mrs. Gloria (Galya) Tannenbaum was never employed by the FBI. She was not hired to check on Leonard Carlin, Chicago attorney.

11. Question: Was Mrs. Tannenbaum sent by the FBI from Chicago to the Boulder-Denver, Colorado, area in 1968 to check on Riha or on Boulder attorney Dennis Blewitt, who later became Riha's attorney and confidant?

Answer: Mrs. Tannenbaum was not sent by the FBI from Chicago to the Boulder-Denver, Colorado, area in 1968 for any reason.

12. Question: What knowledge does the FBI have on Riha's translations of Czechoslovakian tapes for Mrs. Tannenbaum in March 1969, before he disappeared?

Answer: The FBI does not have any knowledge regarding Riha's translations of Czechoslovakian tapes for Mrs. Tannenbaum.

13. Question: What knowledge does the FBI have on Tannenbaum's reported suicide at the Colorado State Hospital in March 1971? Is the FBI acquainted directly or indirectly with Henry Madrid, a technician at the hospital?

Answer: The only knowledge the FBI has concerning Tannenbaum's reported suicide at the Colorado State Hospital in March, 1971, was obtained from newspaper clippings previously furnished to the SSC on November 21, 1975. The FBI is not acquainted directly or indirectly with Henry Madrid, a technician at the hospital, other than through his mention in the above newspaper clippings.

Answer: There is no record that the FBI contacted the Colorado Bureau of Investigation at any time on these matters.

15. Question: Did the FBI have any contacts with Riha when he was working as an interpreter in the Army in the early 1950s?

Answer: There is no record that the FBI had any contact with Riha while he was in the Army in the early 1950s.

NOTE:

Zdenek Cerveny and Francesca Stein were interviewed at Lyons, Colorado, 1/21/70, by Special Agents Merrill R. Smith and J. Hale McMenamin. Joyce Lebra was interviewed by the same Agents on 1/21/70 at Boulder, Colorado.

Professor Donald Fanger is the subject of Security Matter - C, Bureau file 100-408465, opened in January, 1954, when there was indication he supported Communist Party policies and closed 1964 when investigation indicated he did not qualify under Bureau's criteria for inclusion on the Security Index and his activities did not appear to warrant investigation. The only known connection between Fanger and Riha is that they were both included in a group of American graduate students selected to attend Moscow or Lenigrad University in 1958-1959 in exchange for twenty Soviet graduate students.

Professor Oldrich Leska is the subject of Internal Security - Czechoslovakia, Bureau file 105-19779. Leska, born 6/16/27 Czechoslovakia, was in the U. S. from 7/17/68 to 9/5/68 and again from 10/15/68 until 6/8/70 when he returned to Czechoslovakia. He was in the U. S. under the East-West Exchange Program. During the earlier visit and from October, 1968, until the Summer of 1969, he was at the University of Colorado, Boulder, Colorado, and from the Summer of 1969 until June, 1970, he was at the University of Chicago, Chicago, Illinois. The file was opened on the basis of an unusual telephone call received by a third party from Ljubo Majhanovich. Apparently Majhanovich, then living in Toronto, Canada, had attended the University of Colorado from 1966-69 where he had become friendly with Leska. Majhanovich was born in Yugoslavia,(S)

ZDENEK CERVENY, care of Black Bear Inn, Lyons, Colorado, was interviewed at this establishment and advised he was born December 5, 1938, in Jihlava, Czechoslovakia, and holds a Master's degree in Mechanical Engineering from the Czechoslovakia Technical University, Prague, Czechoslovakia. He stated he is the nephew of THOMAS RIHA, a Professor of Russian History at the University of Colorado, Boulder, Colorado. He is currently employed as a plant engineer with the Martin-Marietta Cement Company in Lyons, Colorado.

According to CERVENY, he came to the United States on November 8, 1968, from Vienna, Austria, destined for the residence of his uncle in Boulder, Colorado. He stated that upon arrival in New York City, he spent several days at the residence of Mr. and Mrs. R. V. GROSSMAN in Brooklyn, New York, who are the aunt and uncle of HANA RIHA, the former wife of THOMAS RIHA.

CERVENY continued that he arrived in Denver, Colorado, via Greyhound Bus on November 16, 1968, and immediately called THOMAS RIHA at his residence in Boulder. He was advised by RIHA that he would be unable to come to Denver to drive him back to Boulder, but that he would have a friend meet him at the bus station. He stated that approximately one hour later a woman who introduced herself as GALYA TANNENBAUM approached him at the bus station and thereafter drove him to the residence of THOMAS RIHA at 1655 - 6th Street, Boulder, Colorado. He advised that after TANNENBAUM departed the RIHA residence, his uncle told him that she was a very important person, and the one who had been influential in getting him into the United States.

CERVENY stated he resided with RIHA from November 16, 1968, until January 8, 1969, when he moved to 918 South Logan Street, Denver, Colorado, in order to be closer to the Samsonite Company where he had secured employment in the Research and Development Laboratory. During the period he resided with his uncle, TANNENBAUM visited this residence on several occasions, and on almost every instance reminded him that she was an officer in Military Intelligence; very influential with authorities of the United States Immigration and Naturalization Service; and that if he did not behave himself in the United States, she would have him sent back to Czechoslovakia. CERVENY stated he never was certain

what, if anything, TANNENBAUM actually did in connection with his being admitted to the United States, as the matter, to his knowledge, was handled by a Czechoslovakian Refugee Committee in New York City.

CERVENY went on to state that after he moved to Denver he did not see TANNENBAUM again until March 13, 1969, when she called him on the telephone and suggested he come to her residence at 248 Logan Street, where his uncle was also visiting her. He stated when he arrived at her house, his uncle seemed depressed and upset over the fact that he was having marital difficulties with HANA, and that the marriage would probably terminate in divorce. He stated the purpose of his being invited to TANNENBAUM's residence appeared to emanate from a desire of his uncle to see him, but that nothing of importance occurred during the visit.

Following the disappearance of his uncle on March 15, 1969, he stated TANNENBAUM commenced asking him over to her house on the pretense of checking up on his immigrant status; however, it became immediately apparent that the principal purpose of these invitations was an attempt on the part of TANNENBAUM to have sexual relations with him. He pointed out there were times when he entered her residence when she would be partially unclothed, would attempt to sit on his lap, sit close to him while watching television, or would openly suggest that they go to her bedroom for the purpose of having sexual intercourse. CERVENY stated TANNENBAUM was physically repulsive to him, and that he would find an immediate excuse to leave when she commenced making sexual advances to him.

During the period when he was visiting the TANNENBAUM residence, CERVENY advised she suggested that she adopt him, and actually started adoption proceedings through an attorney in Denver, STEPHEN L. R. MC NICHOLS, JR.; however, he stated he had no desire whatsoever to go through with this, and told TANNENBAUM so. He stated it was about this time that he began to suspect that TANNENBAUM had no connection with Military Intelligence or had any influence over his immigration status.

He stated that in May, 1969, he desired to go to Toronto, Canada, to attent a wedding of some Czechoslovakian friends, and he inquired of TANNENBAUM if such would be legal for him to do. He stated she told him there was nothing for him to worry about; however, she suggested he consult with Immigration authorities in Denver regarding this trip. According to CERVENY, TANNENBAUM accompanied him to the Federal Building in Denver, but refused to enter Immigration offices with him, giving some excuse that she did not want them to [illegible] his case. He [illegible] the United States for Canada, he would not be able to return. When he informed TANNENBAUM of this, she told him that she had more authority than the Immigration officials, and advised him to go to Canada regardless, as she outranked the officials in Denver. CERVENY then made the trip to Canada without incident, and learned later that he was actually just fortunate that he was not required to produce citizenship papers at any time.

In addition, CERVENY stated that in May, 1969, he met a Czechoslovakian girl in Colorado Springs by the name of MICHEL BDLIKOVA, who was working at the Broadmoor Hotel, and whom he eventually introduced to TANNENBAUM. He stated that TANNENBAUM immediately told the girl of her Military Intelligence and Immigration connections, and advised her that she could arrange to get her a passport to visit relatives in Czechoslovakia. He stated that in October, 1969, BDLIKOVA told him that TANNENBAUM had recently approached her with a letter written in English purportedly from THOMAS RIHA to CERVENY. He stated BDLIKOVA was asked by TANNENBAUM to rewrite the letter in Czechoslovakian, and that he eventually received this letter postmarked from somewhere in Canada. He felt at the time he received the letter that it had not been written by his uncle, and when he was advised by BDLIKOVA that the letter was a hoax, he began to feel that TANNENBAUM was a fraud and that his uncle's disappearance could have been for reasons other than marital discord. He stated that immeidately after being told of the letter by BDLIKOVA in October, 1969, he filed a missing persons notice with the Boulder, Colorado Police Department the following day. He stated the last time he saw TANNENBAUM was just before or after he made this report to the Boulder Police Department.

With regard to CERVENY's association with GALYA TANNENBAUM, he recalled that on several occasions she told him that she would like to recruit him into Military Intelligence, as his engineering background and language ability would be "extremely useful to us." She also told him that if he were in the United States "working for the other side," she would shoot him. TANNENBAUM also told CERVENY that she had originally met THOMAS RIHA in Chicago, and that after she came to Colorado, he followed her for the purpose of marrying her; however, the marriage did not take place as RIHA was unable to get along with her children. He stated that upon reflection, he feels that his uncle actually believed that TANNENBAUM was connected in some official capacity with the United States Government, and that there was something in their relationship which he feels gave TANNENBAUM some type of influence over the actions of his uncle; however, in conversation with both his uncle and TANNENBAUM, he can recall nothing of a concrete nature, and that this feeling is probably a result of intuition more than any [illegible].

CERVENY also recalled that in December, 1968, his father visited him, and during the visit, showed him a diamond bracelet which he had smuggled into the United States for the purpose of selling for a relative in Czechoslovakia. He stated his father had previously corresponded with another individual by the name of RIHA in San Antonio, Texas, who was no relation to his uncle, but whom his father had known in Czechoslovakia. According to CERVENY, his father made a trip to San Antonio to leave this bracelet with the RIHA in San Antonio for him to attempt to sell; however, the bracelet was eventually returned to CERVENY from the RIHA in San Antonio, who advised him he could locate no buyer. Thereafter, he showed the bracelet to TANNENBAUM, who indicated a desire to buy it. Both went to a jeweler in the Denver Hilton Hotel, who appriased the bracelet at $350. TANNENBAUM, however, offered him $500 for the bracelet, and actually paid him $400 in cash with a promise to pay him an additional $100 later, which he never received.

CERVENY recalled another incident which furthered his suspicions of TANNENBAUM in regard to a will which he witnessed at her insistence. By way of background, he explained that in the spring of 1969, TANNENBAUM introduced him to an elderly man by the name of GUSTAV FREDERICH INGWERSEN, a plastics engineer and a native of Germany, who owned some type of plastics plant in Denver, Colorado. He stated he had formerly done some work in plastics, and TANNENBAUM suggested that INGWERSEN might help him get established in this field. As a result of this meeting, CERVENY became friendly with INGWERSEN, and in the company of TANNENBAUM and her two children, made two vacation trips to New Mexico with him. He stated these trips were in either April or May, 1969, and in June, 1969, TANNENBAUM advised him that INGWERSEN had died. Then on July 5, 1969, TANNENBAUM had him visit her residence where she told him that INGWERSEN had drawn up a will and signed it prior to his death, but had neglected to have two witnesses sign it in accordance with Colorado law. She said that INGWERSEN liked CERVENY and had intended to ask him to witness the will, but had died before this could be accomplished. She then coaxed him for over an hour to witness this document, and still believing she was a bona fide official in some Governmental capacity, he affixed his signature to the will.

CERVENY concluded by stating that TANNENBAUM had never obtained anything of value from him as a result of her representations as an officer in Military Intelligence, and the longer he remained in the United States and became acquainted with life in this country, the more suspicious he became that TANNENBAUM was in some way attempting to eventually try to capitalize in some way on his immigrant status. He again pointed out, however, that to his knowledge, TANNENBAUM was never able to materially obtain anything of value from him.

Date January 27, 1970

Mrs. FRANCESCA STEIN, nee Friedel, owner of the Black Bear Inn, Lyons, Colorado, advised she is a citizen of Czechoslovakia, and has been in the United States for approximately four years. She stated that in about October, 1967, a Mr. STABEN, a visiting Professor from France at the University of Colorado, Boulder, Colorado, and a frequent customer at the Black Bear Inn, introduced her to a Professor of History at the University of Colorado by the name of THOMAS RIHA, also a native of Czechoslovakia, and that thereafter she and her husband became friendly with RIHA.

Mrs. STEIN advised that in April, 1968, RIHA visited the restaurant in the company of a Czechoslovakian citizen by the name of JIRI CERVENY, who advised her that he had a son, ZDENEK CERVENY, who had recently escaped from Czechoslovakia into Vienna, Austria. She stated JIRI CERVENY was from Prague and that ZDENEK CERVENY is a nephew of RIHA. They inquired if Mrs. STEIN would be able to assist his son in coming to the United States, particularly with regard to obtaining employment for him. Mrs. STEIN advised both RIHA and CERVENY that she would attempt to assist in this endeavor through her attorney, PAUL MORRIS, in Boulder, Colorado.

Mrs. STEIN recalled that in September, 1968, MORRIS and RIHA visited her residence in Lyons concerning ZDENEK CERVENY, at which time MORRIS told her that he knew a woman from Denver, Colorado, by the name of GALYA TANNENBAUM who had a great deal of influence in the Government, and who was referred to by RIHA as "Colonel." She stated that MORRIS and RIHA advised her that TANNENBAUM would be able to assist them in getting ZDENEK CERVENY into the United States.

According to Mrs. STEIN, shortly after this meeting with MORRIS and RIHA, TANNENBAUM visited the restaurant in Lyons to discuss the bringing of ZDENEK CERVENY to the United States. She told Mrs. STEIN it would be necessary to first check out Mrs. STEIN and RIHA for security purposes before bringing CERVENY into this country. She told her that she was a "Colonel in the Immigration," and showed her a small hand gun which she had in her purse. During this conversation, TANNENBAUM told Mrs. STEIN that she belonged to an extermination group which killed people after the second World War. Mrs. STEIN stated she considered TANNENBAUM to be a "nut" and did not pursue the matter any further with her, pointing out that

as far as she was concerned, the immigration matter concerning CERVENY would be handled by her attorney, PAUL MORRIS.

Mrs. STEIN continued that in October, 1968, RIHA married a young Czechoslovakian girl by the name of HANA HRUSKOVA, and that subsequent to the marriage, a reception was held at the Black Bear Inn. She stated that while the reception was in progress, TANNENBAUM appeared, uninvited, and immediately sought out RIHA, took him to the bar section of the restaurant, and commenced a long, serious conversation with him which lasted for approximately one hour. She stated that RIHA's bride became extremely upset over this, as TANNENBAUM would not allow anyone to interrupt their conversation. Mrs. STEIN advised that on one occasion she went into the bar to tell RIHA that his bride was becoming very upset, and was answered in an angry manner by TANNENBAUM to "leave them alone." Following this conversation, the content of which is unknown to Mrs. STEIN, she stated RIHA appeared to be extremely upset, and although TANNENBAUM left immediately, RIHA seemed to have lost all interest in the reception.

Following the incident during the wedding reception, Mrs. STEIN advised that TANNENBAUM again visited her at the Black Bear Inn concerning the immigration case of ZDENEK CERVENY, during which she mentioned to TANNENBAUM that she owned some property in Lyons on which she desired to build an apartment house. At this time TANNENBAUM told her that she was a Colonel in Military Intelligence, and was soon to be promoted to the rank of General. She told Mrs. STEIN that she could utilize some influence in securing an FHA loan for her; that she had the authority to deport her at any time; and intimated to Mrs. STEIN that for a percentage of the loan obtained, she would obtain same; and if Mrs. STEIN did not agree to this arangement, she would have her deported. Mrs. STEIN again pointed out that she considered TANNENBAUM a "nut," and told her that all of immigration and business dealings were handled through her attorney.

Mrs. STEIN stated that to the best of her recollection, the above was the last time she saw TANNENBAUM, and in February, 1969, she made a trip to Columbia, South America, where she had resided for approximately ten years before coming to the United States, and did not again return to Lyons until March 18, 1969, following the disappearance of RIHA from Boulder, Colorado, on March 15, 1969.

Mrs. STEIN stated she did not believe the representations made by TANNENBAUM that she was connected with the United States Immigration Service, or with Military Intelligence, and that she obtained nothing of value from her.

Mrs. STEIN advised that ZDENEK CERVENY eventually came to the United States in November, 1968, and to the best of her knowledge, TANNENBAUM had nothing to do with his entry into this country.

FEDERAL BUREAU OF INVESTIGATION

Date February 3, 1970

Miss JOYCE LEBRA, Associate Professor of History, University of Colorado, Boulder, Colorado, 1590 Hillside Drive, Boulder, advised she is a colleague of THOMAS RIHA in the Department of History and considers herself a close personal friend.

At the outset of the interview, it was explained to LEBRA that the purpose of the interview was to ascertain any available information from her concerning Mrs. GALYA TANNENBAUM on whom this Bureau is conducting an investigation under the Federal Impersonation Statute.

Miss LEBRA advised that to the best of her recollection RIHA never did mention anyone to her by the name of TANNENBAUM or any individual connected with Military Intelligence or the United States Immigration and Naturalization Service. She stated that if TANNENBAUM had been a close friend of RIHA's, this fact would probably have been known to her, as she and RIHA generally associated with the same circle of friends in the University community.

Date January 28, 1970

STEPHEN FISCHER-GALATI, Professor, Department of History, University of Colorado, advised that he had just returned from a European trip. He recalled first meeting Professor THOMAS RIHA sometime in 1966 at a meeting of the American Historical Society in San Francisco. He advised he also had heard of RIHA prior to their meeting. He advised that after RIHA came to the University of Colorado he knew him as a fellow faculty member of the Department of History and had dinner with him on two or three occasions. He advised their relationship was casual and could not have been considered a profound relationship.

FISCHER-GALATI advised he first met GALYA TANNENBAUM sometime in May, 1969, after the disappearance of Professor RIHA. He advised his object in meeting TANNENBAUM was to determine if she were a "colonel" as described in hearsay. He advised he was convinced she was not connected with any kind of intelligence work and knew nothing of Eastern European history. He recalled that TANNENBAUM stated she had known RIHA for many years and indicated she had helped RIHA come to the United States but gave no further explanation. He also recalled that TANNENBAUM displayed a "Power of Attorney" document which was contained in a letter allegedly signed by TOM RIHA. He advised the most significant part of the document to him was the date of same, which he easily recalled as January 5. 1968. FISCHER-GALATI pointed out that January 5, 1968, is the date of the overthrow of the Czechoslovakian Government, at which time NOVOTONY was replaced by DUBCEK, and at this same time the official who was in control of passports disappeared and subsequently showed up in Montreal, Canada. He recalled that TANNENBAUM indicated she carried a gun in her purse and that her car had some special equipment, but TANNENBAUM did not elaborate further. He advised that TANNENBAUM was extremely careful in her conversations with him and made no allegations.

FISCHER-GALATI advised his second meeting with TANNENBAUM occured on October 1, 1969, at 2:15 p.m., same obtained from his notebook. He recalled that TANNENBAUM called him on the telephone and arranged to meet him in front of the Colorado Book Store in Boulder. He recalled that her car was parked legally at the aforementioned location. He recalled that she was anxious to determine why a check had "bounced" in RIHA's bank account. He recalled she wanted to know if the University was continuing to deposit RIHA's salary to his bank account, as all University faculty

are paid, and she also wanted to see the receipt for the deposit of his salary per University records. He advised he had determined a discrepancy existed between what the University claimed to put into the account and what they actually put into RIHA's account. He advised at this meeting TANNENBAUM did not discuss RIHA's whereabouts.

He recalled his third meeting with TANNENBAUM occurred about five days later at the same location, although this time TANNENBAUM was accompanied by a small female child about three years of age. He advised her of the amount the University had deposited to RIHA's account. At this time TANNENBAUM told him her real name was not GALYA TANNENBAUM, but something else which she did not disclose, and added that she was about ready to leave town. He advised of no contact with TANNENBAUM since their last meeting.

STEPHEN FISCHER-GALATI advised that the date of the document mentioned above of January 5, 1968, and its historical significance disturbs him. He stated if RIHA was not "bumped off" by TANNENBAUM, then he assumes that RIHA's disappearance may have been connected with an unknown intelligence matter, which is pure conjecture on his part. FISCHER-GALATI also recalled that in September, 1968, Professor RIHA requested that an advertisement for a travel bureau be run in the "Eastern European Quarterly," which GALATI described as an international journal to promote cultural contact with Eastern European Countries. He advised RIHA did not indicate if the advertisement was run for a friend or if RIHA had any financial interest in the travel agency named Treasure Tours, 1010 St. Catherine Way, Montreal, Quebec, Canada. FISCHER-GALATI advised that because of the reasons mentioned, he sometimes believes that RIHA could be in Canada.

Professor FISCHER-GALATI advised that in April, 1969, he contacted a Mr. FRITZ of the Central Intelligence Agency (CIA), Denver, Colorado, regarding the sudden leaving of Professor THOMAS RIHA of the University of Colorado. Mr. FRITZ advised him that he had no knowledge of the matter but would check into same. Professor FISCHER-GALATI stated he was later recontacted by FRITZ, who stated the disappearance had nothing to do with the CIA and that RIHA's leaving was a personal matter connected with personal problems.

Professor FISCHER-GALATI explained that in the absence of a complete denial by Mr. FRITZ that the CIA had any dealings with RIHA at any time, he, therefore, concluded and was convinced the information furnished by Mr. FRITZ did not represent a personal opinion but must have come from within the CIA. He added that inasmuch as it then appeared to him that RIHA had left voluntarily, he also concluded he had no reason to fear for the safety of RIHA. Professor FISCHER-GALATI said that if he had been subsequently quoted in the "Colorado Daily" or any other newspaper as saying that RIHA had left voluntarily and was safe, such quotation would have been correct.

Professor FISCHER-GALATI continued that he did not feel, however, that the explanation about RIHA was adequate and for that reason subsequently directed a letter to the Chief of the Foreign Agents Registration section within the Justice Department, whom he knew well. He thereafter received a reply that the Chief to whom he directed the letter was deceased.

He stated he thereafter directed a second letter to the same section mentioned above within the Justice Department in mid-December, 1969, again inquiring about RIHA, but as yet has received no reply.

He stated he did not know of anything of value ever received by TANNENBAUM as a result of any representation.

Referenced letter requests interviews with FBI Agents of the Chicago Office who prepared memoranda concerning the Black Panther Party.

In view of current civil litigation involving members of the Black Panther Party, and Agents of the FBI, it is felt that it would not be proper to make these Agents available for interview by the SSC at this time.

The FBI is in agreement with the Department's view that a proper response would be to allow the SSC to review transcripts of the Agents' testimony at the trial, concerning these memoranda.

SUBJECT: SSC Letter Dated February 18, 1976

Attached is a letter from the Senate Select Committee dated February 18, 1976, which requests interviews with FBI agents who wrote various memoranda concerning the Black Panther Party in Chicago. Because such interviews might impair the Department's ability to conduct a defense in the Hampton trial, in Chicago, I have asked the Department attorneys handling that case to give us their views on an appropriate response to Senator Church's letter. One possible response would be to provide the SSC with the transcripts of the FBI agents testimony at the trial concerning these memoranda, instead of allowing the SSC to interview these agents. We would appreciate it if the FBI would also consider what response would be appropriate to this letter.

Dear Mr. Attorney General:

As a part of the Select Committee on Intelligence's preparation of a final report on FBI domestic intelligence operations, we will be seeking to take the testimony of persons whose memoranda and statements might be quoted in that report.

In our investigation into the FBI's counterintelligence activities against the Black Panther Party in Chicago certain Bureau memoranda and Airtels may be quoted. The following is a list of these documents. Actual copies, received by the Select Committee from the FBI, are also enclosed.

Memorandum SAC, Chicago to Director, FBI 12/16/68
Memorandum SAC, Chicago to Director, FBI 1/13/69
Memorandum SAC, Chicago to Director, FBI 3/14/69

The Select Committee staff believes that Special Agents Joseph Stanley, Joseph McCabe, and Roy Martin Mitchell were responsible for these memoranda and we would appreciate your forwarding to us the names of other FBI personnel responsible for their preparation. We would also like you to make the necessary arrangements for Select Committee staff to be able to interview these persons.

Your prompt attention to this matter will be greatly appreciated.

Yours very truly,

U. S. SENATE SELECT COMMITTEE TO
STUDY GOVERNMENTAL OPERATIONS WITH
RESPECT TO INTELLIGENCE ACTIVITIES (SSC)

At the SSC Executive Session held February 13, 1976, concerning "Domestic Intelligence Investigations," a discussion ensued between Bureau representatives and SSC Staff Members as to what effect the enactment of the Privacy Act of 1974 had on investigations conducted by the FBI relative to domestic subversive groups. On this occasion, one of the Staff Members present requested that this Bureau furnish the SSC with a copy of all instructions sent to Bureau field divisions by FBI Headquarters, which instructions would have a bearing on the conduct of this Bureau's "Domestic Intelligence Investigations."

Attached, in response to the above request, are copies of three Headquarters communications sent to Bureau field divisions containing instructions responsive to the above request. Also attached is one copy of a communication from our Richmond Division which prompted one of the above Headquarters communications.

Dear Mike:

On March 4, 1976, Mr. James Johnson of the FBI reviewed the Select Committee's draft titled "CIA and FBI Mail Opening." James Dick and Thomas Dawson of the Committee staff revised the draft to meet all security problems previously raised by Mr. James Lee of the Bureau, and discussed the revisions with Mr. Johnson to make certain that their concerns were met.

Thanks again for your help throughout the inquiry into this subject.

SUBJECT: SENSTUDY 75

It was brought to the attention of the Legal Counsel Division that in the Senate Select Committee report concerning COINTELPRO the identities of Agents were contained which are below the level of Section Chief. The prior procedure and policy of the Senate Select Committee was not to include anybody below a policymaking position which it equated with Section Chief or above.

F. A. O. Schwartz, Counsel to captioned Committee, was contacted concerning this matter and Schwartz stated that he wanted to assure the Bureau that there would be no names of Agent personnel included in the report under the title of Section Chief. He indicated that their procedures and policies concerning utilization of the identity of Agent personnel will be consistent with the policies established by their Bureau mail opening report. This report was written by James Dick of the Committee and contains the identity of only one Section Chief and that is William A. Branigan. No one below the rank of Section Chief was identified. In fact, Dick did not identify SACs involved in this operation.

This is the first instance wherein the SSC has made available for review a proposed rough draft of a segment of the upcoming SSC report. It is expected that other segments will be made available by the Committee Staff Members. This document is prepared in response to your request and is not for dissemination outside your Committee. Its use is limited to official proceedings by your Committee and the content may not be disclosed to unauthorized personnel without the express approval of the FBI.

On February 19, 1976, at the invitation of Staff Member Robert Kelley of the SSC, Supervisors Edward P. Grigalus and Homer A. Newman, Jr., reviewed the proposed draft of the Committee's report as it pertains to informants in the domestic security field. This review was conducted for the purpose of determining if the report contained any information which would expose our informants or jeopardize any ongoing investigations or investigative techniques in the domestic internal security field as it pertains to informants. This review did not detect any such instances.

Two instances were noted, however, where information was set forth taken from classified documents.

(1) In connection with internal security - intelligence program supports, through the use of informants, a figure of $7,401,000 was used in the Committee's draft. This figure was taken from material captioned "Federal Bureau of Investigation Overall Intelligence Program, FY 77 Budget Compared to FY 76 (Dollars in Thousands)," classified "Secret," which was made available to the SSC by the Department. Although the document described above cannot be declassified, the FBI interposes no objection to the use of the above figure in the SSC report providing the report so reflects that this figure not only includes payments made to domestic internal security informants for services and expenses but also includes the cost of our

Case No. 5--Public Meeting Opposing U.S. Involvement in Vietnam War (1966)

Informers were used extensively in FBI investigations of possible Communist links to the antiwar movement. An example is the FBI's coverage of various antiwar teach-ins and conferences sponsored by the Universities Committee on Problems of War and Peace. A forty-one page report from the Philadelphia office--based on coverage by thirteen informants and confidential sources--described in complete detail a "public hearing on Vietnam." A Communist Party official had "urged all CP members" in the area to attend, and one of the organizers was alleged to have been a Communist in the early 1950's. Upon receipt from an informant of a list of the speakers, the FBI culled its files for data on their backgrounds. One was described by a source as a Young Socialist Alliance "sympathizer."

Another was a conscientious objector to military service. A third had contributed $5.000 to the National Committee to Abolish the House Committee on Un-American Activities. A speaker representing the W.E.B. DuBois Club was identified as a Communist. The FBI covered the meeting with an informant who reported practically verbatim the remarks of all the speakers, including the following:

The Chairman of the Philadelphia Ethical Society
A representative of the American Civil Liberties Union
A representative of the United Electrical Workers
A spokesman for the Young Americans for Freedom
A member of the staff of the "Catholic Worker"
A minister of the African Methodist Episcopal Church
A minister of the Episcopal Church
A representative of the Philadelphia Area Committee to End the War in Vietnam
A Professor of Industrial Economics at Columbia University
A representative of the Inter-University Committee for Debate on Foreign Policy
A member of Women's Strike for Peace who had traveled to North Vietnam
A member of Women's International League for Peace and Freedom who had visited South Vietnam
A chaplin from Rutgers University
A professor of political science from Villanova University
Another member of Young Americans for Freedom
The former Charge d'Affaires in the South Vietnamese Embassy

This informant's report was so extensive as to be the equivalent of a tape recording, although the FBI report does not indicate that the informant was "wired." Another informant reported the remarks of additional participants.

An official of the Committee for a Sane Nuclear Policy
A minister of the church of the Brethren
A Unitarian minister
A representative of United World Federalists
A member of Students for a Democratic Society
A member of the Socialist Workers Party
A spokesman for the W.E.B. DuBois Clubs

The report was prepared as a Letterhead Memorandum with fourteen copies for possible dissemination by the FBI to other Executive Branch agencies. Copies were disseminated to military intelligence agencies, the State Department, and the Internal Security and Civil Rights Divisions of the Justice Department. SUBJECT: SENATE SELECT COMMITTEE REPORT ON MAIL INTERCEPT PROGRAMS

Memorandum sets forth the results of a review of the Senate Select Committee (SSC) report dealing with mail intercept programs.

On 3/4/76, the report prepared by Mr. James Dick of the SSC Staff concerning the mail intercept programs operated by the CIA and the FBI was reviewed by SA James W. Johnson. The report was reviewed to determine if the changes set forth in the memorandum from W. A. Branigan to Mr. W. R. Wannall dated 2/26/76, had been done. The review indicated the revisions agreed to between Mr. James Dick, SSC, and Mr. James P. Lee, had been done.

MARTIN LUTHER KING, JR.

This informative memorandum to advise of status of Departmental review of FBI files concerning Martin Luther King, Jr., and related matters.

You will recall that, commencing 12/6/75, personnel of the Civil Rights Division reviewed portions of our files concerning King and related matters. The last date such review was conducted in 1975 was on 12/19/75. On 2/9/76, Criminal Section Chief Robert A. Murphy resumed review of the King file. He worked on this for less than four hours on that day and was to return the morning of 2/10/76 but had not returned as of the dictation of this memorandum at 3:00 p.m., 2/10/76.

Murphy had been reviewing the King file to the exclusion of other files of interest. The King file is 94 sections in size and, as of 2/9/76, only about 25 sections had been reviewed. On that date, Murphy told Supervisor J. T. Aldhizer that, when he resumed the review the next day, he wanted to start with the portion of the file commencing 1/1/68. This would be Section 77, and thus Murphy would be skipping approximately 50 sections or a little over half of the file.

Murphy has given no indication, and neither has there been an indication from any other Departmental source, as to the true status of the Department's overall review

ON FEBRUARY 23, 1976, A SOURCE OF THE OAKLAND RESIDENT AGENCY REPORTED THAT ROBERT LEE LEWIS, INVESTIGATOR FOR THE CHURCH COMMITTEE, HAD BEEN TRYING TO GET SOMEONE TO TESTIFY BEFORE THE COMMITTEE ON THE MISHANDLING OF THE HEARST CASE. HE WAS SUPPOSED TO HAVE BEEN IN CONTACT WITH ED MONTGOMERY, A RETIRED EXAMINER REPORTER, AND POSSIBLY THE HEARSTS.

SAC BATES HAS BEEN PERSONALLY ACQUAINTED WITH MONTGOMERY FOR MANY YEARS. HE CALLED MONTGOMERY AND ASKED HIM CONCERNING THE ABOVE. MONTGOMERY SAID THAT HE HAD RECEIVED A TELEPHONE CALL FROM A THIRD PARTY ASKING HIM TO CALL LEWIS IN WASHINGTON AS HE WANTED ADVERSE TESTIMONY ABOUT THE FBI. MONTGOMERY CALLED AND WHEN UNABLE TO SPEAK WITH LEWIS AND AFTER BEING ADVISED OF WHAT LEWIS WANTED, HE HUNG UP. ON SUNDAY, FEBRUARY 22, 1976, LEWIS CALLED MONTGOMERY. HE TOLD MONTGOMERY HE WANTED SOMEONE TO TESTIFY AS TO HOW THE FBI HAD MESSED UP THINGS ON THE WEST COAST. MONTGOMERY IS NOT SURE IF HE SPECIFICALLY MENTIONED

THE HEARST CASE. MONTGOMERY TOLD LEWIS HE HAD NOTHING IN THIS REGARD HE COULD TESTIFY TO, THAT THE FBI WAS DOING A FINE JOB, THAT HE, MONTGOMERY, DID NOT APPROVE OF THE WAY THE CHURCH COMMITTEE HAD HANDLED ITSELF IN THE PAST AND THAT THEY SHOULD GET OFF OF THE BACKS OF THE CIA AND THE FBI AND LET THEM GET ON WITH THE JOB AND THEN HUNG UP.

MONTGOMERY MADE THE COMMENT THAT HE THOUGHT THIS WAS A TERRIBLE WAY TO ATTEMPT TO GET FACTS. SAC BATES SUGGESTED TO HIM IF HE FELT SO STRONGLY ABOUT IT, HE SHOULD CONSIDER WRITING AN ARTICLE FOR THE EXAMINER AS TO THE APPROACH MADE TO HIM BY THE COMMITTEE. MONTGOMERY RETIRED SEVERAL MONTHS AGO, BUT IS STILL CLOSE TO THE EXAMINER.

Executive Order 10450

Security Requirements For Government Employment

WHEREAS the interests of the national security require that all persons privileged to be employed in the departments and agencies of the Government, shall be reliable. trustworthy, of good conduct and character, and of complete and unswerving loyalty to the United States; and

WHEREAS the American tradition that all persons should receive fair, impartial, and equitable treatment at the hands of the Government requires that all persons seeking the privilege of employment or privileged to be employed in the departments and agencies of the Government be adjudged by mutually consistent and no less than minimum standards and procedures among the departments and agencies governing the employment and retention in employment of persons in the Federal service:

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and statutes of the United States, including section 1753 of the Revised Statutes of the United States (5 U. S. C. 631); the Civil Service Act of 1883 (22 Stat. 403; 5 U. S. C. 632, et seq.); section 9A of the act of August 2, 1939, 53 Stat. 1148 (5 U. S. C. 118 j); and the act of August 26, 1950, 64 Stat. 476 (5 U. S. C. 22-1, et seq.), and as President of the United States, and deeming such action necessary in the best interests of the national security, it is hereby ordered as follows:

SECTION 1. In addition to the departments and agencies specified in the said act of August 26, 1950, and Executive Order No. 10237 of April 26, 1951, the provisions of that act shall apply to all other departments and agencies of the Government.

SEC. 2. The head of each department and agency of the Government shall be responsible for establishing and maintaining within his department or agency an effective program to insure that the employment and retention in employment of any civilian officer or employee within the department or agency is clearly consistent with the interests of the national security.

SEC. 3. (a) The appointment of each civilian officer or employee in any department or agency of the Government shall be made subject to investigation. The scope of the investigation shall be determined in the first instance according to the degree of adverse effect the occupant of the position sought to be filled could bring about, by virtue of the nature of the position, on the national security, but in no event shall the investigation include less than a national agency check (including a check of the fingerprint files of the Federal Bureau of Investigation), and written inquiries to appropriate local law-enforcement agencies, former employers and supervisors, references, and schools attended by the person under investigation: *Provided*, that upon request of the head of the department or agency concerned, the Civil Service Commission may, in its discretion, authorize such less investigation as may meet the requirements of the national security with respect to per-diem, intermittent, temporary, or seasonal employees, or aliens employed outside the United States. Should there develop at any stage of investigation information indicating that the employment of any such person may not be clearly consistent with the interests of the national security, there shall be conducted with respect to such person a full field investi-

gation, or such less investigation as shall be sufficient to enable the head of the department or agency concerned to determine whether retention of such person is clearly consistent with the interests of the national security.

(b) The head of any department or agency shall designate, or cause to be designated, any position within his department or agency the occupant of which could bring about, by virtue of the nature of the position, a material adverse effect on the national security as a sensitive position. Any position so designated shall be filled or occupied only by a person with respect to whom a full field investigation has been conducted: *Provided*, that a person occupying a sensitive position at the time it is designated as such may continue to occupy such position pending the completion of a full field investigation, subject to the other provisions of this order: *And provided further*, that in case of emergency a sensitive position may be filled for a limited period by a person with respect to whom a full field preappointment investigation has not been completed if the head of the department or agency concerned finds that such action is necessary in the national interest, which finding shall be made a part of the records of such department or agency.

Sec. 4. The head of each department and agency shall review, or cause to be reviewed, the cases of all civilian officers and employees with respect to whom there has been conducted a full field investigation under Executive Order No. 9835 of March 21, 1947, and, after such further investigation as may be appropriate, shall readjudicate, or cause to be readjudicated, in accordance with the said act of August 26, 1950, such of those cases as have not been adjudicated under a security standard commensurate with that established under this order.

Sec. 5. Whenever there is developed or received by any department or agency information indicating that the retention in employment of any officer or employee of the Government may not be clearly consistent with the interests of the national security, such information shall be forwarded to the head of the employing department or agency or his representative, who, after such investigation as may be appropriate, shall review, or cause to be reviewed, and, where necessary, readjudicate, or cause to be readjudicated, in accordance with the said act of August 26, 1950, the case of such officer or employee.

Sec. 6. Should there develop at any stage of investigation information indicating that the employment of any officer or employee of the Government may not be clearly consistent with the interests of the national security, the head of the department or agency concerned or his representative shall immediately suspend the employment of the person involved if he deems such suspension necessary in the interests of the national security and, following such investigation and review as he deems necessary, the head of the department or agency concerned shall terminate the employment of such suspended officer or employee whenever he shall determine such termination necessary or advisable in the interests of the national security, in accordance with the said act of August 26, 1950.

Sec. 7. Any person whose employment is suspended or terminated under the authority granted to heads of departments and agencies by or in accordance with the said act of August 26, 1950, or pursuant to the said Executive Order No. 9835 or any other security or loyalty program relating to officers or employees of the Government, shall not be reinstated or restored to duty or reemployed in the same department or agency and shall not be reemployed in any other department or agency, unless the head of the department or agency concerned finds that such reinstatement, restoration, or reemployment is clearly consistent with the interests of the national security, which finding shall be made a part of the records of such department or agency: *Provided*, that no person whose employment has been terminated under such authority thereafter may be employed by any other department or agency except after a determination by the Civil Service Commission that such person is eligible for such employment.

Sec. 8. (a) The investigations conducted pursuant to this order shall be designed to develop information as to whether the employment or retention in employment in the Federal service of the person being investigated is clearly consistent with th[illegible]nterests of the national security. Such information shall relate, but shall not be limited, to the following:

(1) Depending on the relation of the Government employment to the national security:

(i) Any behavior, activities, or associations which tend to show that the individual is not reliable or trustworthy.

(ii) Any deliberate misrepresentations, falsifications, or omissions of material facts.

(iii) Any criminal, infamous, dishonest, immoral, or notoriously disgraceful conduct, habitual use of intoxicants to excess, drug addiction, or sexual perversion.

(iv) Any illness, including any mental condition, of a nature which in the opinion of competent medical authority may cause significant defect in the judgment or reliability of the employee, with due regard to the transient or continuing effect of the illness and the medical findings in such case.[1]

(v) Any facts which furnish reason to believe that the individual may be subjected to coercion, influence, or pressure which may cause him to act contrary to the best interests of the national security.

(2) Commission of any act of sabotage, espionage, treason, or sedition, or attempts thereat or preparation therefor, or conspiring with, or aiding or abetting, another to commit or attempt to commit any act of sabotage, espionage, treason, or sedition.

(3) Establishing or continuing a sympathetic association with a saboteur, spy, traitor, seditionist, anarchist, or revolutionist, or with an espionage or other secret agent or representative of a foreign nation, or any representative of a foreign nation whose interests may be inimical to the interests of the United States, or with any person who advocates the use of force or violence to overthrow the government of the United States or the alteration of the form of government of the United States by unconstitutional means.

(4) Advocacy of use of force or violence to overthrow the government of the United States, or of the [illegible]ration of the form of government of the United States by unconstitutional means.

(5) →Knowing membership in, or affiliation or sympathetic association with, any foreign or domestic organization, association, movement, group, or combination of persons (hereinafter referred to as organization) which is totalitarian, fascist, communist, subversive, or which has adopted a policy of unlawfully advocating the commission of acts of force or violence to deny others their rights under the Constitution or laws of the United States or of any State, or which seeks to overthrow the government of the United States or any State or subdivision thereof by unlawful means.[3]←

(6) Intentional, unauthorized disclosure to any person of security information, or of other information disclosure of which is prohibited by law, or willful violation or disregard of security regulations.

(7) Performing or attempting to perform his duties, or otherwise acting, so as to serve the interests of another government in preference to the interests of the United States.

(8) Refusal by the individual, upon the ground of constitutional privilege against self-incrimination, to testify before a congressional committee regarding charges of his alleged disloyalty or other misconduct.[2]

(b) The investigation of persons entering or employed in the competitive service shall primarily be the responsibility of the Civil Service Commission, except in cases in which the head of a department or agency assumes that responsibility pursuant to law or by agreement with the Commission. The Commission shall furnish a full investigative report to the department or agency concerned.

(c) The investigation of persons (including consultants, however employed), entering employment of, or employed by, the Government other than in the competitive service shall primarily be the responsibility of the employing department or agency. Departments and agencies without investigative facilities may use the investigative facilities of the Civil Service Commission and other departments and agencies may use such facilities under agreement with the Commission.

[2] As amended by Executive Order 10491 of October 13, 1953.

[3] As amended by Executive Order 11605 of July 2, 1971.

(d) There shall be referred promptly to the Federal Bureau of Investigation all investigations being conducted by any other agencies which develop information indicating that an individual may have been subjected to coercion, influence, or pressure to act contrary to the interests of the national security, or information relating to any of the matters described in subdivisions (2) through (8)[4] of subsection (a) of this section. In cases so referred to it, the Federal Bureau of Investigation shall make a full field investigation.

Sec. 9. (a) There shall be established and maintained in the Civil Service Commission a security-investigations index covering all persons as to whom security investigations have been conducted by any department or agency of the Government under this order. The central index established and maintained by the Commission under Executive Order No. 9835 of March 21, 1947, shall be made a part of the security-investigations index. The security-investigations index shall contain the name of each person investigated, adequate identifying information concerning each such person, and a reference to each department and agency which has conducted an investigation concerning the person involved or has suspended or terminated the employment of such person under the authority granted to heads of departments and agencies by or in accordance with the said act of August 26, 1950.

Sec. 10. Nothing in this order shall be construed as eliminating or modifying in any way the requirement for any investigation or any determination as to security which may be required by law.

Sec. 11. On and after the effective date of this order the Loyalty Review Board established by Executive Order No 9835 of March 21, 1947, shall not accept agency findings for review, upon appeal or otherwise. Appeals pending before the Loyalty Review Board on such date shall be heard to final determination in accordance with the provisions of the said Executive Order No. 9835, as amended. Cases being heard by regional loyalty boards on such date shall be heard to conclusion, and the determination of the board shall be forwarded to the head of the department or agency concerned: *Provided*, that if no specific department or agency is involved, the case shall be dismissed without prejudice to the applicant. Investigations pending in the Federal Bureau of Investigation or the Civil Service Commission on such date shall be completed, and the reports thereon shall be made to the appropriate department or agency.

Except as specifically provided hereafter, nothing contained herein shall be construed in any way to affect previous designations made pursuant to Executive Order No. 10450, as amended.

(c) The Subversive Activities Control Board shall, upon petition of the Attorney General, conduct appropriate hearings to determine whether any organization is totalitarian, fascist, communist, subversive, or whether it has adopted a policy of unlawfully advocating the commission of acts of force or violence to deny others their rights under the Constitution or laws of the United States or of any State, or which seeks to overthrow the government of the United States or any State or subdivision thereof by unlawful means.

(d) The Board may determine that an organization has adopted a policy of unlawfully advocating the commission of acts of force or violence to deny others their constitutional or statutory rights or that an organization seeks to overthrow the government of the United States or any State or subdivision thereof by unlawful means if it is found that such group engages in, unlawfully advocates, or has among its purposes or objectives, or adopts as a means of obtaining any of its purposes or objectives.—

(1) The commission of acts of force or violence or other unlawful acts to deny others their rights or benefits guaranteed by the Constitution or laws of the United States or of the several States or political subdivisions thereof; or

(2) The unlawful damage or destruction of property; or injury to persons: or

(3) The overthrow or destruction of the government of the United States or the government of any State, Territory, district, or possession thereof, or the government of any political subdivision therein, by unlawful means; or

(4) The commission of acts which violate laws pertaining to treason, rebellion or insurrection, riots or civil disorders, seditious conspiracy, sabotage, trading with the enemy, obstruction of the recruiting and enlistment service of the United States, impeding officers of the United States, or related crimes or offenses.

(e) The Board may determine an organization to be "totalitarian" if it is found that such organization engages in activities which seek by unlawful means the establishment of a system of government in the United States which is autocratic and in which control is centered in a single individual, group, or political party, allowing no effective representation to opposing individuals, groups, or parties and providing no practical opportunity for dissent.

(f) The Board may determine an organization to be "fascist" if it is found that organization engages in activities which seek by unlawful means the establishment of a system of government in the United States which is characterized by rigid one-party dictatorship, forcible suppression of the opposition, ownership of the means of production under centralized governmental control and which fosters racism.

(g) The Board may determine an organization to be "communist" if it is found that such organization engages in activities which seek by unlawful means the establishment of a government in the United States which is based upon the revolutionary principles of Marxism-Leninism, which interprets history as a relentless class war aimed at the destruction of the existing society and the establishment of the dictatorship of the proletariat, the government ownership of the means of production and distribution of property, and the establishment of a single authoritarian party.

(h) The Board may determine an organization to be "subversive" if it is found that such organization engages in activities which seek the abolition or destruction by unlawful means of the government of the United States or any State, or subdivision thereof.

(i) The Board may further determine, after consideration of the evidence, that an organization has ceased to exist. Upon petition of the Attorney General or upon petition of any organization which has been designated pursuant to this section the Board after appropriate hearings may determine that such organization does not currently meet the standards for designation. The Attorney General shall appropriately revise or modify the information furnished to departments and agencies consistant with the determinations of the Board.

(j) The Board shall issue appropriate regulations for the implementation of this section.[5] ←

Sec. 13. The Attorney General is requested to render to the heads of departments and agencies such advice as may be requisite to enable them to establish and maintain an appropriate employee-security program.

Sec. 14. (a) The Civil Service Commission, with the continuing advice and collaboration of representatives of such departments and agencies as the National Security Council may designate, shall make a continuing study of the manner in which this order is being implemented by the departments and agencies of the Government for the purpose of determining:

(1) Deficiencies in the department and agency security programs established under this order which are inconsistent with the interests of, or directly or indirectly weaken the national security.

(2) Tendencies in such programs to deny to individual employees fair, impartial, and equitable treatment at the hands of the Government, or rights under the Constitution and laws of the United States or this order.

Information affecting any department or agency developed or received during the course of such continuing study shall be furnished immediately to the head of the department or agency concerned. The Civil Service Commission shall report to the National Security Council, at least semiannually, on the results of such study, shall recommend means to correct any such deficiencies or tendencies, and shall inform the National Security Council immediately of any deficiency which is deemed to be of major importance.[5]

(b) All departments and agencies of the Government are directed to cooperate with the Civil Service Commission to facilitate the accomplishment of the responsibilities assigned to it by subsection (a) of this section.

(c) To assist the Civil Service Commission in discharging its responsibilities under this order, the head of each department and agency shall, as soon as possible and in no event later than ninety days after receipt of the final investigative report on a civilian officer or employee subject to a full field investigation under the provisions of this order, advise the Commission as to the action taken with respect to such officer or employee. The information furnished by the heads of departments and agencies pursuant to this section shall be included in the reports which the Civil Service Commission is required to submit to the National Security Council in accordance with subsection (a) of this section. Such reports shall set forth any deficiencies on the part of the heads of departments and agencies in taking timely action under this order, and shall mention specifically any instances of noncompliance with this subsection.[6]

Sec. 15. This order shall become effective thirty days after the date hereof.

MEMORANDUM FOR MR. HOOVER,
DIRECTOR, FEDERAL BUREAU OF INVESTIGATION

This will refer to your memorandum of November 22 with reference to the Marquis Childs column appearing in The Washington Post on November 18, 1947 and to your letters of November 21, the one addressed to Mr. Childs and the other addressed to Mr. Paul A. Walker, Acting Chairman, Federal Communications Commission.

It is my view that the Bureau's practice of passing along to the various Government departments and agencies information which comes to its attention in connection with the conduct of investigations normally and regularly within the Bureau's jurisdiction is entirely appropriate and correct. Indeed, it would appear that the Bureau would be remiss in its duty if it failed to pass along information coming to it which might prove to be in the interest of the general welfare. It is not the Bureau's responsibility to determine whether the information is or is not of importance to the particular agency in the carrying out of its current activities and responsibilities and whether or not any action is taken by the department or agency is not, of course, a principal concern of the Bureau.

I believe, therefore, that the Bureau should continue its practice of passing along information which it is believed might be of interest to the various departments and agencies. At the same time I believe that it would be appropriate either (a) to prepare a circular to the various departments and agencies explaining the Bureau's purpose in furnishing information from time to time, or (b) to make a particular effort for a time when transmitting individual items of information to explain in the transmittal memorandum the Bureau's purpose in making such transmittal.

Attorney General

United States Department of Justice
Federal Bureau of Investigation

IN REPLY, PLEASE REFER TO
FILE No.

November 21, 1947

Mr. Paul A. Walker
Acting Chairman
Federal Communications Commission
Washington, D. C.

Dear Mr. Walker:

Under date of November 18, 1947, there appeared in the column of Mr. Marquis Childs in the Washington Post the following statement attributed to Mr. Clifford J. Durr of the Federal Communications Commission: "Already the FBI is furnishing to the commission unsolicited reports on individuals connected with radio, and I can assure you that if you should be told the kind of things contained in many of these reports you would dismiss the information as baseless gossip."

The Federal Bureau of Investigation has referred to the Federal Communications Commission from time to time information which it has received in the course of its regular investigations which appeared pertinent or material to matters within the jurisdiction of the Commission. It is the policy and practice of the Federal Bureau of Investigation to avoid any attempts to evaluate the significance of information relating to matters without its jurisdiction or the effect of such information upon the contemporary policies and programs of other agencies. As a result, the Bureau furnishes to the various Government departments such information as it receives which appears pertinent to the operations of those Government departments. In so far as is practicable, the Bureau attempts to evaluate the reliability of the source of this information without attempting to make any suggestions as to the use which should or should not be made of the information itself.

Mr. Childs, in his column quoting Mr. Durr's statement, adds the following observation upon Mr. Durr's statement: "Note the word 'unsolicited'. It indicates that the FBI initiated investigations and sought to influence FCC decisions by sending reports on certain individuals to the commission. If this is happening, it is something Congress should know about."

I desire to advise you that this Bureau has not at any time attempted in any manner or degree to influence FCC decisions. The material which has been transmitted to the Commission was sent solely for the purpose of affording the Commission information which came to the Bureau from various sources, which information, it was believed, might be of interest to the official activities of the Commission.

In the light of the statements made by Mr. Durr and since these statements have not been repudiated by any other members of the Federal Communications Commsssion, I must assume that the material which the Bureau has been furnishing to the Commission is not desired by the Commission. I am consequently discontinuing the transmittal of such data to the Commission upon the assumption that the material is of no interest to the Commission.

Very truly yours,

John Edgar Hoover

Director

DEPARTMENT OF JUSTICE

WASHINGTON 25, D. C.

April 7, 1948

TO THE HEADS OF ALL DEPARTMENTS AND
INDEPENDENT AGENCIES OF THE EXECUTIVE BRANCH:

In memorandum of October 7, 1947, I called attention to the fact that the Federal Bureau of Investigation has primary investigative jurisdiction of Section 9-A (61-1, Title 18, USC) of the Hatch Act. It is also pointed out that under the provisions of a presidential interpretation dated 30 October 1947 the Federal Bureau of Investigation has the responsibility of investigating all charges of disloyalty on the part of Federal employees within the Executive Branch of the Government.

The Federal Bureau of Investigation has sufficient investigative personnel under its direct supervision to carry out this responsibility in the continental United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands. However, it does not have personnel stationed in other areas of the world. Therefore, it has been necessary, in order that the Bureau may be enabled to carry out its responsibility, to arrange by agreement with the Departments and Agencies principally concerned for the delegation of the actual investigative work to certain other Departments of the Executive Branch in those areas where it has no investigative personnel.

It is recognized that there are two major classes of loyalty investigation. The first is the routine loyalty check of applicants for classified positions or of incumbents of such positions initiated in accord with Executive Order 9835. The second type is that in which doubt of loyalty of incumbents arises independently of the routine check. Procedures in regard to these two types must necessarily vary.

I. Routine loyalty checks of employees stationed overseas.

The Federal Bureau of Investigation will direct specific requests for the assistance of other agencies in handling the actual investigative work in accordance with the following principles:

A. The Department of the Army, Navy or Air Force shall be requested to utilize its own facilities for the necessary investigation of any of its own civilian personnel stationed outside the continental limits of the United States, Alaska, Hawaii, Puerto Rico and the Virgin Islands. The Federal Bureau of Investigation will continue to have the sole responsibility of conducting such investigation as is necessary within the continental limits of the United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands.

31

involving civilian personnel of the Army, Navy or Air Force. The Federal Bureau of Investigation will refer to the appropriate agency all available material and will request investigation, and upon completion thereof, the reports should be furnished to the Federal Bureau of Investigation as provided hereafter.

B. With respect to the necessary investigation of any of the personnel of other Departments and Agencies stationed outside the continental limits of the United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands--

1. Requests for such investigation of Federal civilian employees stationed in occupied areas or areas under military investigative jurisdiction shall be directed to the Department of the Army, Navy, or Air Force for transmission to the Theater Commander or Area Commanding Officer, who will utilize for this purpose any appropriate investigative facility of the United States available in his area of command.

2. Requests for such investigation of any Federal civilian employees stationed in unoccupied areas shall be directed to the State Department for transmittal to its appropriate foreign office, which will utilize for this purpose any investigative authority of the United States available in that country, or, in case no competent investigative facilities are available in that country, the principal diplomatic officer shall refer the matter for investigation to the principal diplomatic officer stationed in a nearby country where investigative facilities are available.

The reports of completed investigations shall be returned to the Federal Bureau of Investigation in response to its original request for assistance through the same channels utilized in transmitting the request for investigation, for consolidation with such material as the Bureau may have available in its files, or may have developed by investigation, and for further processing in line with the procedures which have been developed for carrying out the Loyalty Program.

II. "Complaint Type" loyalty checks of employees stationed overseas.

Such inquiries normally originate in the field and must be handled with the utmost possible dispatch. The agency in which the case originates will notify the Federal Bureau of Investigation as soon as a preliminary inquiry in the field has established grounds for a full investigation. The Federal Bureau of Investigation will immediately check its files and inform the field agency of any derogatory information which it may have on file. The Federal Bureau of Investigation will at once open a full field investigation within the continental limits of the United States, etc., when such investigation is required by the availability of information within those areas. Completion of such investigation will be reported to the originating agency through normal channels.

A. The Departments of Army, Navy, and Air Force will utilize their own facilities for the necessary investigation of any of their own civilian personnel stationed outside the continental limits of the United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands.

B. With respect to the necessary investigation under Class II of any of the personnel of other Departments and Agencies stationed outside the continental limits of the United States, Alaska, Hawaii, Puerto Rico and the Virgin Islands:

1. In occupied areas the Theater Commander will have full responsibility to utilize any appropriate investigative facility of the United States available in his area of command.

2. In unoccupied areas the principal diplomatic officer will be responsible for utilizing any investigative facility of the United States which is available in the country of his jurisdiction, or, if there is no such investigative facility available within the country of his jurisdiction, he shall refer the matter to the principal diplomatic officer stationed in a nearby country in which investigative facilities are available.

The reports of completed investigation shall be forwarded to the Federal Bureau of Investigation through normal channels.

It is understood that the declaration of emergency, or the establishment of martial law within areas of the continental United States, Alaska, Hawaii, Puerto Rico, or the Virgin Islands will have the effect of making those areas "occupied territory," with the consequent application of procedures described in sections IA and BI and IIA above.

The agreement which this memorandum serves to record has to do only with the establishing of a method of handling actual investigations in areas where the Federal Bureau of Investigation has no investigative facilities. Furthermore, the procedures herein prescribed do not purport to limit in any way, or delay the exercise of, the authority possessed by certain Department and Agency needs summarily to dismiss employees where necessary in the interest of National Defense.

These loyalty investigations should be given preferential attention and prompt handling in all instances.

Honorable Philip Young
Chairman
Civil Service Commission
Washington 25, D.C.

Dear Mr. Young:

As you know, subsection (d) of section 8 of Executive Order No. 10450 requires that there be referred promptly to the Federal Bureau of Investigation investigations conducted by all agencies under the order which develop information of the type described in the subsection. The subsection further requires the FBI to make a full field investigation in cases so referred to it. However, except as indicated below, the FBI is not equipped to conduct investigations outside this country. In view of this limitation on its investigative facilities, an arrangement was worked out in connection with administration of Executive Order No. 9835 with respect to investigations in foreign areas. It is suggested that the procedures be continued in connection with investigations to be carried out by the FBI under Executive Order No. 10450. These are as follows:

(1) The FBI will conduct all necessary investigations in the continental United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands.

(2) The Departments of the Army, the Navy, and the Air Force will each use its own facilities to conduct investigations in connection with its own civilian personnel outside the areas listed in (1) above.

(3) With respect to the investigation of civilian personnel, other than personnel of departments named in (2), above:

(a) The Theatre Commander or Post Commanding Officer will utilize any appropriate investigative facilities of the United States available to him in an occupied area or in areas under military investigative jurisdiction;

(b) In other areas the Department of State will utilize any investigative authority of the United States available in the country concerned. If no competent investigative facilities are available in that country the investigative facilities of the United States in a nearby country will be utilized by the Department of State.

To repeat, the foregoing represents the arrangement between agencies with respect to investigations abroad worked out in the administration of Executive Order No. 9835, and accordingly the procedures outlined will merely involve continuing present practices. In the absence of any indication of disagreement with the practices outlined above, this Department will conduct itself on the theory that they remain in effect.

Sincerely,

WILLIAM P. ROGERS

EXECUTIVE ORDER PROVIDING SECURITY
REQUIREMENTS FOR GOVERNMENT EMPLOYMENT

Pursuant to your requests, memoranda dated February 4, 1953, February 26, 1953, April 6, 1953, and April 10, 1953, have been submitted to you containing observations regarding proposed drafts of the above Executive Order. Pursuant to the request of Mr. Edward S. Lazowska of the Department, who delivered a copy of a new draft of this proposed Order on the evening of April 13, 1953, the following observations are set forth for your information and consideration:

In connection with the provision in paragraph 3 (a) which allows the Civil Service Commission, in certain cases, to authorize less than the minimum amount of investigation stated in this paragraph but which meets the requirements of the national security, it is felt the Civil Service Commission must exercise extreme care to insure that any investigation authorized, particularly with respect to individuals who may have access to confidential information, does, in fact, meet the requirements of the national security.

In connection with Section 4 of the draft, your attention is invited to my previous observation that this Bureau feels it should conduct the additional investigation that may be appropriate only in those cases in which the purpose of the additional investigation is to develop information of a loyalty or subversive nature. In this connection it is observed that the provisions of Sections 8 (b) and 8 (d) may be intended to accomplish this purpose; however, it is suggested that you may desire to have the Order state more clearly regarding what agencies have the responsibilities to conduct the additional investigation requested in Section 4.

66-1[illegible]-29

In connection with Section 5 of the draft, the thought occurs that its provisions as to what agency is required to conduct "such investigation as may be appropriate" may not be entirely clear. It is believed that the intent of this section is to provide that upon receipt by an agency of information necessitating investigation by the Civil Service Commission or the employing agency, such information should be forwarded to the Civil Service Commission or the employing agency; that upon the receipt of information necessitating investigation by this Bureau, such information should be forwarded to this Bureau for a full field investigation. You may wish to give consideration to possible further clarification of this section.

Regarding the phrase "following such investigation and review as he deems necessary" set forth in Section 6, it is believed that "as he deems necessary" refers to the word "review." If, however, it might also refer to the word "investigation," the thought occurs that it might be in conflict with other provisions in the draft which prescribe that in certain instances full field investigations must be conducted.

In connection with Section 8 (5) it is noted that this section does not specifically provide for sympathetic association with individual members of the organizations referred to in this section. In this connection, you will recall that the attachment to my memorandum of April 1 1953, set forth observations of the Interdepartmental Intelligence Conference regarding the draft, one of which concerned a suggestion along this line.

It is observed that Section 14 (a) authorizes the National Security Council to designate representatives of other Departments and agencies to furnish advice and to collaborate with the Civil Service Commission in connection with the Commission's study of the manner in which the Order is implemented. We would appreciate any information regarding the extent representatives of this Bureau might be expected to render advice and collaborate with the Civil Service Commission.

It would be appreciated if you could furnish the advice requested in my memorandum of February 26, 1953, regarding your desires as to this Bureau following the policy of channeling its investigative reports through the Civil Service Commission to the departments and agencies concerned.

It is noted that my previous memoranda raised the point as to what effect the abolishing of the Loyalty Review Board might have on Executive Order 10422. For your information, funds have been appropriated for the implementation of Executive Order 10422 and this Bureau is proceeding with investigations under this Order and submitting reports to the Civil Service Commission for appropriate adjudication.

Regarding what agencies will have investigative responsibilities abroad under this Order, as mentioned in my previous memoranda, you may wish to give consideration to, if possible, continuing the arrangements which have been perfected under Executive Order 9835.

My memorandum of April 6, 1953, commented regarding paragraph 8 (b) (4) of the draft received April 2, 1953. It was stated that it was felt investigations regarding individuals who might be subjected to coercion, influence or pressure because of the presence of a close relative in a nation whose interests may be inimical to the interests of the United States which develop a subversive aspect should be done by this Bureau rather than the Civil Service Commission or the employing agency. It is observed that Section 8 (d) of the draft received April 13, 1953, requires this Bureau to conduct all investigations which develop information indicating that an individual may have been subjected to coercion, influence, or pressure to act contrary to the interests of the national security. It is suggested you might desire to clarify this provision further to specifically provide that investigations under this category will be conducted by this Bureau only where there is information indicating a question of loyalty or subversive activity.

As previously mentioned, it will be necessary that the rules and regulations to be issued in connection with the implementation of this Order, such as those governing the establishing and operation of hearing boards, be as complete as possible in order to maintain uniformity.

It will, of course, be necessary for this Bureau to receive sufficient funds in order to discharge its responsibilities under this Order.

Deputy Attorney General

EXECUTIVE ORDER 10450
SECURITY REQUIREMENTS FOR
GOVERNMENT EMPLOYMENT

In connection with the implementation of Executive Order 10450, the following suggestions, which were previously furnished to you in connection with the drafts of the Order, are being set forth for your consideration for inclusion in the Security Regulations drawn up in connection with this Order:

There should be no abuse of the privilege granted to fill sensitive positions in emergency cases prior to the completion of full field pre-appointment investigations.

In order that there be no misunderstanding, it might be well to specify in the regulations that the Order covers only the Executive Branch of the Government.

It is the understanding of this Bureau that the Civil Service Commission maintains a register of persons eligible for Government employment. In connection with this register, under Executive Order 9835 these names have been processed in a manner similar to those of employees, and the adjudication made by the Civil Service Commission. Section 11 of the Order states that cases being heard by regional loyalty boards on the effective date of this Order in which no specific department or agency is involved shall be dismissed without prejudice to the applicant. This section, unless clarified in the regulations, may affect the Civil Service Commission's register of eligibles.

Information should be included advising what agencies have investigative responsibility abroad in connection with this Order. You may desire to continue the arrangements perfected under Executive Order 9835 regarding this matter.

There may be some question as to what agencies have investigative responsibilities in connection with the additional investigation that may be necessary in the readjudication of full field investigations under Executive Order 9835, as called for in Section 4 of the Order. As you were previously advised, this Bureau feels it should conduct such investigations only when the purpose is to develop information of a nature described in Section 8(d) of the Order. Unless specific information to this effect is included in the regulations, it can be anticipated that this Bureau will receive a large number of requests for investigations solely for the purpose of bringing the investigation up to date, or to develop some information of a nonsubversive nature.

Under Executive Order 9835, this Bureau, through agreement with the Civil Service Commission, followed the policy of sending all its reports to the Civil Service Commission for dissemination to the appropriate departments and agencies. As you know, the current Order requires that the Civil Service Commission maintain a security-investigations index, which is to include the index maintained by the Civil Service Commission in conjunction with Executive Order 9835. This Bureau believes the policy previously followed of sending these reports to the Civil Service Commission should be continued.

It will be necessary that a standard form containing sufficient identifying data be utilized in checking individuals' names through this Bureau's files and in connection with investigations conducted under this Order.

With reference to per-diem, intermittent, temporary, etc., employees, the Civil Service Commission should utilize extreme care in permitting, at the request of a department or agency head, less than the minimum investigation required in other cases.

Regarding Section 5 of the Order, this Bureau, on receipt of information of a nature necessitating investigation by it, contemplates following the policy of immediately initiating the investigation rather than awaiting a request for such an investigation by the department or agency concerned. The agency head, however, will be notified that information of a nature requiring investigation by this Bureau has been received and an investigation is being conducted and that upon request he will be furnished with the basis for the investigation. If it is felt that such a policy is in conflict with the provisions of the Order, it would be appreciated if consideration could be given to clarifying this in the regulations.

9 Apart from the above suggestions regarding the security regulations, it is noted that the abolition of the Civil Service Commission's regional loyalty boards and the Loyalty Review Board will affect the adjudication procedure required by Executive Order 10422. This is being called to your attention so that the necessary action may be taken to insure that there is no undue delay in connection with the adjudication of cases being investigated under Executive Order 10422.

10 Your attention is called to Section 9(k) of the Sample Security Regulations dated April 23, 1953. As you will observe, this section concerns the determinations made by hearing boards, and in part states: "One copy of the decision of the board, together with the complete record of the case, including investigative reports, shall be sent to the (head of department or agency) and one copy shall be sent to the employee." This Bureau is strongly opposed to making copies of its reports, in whole or in part, available to individuals investigated under this Order, and considers it absolutely necessary that its reports be maintained in confidence. Of course, this Bureau does not object to the employee's being advised, insofar as security considerations permit, of that information in the reports which is considered necessary in connection with the charges against the employee.

As you will observe, under Section 9(k) the employee could be furnished a copy of the complete record of the case. Such record might include confidential information in the possession of the board which security considerations do not permit making available to the employee. In this connection, it is noted that Section 5(a)(3) of the regulations states: "The decision of the hearing board shall be in writing and shall be signed by all members of the board. One copy of the decision shall be sent to the (head of department or agency) and one copy shall be sent to the suspended employee."

In addition, it is noted that the above provisions of Section 9(k) are contradictory to the provisions of Section 9(c) of the Order proper, which states that reports and other investigative material and information are to be maintained in confidence and no access given thereto, except, with the consent of the investigative agency concerned, to other departments and agencies conducting security programs under the authority of the act of August 26, 1950.

It is strongly urged that you amend the provisions in Section 9(k) of the Sample Security Regulations, because, unless such is done, some departments and agencies may furnish to the employee a copy of the complete record of the case, which would include this Bureau's investigative reports.

Your attention is called to Section 4(b) of the regulations setting forth provisions covering the scope of the investigation to be conducted. The provisions, as set forth, do not include a check of the fingerprint files of this Bureau. As Section 3(a) of the Order, itself, calls for a check of such files, it is suggested you may wish to include this also in the regulations.

EXECUTIVE ORDER 10450
SECURITY REQUIREMENTS FOR GOVERNMENT EMPLOYMENT

Reference is made to this Bureau's memoranda dated February 6 and 26, 1953; April 6, 10, and 14, 1953, and May 1, 1953, regarding the captioned Executive Order.

Your immediate advice as to what agencies have the responsibility of conducting investigations abroad under this Order will be appreciated. It can be anticipated that this problem will immediately present itself upon the effective date of the Order. For example, this Bureau may receive a request to conduct a full field investigation regarding an employee who in the past has spent considerable time in foreign countries. Upon the receipt of such a request, it will be necessary to know to what agency a request to conduct the investigation abroad should be directed. As previously suggested, you may wish to continue the arrangements perfected for handling this problem under Executive Order 9835. For your information, these arrangements are set forth in a memorandum dated April 7, 1948, from the Attorney General to the heads of all departments and independent agencies of the Executive Branch of the Government. The thought occurs that you may desire to issue similar advice to all departments and agencies in connection with Executive Order 10450. (~~66-6200-121-290 & Part I, Section 2, Serial~~ 87 ~~of the Loyalty Policy File~~)

Another matter that may cause some difficulty after Executive Order 10450 becomes effective is the question of what agencies have investigative responsibility with respect to the conduct of the further investigation that may be considered appropriate in connection with the re-adjudication of cases of those employees concerning whom a full field investigation was conducted under Executive Order 9835; however, their cases have not heretofore been adjudicated under a security standard commensurate with that established under Executive Order 10450. As previously stated, this Bureau feels it should conduct such investigations only when the purpose is to develop information of a nature described in Section 8 (a) of the Order. It would be appreciated if you would advise whether you are in agreement with this. Should you agree with this policy, you may wish to so advise the heads of all departments and agencies as unless such is done, this Bureau may receive a large number of requests for investigations solely for the purpose of bringing the previous investigations up to date or to develop some allegation of a nonsubversive nature.

Your attention is invited to my memorandum of May 1, 1953, wherein I urged that the provisions in Section 9 (k) of the "Sample Security Regulations" be amended to preclude the possibility of any department or agency furnishing a copy of this Bureau's reports to the individuals investigated under the Order. It is believed this should be done prior to the effective date of Executive Order 10450, and I would appreciate being advised of what action is contemplated in this regard. It is observed that in connection with Executive Order 9835 the Attorney General under date of December 11, 1947, directed a confidential memorandum to all department and agency heads of the Executive Branch of the Government wherein he included information regarding the use of this Bureau's reports under Executive Order 9835. The Attorney General's memorandum stated, "The information appearing in Federal Bureau of Investigation reports is available for the consideration of the employing agency in preparing charges against the employee and for appropriate use by the hearing boards. The Federal Bureau of Investigation is opposed to making copies of its reports, in whole or in part, available to individuals as such, and particularly to persons investigated under the Program." Part III, Section 1, Serial 31, of Loyalty Policy file)

It was noted in previous memoranda to you that this Bureau under Executive Order 9835, through agreement with the Civil Service Commission, followed the policy of sending all its reports to the Civil Service Commission for dissemination to the appropriate departments and agencies. It was suggested that as Executive Order 10450 requires the Civil Service Commission to maintain a security-investigations index regarding persons investigated under the Order, the policy of this Bureau sending all its reports to the Civil Service Commission be continued. Unless advice to the contrary is received from you, this Bureau contemplates following this policy.

The "Sample Security Regulations" prepared by the Department contains information regarding the manner in which hearings are to be conducted by the Security Hearing Boards under Executive Order 10450. These regulations, however, do not state whether these hearings are to be opened or closed to the public. For your information, the Loyalty Review Board in connection with the matter of hearings held under Executive Order 9835, issued a directive to all departments and agencies advising that such hearings should be in private and attendance limited to representatives of the agency who are directly connected with the adjudication of the case, representatives of the Loyalty Review Board, and the employee or applicant concerned, his counsel or representative, and the witness who is testifying. You may wish to issue appropriate advice to all departments and agencies regarding who shall be permitted to be present during hearings held under Executive Order 10450.

It is also noted that the "Sample Security Regulations" state that the employee shall be permitted to cross-examine any witness offered in support of the charges against him. This raises the question as to whether Security Hearing Boards may be allowed, upon the request of a witness, to hear such witness in the absence of the employee or his counsel. In connection with this problem under Executive Order 9835, the Loyalty Review Board issued a directive to all Executive departments and agencies permitting Loyalty Hearing Boards to hear witnesses in the absence of the employee and his counsel if the witnesses so requested. In this regard, this Bureau under Executive Order 9835, at the request of Mr. Hiram Bingham, Chairman of the Loyalty Review Board, ascertains from individuals who permit their names to be used, who give pertinent information adverse to the employee and who do not expressly indicate an unwillingness to testify, their desires regarding the following questions:

1. Whether they will testify before a Loyalty Hearing Board in the presence of the individual under investigation and his counsel, which would subject them to cross-examination;

2. If not, whether they will testify before a Loyalty Hearing Board not in the presence of the individual under investigation and his counsel;

3. If they are unwilling to appear at a scheduled hearing or unable to be present, whether they are willing to have their statements read verbatim to the individual under investigation and his counsel;

4. If they do not appear, whether they are willing to have their names disclosed at the hearing.

This Bureau will continue the above policy under Executive Order 10450; however, should you determine that Security Hearing Boards may hear witnesses only in the presence of the employee and his counsel, it will be appreciated if you will immediately advise this Bureau so that all individuals interviewed who may later be requested to testify before a Security Hearing Board will clearly understand that such testimony must be in the presence of the employee and his counsel and they may be cross-examined by the employee or his counsel.

It can be anticipated that, in connection with some hearings held under Executive Order 10450, the hearing board may request agents of this Bureau to appear and testify. In this connection, this Bureau would appreciate it if the policy followed in this respect under Executive Order 9835 could be continued. This policy was set forth in a confidential memorandum from the Attorney General dated December 11, 1947, to all department and agency heads of the Executive Branch of the Government, which stated that Special Agents of this Bureau will testify before hearing boards where they are in a position to furnish competent evidence. They will not, however, participate otherwise in the proceedings nor will they be made available merely to interpret information appearing in their investigative reports. It is suggested you may wish to furnish such information to all departments and agencies of the Executive Branch of the Government.

Previous memoranda to you observed that as Executive Order 10450 is an Executive Order, it is assumed its coverage is limited to the Executive Branch of the Government. In this connection, the question may arise as to whether the General Accounting Office, the Government Printing Office, and the Library of Congress might be permitted to participate in the procedures effected under Executive Order 10450. You may recall that they have participated in the procedures of Executive Order 9835. You may therefore desire to ascertain from the General Accounting Office, the Government Printing Office, and the Library of Congress whether they wish to participate in the procedures prescribed by Executive Order 10450, and if they do desire to participate, determine whether the provisions of Executive Order 10450 authorize such participation. It would be appreciated if you would immediately advise this Bureau what action it should take if the names and fingerprints of such employees are submitted to this Bureau for checking through its files or if requests for full field investigations are received concerning such employees prior to a final determination as to whether they are to participate in the procedures under Executive Order 10450.

It would be appreciated if you could furnish an early reply to the questions posed in this memorandum.

STANDARD FORM NO. 64

Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. J. Edgar Hoover
Director, FBI

DATE: June 25, 1953

FROM : William P. Rogers,
Deputy Attorney General

SUBJECT: Executive Order 10450
Security Requirements for Government Employment

This is with reference to your memoranda of May 1 and May 14, 1953, relating to the administration of Executive Order 10450.

1. Your opinion that there should be no abuse of the privilege granted by section 3(b) of the order in filling sensitive positions in emergency cases prior to the completion of full field pre-appointment investigations is well taken. So, also, is your suggestion that the Civil Service Commission, in respect to section 3(a), should utilize extreme care in permitting less than the minimum investigation with respect to per diem, intermittent, temporary, or seasonable employees and aliens employed outside the United States.

2. I agree with your assumption that the coverage of the order is limited to the Executive Branch of the Government. However, I do not believe it will be necessary to make specific provision in the regulations to that effect. Inasmuch as they are to be issued separately by and in the name of each executive branch, department or agency, it will be made clear that they relate only to the administration of the particular department or agency concerned.

You also make reference to the fact that certain of the non-executive branch agencies, such as the General Accounting Office and the Government Printing Office, participated in the procedures prescribed by Executive Order 9835. I understand this resulted, not because that order was necessarily applicable to those agencies, but because they voluntarily adopted procedures similar to those prescribed by the order. Executive Order 10450 does not prevent them from adopting a similar policy in relation to it. The main question is whether the appropriations of the FBI are sufficient to pay for the investigations required by such agencies. I understand that the appropriations are sufficient with respect to some of the agencies whose employees are part of the classified civil service, such as the General Accounting Office, but not for others, such as the Library of Congress. In the past a system of reimbursement was worked out with respect to investigations for agencies not covered by existing appropriations. I would suggest that the Bureau work out similar procedures with the Civil Service Commission and other interested agencies with respect to Executive Order 10450.

3. In reference to the problem of the responsibility of conducting investigations abroad, the Departments of State and Army were requested by letter dated June 5, 1953, to continue the same arrangement under Executive Order No. 10450 for investigations abroad as existed under Executive Order No. 9835. The letter stated that in the absence of any indication of disagreement with this plan, it would be assumed that the existing arrangement would remain in effect. To date no expressions of disagreement have come from either Department.

4. In respect to the re-adjudication question arising under section 4, I agree that the Bureau should conduct additional investigations only when their purpose is to develop information of the type described in section 8(d). However, I believe the Civil Service Commission, rather than this Department, should issue direct instructions to all departments and agencies as to proper procedures in connection with requests for investigation. I would accordingly recommend that you work out a plan with the Civil Service Commission to so advise the interested departments and agencies.

5. As you point out, the last sentence of section 9(k) of the sample security regulations is subject to possible interpretation requiring the employee to be given a copy of the investigative reports in connection with his case. In order to preclude this possibility, an appropriate amendment has been transmitted to all departments and agencies. Many of them have also been informally advised of the matter. In addition, since they are supposed to submit their regulations to this Department before issuance, proper precautions will be taken at that time.

✓

6. I agree that your existing policy of sending all Bureau reports to the Commission for dissemination to the appropriate departments and agencies should be continued.

✓

7. You note that the sample security regulations do not state whether the hearings are to be open or closed and that under Executive Order 9835 the Loyalty Review Board issued a directive to all departments and agencies requiring hearings under that order to be private. In accordance with your suggestion, an amendment to that effect has been transmitted to all executive departments and agencies.

8. You point out that the sample security regulations provide in section 9(c)(4) that each employee shall have the right "to cross-examine any witness offered in support of the charges", whereas under Executive Order 9835 the Loyalty Review Board issued

a directive permitting Loyalty Hearing Boards to hear witnesses in the absence of the employee and his counsel, if the witness so requested.

I understand the provision of section 9(c)(4) to be a deliberate policy judgment that witnesses, other than confidential informants, shall be subject to cross-examination. Accordingly, persons giving testimony will not have the choices set forth in your memorandum. I therefore suggest that you advise prospective witnesses that their testimony will have to be in the presence of the employee and his counsel and will be subject to cross-examination.

9. I consider the Bureau's policy of permitting Special Agents to testify at the hearings only "where they are in a position to furnish competent evidence," to be sound and suggest that you undertake through the Civil Service Commission to advise the agencies concerned that this policy will be continued.

10. Serious consideration has been given to your suggestion that dismissals without prejudice to applicants in cases before the Regional Loyalty Boards may effect the Civil Service Commission's register of eligibles. The Commission has already advised that it believes that, under the basic Civil Service Act, it can establish criteria with respect to the register of eligibles similar to those set out in the order. The Department has advised the Commission that the order does not preclude it from so acting under the authority of the Civil Service Act if it is satsified as to the existence of such authority.

11. I also go along with your view that it will be necessary that agencies use a standard form containing sufficient identifying data in checking individuals' names through the Bureau's files and in connection with investigations conducted under the Executive Order, and suggest that you work out a procedure for establishing such a form with the Civil Service Commission.

12. With relation to section 5 of the order you state that the Bureau, on receipt of information of a nature necessitating investigation by it, intends to follow the policy of immediately initiating the investigation rather than awaiting a request from the department or agency concerned, but notifying the head of the department or agency that information of a nature requiring investigation by the Bureau has been received and an investigation is being conducted. You also mention that upon request the interested agency will be furnished with the basis for the investigation. I do not believe this policy to be in conflict with any provision of the order and see no reason why you should not follow the policy you suggest.

13. You point out that section 3(a) of the order requires "a check of the fingerprint files of the Federal Bureau of Investigation", but that section 4(b) of the sample security regulations dealing with the same subject matter omits the quoted language. In accordance with your suggestion, an amendment to the regulations along the lines you suggest has been transmitted to all executive departments and agencies.

14. You note that the abolition of Regional Loyalty Boards and the Loyalty Review Board will affect procedures pursuant to Executive Order 10422 relating to United States citizens who are United Nations employees. As you suggested, amendments to cover this situation have been promulgated to all executive departments and agencies.

Subject: EXECUTIVE ORDER 10450
- SECURITY REQUIREMENTS FOR GOVERNMENT EMPLOYMENT

With the inception of the captioned Executive Order it became evident to this Bureau that certain problems would arise which have been encountered in the past in this Bureau's operations under the provisions of Executive Order 9835. Several of these have been posed to the Department of Justice and the latter has now furnished this Bureau its advice regarding them.

One consideration is just what agencies in the Federal Government are to be included in the operations of Executive Order 10450. As your files will reflect, by letter dated August 21, 1947, the Honorable Arthur S. Flemming, then the Acting President of the Commission, furnished this Bureau a list of all such agencies to be included within the provisions of Executive Order 9835. Numbered among these were the General Accounting Office and the Government Printing Office, neither of which were agencies of the Executive Branch. The thought occurred as to whether these agencies are to be included under the new program and if so whether your estimates of cases to be handled for these agencies in the current and succeeding fiscal years which you have furnished this Bureau include the General Accounting Office and the Government Printing Office.

It is understood that the Commission considers employees of these agencies within the provisions of Executive Order 9835 since they are competitive employees as are the bulk of [illegible] employees of several executive agencies. It would be appreciated if you would furnish this Bureau a list of the agencies to be included within the provisions of Executive Order 10450 at your earliest convenience. In addition, would you advise whether the General Accounting Office and the Government Printing Office and their employees will be considered as subject to the provisions of the captioned order. If such is the case we would appreciate your advice as to whether your estimate of the volume of work to be handled for these agencies was included in the budgetary estimates furnished this Bureau.

As you are aware, employees of the Library of Congress have been processed under Executive Order 9835 through agreement with officials of the Library and the results of name checks and investigations handled for the Library were compensated for on a reimbursable basis. Would you advise whether the agreement had with the Library of Congress for processing its employees under the old Loyalty Order has been renewed for Executive Order 10450. If such is the case is the Library of Congress agreeable to continue the procedure of reimbursement for each matter handled?

With regard to the question as to what agencies have investigative responsibilities in connection with the additional investigation that may be necessary in the readjudication of full field investigations conducted under Executive Order 9835 as called for in Section 4 of the captioned order, this Bureau feels it should conduct such investigations only when the purpose is to develop information of a nature described in Section 8(d) of this order. The Department of Justice advised that it concurs in this opinion and stated that it feels the Civil Service Commission should issue direct instructions to all departments and agencies as to the proper procedures to be followed in connection with requests for further investigation. It is felt that if such instructions are issued it will preclude the receipt of a large number of requests by the FBI for investigation solely to bring the previous investigation up to date or to develop some allegations of a nonsubversive nature. For your further information, the Department of Justice has advised that it agrees this Bureau should continue the procedure established under the Loyalty Order of channeling its investigative reports through the Civil Service Commission for dissemination to the appropriate departments or agencies.

Your attention is invited to the letter from Mr. Peter Campbell Brown, then the Acting Assistant to the Attorney General, to the Honorable Seth W. Richardson, then the Chairman of the Loyalty Review Board, dated May 5, 1949. Therein Mr. Brown requested Mr. Richardson to clarify Review Board instructions to the various departments and agencies to the effect that "Special Agents of the Federal Bureau of Investigation will testify before Hearing Boards where they are in a position to furnish competent evidence. They will not, however, participate otherwise in the proceedings or will they be made available merely to interpret information appearing in their investigative reports." This policy will continue to be the policy of this Bureau under Executive Order 10450 and it has been concurred in by the Department of Justice. The Department has further suggested that the Commission so advise the various departments and agencies that this policy will be continued.

These points are being called to your attention in order that you may furnish this Bureau the information requested above, as well as give consideration to the necessity for furnishing instructions as outlined above to the various agencies for their information and guidance in the operations of Executive Order 10450.

Honorable J. Edgar Hoover
Director, Federal Bureau of Investigation
Washington, D.C.

Dear Mr. Hoover:

You will recall that several agencies of the Legislative Branch of the Government participated in the loyalty program prescribed in Executive Order 9835. These same agencies have made requests of the Commission that they be permitted to participate in a similar manner under the program prescribed in Executive Order 10450. By letter dated June 29, 1953, the Deputy Attorney General advised the Commission that if these agencies are of the view that they can adopt procedures which would make it possible for them to participate in the program by virtue of authority conferred under the acts under which they operate, it would be entirely appropriate for them to participate in the program on a voluntary basis. It was suggested in this letter that the Commission work out with your Bureau the question relating to reimbursement by the agencies involved.

Because of the above opinion I have attached for your consideration proposed undated drafts of letters to the Librarian of Congress, The Public Printer, and the Director of Personnel of the General Accounting Office advising that subject to their meeting the above conditions they may participate in this program. The budget estimates of the Commission for some time have included work items which would result from making national agency checks and inquiries and limited personal investigations, when necessary, for the Government Printing Office and the General Accounting Office. It is our understanding that this is true with respect to the budget estimates of your Bureau insofar as they pertain to searching fingerprint records and Standard Forms 87 for employees of these agencies and making full field investigations when necessary under Section 8(d) of Executive Order 10450. For this reason no feature of reimbursement has been mentioned in our proposed letters to these agencies.

The Commission is willing to conduct for the Library of Congress on a reimbursable basis activities which it would perform for an agency in the Executive Branch under Executive Order 10450. I have taken the liberty of including in the draft to the Librarian of Congress the basis for reimbursing your Bureau for its part in this program. This was done for discussion purposes. It is not the Commission's intent to imply commitments on the part of the FBI.

After your review I would appreciate your returning the enclosures to me together with any comments or suggestions you may wish to make.

Sincerely yours,

OFFICE OF THE ATTORNEY GENERAL
RECEIVED
DEC 3 1965

Dear Mr. Attorney General:

The President has directed the Civil Service Commission, after consulting with the major users of personnel investigations, to formulate and issue minimum standards of acceptable investigative coverage for Federal civilian employment.

I should appreciate your comments and suggestions relative to the following proposed minimum standards for acceptable full field coverage:

Scope of Full Field Investigations

Full field investigations on Federal employees and applicants are personally conducted investigations which cover the life of the individual with special emphasis on the person's background and activities during the most recent fifteen years, or since his eighteenth birthday, whichever is the shorter period. In addition, a thorough personal investigation is made of any materially derogatory matters developed, requiring investigation before the fifteen-year period.

The basic elements of investigation are:

- a national agency check, as described on page 736-3 of the Federal Personnel Manual.
- personal interviews with present and former employers, supervisors, fellow workers, references, neighbors, school authorities, and other associates.
- checks of police, credit, [illegible] field office and other pertinent records as appropriate, such as Immigration and Naturalization, Passport Division of the State Department, vital statistics, military service, and the like.

INDEXED

ENCLOSURE

Personal interviews are scheduled with employers, supervisors, and work associates to verify and obtain pertinent details for all employments in the investigative period. Particular care is taken also to verify the fact of unemployment or self-employment claimed by the subject of investigation.

The last period of education at a college level is always verified by a check of the school records. Secondary education is investigated when the subject is young and has had no subsequent schooling. Personal interviews are conducted with witnesses such as professors and former students who were associated with the subject during recent schooling.

Neighborhood investigation is regularly conducted to cover residence during the most recent three years. Testimony of neighbors before that period may be sought to verify periods of unemployment or self-employment, or to resolve questionable matters which have been raised from other sources.

The number of witnesses interviewed cannot be reduced to a formula but in each case depends upon the diversity of the subject's experience and places of residence, as well as upon the depth of knowledge shown by witnesses concerning the subject's character, habits, and background. The objective of the investigation is to obtain a comprehensive and well-rounded picture of the individual's background and activities.

Matters Covered in Full Field Investigations

Basically, full field investigations are designed to develop sufficient information to enable agency security officials to determine the fitness of persons entering critical-sensitive positions. Fitness includes both security and suitability elements.

Character, habits, morals, and reputation are investigated generally. Loyalty is particularly stressed and if a question is raised concerning the subject's loyalty the case is referred to the Federal Bureau of Investigation in accordance with Section 8 (d) of Executive Order 10450. Particular attention is directed to such matters as immorality, habitual use of intoxicants to excess, lack of integrity, dismissals from employment, arrests, financial responsibility, and health.

The affirmative qualities and qualifications of the subject are fully reported.

Over and above the minimum standards, the full field investigation may be tailored to obtain information in depth concerning special attributes and qualifications required for proper performance in the particular kind of position involved.

To facilitate early completion of this study, I should like to receive your comments by December 31, 1965. Mr. Kimbell Johnson, Director, Bureau of Personnel Investigations, is available to discuss any aspect of the proposed standards with members of your staff. He may be reached on Code 183, Extension 7205.

Sincerely yours,

John W Macy Jr

John W. Macy, Jr.

Director, FBI

SCOPE OF FULL FIELD INVESTIGATIONS

Reference is made to your letter of December 9, 1965, forwarding a copy of Chairman Macy's letter of December 2, 1965, concerning minimum standards for acceptable full field coverage.

As you are aware, this Bureau conducts our own personnel investigations. The scope of these and other full field investigations conducted by this Bureau under various programs, such as the Federal Employee Security Program and the United Nations Loyalty Program, exceeds the minimum standards set forth in Chairman Macy's letter. The letter of December 2, 1965, does not change the investigative responsibilities of this Bureau.

In view of the above, this Bureau has no comments to make concerning the proposed minimum standards of acceptable investigative coverage for Federal civilian employment. This Bureau took a similar position in connection with this matter in a letter to Mr. Kimball Johnson dated April 22, 1959.

EXECUTIVE ORDERS 9835,
10450, AND 11605

Executive Order 9835, Part III, paragraph 3, provided that the Attorney General "after appropriate investigation and determination" would furnish to the Loyalty Review Board the name of each foreign or domestic organization which the Attorney General had designated "as totalitarian, fascist, communist or subversive, or as having adopted a policy of advocating or approving the commission of acts of force or violence to deny others their rights under the Constitution of the United States, or as seeking to alter the form of government of the United States by unconstitutional means."

Executive Order 10450, Section 12, revoked Executive Order 9835, as amended; however, it provided that the Department of Justice "shall continue to furnish the information described in paragraph 3 of Part III" of Executive Order 9835, "but directly to the head of each department or agency."

Executive Order 11605, paragraph 2, amended Section 12 of Executive Order 10450 by, among other provisions, providing that "the head of each department and agency shall be furnished by the Attorney General with the name of each organization which shall be or has been heretofore designated under this order" and that "nothing. . . herein shall. . . affect previous designations made pursuant to Executive Order 10450, as amended." (Subparagraph (b)) Executive Order 11605 further provided that "the Subversive Activities Control Board shall, upon petition of the Attorney General, conduct appropriate hearings to determine whether any organization is totalitarian, fascist, communist, subversive, or whether it has adopted a policy of unlawfully advocating the commission of acts of force or violence to deny others their rights under the Constitution or laws of the United States or of any State, or which seeks to overthrow the government of the United States or any State or subdivision thereof by unlawful means." (Subparagraph (c))

SEE NOTE PAGE 2

To date, Congress has refused to appropriate funds for the operation of the Subversive Activities Control Board (SACB).

During a current study of FBI jurisdiction by this Bureau, the questions have arisen: has the authority to designate organizations been taken from the Attorney General and given to the SACB by Executive Order 11605, or is this authority concurrent; and at this time, what are the responsibilities and authority of the FBI under Executive Order 10450, as amended, and Executive Order 11605?

Would you please provide me with a statement of the Department's current position on these questions.

Memorandum

TO : L. Patrick Gray
Acting Director
Federal Bureau of Investigation

DATE: April 3, 1973

FROM : Henry E. Petersen
Assistant Attorney General
Criminal Division

SUBJECT: Executive Orders 9835, 10450, and 11605

This is in reference to your memorandum dated March 20, 1973 in which you requested to be advised regarding the Department's position relating to the above executive orders.

In the event the Subversive Activities Control Board ceases to function after July 1, 1973, the designation program as authorized by E. O. 10450, as amended, will continue to remain in effect. The Board's demise will, however, eliminate it as the body which at this time has the exclusive authority to conduct, upon petition of the Attorney General, the evidentiary hearings and make the determinations as to whether an organization should be designated within the criteria and standards specified by E. O. 10450, as amended by E. O. 11605.

The question of revising E. O. 10450 to overcome any deficiency which arises as a result of the demise of the Board is currently under study in the Department. There is also legislation pending to afford Congressional approval to E. O. 11605. Until such time as these matters are resolved, it is requested that the Bureau continue to conduct the investigations which it has carried out under E. O. 10450 which is, of course, still in effect.

EXECUTIVE ORDER 10450

Executive Order (EO) 10450 is currently being amended by the Department and representatives of this Bureau have participated in a task force headed by Mr. Oran Waterman, Director, Department Security Staff, which is recommending certain changes be made in EO 10450.

During the course of discussions within the task force, it was pointed out to Mr. Waterman the Bureau's authority to conduct investigations in the domestic subversion field has come under considerable scrutiny. The Bureau is now conducting investigations of domestic subversion on the basis of existing Federal statutes. This investigative policy may not adequately meet the needs of an effective security of Government employees program under EO 10450.

The Assistant Attorney General, Office of Legal Counsel, previously solicited our views on abolition of the Attorney General's List. In our response captioned "Abolition of the Attorney General's List," dated April 11, 1974, our comments included advice that under our current statutory basis for domestic subversion investigations may not adequately meet the needs of EO 10450 and the observation the FBI has never received specific instructions from the Attorney General to conduct intelligence-type investigations to identify and determine the activities of organizations described in Section 8 (a) (5) of EO 10450. We also requested to be advised as to the instructions of the Attorney General relating to the FBI conducting intelligence-type investigations under EO10450, as well as the scope and parameters within which such investigations should be conducted.

Deputy Assistant Attorney General
Criminal Division

Our current practice of conducting subversive-type investigations based on Federal statutes may tend to restrict our intelligence gathering concerning organizations, associations, movements, groups and combinations of persons as defined in Section 8 (a) (5) of EO 10450. In responding to our above-referred-to memorandum of April 11, 1974, it is recommended the Attorney General consider issuance of some form of Departmental instructions or order establishing firm guidelines for intelligence-type investigations which would define our authority in this regard. It is believed this would put the FBI on a firm foundation to conduct intelligence-type investigations involving groups defined in Section 8 (a) (5) to adequately support EO 10450. We have previously recommended that the Department seek a comprehensive Executive Order, and furnished suggested language, which would provide a firm basis for FBI intelligence-type investigations in the security field. This recommendation is still under study by the Department.

We would be glad to meet with representatives of the Department to discuss this matter in more detail.

FEDERAL EMPLOYEE SECURITY PROGRAM
EXECUTIVE ORDER 10450

Since the issuance of Executive Order 11785 on June 4, 1974, abolishing the Attorney General's list of designated organizations, one of the standards used by the FBI in initiating investigations of individuals pursuant to Executive Order 10450 has been eliminated. This is true with regard to investigations under captioned matter of individuals which may be initiated by the FBI based on information contained in our files as well as in evaluating requests for investigations of individuals received from other agencies and departments pursuant to Section 8(d) of Executive Order 10450.

In this connection it is noted that the Criminal Division of the Department in its letter of July 11, 1974, advised that continued investigation by the FBI of the Nation of Islam is warranted because, among other things, "its reported activities appear to come within the criteria of Executive Order 10450."

In view of the issuance of Executive Order 11785, it will be appreciated if you will furnish guidelines to be used by the FBI in initiating investigations of individuals under captione matter pursuant to Executive Order 10450 and specifically criteri to be utilized in determining whether available information is sufficient basis for an investigation.

EXECUTIVE ORDER 10450

This will confirm the request on August 6, 1974, of Mr. Oran H. Waterman, Director, Department Security Staff, advising he was acting on a request from your office, that copies of reports containing the results of investigations of individuals conducted under captioned matter pursuant to the provisions of Executive Order 10450 be furnished, where pertinent, to his office directly rather than through your office. This procedure was instituted on August 6, 1974. After review by the Department Security Staff it is understood that the reports are forwarded to the Criminal Division.

As in the past, these reports are furnished to the Department in order that consideration may be given as to whether any Federal laws have been violated and for information concerning possible subversive infiltration into the Executive Branch of the Government.

With regard to a determination as to whether any Federal laws have been violated, it is noted the violations generally involve Title 18, U. S. Code, Section 1001, and a response is received from the Criminal Division.

Information concerning subversive infiltration into the Executive Branch of the Government is furnished for the Department's assistance in discharging its responsibilities under Section 13 of Executive Order 10450 which reads: "The Attorney General is requested to render to the heads of departments and agencies such advice as may be requisite to enable them to establish and maintain an appropriate employee security program."

It will [illegible] appreciated if you will advise if the practice set forth above is responsive to the needs of the Department.

SUBJECT: Federal Employee Security Program
Executive Order 10450

This is in response to your memoranda, entitled as above, dated May 8, 1974 and August 19, 1974, directed to the Deputy Attorney General, Criminal Division, and referring to problems which have arisen as a result of the promulgation of Executive Order 11785 which amends Executive Order 10450. In view of the involvement of my staff in these matters, I will undertake to answer your questions with the concurrence of the Criminal Division.

As you know this matter has been under continuing review both in the Task Force, chaired by a representative of this office, of working level representatives of various agencies in the security field and is now under study to a lesser degree in Project #10 of the "Domestic Council on Privacy".

You ask that the Department; (a) provide specific instructions to the Bureau to conduct intelligence-type investigations to identify and determine the activities of organizations now described in the amended Section 8(a)(5) of Executive Order 10450; (b) furnish guidelines to be used by the Bureau in initiating investigations of individuals under the captioned matter pursuant to Executive Order 10450 and specifically, criteria to be utilized in determining whether available information is a sufficient basis for investigation.

Under the amendment to Section 8(a)(5) of Executive Order 10450, we now have only two types of organizations; (1) those which unlawfully advocate or practice the commission of acts of force or violence to prevent others from exercising their rights under the constitution or laws of the United States or

Buy U.S. Savings Bonds Regularly on the Payroll Savings Plan

any State, (2) or which seek to overthrow the Government of the United States, or any State or subdivision thereof, by unlawful means. (Emphasis added).

Of course, the key words which are underlined indicate that the investigation should be initially based on a possible violation of a federal (such as the Smith Act) or state statute prohibiting unlawful advocacy or the commission of any unlawful act of force or violence. However, in order for the Bureau to detect organizations with a potential of the above nature, it is important that the investigation proceed on the basis of information indicating that the organization may be of the nature mentioned. It is not necessary that a crime occur before the investigation is initiated, but only that a reasonable evaluation of the available information suggests that the activities of the organization may fall within the proscription of the Order. The most recent example of the type of organization, that you have advised is becoming more prevalent, is the small but dedicated to violence, Symbionese Liberation Army (SLA). Organizations of this nature would clearly fall within the Order and should be investigated as soon as information is available indicating their potentiality for violence and of course, if possible, prior to the fulfillment of their purposes.

It is true that Executive Order 11785 eliminated the prior communist, totalitarian, fascist, and subversive characterizations and definitions, but there was no intention of restricting the investigations of such organizations if their programs call for acts of force or violence or the unlawful advocacy of the commission of acts of force or violence in furtherance of these programs.

It is not possible to set definite parameters covering the initiation of investigations of potential organizations falling within the Order but once the investigation reaches a stage that offers a basis for determining that the activities are legal in nature, then the investigation should cease, but if the investigation suggests a determination that the organization is engaged in illegal activities or potentially illegal activities it should continue.

It follows in answer to your second question that individuals who are active either as members of or as affiliates of

organizations described above should be investigated when information is received indicating their involvement. The same yardstick indicated above for organizations in determining whether the investigation should continue, should apply concerning individuals and when a determination can reasonably be made that the individuals activities, either within the organization or as an individual, do not appear to be in violation of any law, then the investigation should cease.

FEDERAL EMPLOYEE SECURITY PROGRAM
EXECUTIVE ORDER 10450

Reference is made to your memorandum dated November 1, 1974, in answer to our previous inquiries requesting advice concerning the effect of Executive Order (EO) 11785 on our investigations of organizations and individuals engaged in subversive activities.

While referenced memorandum advises we should use the same yardstick for investigation of subversive organizations and subversive individuals, the comments following that advice, concerning individuals, are believed subject to interpretation as being more restrictive in scope. Specifically, concerning organizations, you essentially advised that when investigation determines the activities are legal in nature, then the investigation should cease, but if the activities are illegal or potentially illegal, the investigation should continue. Concerning individuals, the memorandum advises essentially that the same yardstick be used but adds when the activities do not appear to be in violation of any law, then the investigation should cease.

Further, the tenor of your memorandum, particularly comments contained in page two, paragraph one, follow the concept of investigative scope consistent with the advice as to investigation of subversive organizations but does appear to conflict with the latter comments concerning investigation of individuals where the phrase "not in violation of any law" is used. We would appreciate clarification concerning this matter.

SEE NOTE PAGE THREE

Assistant Attorney General
for Administration

Your memorandum of November 1, 1974, in part, responded to this Bureau's memorandum of August 19, 1974, which asked for guidelines to be used by the FBI in initiating investigations of applicants and employees in the Executive Branch of the Government pursuant to Section 8(d) of EO 10450. This Section specifically instructs other agencies to promptly refer to the FBI for investigation those cases which develop information indicating that an individual may have been subjected to coercion, influence or pressure to act contrary to the interests of the national security, or information relating to any of the other matters described therein.

Since the guidelines furnished by you are concerned primarily with possible violation of law, a decision to be made by the Department, it will be appreciated if you will furnish additional guidelines to cover "sympathetic association" and other standards mentioned in Section 8(a) (2) through (8) when the investigation concerns an applicant or employee in the Executive Branch of the Government.

In considering the foregoing, it should be noted the FBI has another responsibility under EO 10450 which is set forth in Section 5. This Section provides that whenever there is developed or received by any department or agency information indicating that the retention in employment of any officer or employee of the Government may not be clearly consistent with the interests of the national security, such information shall be forwarded to the head of the employing department or agency or his representative.

Your attention is also invited to Chapter 736 of the Federal Personnel Manual, which instructs agencies to promptly refer to the FBI for investigation cases "which develop information indicating that a person may have been subject to coercion, influence or pressure to act contrary to the interests of the national security, or information on possible disloyalty to the United States."
